**Introductory Section** 

400 Park Avenue River Forest, IL 60305 Ph (708) 366-8500 F (708) 366-3702 www.river-forest.us

October 18, 2021

Honorable Catherine Adduci Members of the Board of Trustees, and Citizens of the Village of River Forest, Illinois

The Comprehensive Annual Financial Report (CAFR) of the Village of River Forest, Illinois, for the fiscal year ended April 30, 2021, is hereby presented. State law requires an annual audit for local governments. The audit must be conducted in accordance with generally accepted auditing standards, include all of the accounts and funds of the Village, and be completed within six months after the close of the fiscal year. The Village is required to issue a report on its financial position and activity presented in conformance with generally accepted accounting principles (GAAP). The CAFR strives to exceed the basic legal requirements of state law and provides additional information to assist readers in understanding the Village's fiscal condition. As the auditor's report explains, the additional information provided in the CAFR was not audited, although it was reviewed by the auditors for information that might conflict with the audited information.

The financial report consists of management's representations concerning the finances of the Village of River Forest. Responsibility for the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Village. To the best of my knowledge and belief, this report is accurate in all material respects; it fairly represents the Village's financial position and results of operations; and, it provides all the disclosures needed to understand the Village's financial activities in Fiscal Year 2021. All disclosures necessary to enable the reader to gain an understanding of the Village's financial activities have been included. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the Village's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the financial statements in accordance with GAAP. Because the cost of internal controls should not exceed anticipated benefits, the Village's internal controls have been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatement.

The Village's financial statements have been audited by **BKD**, LLP, a firm of licensed independent auditors that were selected by the Village Board of Trustees as the independent auditors for the Village. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of River Forest are free from material misstatement. The independent auditor issued an unmodified ("clean") opinion on the Village's financial statements for the year ended April 30, 2021. The independent auditor's report is located in the beginning of the financial section of this report. The Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The letter of transmittal should be read in conjunction with the MD&A.

#### **Profile of the Government**

The Village of River Forest was incorporated on October 30, 1880, and is a non-home rule

community, as defined by the Illinois Constitution. The Village operates under the Board/Administrator form of This form of government combines the government. leadership and policy-making skills of elected officials with the expertise of a professional administrator. The elected representatives set the policies that establish the Village's purpose, values, mission, and goals. The Village Administrator's role is to implement those policies in an efficient and effective manner.

Located approximately 10 miles west of downtown Chicago,

residents have the benefit of the employment and entertainment opportunities offered by the City of Chicago combined with the advantages of a quiet residential community. The Village of River Forest has a land area of 2.5 square miles with approximately 31.6 miles of streets. The Des Plaines River borders the western edge of the Village and a commuter train station provides convenient access to the City of Chicago. The population of the Village, per the 2020 census, is 11,717. River Forest has diverse residential

architecture that is quite unique and distinctive for communities within the Chicago metropolitan region. It has a variety of businesses including medical care facilities, dining and retail establishments. In addition, two universities are located in River Forest: Dominican and Concordia. The Village provides a full range of services to its citizens, businesses, and visitors. These services include police and fire protection, ambulance service, water and sewer utilities, building planning and zoning, construction and maintenance of streets and other infrastructure, and general administrative services.

The annual budget serves as the foundation for the Village's financial planning and control. A strategic planning session with the Village Board begins the budget process, at which time the Board sets the long- and short-term goals for the Village. Departments prepare their budgets based on these goals and submit their budget requests for the upcoming fiscal year to the Budget Team that consists of the Village Administrator, Assistant Village Administrator and Finance Director. The Budget Team reviews these budget requests with departmental staff and develops a proposed budget to achieve the established goals within anticipated revenues. The Village Administrator's proposed budget is then presented to the Village Board. The Village Board is required to hold a public hearing on the proposed budget, and a final budget must be adopted by the Village Board by April 30th of each fiscal year.

The legal level of budgetary control is at the fund level. The Village Administrator is authorized to make budget transfers within any fund. Additions and transfers between funds require Village Board approval. Original and final amended budget-to-actual comparisons are provided for each individual governmental fund for which an annual budget has been adopted. The General Fund comparison is included in the required supplementary information section. Other governmental fund comparisons are presented in the Combining, Individual Fund, and Capital Asset Financial Statements and Schedules subsection of this report.

There were 78.50 full-time equivalent positions in the Fiscal Year 2021 annual budget. There are four different labor contracts that represent sworn police officers, firefighters, fire lieutenants, and public works employees.

Over 200 businesses are licensed in the Village of River Forest. The commercial core is the River Forest Town Center that was developed using Tax Increment Financing District (TIF) revenues. This development includes restaurants, a grocery store and other retail stores. Lake Street is a major thoroughfare that runs through the center of the Village. In the Fall of 2021, The Sheridan, a senior living facility that houses approximately 125 beds for both assisted living

and memory care, was completed and is now fully operational. The facility is owned and operated by Senior Lifestyle and will be one of the top taxpayers in the community. At Lake and Lathrop, the Village approved a planned development permit for a mixed-use project that will include a mix of three and four bedroom condominiums as well as ground floor retail. Environmental remediation has been completed and construction is expected to begin in the Fall of 2021.

The Village has additional retail development along the North Avenue, Madison Street and Harlem Avenue corridors. The Village established a TIF district on Madison Street during Fiscal Year 2017. The Madison Street TIF began receiving incremental property tax revenues in Fiscal Year 2019. Since the TIF was established, the Village has purchased three pieces of property in this TIF District that will be used for future economic development projects. Throughout the fiscal year, Village staff has met with prospective developers to discuss and review future development options. The North Avenue TIF was established in August of 2018 and is expected to generate incremental property tax revenues beginning in Fiscal Year 2022.

Economic development is a priority for the Village. The Village has an Economic Development Commission that consists of seven members who (1) advise the Village Board on the economic and community impact of potential developments, (2) identify and assess underutilized properties to develop strategies for their highest and best use, (3) encourage and support development within the Village in conjunction with existing corridor plans, land uses and the Village's development goals, (4) investigate and recommend incentives to facilitate economic growth, (5) maintain relationships with existing businesses and make recommendations to retain, enhance and market, (6) receive direction from the Board of Trustees and provide feedback and recommendations and (7) coordinate economic development outreach to surrounding units of local government. The Village also utilizes an economic development consultant to assist with economic development efforts. The Village

has a strong commercial presence at River Forest Town Center as well as strong grocery shopping options from stores such as Whole Foods, Jewel and Fresh Thyme Farmers Market. The Village continues to look at efforts at Lake and Park for an infill development to complement the Lake Street corridor. In Fiscal Year 2020, the Village purchased the parking lot at 418 Franklin Avenue for use in future development in this corridor. All of these efforts have positive effects on our ability to help strengthen the overall property value in River Forest and add new value to stabilize the property tax base.

Real estate activity in the Village has flourished in recent years. Building permit applications for property improvements and new construction of homes also continue to be submitted for approval from the Village. In fiscal year 2021 we continued to see more sales of property and increases in property values.

