400 Park Avenue River Forest, IL 60305 Ph (708) 366-8500 F (708) 366-3702 www.river-forest.us

Honorable Catherine Adduci Members of the Board of Trustees, and Citizens of the Village of River Forest, Illinois

The Comprehensive Annual Financial Report (CAFR) of the Village of River Forest, Illinois, for the fiscal year ended April 30, 2013 is hereby presented. State law requires an annual audit for local governments. The audit must be conducted in accordance with generally-accepted auditing standards, include all of the accounts and funds of the Village, and be completed within six months after the close of the fiscal year. The Village is required to issue a report on its financial position and activity presented in conformance with generally-accepted accounting principles (GAAP). The CAFR strives to exceed the basic legal requirements of state law and provides additional information to assist readers in understanding the Village's fiscal condition. As the auditors' report explains, the additional information provided in the CAFR was not audited, although it was reviewed by the auditors for information that might conflict with the audited information.

The financial report consists of management's representations concerning the finances of the Village of River Forest. Responsibility for the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Village. To the best of my knowledge and belief, this report is accurate in all material respects; it fairly represents the Village's financial position and results of operations; and, it provides all the disclosures needed to understand the Village's financial activities in Fiscal Year 2013. All disclosures necessary to enable the reader to gain an understanding of the Village's financial activities have been included. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the Village's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the financial statements in accordance with GAAP. Because the cost of internal controls should not exceed anticipated benefits, the Village's internal controls have been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatement.

The Village's financial statements have been audited by Wolf & Company LLP, a firm of licensed independent auditors that were selected by the Village Board of Trustees as the independent auditors for the Village. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of River Forest are free from material misstatement. The independent auditor issued an unqualified ("clean") opinion on the Village's financial statements for the year ended April 30, 2013. The independent auditor's report is located in the beginning of the financial section of this report. The Management's Discussion and Analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic

financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

### Profile of the Government

The Village of River Forest was incorporated on October 30, 1880, and is a non home-rule community, as defined by the Illinois Constitution. The Village operates under the Board/Administrator form of government. This form of government combines the leadership and policy-making skills of elected officials with the expertise of a professional administrator. The elected representatives set the policies that establish the Village's purpose, values, mission, and goals. The Village Administrator's role is to implement those policies in an efficient and effective manner.

Located approximately 10 miles west of downtown Chicago, residents have the benefit of the employment and entertainment opportunities offered by the City of Chicago combined with the advantages of a quiet residential community. The Village of River Forest has a land area of 2.5 square miles with approximately 32.2 miles of streets. The Village's population, per the 2010 census, is 11,172. It has a variety of businesses including two colleges, medical care facilities, dining and retail establishments.

The Village provides a full range of services to its citizens, businesses, and visitors. These services include police and fire protection, ambulance service, water and sewer utilities, building planning and zoning, construction and maintenance of streets and other infrastructure, and general administrative services.

The Village's sole enterprise fund is the Waterworks and Sewerage Fund. This fund charges fees sufficient to cover the enterprise's operations. Property taxes are the foundation of the Village's income for governmental purposes, providing about forty-two percent of the governmental revenue. The *Management Discussion and Analysis*, starting on page 3, provides an overview of the Village's diverse array of revenues in conjunction with a review of its current financial condition.

The annual budget serves as the foundation for the Village's financial planning and control. A strategic planning session with the Village Board begins the budget process, at which time, the Board sets the long and short-term goals for the Village. Departments prepare their budgets based on these goals and submit their budget requests for the upcoming fiscal year to the Village Administrator. The Village Administrator and staff review these budget requests and develop a budget to achieve the established goals within anticipated revenues. The Village Administrator's proposed budget is then presented to the Village Board. The Village Board is required to hold a public hearing on the proposed budget, and a final budget must be adopted by the Village Board by April 30th of each fiscal year. The legal level of budgetary control is at the fund level. The Village Administrator is authorized to make budget transfers within any fund. Additions and transfers between funds require Village Board approval. Original and final amended budget-to-actual comparisons are provided for each individual governmental fund for which an annual budget has been adopted. The general fund comparison is included in the required supplementary information section. Other governmental fund comparisons are

presented in the Combining, Individual Fund, and Capital Asset Financial Statements and Schedules subsection of this report.

There were 75 full-time positions in the Fiscal Year 2013 annual budget. There are four different labor unions that represent sworn police officers, firefighters, fire lieutenants, and public works employees.

### **Local Economy**

Over 200 businesses are licensed in the Village of River Forest. The commercial core is the River Forest Towne Center that was developed using Tax Increment Financing District (TIF) revenues. This development includes restaurants and retail stores. Several grocery stores are also located within the Village. During Fiscal Year 2011 funds were set aside for future development at the corner of Lake and Lathrop, and at Lake and Harlem where the Towne Center is located. Lake Street is a major thoroughfare that runs through the center of the Village. These funds are being held in the Economic Development Fund.

Economic development continues to be a priority for the Village. The Village utilizes an economic development consultant to assist with filling vacant store fronts within the Village. Several new businesses opened during the fiscal year including a DSW shoe store. The Village continues to work with developers and building management companies to attract new businesses to the Village. As a result, State sales and non-home rule sales tax revenues increased during the year.

The Village has been impacted by the nationwide real estate recession. Although real estate values are lower, sales activity has increased during the fiscal year resulting in a 42% increase in real estate transfer tax revenues. The Village's equalized assessed valuation (EAV) decreased over \$43 million, or 7.62%, from \$573 million with the 2011 levy year to \$529 million in the 2012 levy year. The decrease was primarily due to a decline in the equalization factor from 2.9706 in 2011 to 2.8056 in 2012. The

equalization factor is calculated by the State and is multiplied by the County's assessed value to arrive at the EAV. The Property Tax Code requires the State to issue a multiplier that, when applied to the assessed value of all property in a county, will result in the aggregate assessed value of property in the County being 33.33% of fair cash value. This equalization of assessed values is accomplished by comparing recorded sales prices to assessed values for the three prior years. New property totaled \$1,367,979 and was due to residential construction. Property values in the Village have declined over the last three years due to the recession. Property is reassessed every three years in Cook County; the last reassessment was in 2011.

Year	Equalized Assessed Value	Increase (Decrease)	Percentage Increase (Decrease)
2012	\$529,450,956	(\$43,653,508)	-7.62%
2011	\$573,104,464	(\$131,165,071)	-18.62%
2010	\$704,269,535	\$62,936,656	9.81%
2009	\$641,332,879	\$44,405,999	7.44%

Building permit activity decreased slightly during the fiscal year. The construction season started early in calendar year 2012 due to the warm spring weather. This resulted in an influx of building permit issuances at the end of the prior fiscal year and a decrease in revenue in the current fiscal year. In Fiscal Year 2013, 190 permits were issued with a value totaling \$10,200,076. Most of these permits were for residential property improvements.

The median family income within the Village is \$156,835 which is significantly higher than the state as a whole. The median family income for the State based on the U.S. Census Bureau 2006-2010 survey was \$68,236. The Village's bond rating was raised from AA to AA+ by Standard & Poor's in February 2012 due to the Village's very strong financial performance and the adoption of additional financial management policies. The rating was also affected by the Village's accessibility to and participation in the deep and diverse Chicago metropolitan area, very strong income, extremely strong wealth levels, strong reserves, good financial management, diverse revenues and low-to-moderate debt levels.

### **Long-Term Financial Planning and Relevant Financial Policies**

The Village expanded their existing financial policies during the prior fiscal year. Financial planning, revenue, expenditure, fund balance and reserve, capital improvement, debt and accounting and financial reporting policies were reviewed and updated. These policies are intended to solidify the Village's long-term financial strategies and to provide guidance to management in preparing the budget and handling the Village's fiscal affairs.

Based on the Village's fund balance reserve policy, the General Fund unassigned fund balance, plus the amount restricted for working cash, should be maintained at a minimum of 25% of the General Fund total budgeted annual expenditures in the most recently approved annual budget. This portion of fund balance is \$5,249,005 or 35.3% of Fiscal Year 2014 budgeted expenditures. This minimum fund balance policy is intended to provide financing for unanticipated expenditures and to prevent cash flow shortages due to the uncertain timing of property tax receipts.

### General Fund

	Unassigned Fund	Percentage of
Fiscal	Balance plus Restricted	Subsequent Years
Year	for Working Cash	Budgeted Expenditures
2013	\$5,249,005	35.3%
2012	\$4,265,167	30.7%
2011	\$3,784,807	28.1%
2010	\$3,437,884	26.7%
2009	\$1,180,708	9.9%
2008	\$2,020,985	16.9%

The Village has a "pay-as-you-go" philosophy in financing vehicle replacements and some equipment purchases and capital projects. The Capital Equipment Replacement Fund has been established to accumulate resources for vehicle and equipment replacement and some building improvements. Monies are set aside annually via transfers from the General and

Waterworks and Sewerage Funds to finance the replacements. The Motor Fuel Tax Fund is used for street improvements and is primarily funded with State Motor Fuel Tax Allotments. Street Improvements are also periodically funded via General Obligation Debt.

The Village continued to expand the five-year Capital Improvement Program (CIP) during Fiscal Year 2013. The CIP is a multi-year planning instrument used to identify needed capital projects for improvements to Village buildings, equipment and infrastructure and capital equipment purchases, and to coordinate the financing and timing of these improvements. The program includes vehicles and equipment, building, street, curb, sidewalk and alley improvements, and rehabilitation and replacement of water and sewer infrastructure. Each year the CIP will be updated to incorporate new capital projects, changing goals and priorities, and additional funding sources.

### **Major Initiatives**

At the end of calendar year 2009, a Citizens Advisory Committee was formed to review the Village's finances. Revenues and expenditures were examined in an effort to enhance revenues or reduce costs. Many changes on recommendations from this committee were incorporated into the Fiscal Year 2011 budget including vehicle sticker and monthly parking fee increases, and several cost cutting initiatives. Based on a recommendation from this committee, the Village officials sought a change to the Illinois State Statute that would permit a non-home rule community to establish a 1% non-home rule sales tax that could be used for any General Fund purpose. The law only allowed revenues from a non-home rule sales tax to be used for infrastructure improvements or to reduce the property tax levy. The Village was successful in getting the legislation changed and in November of 2010 voters approved a referendum adding a 1% non-home rule sales tax. The non-home rule sales tax went into effect July 1, 2011. Fiscal Year 2013 was the first full year for this revenue source. Revenues from this tax have assisted the Village in weathering the continuing economic recession.