The Village's equalized assessed valuation (EAV) increased \$83.3 million, or about 14.95%, from \$557.1 million with the 2019 levy year to \$640.4 million in the 2020 levy year. Cook County is divided into three regions for assessment purposes and each of these regions is reassessed every three years ("triennials"). The Village is part of the southern and western suburbs which were reassessed for tax year 2020. Property values increased with the reassessment in 2020. The

River Forest Township Assessor reported that between the 2017 and 2020 reassessments, the median change in assessed value was 11.6%. Increased property values, however, do not necessarily result in an increase in property tax revenues. Only new property or an increase in the Consumer Price Index results in higher revenues. New property includes taxable commercial and residential improvements during the year and property value associated with home improvement exemptions that expired during the three years prior to the reassessment year. New property totaled \$1,161,381 in 2020 and was primarily due to residential construction. The Village collected \$168,473 from its .1% residential real estate transfer tax from property sales during the year.

Property values remained stable in 2020. In non-reassessment years generally the only changes to the Equalized Assessed Value are due to new property, assessment appeals by residential and commercial property taxpayers, and changes to the equalization factor calculate by the State. The state-wide equalization factor went up which effected the EAV of the Village.

| Year | Equalized<br>Assessed<br>Value | Increase<br>(Decrease) | %Increase<br>(Decrease) |
|------|--------------------------------|------------------------|-------------------------|
| 2020 | \$640,383,684                  | \$83,286,368           | 14.95%                  |
| 2019 | \$557,097,316                  | (\$7,895,363)          | -1.40%                  |
| 2018 | \$564,992,679                  | (\$21,310,194)         | -3.63%                  |
| 2017 | \$586,302,873                  | \$100,718,363          | 20.74%                  |
| 2016 | \$485,584,510                  | \$15,236,112           | 3.24%                   |

#### **Equalized Assessed Value**

Commercial, institutional and residential building activity during the fiscal year saw reductions from the prior year due to the permit fees associated with the Sheridan, the senior living facility that were received in the prior year. In Fiscal Year 2021, 217 building permits were issued with a value totaling \$22,432,805 for residential, institutional and commercial property improvements and new residential and industrial development.

The median family income within the Village is \$156,835, which is significantly higher than the State as a whole. The median family income for the State based on the U.S. Census Bureau 2006-2010 survey was \$68,236.

### Long-Term Financial Planning

As part of the budget process, the Village Board meets to develop long-term goals for the Village. Three-year financial plans are prepared for the General, Capital Improvement and Waterworks and Sewerage Funds based on these goals, financial policies, the Capital Improvement Program, and future revenues and expenditures assumptions.

The Village prepares a five-year Capital Improvement Program (CIP) each year at the beginning of the budget process. The CIP is a multi-year planning instrument used to identify needed capital projects for improvements to Village buildings, equipment and infrastructure and capital equipment purchases, and to coordinate the financing and timing of these improvements. The program includes vehicles and equipment, building and other improvements, street, curb, sidewalk and alley construction and rehabilitation and the replacement of water and sewer infrastructure. Each year buildings have been evaluated and any recommended building improvements were included in the FY 2021 Capital Improvement Program. Each year the CIP is updated to incorporate new capital projects, changing goals and priorities, and additional funding sources.

The Village has a Capital Equipment Replacement Fund (CERF) to accumulate resources for vehicle and equipment replacement and some building improvements. Monies are set aside annually via transfers from the General and Waterworks and Sewerage Funds to finance the replacements. The amount of the annual transfer is determined based on the expected replacement cost divided by expected life of the vehicle or equipment. The CERF Fund is fully funded assuming future annual contributions from the General and Waterworks and Sewerage Funds.

The automated traffic signal enforcement fines are deposited into the Capital Improvement Fund, which is used for building and infrastructure improvements including alley, parking lot, building, information technology and other miscellaneous improvements. Last fiscal year the Village terminated its contract with the vendor in charge of these traffic signal enforcement cameras and are awaiting approval from Illinois Department of Transportation to approve the new contract the Village has entered into with a new vendor. At this time no revenues are being collected. The Motor Fuel Tax Fund is used for street improvements and is primarily funded with State Motor Fuel Tax Allotments. Street improvements are also periodically funded with General Obligation Debt.

#### **Relevant Financial Policies**

The Village's financial policies are intended to solidify the Village's long-term financial strategies and to provide guidance to management in preparing the budget and handling the Village's fiscal affairs. The financial policies address financial planning, revenues, expenditures, fund balance, reserves, capital improvements and accounting and financial reporting. The Village expanded their existing financial policies a couple of years ago to include an updated fund balance policy. The Village also has separately issued Investment, Purchasing, Travel, Capital Assets, Pension Funding and Grant Administration Policies.

The Village initially approved Pension Funding Policies for the Police and Firefighters' Pension Funds during Fiscal Year 2015. These comprehensive funding policies stipulate the actuarial assumptions to be used in determining the Village's contribution to the funds each year. These funding policies have periodically been reviewed for both funds to evaluate the pension funding progress and to determine if adjustments are needed. The Pension Funding Policies for both funds remain the same and include a 7% interest rate assumption. In the previous policy the Police Pension Fund used a 6.75% interest rate assumption. Both boards now use the same investment consultant and have the same authority to invest so the same rate for both is being used. The Fire Pension Board also approved the Policy. The Police Board intends to continue to use a 6.75% interest rate assumption in its Property Tax Levy recommendation to the Village Board. These current policies were used in the May 1, 2021 actuarial reports that determine the pension contribution included in the 2021 Property Tax Levy that will be presented for approval in December of 2021.

According to the Village's Fund Balance Reserve Policy, the General Fund unassigned fund balance, plus the amount restricted for working cash, should be maintained at a minimum of 25% of the General Fund total budgeted annual expenditures in the most recently approved annual budget. At April 30, 2021, this portion of fund balance is \$5,523,073 or 33.3% of Fiscal Year 2022 budgeted expenditures. This minimum fund balance policy is intended to provide financing for unanticipated expenditures and to prevent cash flow shortages.

| General Fund   |   |   |  |  |  |  |  |  |  |  |
|----------------|---|---|--|--|--|--|--|--|--|--|
| Fiscal<br>Year | Unassigned Fund Balance plus<br>Restricted for Working Cash | Percentage of Subsequent<br>Year's Budgeted<br>Expenditures |  |  |  |  |  |  |  |  |
| 2021           | \$5,523,073   | 33.3%   |  |  |  |  |  |  |  |  |
| 2020           | \$5,219,038   | 31.1%   |  |  |  |  |  |  |  |  |
| 2019           | \$5,562,611   | 33.6%   |  |  |  |  |  |  |  |  |
| 2018           | \$5,900,900   | 37.2%   |  |  |  |  |  |  |  |  |
| 2017           | \$7,466,557   | 47.2%   |  |  |  |  |  |  |  |  |
| 2016           | \$6,933,290   | 44.8%   |  |  |  |  |  |  |  |  |
| 2015           | \$6,628,343   | 44.5%   |  |  |  |  |  |  |  |  |

The decline in the Village's Unassigned Fund Balance was due to a planned drawdown of reserves to fund non-reoccurring one time budgeted expenditures and still remain above minimum fund balance policy limits.

#### **Major Initiatives**

It has now been a full year since the onset of the COVID-19 pandemic. Looking back on FY 2021,

we must take a moment to reflect on the unprecedented challenges it has caused and the Village's response to this crisis. In River Forest, as in all other communities, the Village immediately adjusted its operations in order to provide services to the community while protecting the health of those that are served and those who serve. The Village also expanded the services offered to those most vulnerable to the COVID-19 virus to assist them during this time. Under the leadership of the Village Board of Trustees and the Village's management team, the staff has worked hard to seek ways to enhance revenues, reduce costs, and

improve efficiencies in order to reduce the financial burden on the community.

Economic development continued to be an important focus for the organization in an effort to continue to improve property values as well as stabilize our property taxes. There were several instances to highlight. While no new development projects were proposed in FY 2021, The Sheridan, a 125 assisted living and memory care unit development was completed and is now fully operational. The facility is owned and operated by Senior Lifestyle and will be one of the top taxpayers in the community. The total investment in the project is over \$35 million.

The Village and its Economic Development Commission have been working on redevelopment possibilities for the Madison Street TIF District. The Village continues to have a strong commercial presence at River Forest Town Center as well as strong grocery shopping options from stores such as Whole Foods, Jewel and Fresh Thyme Farmers Market. All of these efforts have positive effects on the Village's ability to help strengthen the overall property value in River Forest and add new value to stabilize the property tax base. Finally, the Village continues to look at efforts at Lake and Park for an infill development to complement the Lake Street corridor.

A Tax Increment Financing (TIF) District, which was located along Lake Street, was closed effective December 31, 2010. Prior to that date, several contracts were approved committing TIF Funds for future development within the district. The funds were recorded in the Economic Development Fund to be used for development within the area. During Fiscal Year 2014, the Village entered into an agreement to utilize a portion of these funds to incent two businesses to locate within the Village Town Center. The businesses contribute to the Village's municipal and non-home rule sales tax revenue. There were no payments made this fiscal year either due to agreements being fulfilled or retail vacancies. In Fiscal Year 2021, the commercial development at the intersection of Lake and Lathrop planned development was approved and remediation has been completed. Permits for the construction have been submitted to the Village and construction is expected to begin in the fall of 2021.

Liability risk is managed by maintaining sufficient insurance and also through routine monitoring of potential loss situations. A safety committee, comprised of employee representatives from each Village department, meets regularly to review accident and injury reports involving employees. The safety committee makes recommendations and suggestions to improve and promote workplace safety. The Village also participates in a risk management program that is administered by the Intergovernmental Risk Management Agency (IRMA). IRMA is a consortium of 70 local municipalities and special service districts in northeastern Illinois that work together to manage risk and fund their property, casualty, and workers' compensation claims.

The Village issued \$525,000 in General Obligation Limited Tax Bonds, Series 2020 in Fiscal Year 2020. The bonds are payable from a property tax levy using the Village's available debt service extension base as defined in the Property Tax Extension Limitation Law. The proceeds have been deposited in the Infrastructure Improvement Bond Fund and have been used to fund street improvements. The Village's Standard & Poor's bond rating is AAA due to the Village's very strong financial performance, good financial management and policies, budgetary flexibility, strong reserves, and low debt burden. The rating also reflects the Village's accessibility to and participation in the deep and diverse Chicago metropolitan area and its very strong local economy.

#### Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) has established a Certificate of Achievement for Excellence in Financial Reporting Program for state and local governments. The GFOA's Certificate of Achievement is the highest form of recognition for excellence in government financial reporting.

In order to be awarded a Certificate of Achievement, the Village of River Forest must go beyond the minimum requirements of generally accepted accounting principles and prepare a comprehensive annual financial report (CAFR) that evidences the spirit of transparency and full disclosure.

The Village earned the GFOA's Certificate for the CAFR provided for the fiscal year ended April 30, 2020, for the thirteenth consecutive year. It was determined that the CAFR for that year sufficiently applied the appropriate generally accepted accounting principles, met applicable legal requirements, and also satisfied the reporting requirements of the GFOA's certificate program. A copy of the Certificate of Achievement for the fiscal year ended April 30, 2020, is provided on page xi. A Certificate of Achievement is valid for only one year. I believe this CAFR, for the fiscal year ended April 30, 2021, meets the GFOA's Certificate of Achievement program requirements, and it will be submitted to the GFOA to determine its eligibility for the Certificate of Achievement.

The Village also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the Year ended April 30, 2021. To qualify for the award, the Village's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device.

This CAFR is the result of a well-functioning team that admirably weathered fiscal challenges and staffing changes. All Village management and department staff were responsible for successfully maintaining good accounting records, which are essential to the preparation of the Comprehensive Annual Financial Report (CAFR). The Village President and Board of Trustees were diligent in reviewing the periodic financial reports, evaluating the Village's fiscal condition, and making leadership decisions to ensure that the Village maintains its sound fiscal bearing.

The preparation of this CAFR on a timely basis was made possible by the efficient and dedicated service of the entire Administration Department. I express my sincere appreciation to each member of the Department for their contributions. I would especially like to thank Lisa Scheiner, the Acting Village Administrator, for her leadership and guidance, Keke Boyer, Assistant Finance Director, for her dedication, cooperation, and hard work during the audit, Jonathan Pape, Assistant to the Village Administrator, for his assistance with the Statistical Section of the report, and finance clerks Kathy Kasprzyk, Kathleen Gaertner, Adriana Holguin and Nancy Sabia for their dependability, accuracy and thoroughness in processing transactions. It is the careful and conscientious attention on all levels of Village management and operational staff that has made the commendable preparation of this CAFR

Respectfully submitted,

## Village of River Forest Illinois

For its Comprehensive Annual Financial Report For the Fiscal Year Ended

April 30, 2020

Christopher P. Morrill

Executive Director/CEO

**Financial Section** 

Independent Auditor's Report

### Independent Auditor's Report

Honorable Village President and Members of the Board of Trustees Village of River Forest, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of River Forest, Illinois, as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Honorable Village President and Members of the Board of Trustees Page 2

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information of the Village of River Forest, Illinois, as of April 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As described in Note 1, for the year ended April 30, 2021, the Village adopted Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. Our opinions are not modified with respect to this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information for the General Fund, and pension and other postemployment benefit information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of River Forest, Illinois' basic financial statements. The introductory section, combining, individual fund, capital asset financial statements and schedules, and other supplementary information, and the statistical section as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the 2021 basic financial statements.