Fiscal Year 2013 included a reorganization of staffing that sought to improve customer service without impacting head count. A Police Department Administrative Assistant position was eliminated. A part-time Customer Service Assistant was added and the part-time Permit Clerk position was changed to full-time. The change was intended to improve the Village's ability to respond to customers at the counter and over the telephone. The Village continues to seek ways to enhance revenues, reduce costs, and improve efficiencies.

The Tax Increment Financing (TIF) District, located along Lake Street, was closed effective December 31, 2010. Prior to that date, several contracts were approved committing TIF Funds for future development within the district. These funds are being held in the Economic Development Fund to be used for development within the area.

The Village hired an engineering firm to conduct a water and sewer rate study in Fiscal Year 2012. This study was intended to ensure the sustainability of the Waterworks and Sewerage Fund and to examine capital needs to ensure the rate is sufficient to maintain the Village's water and sewer infrastructure. Based on this study, a water and sewer five-year rate plan was

established to cover operating costs and 50% of the estimated capital improvement needs to maintain the water and sewer system. Overall water and sewer rates were increased 9.6% in May of 2012 based on the recommendation presented in the study. The Village changed from quarterly to bimonthly billing during the fiscal year to improve cash flows and make water and sewer billed amounts more affordable for residents. As a byproduct, leaks may now be discovered sooner reducing the volume and cost of water use resulting from leaks for customers.

An information technology review and assessment was also conducted during Fiscal Year 2012 by a consulting firm. The goal of the study was to review the Village's computer network, equipment, software and maintenance program and recommend improvements. The Village funded some of these recommended improvements in the Fiscal Year 2013 including computer and server replacements. The Village also upgraded their financial accounting software to an updated version, 7.0. This version is significantly different from the prior one and uses a Microsoft .net platform. Training and implementation took place during Fiscal Year 2013. The new version provides additional security and enhanced reporting and functionality. The Village continues to expand the use of technology to enhance customer service and improve efficiencies.

Liability risk is managed by maintaining sufficient insurance and also through routine monitoring of potential loss situations. A safety committee, comprised of employee representatives from each Village department, meets regularly to review accident and injury reports involving employees. The safety committee makes recommendations and suggestions to improve and promote workplace safety. The Village also participates in a risk management program that is administered by the Intergovernmental Risk Management Agency (IRMA). IRMA is a consortium of 75 local municipalities and special service districts in northeastern Illinois that work together to manage risk and fund their property, casualty, and workers' compensation claims.

### Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) has established a Certificate of Achievement for Excellence in Financial Reporting Program for state and local governments. The GFOA's Certificate of Achievement is the highest form of recognition for excellence in government financial reporting.

In order to be awarded a Certificate of Achievement, the Village of River Forest must go beyond the minimum requirements of generally accepted accounting principles and prepare a comprehensive annual financial report (CAFR) that evidences the spirit of transparency and full disclosure.

The Village earned the GFOA's Certificate for the CAFR provided for the fiscal year ended April 30, 2012. It was determined that the CAFR for that year sufficiently applied the appropriate generally accepted accounting principles, met applicable legal requirements, and also satisfied the reporting requirements of the GFOA's certificate program. A copy of the Certificate of Achievement for the fiscal year ended April 30, 2012 is provided on page x.

A Certificate of Achievement is valid for only one year. I believe this CAFR, for the fiscal year ended April 30, 2013, meets the GFOA's Certificate of Achievement program requirements, and it will be submitted to the GFOA to determine its eligibility for the Certificate of Achievement.

This CAFR is the result of a well-functioning team that admirably weathered fiscal challenges and staffing changes. All Village management and department staff were responsible for successfully maintaining good accounting records, which are essential to the preparation of the Comprehensive Annual Financial Report (CAFR). The Village President and Board of Trustees were diligent in reviewing the periodic financial reports, maintaining an active finance committee, evaluating the Village's fiscal condition, and making leadership decisions, including staffing changes and expanding financial policies to ensure that the Village maintains its sound fiscal bearing.

The preparation of this CAFR on a timely basis was made possible by the efficient and dedicated service of the entire Administration Department. I express my sincere appreciation to each member of the Department for their contributions. I would especially like to thank Eric Palm, the Village Administrator, for his leadership and guidance, Nancy Caine, Accounting Supervisor, for her dedication, cooperation, attention to detail and hard work during the audit and throughout the year, Emily Creer, Administrative Intern, for her assistance with the Statistical Section of the report, and Georgette Carlini, Utility Billing Clerk, Johnah Fine, Customer Service Assistant and Nancy Sabia, Front Desk Receptionist for their dependability, accuracy and thoroughness in processing transactions. It is the careful and conscientious attention on all levels of Village management and operational staff that has made the commendable preparation of this CAFR possible.

Respectfully submitted,

Jon Rock

### INDEPENDENT AUDITOR'S REPORT

The Honorable Village President and Members of the Board of Trustees Village of River Forest, Illinois

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information for the Village of River Forest, Illinois, as of and for the year ended April 30, 2013, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of River Forest, Illinois, as of April 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Change in Accounting Principle

As described in Note 1.D. to the financial statements, the Village of River Forest, Illinois, adopted GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, in 2013. Our opinion is not modified in respect to that matter.

### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-17 and budgetary comparison information, and analysis of funding progress and employer contributions for the Village's defined contribution pension plans and other post-employment benefit plan on pages 62-72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of River Forest, Illinois' basic financial statements. The introductory section, combining, individual fund, and capital asset financial statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining, individual fund, capital asset financial statements and schedules, and schedule of long-term debt service requirements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining, individual fund, capital asset financial statements and schedules, and schedule of long-term debt service requirements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Oakbrook Terrace, Illinois September 23, 2013 Wolf & Company LLP

### VILLAGE OF RIVER FOREST, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) APRIL 30, 2013

The Village of River Forest (the Village) Management Discussion and Analysis (MD&A) is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the subsequent years' challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

The MD&A focuses on the current year's activities, resulting changes, and currently known facts and should be read in conjunction with the Letter of Transmittal which can be found on pages i-vii of this report.

### **FINANCIAL HIGHLIGHTS**

- ⇒ The assets of the Village's Primary Government exceeded its liabilities and deferred inflows at April 30, 2013 by \$34,697,175 (net position). Of this amount, \$9,226,136 represents unrestricted net position, which may be used to meet the Village's ongoing obligations to citizens and creditors.
- ⇒ The Village's total net position increased by \$1,192,604 during the fiscal year. Both governmental and business-type activities net assets increased during the fiscal year.
- ⇒ The governmental activities net position increased by \$754,642 to \$28,493,451 primarily due to higher than expected revenues from non-home rule sales tax, State sales tax, State income tax and the net change in the IRMA (Intergovernmental Risk Management Association) deposit in the General Fund. In addition, public safety pension fund costs were lower than anticipated. This increase in the General Fund was offset by a decrease in the Village's Nonmajor Governmental Funds.
- ⇒ The governmental activities unrestricted net position increased by \$981,451 to \$7,797,449. This increase is primarily due to higher revenues in the General Fund.
- ⇒ The business-type activities net position increased by \$437,962 to \$6,203,724 because water and sewer revenues exceeded operating expenses including depreciation.
- ⇒ The Village's combined governmental funds ending fund balance increased by \$1,539,358 to \$13,191,987.
- ⇒ At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$4,713,973. This represents an increase of \$983,838.
- ⇒ The Village's total debt decreased by \$28,112 due to scheduled debt principal payments. This decrease was offset by increases in the net pension obligation-IMRF, compensated absences and other post-employment benefits liabilities.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Village of River Forest's basic financial statements. The Village's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The Governmental Accounting Standards Board (GASB) reporting model stipulates that the government financial activities are presented in two ways: as government-wide accrual-based statements, and as modified-accrual fund statements. This overview provides an explanation of the differences between these statements. Basically, the government-wide statements provide information on the financial condition of the Village as a whole, while the fund statements provide information on the availability and use of resources that are segregated for specific purposes. The CAFR also includes other elements that are essential to understand the statements. These include the Required Supplementary Information, and the Combining, Individual Fund, and Capital Assets Financial Statements and Schedules.

### **Government-wide Financial Statements**

The Government-wide Financial Statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the Village's assets and liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. The focus of the Statement of Net Position (the "Unrestricted Net Position") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities reflect the Village's basic services, including general government, development, public safety (police and fire), public works, highways and streets, and sanitation. Property taxes, non-home rule sales taxes, shared state sales taxes, local utility taxes, shared state income taxes, and intergovernmental taxes finance the majority of these activities. The business-type activities reflect private sector-type operations (Waterworks and Sewerage Fund), where the fee for service typically covers all or most of the cost of operation, including depreciation. The government-wide financial statements also include a separate presentation of the River Forest Public Library (Library) financial activity because the Library is a component unit of the Village.

The government-wide financial statements can be found on pages 18-20 of the report.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements provide more complete and detailed information about the Village's major functions and activities. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

### Governmental Funds

Governmental funds are used to account for essentially the same functions as reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, however, governmental fund statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Depreciation is not included in the governmental fund statements because depreciation does not represent the use of current financial resources. Similarly, long-term debt is not shown on the balance sheet because it does not relate to the use of current financial resources. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Village's near-term financing decisions. Both the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains five individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Economic Development and Capital Equipment Replacement Funds which are considered major funds. There are two nonmajor governmental funds: the Motor Fuel Tax (MFT) Fund and the Alternate Revenue Debt Service Fund. Data from the nonmajor governmental funds are combined into a single, aggregated presentation. More detailed information on each individual fund is presented in the section entitled: Combining Individual Fund and Capital Asset Financial Statements and Schedules, starting on page 73. The Library's fund statements are on pages 96 and 97, following the Village's fund information. The Village adopts an annual budget for each governmental fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget. The governmental fund financial statements can be found on pages 21-24, in the Basic Financial Statements section of this report.

### **Proprietary Funds**

Proprietary funds are presented in the same manner in both the fund statements and government-wide statements, with depreciation as an expense and long-term debt included in the calculation of net position. The fund statements provided in this report provide additional detail. The Village maintains one proprietary fund, an enterprise fund called the Waterworks and Sewerage Fund. The statements for this fund can be found on pages 25-27 of this report.

### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Activities from fiduciary funds are not included in the Village's government-wide financial statements because the resources of these funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Village has two fiduciary funds: the Police Pension Fund and the Firefighters' Pension Fund, each of which are managed by separate boards. The combining fund statements, the Statement of Net Position – Pension Trust Funds and the Statement of Changes in Net Position – Pension Trust Funds can be found on pages 28 and 29 of this report.

### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and Fund Financial Statements. The Notes to the Financial Statements can be found on pages 30-61 of this report.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including the major General Fund budgetary schedule and data concerning the Village's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 62-72 of this report.

Combining, Individual Fund and Capital Asset Financial Statements and Schedules can be found on pages 73-95 of this report. The Supplemental Schedules, on 98-100, include detailed long-term debt payment information. The Statistical Section, on pages 101-132, includes information on government-wide revenues and expenditures, property taxes, and additional information.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The following analysis provides an overview of the Village's financial activity, discusses the Village's current financial position and its ability to address future challenges, identifies specific concerns to individual funds, and it also explains material deviations from the Village's original budget. Only the Primary Government is included in this analysis.

### Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Village's assets exceeded its liabilities and deferred inflows by \$34,697,175 as of April 30, 2013. The largest portion of the Village's net position reflects its investment in capital assets (\$21,738,987 or 62.6%), including land, buildings, infrastructure, and equipment, less any related outstanding debt used to acquire or construct those assets. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Village's net position, the restricted net position (\$3,732,052 or 10.7%), represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted net position (\$9,226,136 or 26.5%) and may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the Village is able to report positive balances in all three categories of net position both for the government as a whole, as well as for its separate governmental and business-type activities. The following table reflects the condensed Statement of Net Position:

### Comparative Schedule of Net Position Primary Government-Village April 30, 2013 and April 30, 2012

		nmental	Business	100000		18 X	
		ivities	The same of the sa	Activities		Total	
	2013	2012	2013	2012	2013	2012	
Assets							
Current and Other Assets	\$ 17,035,72	8 15,785,243	1,891,398	1,685,895	18,927,126	17,471,138	
Capital assets	17,428,95	1 17,732,381	5,720,037	5,767,056	23,148,988	23,499,437	
Total Assets	34,464,67	33,517,624	7,611,435	7,452,951	42,076,114	40,970,575	
Liabilities							
Current	729,06	2 521,329	484,790	453,828	1,213,852	975,157	
Long-term Liabilities	2,055,72	9 2,258,659	922,921	1,233,361	2,978,650	3,492,020	
Total Liabilities	2,784,79	2,779,988	1,407,711	1,687,189	4,192,502	4,467,177	
Net Position							
Invested in Capital Assets							
Net of Related Debt	16,963,95	0 17,117,381	4,775,037	4,682,056	21,738,987	21,799,437	
Restricted	3,732,05	2 3,805,430			3,732,052	3,805,430	
Unrestricted	7,797,44		1,428,687	1,083,706	9,226,136	7,899,704	
Total Net Position - Village	\$ 28,493,45	1 27,738,809	6,203,724	5,765,762	34,697,175	33,504,571	

The Village's combined net position increased by \$1,192,604 as a result of the governmental activities increasing \$754,642 and business-type activities increasing \$437,962. The net position of the Village's governmental activities was \$28,493,451. The Village's unrestricted net position from governmental activities was \$7,797,449, an increase of \$981,451. This increase is primarily due to higher than expected revenues from non-home rule sales tax, State sales tax, State income tax and the net change in the IRMA deposit in the General Fund. In addition, public safety pension fund payments were lower than anticipated due to the timing of property tax payments and a reduction in the levy in the prior year due to changes to the State Statute which extended the amortization period for the unfunded liability. This was partially offset by a decrease in the net pension asset.

The net position of business-type activities was \$6,203,724. The business-type activities unrestricted net position increased by \$344,981 from Fiscal Year 2012 because operating revenues exceeded expenses including depreciation. Water and Sewer revenues exceed expectations because billed water consumption increased 10.6% over the prior fiscal year due to drier and warmer weather conditions during the summer months.

(See independent auditor's report)

### Governmental Activities

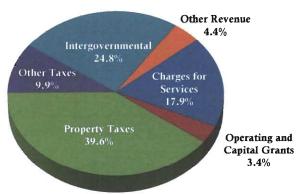

Governmental activities increased the Village's net assets by \$754,642 to \$28,493,451. Key elements contributing to this net change are as follows:

### Revenues

For the fiscal year ended April 30, 2013, revenues from governmental activities totaled \$15,246,750, an increase of \$421,713. Property taxes continue to be the Village's largest revenue source totaling \$6,043,549 and representing 39.6% of total governmental activity revenue. Other Taxes, including, utility, non-home rule sales and transfer taxes totaled \$1,511,739 or 9.9%. Intergovernmental

revenues including State sales tax, income tax and other intergovernmental revenues, totaled \$3,774,226 or 24.7% of the total governmental activities revenues. Charges for Services include revenue from sanitation services.

Property tax revenues were down \$22,795 in Fiscal Year 2013 due to the timing of property tax levy payments from the County. The 2012 Property Tax Levy, partially collected in Fiscal Year 2013, was actually 3.2% higher than the 2011 levy; however, collections from prior year levies were substantially higher in Fiscal Year 2012. Approximately half of the 2011 and 2012 Property Tax Levies, plus collections from prior years, were received during Fiscal Year 2013.

Changes in Select Governmental Activities Revenues For the Fiscal Years Ended April 30, 2013 and April 30, 2012

	Fiscal Year		Increase	% Increase		
		2013	2012	(Decrease)	(Decrease)	
Non-Home Rule Sales Tax	\$	784,724	582,803	201,921	34.6%	
Utility Taxes		638,421	633,425	4,996	0.8%	
Real Estate Transfer Tax		88,594	62,334	26,260	42.1%	
Telecommunications Tax		430,716	458,241	(27,525)	-6.0%	
State Sales and Use Tax		1,886,016	1,780,054	105,962	6.0%	
Income Tax		1,006,827	914,422	92,405	10.1%	
Building Permits		409,556	452,500	(42,944)	-9.5%	
Net Change in IRMA Deposit		366,323	65,936	300,387	455.6%	

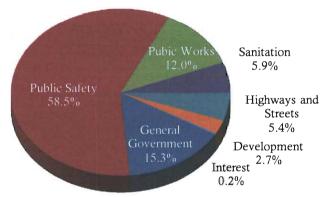

Non-Home Rule Sales Tax revenues are higher because Fiscal Year 2013 is the first full year of revenues. The tax was effective beginning July 1, 2011 or for 10 months during Fiscal Year 2012. Sales tax revenues in general are performing well due to economic development activity during the fiscal year. Utility taxes are lower because the spring and fall were warmer than anticipated resulting in a decline in natural gas receipts. Real Estate Transfer Taxes were up due to increased residential homes sales activity. Building permit revenue was lower because the calendar year 2012

construction began in the prior fiscal year due to warmer spring weather. There was also a decline in the number of permits issues. Income tax revenue, distributed by the State, was also higher. The Net Change in the IRMA Deposit increased due to lower liability claims experience.

### Expenses

For the fiscal year ended April 30, 2013, expenses from governmental activities totaled \$14,492,108, an increase of \$149,249 from Fiscal Year 2012. General Government includes Administration and Finance, Emergency 911 and Legal. Development includes the Building Division and Economic Development Fund expenses. Expenses increased due to employee salary increases, higher health insurance costs and inflationary increases in the cost of goods and services. Information Technology expenses were also higher in Fiscal Year 2013 due to the implementation of a new version of the Village's financial accounting during the year.

Village of River Forest Governmental Activities Expenses by Function For the Fiscal Year Ended April 30, 2013

### **Business-Type Activities**

Business-type activities increased the Village's net assets by \$437,962 to \$6,203,724.

### Revenues

Water and sewer sales increased \$561,010 to \$3,456,952 in Fiscal Year 2013 due to a 9.6% overall rate increase effective May 1, 2012 to cover increases in operating expenses and capital improvements and a 6.45% increase in the water rate on January 1, 2013 to offset the increase in the cost of water by the City of Chicago. Revenues were also higher due to the significant increase in water consumption due to drier and warmer weather conditions during the fiscal year.

### Expenses

Expenses from business-type activities increased \$155,355 or 5.4% to \$3,026,206. This is due to higher personnel costs due to increases in salaries, benefits, other post-employment benefits and the net pension obligation for the Illinois Municipal Retirement Fund. Commodity costs were also higher because of the higher cost of water purchased from the City of Chicago. Contractual Services expenses increased due to a Sewer Improvement Study being conducted to reduce flooding on the north side of town. In previous years sewer improvements have been made on the south side of town.

### FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

As noted earlier, the Village of River Forest uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year as they represent the portion of fund balance which has not been limited to use for a particular purpose by either an external party, or by the Village itself.

As of the end of the current fiscal year, the governmental funds reflect a combined fund balance of \$13,191,987 (as presented on pages 21-24), an increase of \$1,539,358 from the prior year. Of the total fund balance, \$4,713,973 is unassigned fund balance, which is available for spending at the Village's discretion. The remainder of fund balance is either nonspendable, restricted or committed to indicate that it is not in spendable form (\$1,648,618), legally required to remain intact (\$3,727,176) or committed by the Village for a particular purpose (\$3,102,220).

### General Fund

The General Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. The 2013 unassigned fund balance for Village's General Fund increased by \$983,838 to \$4,713,973. The total fund balance increased by \$1,379,971 to \$7,463,446. This increase is due to higher than expected revenues and lower than anticipated expenditures. Administration expenditures were higher due to increases in salaries and the addition of a part-time customer service representative, and higher information technology costs due to the financial

accounting software upgrade. Consulting services also included the cost to complete an Architectural/Historical Survey of buildings in the Village. The Historic Preservation Committee coordinated the study which resulted in a report that chronicled all residential homes and other buildings with historical significance in the Village. Building and Development expenditures were higher to an increase in outsourced inspections and plan reviews and demolition costs. The Permit Clerk position was also changed from part-time to full-time.

Public Safety salary and benefits were higher due to salary increases per the collective bargaining agreements. This was offset by the reduction of one non-sworn full-time position in the Police Department. Contributions to the Police and Fire Pension Funds were also lower due to a change in State Statute that extended the amortization period for the unfunded accrued liability. Public Works Personnel Services expenditures were substantially higher because the amount due to the Illinois Municipal Retirement Fund for the Early Retirement Incentive Program approved in 2009 was paid in full during the fiscal year.