The 2021 combining, individual fund, capital asset financial statements and schedules and other supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing

Honorable Village President and Members of the Board of Trustees Page 3

standards generally accepted in the United States of America. In our opinion, the 2021 combining, individual fund, capital asset financial statements and other supplementary information are fairly stated, in all material respects, in relation to the 2021 basic financial statements as a whole. We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the Village's basic financial statements as of and for the year ended April 30, 2020, which are not presented with the accompanying financial statements. In our report dated October 7, 2020, we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information. In our opinion, the 2020 actual amounts included as supplementary information are fairly stated in all material respects in relation to the basic financial statements as of and for the year ended April 30, 2020, taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2021, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

BKD,LIP

Oakbrook Terrace, Illinois October 18, 2021

#### Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

#### **Independent Auditor's Report**

Honorable Village President and Members of the Board of Trustees Village of River Forest, Illinois

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of River Forest, as of and for the year ended April 30, 2021, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements and have issued our report thereon, dated October 18, 2021. Our report contained an "Emphasis of Matter" paragraph regarding a change in accounting principles.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Honorable Village President and Members of the Board of Trustees Page 5

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BKD,LIP

Oakbrook Terrace, Illinois October 18, 2021 Management's Discussion and Analysis

## VILLAGE OF RIVER FOREST, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) APRIL 30, 2021

The Village of River Forest (the Village) Management's Discussion and Analysis (MD&A) is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address challenges in the subsequent years), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

The MD&A focuses on the current year's activities, resulting changes, and currently known facts and should be read in conjunction with additional information that we have furnished in the Letter of Transmittal, which can be found on pages i-ix of this report.

#### **FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of the Village exceeded its liabilities and deferred inflows at April 30, 2021 by \$4,589,436.
- ➡ The Village's total net position increased by \$1,790,260 during the fiscal year. Governmental activities net position increased by \$812,764 and business-type activities net position increased by \$977,496.
- Deferred outflows of resources decreased \$2,374,082 to \$5,006,462 and deferred inflows of resources increased \$5,820,820 to \$12,846,722.
- ➡ The Village's combined governmental funds ending fund balance increased by \$784,205 to \$16,976,628.
- At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$4,988,041, an increase of \$304,035. The nonspendable fund balance in the fund increased by \$828,603 to \$5,700,232.
- Net capital assets of governmental activities decreased by \$332,027 and business-type activities increased by \$259,148 in the current fiscal year due to the acquisition of vehicles, equipment and buildings and infrastructure improvements reduced by depreciation expense and the disposal of capital assets.
- The Village's long-term liabilities decreased by \$8,368,254 to \$54,042,131. Long-term liabilities include \$35,046,041 in Net Pension Liabilities, which decreased \$7,965,135 from the prior fiscal year. The OPEB total liability of \$6,547,959 is also included in long term liabilities. Other long-term liabilities were reduced due to bond and loan principal payments during the fiscal year.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Village of River Forest's basic financial statements. The Village's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial

statements. The Governmental Accounting Standards Board (GASB) reporting model stipulates that the government financial activities are presented in two ways: as government-wide accrual-based statements, and as modified-accrual fund statements. This overview provides an explanation of the differences between these statements. Basically, the government-wide statements provide information on the financial condition of the Village as a whole, while the fund statements provide information on the availability and use of resources that are segregated for specific purposes. The Comprehensive Annual Financial Report (CAFR) also includes other elements that are essential to understanding the statements. These include the Required Supplementary Information, and the Combining, Individual Fund, and Capital Asset Financial Statements and Schedules and Other Supplementary Information.

#### **Government-wide Financial Statements**

The Government-wide Financial Statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the Village's assets and liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. The focus of the Statement of Net Position (the "Unrestricted Net Position") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the Village's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities reflect the Village's basic services, including general government, development, public safety (police and fire), public works, highways and streets, and sanitation. Property taxes, non-home rule sales taxes, shared state sales taxes, local utility taxes, shared state income taxes, and intergovernmental taxes finance the majority of these activities. The business-type activities reflect private sector-type operations (Waterworks and Sewerage Fund), where the fee for service typically covers all or most of the cost of operation, including depreciation.

The government-wide financial statements can be found on pages 23-26 of the report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund

financial statements provide more complete and detailed information about the Village's major functions and activities. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

#### **Governmental Funds**

Governmental funds are used to account for essentially the same functions as reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, however, governmental fund statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Depreciation is not included in the governmental fund statements because depreciation does not represent the use of current financial resources. Similarly, long-term debt is not shown on the balance sheet because it does not relate to the use of current financial resources. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Village's near-term financing decisions. Both the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains nine individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Capital Equipment Replacement, Capital Improvement and Madison Street TIF Funds, which are considered major funds. There are five nonmajor governmental funds: the Motor Fuel Tax (MFT), Debt Service, Economic Development, North Avenue TIF and the Infrastructure Improvement Bond Funds. Data from the nonmajor governmental funds are combined into a single, aggregated presentation. More detailed information on

each individual fund is presented in the section entitled: Combining, Individual Fund and Capital Asset Financial Statements and Schedules, starting on page 106. The Village adopts an annual budget for each governmental fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget. The governmental fund financial statements can be found on pages 27-30, in the Basic Financial Statements section of this report.

#### **Proprietary Funds**

Proprietary funds are presented in the same manner in both the fund statements and government-wide statements, with depreciation as an expense and long-term debt included in the calculation of net position. The fund statements provided in this report provide additional detail. The Village maintains one proprietary fund, an enterprise fund called the Waterworks and Sewerage Fund. The statements for this fund can be found on pages 31-34 of this report.

#### VILLAGE OF RIVER FOREST ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

#### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Activities from fiduciary funds are not included in the Village's government-wide financial statements because the resources of these funds are not available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Village has two fiduciary funds: the Police Pension Fund and the Firefighters' Pension Fund, each of which are managed by separate boards. The combining fund statements, the Statement of Fiduciary Net Position – Pension Trust Funds and the Statement of Changes in Fiduciary Net Position – Pension Trust Funds and 36 of this report.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 37-92 of this report.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including the major General Fund budgetary schedule and data concerning the Village's progress in funding its obligation to provide pension and other postemployment benefits to its employees. Required supplementary information can be found on pages 93-105 of this report.

Combining, Individual Fund and Capital Asset Financial Statements and Schedules can be found on pages 106-136 of this report. The Other Supplementary Information Schedules, on pages 137 and 138, include detailed long-term debt payment information. The Statistical Section, on pages 139-172, includes information on government-wide revenues and expenditures, property taxes, and additional information.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The following analysis provides an overview of the Village's financial activity, discusses the Village's current financial position and its ability to address future challenges, identifies specific concerns to individual funds, and explains material deviations from the Village's original budget.