The nonspendable portion of fund balance increased \$341,950 primarily due to an increase in the deposit with IRMA, the Village's public entity risk pool. The amount of committed fund balance also increased by \$54,183 due to contributions for future parking lot construction made during the year. The fund's unassigned fund balance represents 31.7% of General Fund Fiscal Year 2014 budgeted expenditures. The amount reserved for working cash may also be used for cash flow purposes with Village Board approval.

The Village's financial policy requires that the General Fund unassigned fund balance, plus the amount restricted for working cash, be maintained at a minimum of 25% of the General Fund total budgeted annual expenditures to adequately cover unanticipated expenditures, revenue shortfalls or cover negative cash flows due to the timing of property tax receipts. At April 30, 2013, this amount is \$5,249,005 or 35.3% of Fiscal Year 2014 budgeted General Fund expenditures.

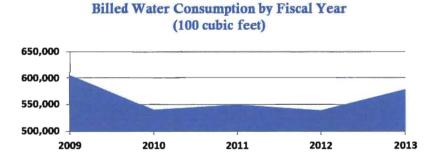

### Other Major Governmental Funds

The Economic Development Fund was established to fund future projects in the Village's recently closed TIF District. The fund balance in the Economic Development Fund decreased by \$4,161 to \$2,475,555 during the year due to intergovernmental reimbursements and interest income reduced by associated improvements within the project area.

The Capital Equipment Replacement Fund (CERF) is used to accumulate resources for the purchase of Village vehicles, equipment, and improvements. The fund balance in CERF increased \$232,765 during the fiscal year to \$2,531,521 because the amount transferred to the fund for future capital purchases exceeded the amount expended during the year.

### Proprietary Fund

At April 30, 2013, the Waterworks and Sewerage Fund (as presented on pages 25-27) total net position increased by \$437,962 to \$6,203,724. The increase is because operating revenues exceeded operating expenses including depreciation.

Water and Sewer Sales increased due to an increase in the water and sewer rates and also because water consumption increased 7% from the prior fiscal year. The increase in consumption was due to warmer and drier weather conditions.

### Waterworks and Sewerage Fund Schedule of Changes in Net Position

	Fiscal	Year	Increase	% Increase	
77 V V V V V	2013	2012	(Decrease)	(Decrease)	
Operating Revenues Operating Expenses	\$ 3,461,248 2,987,401	2,906,436 2,827,996	554,812 159,405	19.1% 5.6%	
Operating Income	473,847	78,440	395,407	504.1%	
Nonoperating Expenses	(35,885)	(41,315)	5,430	-13.1%	
Change in Net Position	437,962	37,125	400,837	1079.7%	
Net Position Beginning	5,765,762	5,728,637	37,125	0.6%	
Ending	\$ 6,203,724	5,765,762	437,962	7.6%	

### GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund actual revenues were \$381,174 more than the final budgeted amount. The overage is due to higher than expected sales, non-home rule sales, income tax and the net change in the IRMA deposit. These increases were offset by lower than expected building permit, utility tax and grant revenue. In addition, a budgeted grant for alley improvements was not awarded. Actual expenditures were \$833,983 less than budgeted expenditures. This was due to position vacancies during the fiscal year in the Police Department and Building and Development, lower than expected public safety pension contributions and legal costs, and because the budgeted alley improvement was not initiated because it was dependent of the grant award. The General Fund budget was not amended during the fiscal year.

### General Fund Budgetary Highlights

	2013 Original Budget	2013 Final Budget	2013 Actual		
Revenues Expenditures	\$ 14,035,314 13,532,412	14,035,314 13,532,412	14,416,488 12,698,429		
Excess of Revenues over Expenditures	502,902	502,902	1,718,059		
Other Financing Uses	(318,088)	(318,088)	(338,088)		
Net Change in Fund Balance	\$ 184,814	184,814	1,379,971		

(See independent auditor's report)

### CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

The Village's investment in capital assets for its governmental and business-type activities as of April 30, 2013 amounts to \$23,148,988.

The investment in capital assets includes land, buildings, improvements other than buildings, vehicles and equipment, and infrastructure. This amount represents a net decrease (including additions and deductions) of \$350,449.

### Capital Assets (Net of Depreciation)

		Governmental Activities			Business-Type Activities		Total	
		2013	2012	2013	2012	2013	2012

	\$	17,428,951	17,732,381	5,720,037	5,767,056	23,148,988	23,499,437	

Major capital asset events during the current fiscal year included the following:

- A Payloader and V Box Salt Spreader were purchased for Public Works at a cost of \$143,411.
- Two Police Department vehicles.
- Water system improvements totaling \$133,506.

The governmental activities net capital assets decreased from last year by \$303,430, resulting from the increase in assets due to improvements and purchases during the year offset by the annual increase in accumulated depreciation. The net decrease in the business-type activities of \$47,019 is due to annual depreciation offset by an increase resulting from water system improvements during the fiscal year. Detailed information on the current fiscal year changes in the Village's capital assets, and the Library's capital assets (which are not included here), is provided in the *Notes to the Financial Statements*. Note 5 starting on page 42.

### Long-Term Debt

The table below provides a comparison of governmental and business-type long-term debt for the primary government for fiscal years 2013 and 2012. The Village reduced its general obligation debt by \$330,000 in fiscal year 2013 due to principal payments made during the year. The other three types of long-term debt (defined below) increased by \$301,878. Village-wide, total long-term debt obligations were reduced by \$28,122.

**Long-Term Debt** 

	Governi Activ		Business-Type Activities		Total	
	2013	2012	2013	2012	2013	2012
General Obligation Bonds Compensated Absences	\$ 700,000 705,519	890,000 704,543	945,000 20,771	1,085,000 25,497	1,645,000 726,290	1,975,000 730,040
Net Pension Obligations - IMRF	125,290	80,931	69,383	45,564	194,673	126,495
Post-Employment Benefits	 861,024	583,185	36,911	77,300	897,935	660,485
	\$ 2,391,833	2,258,659	1,072,065	1,233,361	3,463,898	3,492,020

The outstanding general obligation debt consists of bonds issued for street improvements (\$615,000) and for improvements to the Library (\$275,000). The Village is responsible for levying taxes to pay for the Library's debt. In addition, the Village issued \$1,220,000 in general obligation debt for water system improvements. These debt payments are intended to be paid with water and sewer system revenues. As an Illinois non-home rule community, the Village is subject to debt limitation. The Village's credit rating was upgraded to AA+ from AA in February 2012.

Compensated Absences Payable is the amount of accrued vacation and sick leave time that is payable to employees at the end of the fiscal year. The Village Policies limit the amount of leave that can be carried over from year to year and employees are encouraged to use all of their vacation leave.

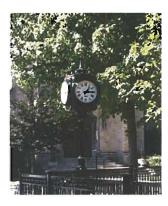

Other Post-Employment Benefit Obligation is the amount of actuarially calculated contributions that the Village did not make to fund the retiree health insurance benefits that the Village currently provides. This is a single employer defined-benefit plan (Plan) and it is funded on a pay-as-you-go basis. Funding is reported in the Village's General Fund and Waterworks and Sewerage Funds.

Net Pension Obligation - IMRF is basically the cumulative difference between the actuarially determined contributions to the Village pension and the actual contributions made.

Note 6 of the Notes to the Financial Statements, on page 45, provide more detailed information on the Village's and the Library's long-term debt.

# ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Village seems to have weathered the world-wide recession and economic conditions within the Village are improving. The recession presented some challenges such as reduced revenues, housing vacancies, and the loss of some businesses. The Village, however, has attracted some new businesses during the fiscal year including a DSW shoe store and the neighborhoods have remained attractive and vibrant. Residential construction and improvements have continued. The Village has made economic development a priority. Funds have been set aside for future development at Lake and Lathrop and in the Village Town Center at Lake and Harlem. Efforts to curtail expenses and increase revenues through efficiency improvements and reorganizations have continued.

The Village is an affluent community whose composition is primarily residential with a smaller commercial component. The property tax revenue derived from the residential and commercial properties is exceedingly stable. The 2010 census found that \$156,835 was the median income of families living in the Village. In addition, the median value of residential property was \$618,200.

A Citizens Advisory Committee on Finance was formed late in 2009 to review the Village's General Fund revenues and expenditures and to make recommendations to ensure the financial sustainability of the fund. The review completed by the committee made it clear that additional revenue enhancements or service reductions would be necessary in the future. The Village was instrumental in causing a change to the State Statute that allows non-home rule municipalities to adopt up to a 1% non-home rule sales tax to be used for any General Fund purpose. Previously, the law required the tax to be used only to reduce the property tax or for infrastructure improvements. Village voters approved a referendum in November 2010 allowing the Village to institute a 1% non-home rule sales tax. This tax is not assessed on prescription drugs or most groceries and was effective July 1, 2011. Fiscal Year 2013 was the first full year for this new revenue source which added \$784,724 to General Fund revenues.

Property taxes provide a stable revenue source. The Fiscal Year 2014 budget proposes a General Fund property tax increase of \$218,849 which includes the second installment of the 2012 Property Tax levy. This levy includes a 3.0% December 2010 to December 2011 increase in the Consumer Price Index. The 2013 property tax levy will include a 1.7% increase in the Consumer Price index. The first installment will be collected in the Spring of Fiscal Year 2014.

Sales taxes are generated by commercial business within the Village, including those in the River Forest Town Center which was constructed within the Village's Tax Increment Financing District along Lake Street. The municipal portion of the State sales tax is 1% and includes a tax on groceries and drugs. The Non-Home Rule Sales Tax is also 1% but is not on groceries and drugs. Sales tax revenues are expected to increase slightly in Fiscal Year 2013 due to new retail stores in the Village. Overall, other tax revenues are expected to remain stable.

The Village increased water and sewer rates 3.8% overall effective May 1, 2013 in an effort to cover operating expenses and contribute towards capital improvements. The Village conducted a five-year water and sewer rate study during Fiscal Year 2012 to ensure the sustainability of the Waterworks

# VILLAGE OF RIVER FOREST ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

and Sewerage Fund. The study includes the development of a five-year Capital Improvement Program. Based on this study, a rate schedule was developed which would cover operating expenses and allow for 50% funding of future capital improvements via the rate. The water and sewer portions of the rate were also adjusted to cover their proportionate share of the costs of the fund. The water rate will increase again on January 1, 2014 to offset the increase in the cost of water by the City of Chicago. The Village will continue to evaluate alternatives during Fiscal Year 2014 for sewer improvements on the north side of town.

Budgeted expenditures include increases due to salary adjustments which are part of employee collective bargaining agreements. Employee health insurance and Illinois Municipal Retirement Fund contributions are also expected to increase. The Fiscal Year 2014 General Fund budget includes an increase to the Village's contribution to the Police and Firefighters Pension Funds. The Village actuary is changing the mortality table used in his actuarial calculations. Previously, the 1971 Group Annuity Mortality table was used and beginning in Fiscal Year 2014 the RP 2000 table will be used which assumes longer lives for retirees. This will result in an increase in the actuarially determined contributions to the funds. The General Fund budget also includes \$246,320 for the Village's portion of the cost streetscape improvements on Madison Avenue. The Villages of Forest Park and River Forest were jointly awarded an Illinois Department of Transportation's Illinois Transportation Enhancement Program grant which will fund nearly 75% of the cost of the streetscape improvements. The Village will continue to seek out ways to improve efficiency in operations in an effort to reduce costs and improve services.

# CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Joan Rock, Finance Director, Village of River Forest, 400 Park Avenue, River Forest, IL 60305 or at <a href="mailto:irock@river-forest.us">irock@river-forest.us</a>.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to Statement of Activities

Year Ended April 30, 2013

Net Change in Fund Balances - Governmental Funds	\$ 1,539,358
Amounts reported for governmental activities in the Statement of Activities are different because:	,
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. These activities consist of:	
Capital Outlay 239,352 Depreciation Expense (542,782)	(303,430)
The change in net pension assets does not provide or use current resources; thus, is not reported in governmental funds.	(350,497)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.	190,000
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:	
Change in IMRF Net Pension Obligation (44,359)	
Change in Post-Employment Benefits Payable (277,839)	
Change in Compensated Absences Payable (976)	(222.17.1)
Interest on long term debt is shown as a fund expenditure when noid	(323,174)
Interest on long-term debt is shown as a fund expenditure when paid, but is accrued in the Statement of Activities.	 2,385
Change in Net Position of Governmental Activities	\$ 754,642

Notes to the Financial Statements April 30, 2013

#### 1. Summary of Significant Accounting Policies

The accounting policies of the Village of River Forest (the Village), as reflected in the accompanying financial statements for the year ended April 30, 2013, conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant accounting policies:

### A. Financial Reporting Entity

As required by GAAP, these financial statements present the Village and its component unit. Component units are entities for which the Village is considered to be financially accountable. "Blended" component units, although legally separate entities, are, in substance, part of the Village's operations. Therefore, data from these units are combined with data of the primary government. On the other hand, "discretely presented" component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the Village.

#### Discretely Presented Component Unit

The River Forest Public Library has a separately elected, seven-member board which annually determines its budget and resulting tax levy. Upon approval of the Village, the levy is submitted to the County. All debt of the Library is secured by the full faith and credit of the Village, which is wholly liable for the debt. The Library, while servicing the general population of the Village, does not provide services exclusively to the Village. Because the Library is fiscally dependent on the Village, the Library is being reported as a discrete presentation. Financial statements for the Library are presented in the component unit portion of this report; the Library does not issue separate statements.

# B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and Statement of Activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported, instead, as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements. Individual nonmajor funds are reported in the supplementary information.

Notes to the Financial Statements April 30, 2013

# 1. Summary of Significant Accounting Policies (Cont.)

### C. Fund Accounting

The Village uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three broad categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

The Village has the following fund types:

Governmental Funds are used to account for the Village's general governmental activities. There are four of these types and they use the flow of current financial resources measurement focus and the modified accrual basis of accounting.

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue Funds account for the collection and disbursement of earmarked monies.

Debt Service Funds account for the servicing of general long-term debt not financed by proprietary funds.

Capital Projects Funds account for the acquisition of capital assets or construction of major capital projects not financed by proprietary funds.

**Proprietary Funds** are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities are provided to outside parties by the enterprise fund.

The Enterprise Fund (Waterworks and Sewerage Fund) is used to account for those operations that are financed and operated in a manner similar to private business or where the Village Board has decided that the determination of revenues earned, costs incurred, and/or net income is necessary for management accountability.

**Fiduciary Funds** account for assets held by the government in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the government under the terms of a formal trust agreement.

Pension Trust Funds are accounted for in essentially the same manner as the proprietary fund, using the same measurement focus and the accrual basis of accounting. The pension trust funds account for the assets and activity of the Village's Police Pension Trust Fund and Firefighters' Pension Trust Fund.

Notes to the Financial Statements April 30, 2013

# 1. Summary of Significant Accounting Policies (Cont.)

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers property taxes as available if they are collected within 60 days of the end of the current fiscal period. A 90 day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded when payment is due.

Property taxes, sales taxes, income taxes, motor fuel taxes, interest revenue, and charges for services revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measureable and available only when cash is received by the Village.

The Village reports the following major governmental funds:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Economic Development Fund* is a capital projects fund which accounts for previous commitments entered into by the Village from funds originally received through the Tax Increment Financing (TIF) District Fund.

The Capital Equipment Replacement Fund is a capital projects fund which accounts for financial resources used for the replacement of equipment.

The Village reports the following major and only enterprise fund:

The Waterworks and Sewerage Fund accounts for the provision of water services, sewer repair, and improvement services to the residents of the Village of River Forest. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

Notes to the Financial Statements April 30, 2013

- 1. Summary of Significant Accounting Policies (Cont.)
  - D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont.)

Additionally, the Village reports the following fiduciary funds:

The *Police Pension Trust Fund* accounts for the accumulation of resources to pay pension costs. Resources are contributed by police force members at rates fixed by state statutes and by the Village through an annual property tax levy.

The *Firefighters' Pension Trust Fund* accounts for the accumulation of resources to pay pension costs. Resources are contributed by fire personnel members at rates fixed by state statutes and by the Village through an annual property tax levy.

Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided and operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Village reports unearned revenue on its financial statements. Unearned revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenue also arises when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the Village has a legal claim to resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

The Village adopted Governmental Accounting Standards No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position (GASB No. 63). GASB No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The Village also adopted Governmental Accounting Standards No. 65, Items Previously Reported as Assets and Liabilities (GASB No. 65). GASB No. 65 reclassifies as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities.

The Village reports deferred inflows of resources on its Statement of Net Position. Deferred inflows of resources arise when resources are received by the Village that represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. In subsequent periods, when the Village has a legal claim to the resources, the liability for deferred inflows of resources is removed from the Statement of Net Position and revenue is recognized.

Notes to the Financial Statements April 30, 2013

# 1. Summary of Significant Accounting Policies (Cont.)

#### E. Budgets

Budgets are adopted on a basis consistent with GAAP. Annual appropriated budgets are adopted (at the fund level) for the general, special revenue, debt service, capital projects, enterprise, and pension trust funds. The annual appropriated budget is legally enacted and provides for a legal level of control at the fund level. All annual appropriations lapse at fiscal year end.

### F. Cash Equivalents

For purposes of the statement of cash flows, all highly liquid investments with maturities of three months or less at the date purchase are considered cash equivalents.

#### G. Investments

Investments are reported at fair value.

#### H. Receivables

The recognition of receivables associated with nonexchange transactions is as follows:

- Derived tax receivable (such as sales, income, and motor fuel taxes) are recognized when the underlying exchange has occurred.
- Imposed nonexchange receivables (such as property taxes and fines) are recognized when an enforceable legal claim has arisen.
- Government mandates or voluntary nonexchange transaction receivable (such as mandates or grants) are recognized when all legal requirements have been met.

#### I. Prepaid Items/Expenses

Prepaid items/expenses represent payments made to vendors during the fiscal year for services that will benefit future periods. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

# J. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

#### K. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, bridges and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined as having a useful life greater than one year with an initial, individual cost of more than \$10,000 for vehicles and equipment, \$50,000 for buildings, and \$100,000 for infrastructure. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of the donation.

Notes to the Financial Statements April 30, 2013

#### 1. Summary of Significant Accounting Policies (Cont.)

### K. Capital Assets (Cont.)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings	50 years
Vehicles and Equipment	2 - 21 years
Water Distribution System	75 years
Sewer System	100 years
Curbs and Gutters	60 years
Other Infrastructure	25 - 90 years

#### L. Compensated Absences

Vested or accumulated vacation leave is accrued when incurred in the government-wide and proprietary fund financial statements, as the Village expects employees to use their vacation within one fiscal year; however, they may carry over ten days. Vested or accumulated vacation leave of proprietary funds and government-wide statements is recorded as an expense and liability of those funds as the benefits accrue to employees. Vacation leave is only recorded in the governmental fund financial statements when an employee leaves before year end and has not been paid out. No liability is recorded for nonvesting, accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

# M. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt, if material.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# N. Fund Equity

Net Position/Fund Balances

There are five classifications of fund balances of governmental funds:

(1) Nonspendable – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

Notes to the Financial Statements April 30, 2013

### 1. Summary of Significant Accounting Policies (Cont.)

# N. Fund Equity (Cont.)

- (2) Restricted amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government) through constitutional provisions or by enabling legislation.
- (3) Committed amounts constrained to specific purpose by a government itself, using its highest level of decision-making authority. The Village Board is the highest level of decision-making authority for the Village that can, by adoption of ordinance or resolution prior to the end of the year, commit fund balance. Once adopted, the limitation remains in place until a similar action is taken (adoption of another ordinance or resolution) to remove or revise the limitation.
- (4) Assigned amounts the Village intends to use for specific purposes as determined by the Village Board. It is assumed that creation of a fund automatically assigns fund balance.
- (5) Unassigned amounts that are available for any purpose. These amounts are only reported in the General Fund.

Net position/fund balance is displayed in the order of the relative strength of the spending constraints placed on the purposes for which resources can be used.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the Village considers committed funds to be expended first followed by assigned and the unassigned funds.

Per the Village's financial policy, the General Fund is to maintain a minimum unassigned fund balance, plus the amount restricted for working cash, of 25% of the total budgeted annual expenditures in the most recently approved annual budget. The Village Board shall determine the disposition of fund balance in excess of this amount.

### O. Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund, and as reductions of expenditures/expenses in the fund that is reimbursed.

#### P. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes to the Financial Statements April 30, 2013

#### 2. Fund Equity

There were no funds that had a deficit in fund balance as of April 30, 2013.