#### **Statement of Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Village's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$4,589,436 as of April 30, 2021. The largest portion of the Village's net position reflects its net investment in capital assets of \$30,718,690, including land, buildings, infrastructure, vehicles and equipment, less any related outstanding debt used to acquire or construct those assets. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted net position of \$1,992,840 represents resources that are subject to external restrictions on how they may be used. The Village has an overall unrestricted net deficit of (\$28,122,094) due to the

implementation of GASB 68 in fiscal year 2016 which required the Net Pension Liability and associated Deferred Inflows and Outflows for Police, Firefighter and Illinois Municipal Retirement Fund (IMRF) Regular and Sheriff's Law Enforcement Personnel (SLEP) pension plans to be recorded on the Statement. The deficit increased further with the implementation of GASB 75 in fiscal year 2019 which required the Total OPEB Liability and associated Deferred Inflows and Outflows also be recorded on the Statement. The Village's combined net position increased by \$1,790,260 as a result of both the governmental activities increasing \$812,764 and business-type activities increasing \$977,496. The following table reflects the condensed Statement of Net Position:

#### Village of River Forest, Illinois **Statement of Net Position** April 30, 2021 and April 30, 2020 Governmental **Business-Type** Activities Activities Total 2021 2020 2020 2021 2020 2021 Assets Current and Other Assets 20,264,821 \$ 23,570,644 \$ 22,268,353 \$ 3,143,571 \$ 3,305,823 \$ 25,411,924 Ś **Capital Assets** 20,192,202 20,524,229 22,193,797 21,934,649 42,385,999 42,458,878 **Total Assets** 42,460,555 40,789,050 25,337,368 25,240,472 67,797,923 66,029,522 **Total Deferred Outflows of Resources** 4,887,666 7,214,621 118,796 165,923 5,006,462 7,380,544 Liabilities Current 961,318 529,225 364,778 645,378 1,326,096 1,174,603 49,715,957 62,410,385 Long-Term Liabilities 42,150,245 11,891,886 12,694,428 54,042,131 **Total Liabilities** 43,111,563 50,245,182 12,256,664 13,339,806 55,368,227 63,584,988 **Total Deferred Inflows of Resources** 6,882,961 12,846,722 7,025,902 12,548,366 298,356 142,941 **Net Position** Net Investment in Capital Assets 20,180,011 20,524,229 10,538,679 9,630,737 30,718,690 30,154,966 Restricted 1,967,571 1,522,873 25,269 25,269 1,992,840 1,548,142 Unrestricted (Deficit) (30,459,290) (31, 171, 574)2,337,196 2,267,642 (28, 122, 094)(28,903,932) **Total Net Position** (8,311,708) \$ (9,124,472) \$ 12,901,144 \$ 11,923,648 \$ 4,589,436 2,799,176 \$

The net position of the Village's governmental activities was (\$8,311,708). The Village's unrestricted net position from governmental activities was (\$30,459,290), an increase of \$712,284 The net increase is due to a decrease in the net pension liability and associated deferred inflows offset by the deferred outflows which are recorded in accordance with GASB 68 and the recognition of the total OPEB liability recorded in accordance with GASB 75. With both GASB 68 and GASB 75, the Net Pension Liability and the Total OPEB liability and associated Deferred Inflows and Outflows are recorded in the Statement of Net Position. The Net Pension Liability is the actuarially determined Total Pension Liability less the Plan Fiduciary Net Position of each plan. The OPEB liability was measured as of April 30, 2021, as determined by an actuarial valuation. The net increase in unrestricted net position associated with pensions totaled \$234,038 for the fiscal year. The total Net Pension Liability decreased but the impact on the unrestricted net position was also affected by the change in the Deferred Inflows and Outflows are affected by demographic changes including new hires, retirements, and promotions, variances from expected salary increases, asset returns, and contributions and assumption changes.

The Net Pension Liability is the unfunded pension liability that is calculated by an actuary and includes the Village's Total Pension Liability for Police, Firefighters and IMRF and SLEP plans, less each plan's Fiduciary Net Position or the amount available to fund the liability. Deferred inflows and outflows of resources are also recorded because some of the changes to the Total Pension Liability are recognized over time rather than in the current year. Deferred inflows are increases to net position that will be

recognized in future years. Deferred outflows will decrease net position in future years. The Deferred Outflows, Deferred Inflows and Net Pension Liabilities associated with the Village's pension plans included in the Village's Statement of Net Position in Fiscal Year 2021 and 2020 are as follows:

| I   | \pril | 30, 2021     |                     | -            | •  |             |    |           |    |           |    |           |  |

Impact of the Pension Liabilities on Net Position

Contributions to the Police and Firefighters Pension Plans were based on the actuarial valuations provided by actuarial consultants. The Village had a five-year transition plan to reach full contribution amounts. During the transition plan, contributions were less than the full contribution recommended by the actuary based on the approved Pension Funding Policies. In fiscal Year 2021, per the policy full contribution amounts were levied.

The increase in the Unrestricted Net Position is due to the decrease in the net pension liabilities and related deferred inflows and outflows of \$234,038 and the OPEB liability net increase of \$527,408 for fiscal year 2021. The Restricted Net Position in the governmental activities increased \$444,698 due to the timing of road construction projects and economic development. There was a decrease in the Net Investment in Capital Assets of \$344,218 due to the vehicle, equipment and land purchases and capital improvements during the fiscal year, less depreciation, disposals and capital related debt payments.

The Net Position of business-type activities was \$12,901,144, an increase of \$977,496 from FY 2020. Operating revenues exceeded operating expenses including depreciation by \$1,234,078. Water and sewer revenues were slightly higher due to an increase in billed water consumption as a result of varying weather conditions and more consumption because more individuals are working from home due to the pandemic. Rates were increased 1.00 % in June 2020 to fund the rate increase from the City of Chicago for water. There was no increase in rates to cover operating and capital improvements costs. The overall net position increased due to revenues from the increased water and sewer rates less the operating costs. The Net Investment in Capital Assets increased \$907,942 due to current year debt payments and capital purchases funded with reserves, less current year disposals and depreciation. The unrestricted net position increased by \$69,554. This is due to reduced spending that had a positive change in net position resulting from operations. The unrestricted net position may be used to fund infrastructure improvements and operating costs in the future. The net position associated with the IMRF pension asset and related deferred outflows and inflows recorded increased by \$94,093 from Fiscal Year 2020 and the liabilities associated with the total OPEB liability and related deferred outflows and inflows decreased by \$9,503.

#### **Governmental Activities**

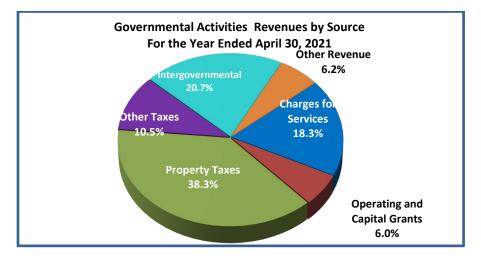

Governmental activities increased the Village's net position by \$812,764. The COVID-19 epidemic forced our organization into making very quick adjustments and changes in how we conduct business. It also had an immediate effect on revenues. Key elements contributing to the increase in net position due to current year activities are as follows:

#### Revenues

For the fiscal year ended April 30, 2021, revenues from governmental activities totaled \$18,525,067, a decrease of \$154,293. Property taxes continue to be the Village's largest revenue source totaling \$7,089,739 and representing 38.3% of total governmental activities revenue. Other Taxes including, utility, non-home rule sales and transfer taxes totaled \$1,939,751 or 10.5%. Intergovernmental revenues including State sales tax, income tax and other intergovernmental revenues, totaled \$3,839,038 or 20.7% of the total governmental activities revenues. Charges for Services include revenues from licenses and permits, fines, sanitation services, ambulance charges and other fees.