### 3. Deposits and Investments

The Village's investment policy is to establish cash management and investment guidelines for the Village officials responsible for the stewardship of public funds. The Village has established specific objectives to meet these guidelines. The Village's investment policy is more restrictive than Illinois State Statutes. The Village is authorized to make deposits in any credit union or bank, as defined by the Illinois Banking Act, and make investments in obligations guaranteed by the full faith and credit of the United States of America, similar obligations of agencies of the United States of America, certain money market mutual funds, the Illinois Metropolitan Investment Fund, and The Illinois Funds.

The deposits and investments of the Pension Funds are held separately from those of other Village funds. Statutes authorize the Pension Funds to make deposits/invest in interest-bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures, or similar obligations of agencies of the United States of America: savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; State of Illinois bonds; pooled accounts included in Illinois Funds and the Illinois Metropolitan Investment Fund, or by banks, their subsidiaries or holding companies, in accordance with the laws of the State of Illinois; bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois; direct obligations of the State of Israel; corporate bonds managed through an investment advisor; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided that the portfolio is limited to specified restrictions; general accounts of life insurance companies and separate accounts of life insurance companies and permitted mutual funds provided that the investment in separate accounts does not exceed ten percent of the pension fund's net assets. Pension funds with net assets of \$2.5 million or more may invest up to forty percent of plan net assets in mutual funds and an additional ten percent in accounts with life insurance companies. In addition, pension funds with net assets of at least \$10 million that have appointed an investment advisor may, through that investment advisor, invest up to sixty percent of the plan's net assets in common and preferred stocks which meet specific restrictions.

At April 30, 2013, the Village's cash and investments consisted of the following:

	Primary		
	Government	Fiduciary	Total
Cash and Investments	\$ 11,605,819	33,482,921	45,088,740

Notes to the Financial Statements April 30, 2013

# 3. Deposits and Investments (Cont.)

For disclosure purposes, this amount is segregated into three components: 1) cash on hand; 2) deposits with financial institutions, which include amounts held in demand accounts and savings accounts; and 3) other investments which consist of investments in The Illinois Funds, Illinois Metropolitan Investment Fund, certificates of deposit, U.S. Treasuries, government-backed securities, stocks, bonds, insurance contracts/annuities, and mutual funds as follows:

Cash on Hand	,	\$	1,900
Deposits with Financial Institutions			
Village		4	4,736,566
Police Pension Fund			504,742
Fire Pension Fund			823,097
Other Investments			
Village		(	6,867,353
Police Pension Fund		19	9,011,939
Fire Pension Fund		13	3,143,143
		\$ 4:	5,088,740

The Illinois Funds Money Market Fund is an external investment pool developed and implemented in 1975 by the Illinois General Assembly under the jurisdiction of the Treasurer, who has regulatory oversight for the pool. The Fund is not registered with the SEC and has an affirmed AAAm Standard & Poor's credit quality rating. The fair value of the positions of this pool is the same as the value of the pool shares. The yield on the Illinois Funds Money Market Fund was .049% at April 30, 2013. The Fund issues a publicly available financial report. That report may be obtained by writing to the Office of the State Treasurer, Illinois Funds Administrative Office, 300 W. Jefferson Street, Springfield, Illinois 62702.

The Illinois Metropolitan Investment Fund (IMET) is not registered with the SEC. The IMET Board provides oversight for IMET. The Board is responsible for policy formulation, as well as policy and administrative oversight. The fair value of the position in the pool is the same as the value of the pool shares. IMET offers two separate investment vehicles to public entities. The yields on the funds were 0.23% at April 30, 2013. IMET issues a publicly available financial report. That report may be obtained at <a href="https://www.investimet.com">www.investimet.com</a> or by writing to Illinois Metropolitan Investment Fund, 1220 Oak Brook Road, Oak Brook, Illinois 60523.

As of April 30, 2013, the Village has the following investments and maturities.

Investment Type	Value	One Year	Years	5 Years
				_
The Illinois Funds	\$ 10,152	10,152		

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect fair values of an investment. In accordance with its investment policy, the Village's investment portfolio shall remain sufficiently liquid to enable the Village to meet all operating requirements that may be reasonably anticipated in any Village fund. Maturities of investments of all funds, except the Capital Projects Funds and Working Cash Funds, shall average three years. Maturities of investments of Capital Projects Funds and Working Cash Funds shall not exceed ten years.

Notes to the Financial Statements April 30, 2013

# 3. Deposits and Investments (Cont.)

Interest Rate Risk (Cont.)

The Police and Firefighters' Pension Funds' investment policies limit their exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. As of April 30, 2013, The Illinois Funds Money Market was rated AAAm by Standard & Poor's.

The Police and Firefighters' Pension Funds limit their exposure to credit risk by primarily investing in securities issued by the United States Government and/or its agencies that are implicitly guaranteed by the United States Government. The investments in the securities of U.S. government and agency obligations were rated AA+ by Standard & Poor's and Aaa by Moody's Investors Service as of April 30, 2013. The Police and Firefighters' Pension Funds' investment policies follow the "prudent person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return."

#### Custodial Credit Risk

In the case of deposits, this is the risk that, in the event of a bank failure, the Village's and Component Unit's deposits may not be returned. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. As of April 30, 2013, the Village's and Component Unit's deposits with financial institutions were not exposed to custodial credit risk because they were insured and collateralized.

None of the Police and Firefighters' Pension Funds' deposits with financial institutions were exposed to custodial credit risk as those deposits were insured, fully collateralized, and held by an independent third party.

### Concentration of Credit Risk

It is the policy of the Village to diversify its investment portfolio. Investments shall be diversified to eliminate the risk of loss resulting in overconcentration in a security, maturity, issuer, or class of securities. The amount of funds deposited and/or invested in a financial institution shall not exceed 65% of the capital stock and surplus of such institution unless collateral security has been pledged, in which case, the amount of such deposits and/or investments shall not exceed 75%.

It is the policy of the Police and Firefighters' Pension Funds to diversify their investment portfolios. At April 30, 2013, the Police Pension Fund's investments (other than those issued or guaranteed by the U.S. Government) include a Vanguard Annuity of \$1,176,136, Vanguard Mid-Cap Index Fund of \$1,048,287, Vanguard Health Care Fund of \$985,477, Vanguard 500 Index Fund of \$1,922,201, and Vanguard Total Stock Market Index Fund of \$1,566,593, each of represent 5% or more of plan net assets. At April 30, 2013, the

Notes to the Financial Statements April 30, 2013

# 3. Deposits and Investments (Cont.)

Concentration of Credit Risk (Cont.)

Firefighters' Pension Fund's investments (other than those issued or guaranteed by the U.S. Government) include Dodge and Cox International Fund of \$1,192,166, Foreside DF Dent Premier Growth Fund of \$1,630,412, Vanguard Energy Fund of \$981,497, Vanguard Health Care Fund of \$1,478,033, and U.S. Treasury Note of \$710,696 each of represent 5% or more of plan net assets.

### 4. Receivables - Taxes

Property taxes for 2012 attach as an enforceable lien on January 1, 2012. Taxes are levied by December 2012 by passage of a Tax Levy Ordinance for collection in the subsequent calendar year. Tax bills are payable in two installments on or about April 1 and July 1, 2013. The County collects such taxes and remits them periodically. The Village deferred recognition of the second installment of the 2012 property tax levy due to the second installment being intended to fund the next fiscal year's operations.

		\$ 1,233,361	45,398	206,684	1,072,075	149,154
Component Unit - Public Lib	orary					
Compensated Absences		\$ 10,949	3,930	2,190	12,689	12,689

Compensated absences, net pension obligations, and other post-employment benefits are paid from the General Fund and charged to General Government, Public Safety, and Public Works, and from the Waterworks and Sewerage Fund.

Notes to the Financial Statements April 30, 2013

# 6. Long-Term Debt (Cont.)

# B. General Obligation Debt

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for general government and business-type activities.

The Series 2005 general obligation bonds are recorded as debt for the Village, as the Village is the party responsible for payments. The proceeds of these bonds have been recorded in the Public Library's (a component unit of the Village) Library Improvement Fund, as the proceeds will be spent to improve the Public Library.

### C. Debt Service Requirements to Maturity

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending	Government	al Activities	Business-type	e Activities	Tota	al
April 30	Principal	Interest	Principal	Interest	Principal	Interest
			•			
2014	\$ 195,000	25,205	145,000	34,605	340,000	59,810
2015	200,000	18,838	150,000	30,255	350,000	49,093
2016	205,000	11,778	155,000	25,230	360,000	37,008
2017	50,000	4,150	160,000	19,650	210,000	23,800
2018	50,000	2,075	165,000	13,570	215,000	15,645
2019			170,000	6,970	170,000	6,970
	\$ 700,000	62,046	945,000	130,280	1,645,000	192,326

### D. Legal Debt Margin

Assessed Valuation – 2012	\$	529,450,956
Legal Debt Limit – 8.625% of Assessed Valuation	\$	45,665,145
Amount of Debt Applicable to Debt Limit	_	700,000
Legal Debt Margin	\$	44,965,145

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

Notes to the Financial Statements April 30, 2013

# 6. Long-Term Debt (Cont.)

#### E. Defeased Debt

In prior years, the Village defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Village's financial statements. At April 30, 2013, \$40,000 of bonds outstanding are considered defeased.

### 7. Conduit Debt

The Village issued \$17,000,000 of Industrial Project Revenue Bonds for Dominican University during the year ended April 30, 2010. The Village has no obligation to pay this debt. The 2009 Project Revenue Bonds for Dominican University had an outstanding balance of \$13,978,192 at April 30, 2013.

### 8. Interfund Transactions

#### A. Due from/to Other Funds

Receivable Fund	Payable Fund	Amount		
Motor Fuel Tax	General	\$ 56,880		
Police Pension Firefighters' Pension	General General	\$ 4,588 1,141_		
Total - Fiduciary Funds		\$ 5,729		

The Due to/from between the Motor Fuel Tax Fund and the General Fund is related to a reimbursement for the payment of liability insurance premiums. The due to/from between the Police and Firefighters' Pension Funds and the General Fund is due to timing differences related to the collection of and disbursement of property tax revenue.

#### B. Advances from/to Other Funds

Receivable Fund	Payable Fund	Amount
Enterprise Waterworks and Sewerage Fund	Capital Projects  Capital Equipment Replacement Fund	\$ 105,618
Total - Fund Financial Statements/ Internal Balances - Government-Wide Statement of Net Position		\$ 105,618

The advance from/to between the Waterworks and Sewerage Fund and the Capital Equipment Replacement Fund represents fiscal year contributions for future vehicle and equipment purchases that are funded via the Capital Equipment Replacement Fund.

Notes to the Financial Statements April 30, 2013

# 8. Interfund Transactions (Cont.)

### C. Transfers

Receiving Fund		Transferring Fund		Amount
Capital Projects	General			
Capital Equipment Replacement Fund			\$_	338,088

The General Fund transferred \$338,088 to the Capital Equipment Replacement Fund related to capital outlay expenditures.

# 9. Risk Management

### A. Intergovernmental Risk Management Agency (IRMA)

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of municipalities and special districts in Northeastern Illinois which have formed an association under the Illinois Intergovernmental Cooperation Act to pool its risk management needs. The agency administers a mix of self-insurance and commercial insurance coverage; property/casualty and workers compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds. Each member assumes the first \$2,500 of each occurrence, and IRMA has a mix of self-insurance and commercial insurance at various amounts above that level.

Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The Village does not exercise any control over the activities of the Agency beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the by-laws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits.

Limits of coverage effective as of April 30, 2013 are as follows:

Automobile Liability	\$ 10,000,000
General Liability	10,000,000
Public Officials Liability	10,000,000
Workers' Compensation	Blanket Statutory Limits
First Party Property	250,000,000 per occurrence
Boiler/Machinery	50,000,000
Fidelity and Crime	
a. Employee Theft	5,000,000
b. Forgery or Alteration	5,000,000
c. Computer Fraud	5,000,000
d. Credit Card Forgery	5,000,000
e. Non-Faithful Performance	2,500,000
Public Official Bond	Blanket Statutory Limits

Notes to the Financial Statements April 30, 2013

#### 9. Risk Management (Cont.)

#### B. Intergovernmental Personnel Benefit Cooperative (IPBC)

Risks for medical, dental and death benefits for employees and retirees are provided through the Village's participation in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC acts as an administrative agency to receive, process, and pay such claims as may come within the benefit program of each participating member. IPBC maintains specific reinsurance coverage for claims in excess of \$125,000 per individual employee participant. The Village pays premiums to IPBC based upon current employee participation and its prior experience factor with the pool. Current year overages or underages for participation in the pool are adjusted into the subsequent year's experience factor for premiums. For insured programs, there have been no significant reductions in insurance coverage.

#### 10. Contingent Liabilities

#### A. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's management, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

#### B. Grants

Amounts received or receivable from grantors are subject to audit and adjustment by the grantors. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Village expects such amounts, if any, to be immaterial.

#### 11. Other Post-Employment Benefits

In addition to providing the pension benefits described in Note 13, the Village provides post-employment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. The plan does not issue a separate report. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established. The cost of the plan is reported in the fund from which the benefits are paid.

#### Benefits Provided

The Village provides post-employment health care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the Village's retirement plans.

All health care benefits are provided through the Village's health plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous and substance abuse care; dental care; and prescriptions. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the Village's plan becomes secondary.

Notes to the Financial Statements April 30, 2013

#### 11. Other Post-Employment Benefits (Cont.)

Membership

At April 30, 2013, membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits and Terminated Employees Entitled to Benefits but Not Yet Receiving Them	34
Current Employees Vested Nonvested	43 _30
Total .	<u>107</u>
Participating Employers	1

#### Funding Policy

The Village negotiates the contribution percentage between the Village and employees through the union contracts and personnel policy. Most retirees contribute 66.6% of the actuarially determined premium to the plan, and the Village contributes the remainder to cover the cost of providing the benefits to the retirees. Effective May 12, 2012, non-union employees hired prior to January 1, 2005 who retire after being employed by the Village for 20 consecutive years immediately prior to retirement and over age 55 are entitled to \$200 per month towards the cost of the retiree health insurance benefit. No Village contribution is made once the retiree is eligible for Medicare. Non-union employees hired after January 1, 2005 are responsible for 100% of the cost of the benefits. For the fiscal year ended April 30, 2013, retirees contributed \$258,349 and the Village contributed \$211,657. Active employees do not contribute to the plan until retirement.

#### Annual OPEB Costs and Net OPEB Obligation

The Village had an actuarial valuation performed for the plan as of April 30, 2013, to determine the funded status of the plan as of that date, as well as the employer's annual required contribution (ARC) for the fiscal year ended April 30, 2013. The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation was as follows:

	Percentage Annual of Annual			
Fiscal	OPEB	Employer	OPEB Cost	Net OPEB
Year End	Cost	Contributions	Contributions	Obligation
April 30, 2013	\$ 449,107	211,657	47.1%	897,935
April 30, 2012	385,828	285,340	72.9%	660,485
April 30, 2011	388,497	206,113	53.1%	554,453

Notes to the Financial Statements April 30, 2013

### 11. Other Post-Employment Benefits (Cont.)

Annual OPEB Costs and Net OPEB Obligation (Cont.)

The net OPEB obligation(NOPEBO) at April 30, 2013 was calculated as follows:

Annual Required Contribution \$	
Interest on Net OPEB Obligation	29,367
Adjustment to Annual Required Contribution	(24,472)
Annual OPEB Cost	449,107
Contributions Made	211,657
Increase in Net OPEB Obligation	237,450
Net OPEB Obligation, Beginning of Year	660,485
Net OPEB Obligation, End of Year	897,935
Net OPEB Obligation Attributable to	
Governmental Activities \$	861,024
Business-Type Activities	36,911
	)
<u>\$</u>	897,935

#### Funded Status and Funding Progress

The funded status of the plan as of April 30, 2013 was as follows:

Actuarial Accrued Liability (AAL)	\$ 7,576,668
Actuarial Value of Plan Assets	
Unfunded Actuarial Accrued Liability (UAAL)	7,576,668
Funded Ratio (Actuarial Value of Plan Assets/AAL)	0.0%
Covered Payroll (Active Plan Members)	6,522,947
UAAL as a Percentage of Covered Payroll	116.2%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actuarial results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information following the Notes to the Financial Statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to the Financial Statements April 30, 2013

#### 11. Other Post-Employment Benefits (Cont.)

Annual OPEB Costs and Net OPEB Obligation (Cont.)

#### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 30, 2013 actuarial valuation, the entry-age actuarial cost method was used. The actuarial assumptions included 4.0% investment rate of return (net of administrative expenses) and an initial annual healthcare cost trend rate of 8.00% reduced by 0.5% each year to arrive at an ultimate healthcare cost trend rate of 6.0%. Both rates include a 3.0% inflation assumption. The actuarial value of assets was \$0. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at April 30, 2013 was 30 years.

#### 12. Deferred Compensation Plan

The Village offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency occurs.

The assets of the plan are held in trust, with the Village as trustee, for the exclusive benefit of the plan participants and their beneficiaries. The assets cannot be diverted for any other purpose. The Village's beneficial ownership of plan assets held in the trust is held for the future exclusive benefit of the participants and their beneficiaries.

#### 13. Employee Benefit Plans

#### A. Illinois Municipal Retirement Fund

#### Plan Description

The Village's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan, provides retirement, disability, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Village maintains accounts for regular employees and for Sheriff's Law Enforcement Personnel (SLEP) which provides benefits solely to a former police chief. The Illinois Pension Code establishes the benefit provisions of the plan which can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <a href="https://www.imrf.org/pubs/">www.imrf.org/pubs/</a> or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Notes to the Financial Statements April 30, 2013

#### 13. Employee Benefit Plans (Cont.)

#### A. Illinois Municipal Retirement Fund (Cont.)

Funding Policy

As set by statute, employees participating in the IMRF plan are required to contribute 4.50% of their annual covered salary. The member rate is also established by State statute. The Village is required to contribute at an actuarially determined rate. The employer rate for calendar year 2011 was 13.13% of annual covered payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. For the SLEP Plan, members are required to contribute 7.50% of their annual covered salary. The employer rate for calendar year 2010 was 12.96%.

Annual Pension Cost, Net Pension Obligation and Actuarial Assumptions

For 2010, 2011 and 2012, IMRF offered members the option of paying less than the annual required contribution. The Village elected this option for each year. As such, the Village has a net pension obligation at April 30, 2013.

For fiscal year ending April 30, 2013, the Village's actual contributions to the Regular Plan were \$272,135. The annual pension cost was \$340,323. For the SLEP Plan, there was no annual pension cost. The required contribution for 2012 was determined as part of the December 31, 2010 actuarial valuation using the entry age actuarial cost method.

The actuarial assumptions included (a) 7.50% investment rate of return (net of administrative and direct investment expenses); (b) projected salary increases of 4% a year attributable to inflation; (c) additional projected salary increases ranging from .4% to 10.0% per year, depending on age and service attributable to seniority/merit; and (d) post-retirement benefit increases of 3% annually. The actuarial value of IMRF plan assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The employer plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at the December 31, 2010 valuation was 30 years.

As of April 30, 2013, the most recent actuarial valuation date, the Regular Plan was 52.71% funded. The actuarial accrued liability was \$4,862,541 and the actuarial value of assets was \$2,563,156, resulting in an unfunded actuarial accrued liability of \$2,299,385. The covered payroll for 2012 was \$2,072,618 and the ratio of the UAAL to the covered payroll was 110.94%. In conjunction with the April 2013 actuarial valuation, the market value of investments was determined using techniques that spread the effect of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. In 2012, the unfunded actuarial accrued liability is being amortized on a level of percentage of projected payroll on an open 30 year basis.

The SLEP Plan was 77.44% funded. Actuarial accrued liability was \$169,167 and actuarial value of assets was \$131,008, resulting in an underfunded actuarial liability of \$38,159.

#### 13. Employee Benefit Plans (Cont.)

#### B. Police Pension

#### Plan Description and Provisions

Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit, single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (Chapter 40-Article 5/3) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. The plan does not issue a stand-alone financial report. The Village's payroll for employees covered by the Police Pension Plan for the year ended April 30, 2013 was \$2,439,486. At April 30, 2013, the Police Pension Plan membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits and Terminated Employees Entitled to Benefits but Not Yet Receiving Them	34
Current Employees Vested Nonvested	19 9
Total	<u>62</u>

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of 2.5% of final salary for each year of service up to 30 years, to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit of 2.5% of final salary for each year of service.