Property tax revenues were up \$9,813 or .14% in Fiscal Year 2021. Revenues include collections from the 2019 and 2020 Property Tax Levies. The extended 2020 Property Tax Levy was 1.78% higher than the 2019 levy. The Village tax levy forgoes the expected annual increase based on the Consumer Price

Index of 2.3% from December 2018 to December 2019 and the increase in the levy is due to any additional amounts for new property. Approximately half of the 2019 and 2020 Property Tax Levies, plus collections from prior years, were received during FY 2021. The increase in revenues was higher because of the timing of actual payments from the two levies and because the 1<sup>st</sup> installment of the 2020 levy is an estimate based on the 2019 levy.

Non-Home Rule Sales Tax revenues had a slight decline from the prior year. This is due in part to the lockdown during the pandemic where many businesses were not open to the public. Utility taxes are slightly higher due to weather conditions that affect consumption and that many individuals are now working from home. Real Estate Transfer Taxes remain stable due to continued residential homes sales activity and higher prices.

Intergovernmental Revenues include wireless, sales, state income, use and replacement taxes. State Use Tax continues to rise due to increased collections from online sales. Amazon began assessing the tax on purchases in the State beginning in February of 2015. State Income Tax revenue increased due collections being greater than expected. The Emergency 911 tax is now distributed directly to West Suburban Consolidated Dispatch Center (WSCDC) which handles our emergency dispatching service. The tax that they receive reduces the amount we are required to pay to the center.

| Garbage Collection Charges | 1,149,298    | 1,109,020        | 40,278     | 3.6%       |  |  |  |  |  |  |  |

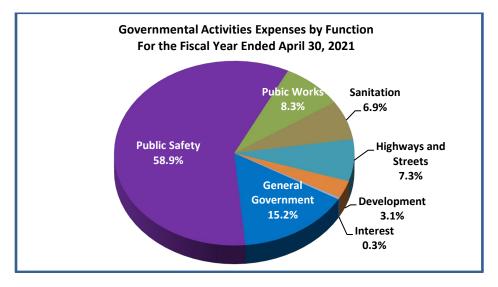

#### Changes in Select Governmental Activities Revenues For the Fiscal Years Ended April 30, 2021 and April 30, 2020

Building permit revenue had a significant decrease. This mainly due to the large planned development, the Sheridan, that was completed. Those building permit revenues were recorded in FY 2020. This permit revenue is recognized when the final plans are received by the Village. Garbage collection

charges are higher due to a 2.50% increase in the cost of sanitation services that is passed on to the customers and an increased demand for the new composting service.

#### Expenses

For the fiscal year ended April 30, 2021, expenses from governmental activities totaled \$17,712,303, a decrease of \$2,513,518 or 12.43% from Fiscal Year 2020. General Government includes Administration and Finance, Police and Fire Commission, Emergency 911 and Legal. Development includes the Building Division and Economic Development expenses. Salaries have been adjusted per increases in the collective bargaining agreements and for non-union employees. FY 2021 was impacted by the COVID 19 pandemic. All governmental activities saw decreases in expenditures except for Highways and Streets and Sanitation. This is due to the reduction in non-essential purchases and the suspension of the internal transfer for capital equipment purchases. These measures were taken to make sure that the Village's strong financial position would remain healthy throughout the pandemic. Also, the contractual increases in Public Safety salaries were partially offset by lower employee salaries due to retirements and resignations and the resulting position vacancies being filled with new hires that are paid at a lower rate.

The chart below shows the GASB 68 pension expense reflected in the Statement of Activities by plan:

|                    | Governmental Activities<br>GASB 68 Pension (Income) Expense by Pension Plan |         |     |              |    |               |    |           |    |           |
|--------------------|---|---------|-----|--------------|----|---------------|----|-----------|----|-----------|
|                    |   |         |     | Firefighters |    |               |    |           |    |           |
| <b>Fiscal Year</b> |   | IMRF    | IIV | IRF/ SLEP    | Р  | olice Pension |    | Pension   |    | Total     |
| 2021               | \$  | 16,048  | \$  | 25,268       | \$ | 1,187,487     | \$ | 1,732,487 | \$ | 2,961,290 |
| 2020               |   | 281,931 |     | (14,115)     |    | 2,256,056     |    | 2,861,384 |    | 5,385,256 |
| 2019               |   | 148,414 |     | 2,861        |    | 1,471,739     |    | 2,302,914 |    | 3,925,928 |

Pension expense is the difference between the Net Pension Liability and Deferred Inflows and Outflows from the prior to the current year and includes the current year service cost, interest on the Total Pension Liability, administrative expenses, less projected investment earnings, current employee contributions and the impact of any changes in plan benefits. Pension expense is adjusted by current year recognition of any deferred inflows or outflows due to differences between projected and actual investment earnings and changes to the Total Pension Liability due to revised actuarial assumptions or unexpected actuarial experience. This fiscal year pension expense decreased in all funds due to the actuarial assumptions

used and the market values at year end. Both pension funds now use the same investment consultant and have the same statutory ability to invest. At year end the Total Pension Liability is a snapshot at April 30, 2021. The pandemic caused the economy and investments to sharply decline and then rebound which also is factored into the decrease in the liability.

### **Business-Type Activities**

Business-type activities increased the Village's net position by \$977,496 to \$12,901,144.

### Revenues

Water and sewer sales saw an increase of \$485,590 or 9.9% in Fiscal Year 2021 due to higher billed consumption and a 1.00% overall rate increase effective June 1, 2020 to cover a water rate increase by the City of Chicago. The City ordinance provides for a rate increase of 5% or the increase in the Consumer Price Index, whichever is lower. The June 1, 2020 increase was 2.45%. The overall sales revenue increase was higher than expected due to an increase in billed water consumption due to more individuals working from home during the pandemic and weather conditions.

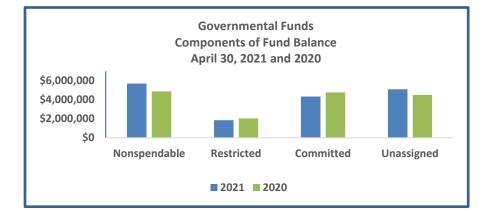

### Expenses

Expenses from business-type activities decreased \$20,582 or .46% to \$4,438,063. Salaries and benefits saw a slight decrease. This was mainly due to vacancies in some part-time positions during the pandemic. The cost of water from the City of Chicago increased due to water consumption and we saw decreases in water and sewer infrastructure maintenance costs. Expenses also include the interest on the IEPA loan for the Northside Stormwater Management Project (NSMP) that was completed in fiscal year 2017. The pension expense for the business type activities was \$4,835. The Employees in the Waterworks and Sewerage Fund are all covered by the IMRF Plan. The OPEB expense for business type activities was \$9,503.

### FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

As noted earlier, the Village of River Forest uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year as they represent the portion of fund balance which has not been limited to use for a particular purpose by either an external party, or by the Village itself.

As of the end of the current fiscal year, the governmental funds reflect a combined fund balance of \$16,976,628 (as presented on pages 27-30), an increase of \$784,205 from the prior year. Of the total fund balance, \$4,970,286 is unassigned fund balance, which is available for spending at the Village's discretion. The remainder of fund balance is either nonspendable, restricted or committed to indicate that it is not in spendable form (\$5,700,232), legally required to remain intact (\$1,969,025) or committed by the Village for a particular purpose (\$4,337,085). The increase in unassigned fund balance was due to the limiting of non-essential expenditures and increases in some revenues which helped minimize the use of reserves to fund non-reoccurring one time budgeted expenditures and still remain above minimum fund balance policy limits.

### **Governmental Funds**

## **General Fund**

The General Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. The 2021 unassigned fund balance for Village's General Fund increased by \$304,035 to \$4,988,041 and the nonspendable fund balance increased by \$828,603 to \$5,700,232. The increase in the Deposit with Intergovernmental Risk Management Association (IRMA), a public entity risk pool was the primary reason for the increase in the nonspendable fund balance. The total fund balance increased by \$1,135,482 to \$11,339,787. This net increase is because actual revenues exceeded expenditures during the year. Property taxes were down slightly from the prior year. Sales tax and income tax had slight increases and non-home rule sales taxes were lagging slightly from the prior year. Revenues overall were up also because of the net change in the IRMA deposit. Property Tax revenues include the second installment of the 2019 levy collected in the fall of 2020, and the first installment of the 2020 levy collected in the spring of 2021. Expenditures were also slightly lower which resulted in an overall increase in fund balance.

General Government expenditures are lower than the prior year due partly to a decrease in the annual liability insurance contribution. Favorable claims experience allows for reductions in the Village's contribution to the IRMA risk pool. Building Department salaries were slightly higher due to the filling of vacancies during the year. Some contractual services were higher due to outsourcing some of the needed services while positions were being filled. Overall Public Safety expenditures are slightly lower. Salaries include projected increases for employees and promotions that are expected when the collective bargaining agreements for both the Police and Fire are agreed upon. Public Safety pension contributions were increased per the actuarial valuations prepared by an outside actuary as part of the Pension Funding Polices for the funds approved by the Village Board and the respective pension boards. The actual expenses are based on property tax collections and collections were delayed for the first installment in 2021 and were not received until after the year ended. Public Works expenditures reflect decrease in the purchase and maintenance of trees and salary increases per the approved collective bargaining agreement. Sanitation represents the fee paid to the Village's refuse contractor and includes a contractual 2.50% increase.

According to the Village's financial policy, the General Fund unassigned fund balance, plus the amount restricted for working cash, should be maintained at a minimum of 25% of the General Fund total budgeted subsequent year expenditures to adequately cover unanticipated expenditures, revenue shortfalls or cover negative cash flows due to the timing of property tax receipts. At April 30, 2021, this amount is \$5,523,073 or 33.3% of Fiscal Year 2022 budgeted General Fund expenditures.

### **Other Major Governmental Funds**

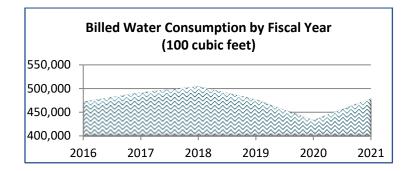

The Capital Equipment Replacement Fund (CERF) is used to accumulate resources for the purchase of Village vehicles, equipment, and improvements. The fund balance in CERF decreased \$32,555 during the fiscal year to \$3,792,993 because revenues and other financing sources were less than capital expenditures. Many purchases were able to be deferred to later years without reducing the quality of services to the Village. Purchases included Police and Public Works vehicles and equipment including street camera additions. The Capital Improvement Fund (CIF) is used to account for various infrastructure improvements including alleys, commuter parking lots and streets. The CIF fund balance decreased \$413,010 during the fiscal year to \$544,092. Expenditures were for information technology initiatives and alley improvements. The Madison Street TIF Fund balance increased \$286,056 to \$125,631. Incremental property tax revenue collections totaled \$370,793 for Fiscal Year 2021.

### **Proprietary Fund**

At April 30, 2021 the Waterworks and Sewerage Fund (as presented on pages 31-34) total net position increased by \$977,496 to \$12,901,144. Operating revenues exceeded operating expenses including depreciation. Water and Sewer Sales are higher because water consumption increased during the year and the water rate increase of 1.00% on June 1, 2020 to cover the City of Chicago rate increase. There were no additional rate increases for operating costs, including water and capital improvements. The increase in consumption was due to warmer and dryer weather conditions and more people working from home due to the pandemic and lockdown. Expenses include the interest on the IEPA Loan that was used to finance the NSMP.

### Waterworks and Sewerage Fund Schedule of Changes in Net Position

### **GENERAL FUND BUDGETARY HIGHLIGHTS**

General Fund actual revenues were \$808,038 more than the final budgeted amount. Income tax revenues were higher due to the State's 5% reduction in distributions being eliminated and higher than expected receipts. Use tax revenues continue to exceed projections and due to COVID 19 more online purchases are being made. Contributions and grants were higher than expected due to the receipt of Covid Relief Funds (CRF) pursuant to the CARES Act in the amount of \$112,942 allocated to River Forest and a reimbursement of \$31,035 from the Federal Emergency Management Agency (FEMA) for reimbursement of expenses directly related to the mitigation of COVID 19. These increases were offset by licenses and permits coming in less than the budgeted amounts.

| General Fund Bud | lgetary Highli | ghts        |   |
|------------------|----------------|-------------|---|
| 2021 Original    | 2021 Final     |             | F |

|                  |                |             |   |

inal vs. Actual

|                            | Budget           | Budget             | 2021 Actual  | Over (Under) |
|----------------------------|------------------|--------------------|--------------|--------------|
| Revenues                   | \$ 16,343,193 \$ | 5 15,933,336       | \$16,741,374 | \$ 808,038   |
| Expenditures               | 16,268,112       | 16,645,256         | 15,649,057   | (996,199)    |
| Excess of Revenues over    |                  |                    |              |              |
| Expenditures               | 75,081           | (711 <i>,</i> 920) | 1,092,317    | 1,804,237    |
| Other Financing Uses       | 499,329          | 1,000              | 43,165       | 42,165       |
| Net Change in Fund Balance | \$ (424,248) \$  | 6 (710,920)        | \$ 1,135,482 | \$ 1,846,402 |

Actual expenditures were \$996,199 less than budgeted expenditures. Salaries reflect increases per the collective bargaining agreements. Sanitation costs were higher due to a 2.50% increase in the contract with the service provider. These cost increases are passed along to customers. Administration expenditures in total were down even though increases were seen in information technology expenditures. Police and Fire pension contributions are lower that what was budgeted due to the timing of property tax receipts. Do to the COVID 19 pandemic, tax payment deadlines were extended past the fiscal year end. These receipts include the second installment of the 2019 tax levy and the first installment of the 2020 tax levy. Budgeted Employer contributions reflect the 2020 Property Tax Levy that is collected in the spring of 2021 and the summer which falls into the following fiscal year. Police Department salaries are lower due to vacancies during the year. Public works salaries and benefits expenditures are slightly above the budget due to an increase in overtime related to the harsh winter and snow removal.

The General Fund budget was amended twice during the fiscal year. The first amendment included a net reduction in revenues of \$434,857 and a net increase in expenditures of \$123,185 due to the COVID 19 pandemic and revised pension contribution projections. The second amendment was to transfer the Local \$.03 cent local gasoline tax budget of \$25,000 from the Motor Fuel Tax Fund to the General Fund.

## **CAPITAL ASSETS AND DEBT ADMINISTRATION**

## **Capital Assets**

The Village's investment in capital assets net of depreciation for its governmental and business-type activities as of April 30, 2021 amounts to \$42,385,999. The investment in capital assets includes land, buildings, improvements other than buildings, vehicles and equipment, and infrastructure. This amount represents a net decrease (including additions and deductions) of \$72,879.

Major capital asset events during the current fiscal year included the following:

- Replacement of a Police Vehicle.
- Salt Brine Application Equipment.
- Purchase of a Public Works Pick-up Truck.
- Network Improvements Replacement of Two Servers.
- Thatcher Ave Alley Project.
- ✤ 2020 Water Main Replacement Project.
- ✤ 2020 Green Alley Improvement Project.

### **Capital Assets (Net of Depreciation)**

|  | Goveri<br>Acti   |                  | Busine<br>Acti   | ss-Ty<br>vities | Total      |                  |    |            |  |

| Infrastructure                                       | 8,171,536        | 8,172,258        | 1,342,928        |                 | 1,385,846  | 9,514,464        |    | 9,558,104  |  |
| Construction in Progress                             | <br>43,154       | -                | 12,976           |                 | -          | 56,130           |    | -          |  |
|  | \$<br>20,192,202 | \$<br>20,524,229 | \$<br>22,193,797 | \$              | 21,934,649 | \$<br>42,385,999 | \$ | 42,458,878 |  |

The governmental activities net capital assets decreased \$332,027 from last year, due to an increase in assets as a result of alley and building improvements and the purchase of the vehicles and equipment, less a decrease due to the sale of vehicles and depreciation.

The net increase in the business-type activities of \$259,148 is primarily due to fewer building improvements and the purchase of vehicles and equipment less the depreciation of capital assets. Detailed information on the current fiscal year changes in the Village's capital assets is provided in the *Notes to the Financial Statements*, Note 6 starting on page 52.

### Long-Term Debt

The table below provides a comparison of governmental and business-type long-term debt for Fiscal Years 2021 and 2020. The Village decreased its general obligation debt by \$262,500 in Fiscal Year 2021 In FY 2020 the Village issued \$525,000 in General Obligation Bonds, Series 2020 which are going to be used for street improvements. This was reduced by principal payments on existing debt during the year. Business-Type Activities Long-Term Debt decreased by \$802,542 due to principal payments offset by an increase in the OPEB Liability. The IEPA Loan proceeds were used to finance the Northside Stormwater Management Project which separated the storm and sanitary sewer on the north side of the Village. The final amount of the loan is \$14,711,293.

The Village levies property taxes to pay for the debt service on the 2020 General Obligation Bonds. The IEPA loan is to be funded via the sewer rate. As an Illinois non-home rule community, the Village is subject to debt limitation. The Village maintained an Aa2 rating from Moody's Investors Service and AAA rating from Standard and Poor's.

## Long-Term Debt

Compensated Absences Payable is the amount of accrued vacation and sick leave time that is payable to employees at the end of the fiscal year. The Village Policies limit the amount of leave that can be carried over from year to year and employees are encouraged to use all of their vacation leave. Compensated absences increased due to higher vacation accruals and fewer funds paid out due to retirements during the fiscal year. The Net Pension Liability reflects the amount of the Total Liability for the Police, Firefighter, IMRF and SLEP pensions less each plan's fiduciary net position at the end of the fiscal year. The decrease is due to actuarial assumptions used at a certain point in time.

Other Postemployment Benefit Obligation reflects the total liability of actuarially calculated contributions that the Village did not make to fund the retiree health insurance benefits that the Village currently provides. This is a single employer defined-benefit plan (Plan) and it is funded on a pay-asyou-go basis. Funding is reported in the Village's General Fund and Waterworks and Sewerage Funds. This reflects a change in accounting principles and the implementation of GASB 75 in fiscal year 2019.

Note 7 of the Notes to the Financial Statements, on page 54, provide more detailed information on the Village's long-term debt.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

This fiscal year brought many challenges due to the COVID 19 pandemic. The Village saw fluctuations in several revenues throughout the year. Sales and non-home rule sales tax had already seen reductions due to lower CPI and some business vacancies. Despite the economic and operational impact of the pandemic, the Village's financial policies and sound fiscal decisions over the past several years have positioned the Village to "weather the storm" without reducing core services. Village Staff worked hard to manage departmental budgets and defer purchases to future years. The neighborhoods have remained attractive and vibrant and residential construction and improvements have continued.

The Fiscal Year 2022 budget includes increases in state sales, use and income taxes. Use tax continues to increase as taxes from internet sales keep growing. From the latest Illinois Municipal League (IML) projections, sales tax and income tax are also expected to increase in the next fiscal year. In July 2020 a \$.03 cent local tax was put into effect on gasoline sales. Also, The American Rescue Plan Act of 2021 (ARPA) appropriated \$19.53 billion to States for distribution to tens of thousands of non-entitlement units of local government (NEUs). NEUs are towns or Villages with less than 50,000 in population. The Village of River Forest has been awarded \$1,470,372.57. These funds were awarded after the FY 2022 budget was prepared so future budgets will include what these funds will be used for.

Economic development continued to be an important focus for the Village in an effort to continue to improve property values as well as stabilize our property taxes. There were several instances to highlight. The Sheridan at River Forest, which has 125 assisted living and memory care units, is now fully operational. This facility is designed to create an atmosphere in which residents can enjoy living in our community with many different amenities. The total investment in the project is over \$35 million. At Lake and Lathrop, the Village approved a

planned development permit for a mixed-used project that will include a mix of three and four bedroom condominiums as well as ground floor retail. Environmental remediation has been completed and construction is expected to begin in the Fall of 2021. The Village and its Economic Development Commission have been working on redevelopment possibilities for the Madison Street TIF District. The Village continues to have a strong commercial presence at River Forest Town