The monthly pension of a covered employee who retired with 20 or more years of service after January 1, 1997 shall be increased annually by 3% of the originally granted pension, following the first anniversary date of retirement, and be paid upon reaching the age of at least 55 years. For all increases granted on or after July 1, 1993, the second and subsequent automatic annual increases shall be calculated as 3% of the amount of the pension payable at the time of the increase.

## Funding Policy

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective January 1, 2012, the Village's contributions must accumulate to the point where 90% of the past service cost for the Police Pension Plan is funded by the year 2040. Administrative expenses are generally paid from plan assets.

#### Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized when due, pursuant to formal commitments, as well as statutory or contractual requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Administrative costs are financed through the fund.

Notes to the Financial Statements April 30, 2013

#### 13. Employee Benefit Plans (Cont.)

#### B. Police Pension (Cont.)

Method Used to Value Investments

Investments are valued at market. Investment income is recognized as earned.

Related Party Transactions

There are no securities of the employer or any other related parties included in plan assets, including any loans.

Funding Status and Funding Progress

As of May 1, 2012, the most recent actuarial valuation date, the Police Pension Plan was 61.80% funded. The actuarial accrued liability was \$30,803,235 and the actuarial value of assets was \$19,025,638, resulting in an underfunded actuarial accrued liability of \$11,777,597. The covered payroll for 2013 was \$2,439,486 and the ratio of the underfunded balance was thus 482.8%.

The Schedule of Funding Progress, presented as Required Supplementary Information following the Notes to the Financial Statements, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### Contributions

Village contributions are determined annually by an actuarial study using the projected unit credit method. The valuation for fiscal 2013 was prepared as of April 30, 2013. Significant assumptions used in the calculation include (a) a 7.0% return on investments, (b) projected salary increases of 5.5% per year, and (c) a 28 year amortization of the unfunded liability.

#### ANNUAL PENSION COST AND NET PENSION OBLIGATION (ASSET)

#### 14. Joint Venture

The Village participates in the West Suburban Consolidated Dispatch Center (WSCDC), a governmental joint venture with the Village of Oak Park and the Village of Elmwood Park. The joint venture was formed in 1999 under the Intergovernmental Cooperation Act (ILCS 5, Act 220) for the joint and mutual operation of centralized communication system. WSCDC commenced operations on May 1, 2002. All activities of WSCDC are costs shared by the members. Each member's share for each fiscal year of operations will be based on the total number of calls dispatched by the member in the preceding fiscal year divided by total calls dispatched by all members during the preceding fiscal year. Each member's cost-sharing allocation is approved by the Board of Directors of WSCDC annually. Either member may withdraw from the joint venture upon one year's notice.

Notes to the Financial Statements April 30, 2013

# 14. Joint Venture (Cont.)

During fiscal 2013, the Village's allocated cost share totaled \$589,815 for operational expenses, which is charged to General Government expenditures in the General Fund.

Financial statements may be obtained by contacting WSCDC at 400 Park Avenue, River Forest, Illinois 60305.

#### 15. Restatement

During the current fiscal year, the Village determined that the beginning net pension asset for the Police and Fire Pensions was understated. A prior period adjustment has been posted to correctly reflect the balance of the net pension asset at May 1, 2012 for governmental activities.

	Net Position at May 1, 2012		Net Position at
	as Previously Reported	Restatement	Net Position at May 1, 2012 as Restated

Legal Compliance and Accountability

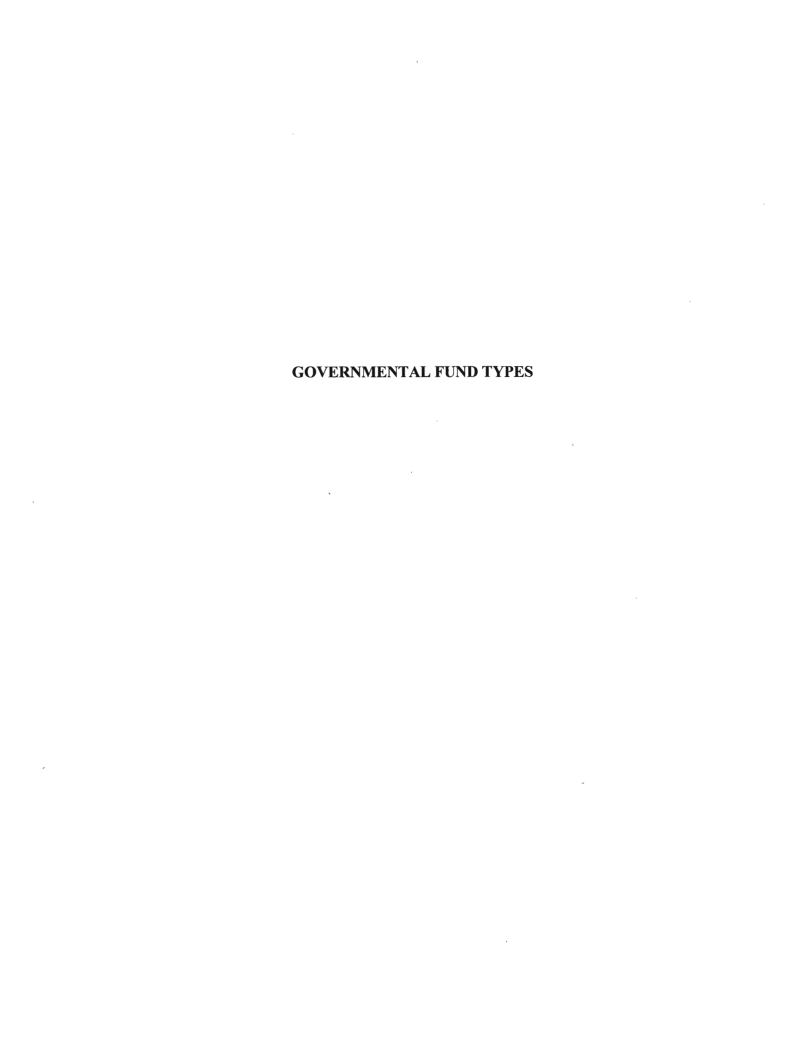

#### **Budgetary Control**

The Village follows these procedures in establishing the budgetary data reflected in the financial statements.

- i) The Village Administrator submits to the Village Board of Trustees a proposed operating budget for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.
- ii) Public hearings are conducted by the Village to obtain taxpayer comments.
- iii) Subsequently, the budget is legally enacted through passage of an ordinance.
- iv) Formal budgetary integration is employed as a management control device during the year for the general, special revenue, debt service, and capital projects funds.
- v) Budgets for the governmental funds for which budgets have been adopted are adopted on a basis consistent with GAAP.
- vi) Budgetary authority lapses at year end.
- vii) State law requires that "expenditures be made in conformity with appropriations/budget." As under the Budget Act, transfers between line items and departments may be made by administrative action. Amounts to be transferred between funds or increasing the amount budgeted in any fund require Village Board approval. The level of legal control is generally the fund budget in total.
- viii) Budgeted amounts are as originally adopted, with the exceptions of Board-approved transfers which were not material in relation to the budget taken as a whole.

During the year ended April 30, 2013, there were no budget amendments.

### **SPECIAL REVENUE FUND**

Motor Fuel Tax Fund (Nonmajor Fund) is used to account for the activities involved with street maintenance, improvements and construction. Financing is provided by the Village's share of State gasoline taxes. State law requires these gasoline taxes to be used to maintain streets.

### **ENTERPRISE FUND**

Waterworks and Sewerage Fund (Major Fund) is used to account for the provision of water services, sewer repair, and improvement services to the residents of the Village of River Forest. All activities necessary to provide such services are accounted for in this Fund, including, but not limited to, administration, operations, maintenance, financing and related debt service and billing collection.

#### Statistical Section

This portion of the Village of River Forest Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Village's overall economic condition.

Contents	<u>Page</u>
Financial Trends	
These schedules contain information to help the reader understand how the Village's financial performance and well-being have changed over time.	101-108
Revenue Capacity	
These schedules contain information to help the reader assess the Village's most significant local revenue sources, the sales tax and the property tax.	109-117
Debt Capacity	
These schedules contain information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt.	118-122
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.	127-127
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.	128-132

#### Sources:

Unless otherwise noted, the information in these schedules is derived from the Village's Comprehensive Annual Financial Reports for the relevant year. The Village implemented GASB Statement 34 in Fiscal Year 2004; schedules presenting government-wide information include information beginning in that year.

#### Notes:

a) The Village declared a surplus of tax incremental finance (TIF) area revenues and in 2010 and 2011 returned \$4,113,409 and \$3,266,966, respectively, to the State and to the County for redistribution to all taxing entities that serve the TIF area.

The governmental fund balances for the TIF Funds have been reduced to zero due to the TIF District closing effective December 31, 2010. The balance remaining in the TIF funds was transferred to the TIF Economic Development Fund.

Notes:

Property in the Village is reassessed by the County every three years.

Refer to the Property Tax Rates - Direct and Overlapping Governments schedule for additional property tax rate information.

Equalized Assessed Value - The State of Illinois calculates an equalization factor each year to bring the assessed value of property to 1/3.

<sup>&</sup>lt;sup>1</sup> This tax levy is still in collection. The balance of the 2012 tax levy will be distributed to the Village in the summer of 2013. The amount shown as collected reflects an estimate, distributed by the County in the spring of 2012.

#### Note:

The amounts included in this schedule are taxes levied for the funding of corporate purposes, debt service, fire pension and police pension. They exclude the amounts levied for the Village's component unit, the Library, and the incremental tax funding for the TIF area.

Notes:

Sales tax information for the calendar year 2012 is the most current available.

The State of Illinois imposes a sales tax on a seller's receipts from sales of tangible property for use or consumption. Tangible personal property does not include real estate, stocks, bonds or other "paper" assets representing an interest. The categories listed above are determined by the State of Illinois. The 1% tax is a revenue that the State shares with the Village.

## Data Source

Office of County Clerk

<sup>&</sup>lt;sup>1</sup> The State of Illinois establishes a lien on property for the levy at the beginning of the calendar year. The taxing entities adopt their levies at the end of December of the same calendar year. The taxes levies are for collections in the following calendar year. Therefore, the Village's Fiscal Year 2013 relied on the property collections in the fall of 2012, which are from the 2011 tax levy year, as well as the distribution provided in the spring of 2013 which was an estimate based on the prior year's tax levy.

<sup>&</sup>lt;sup>2,3&4</sup> These are the same properties with different owners.
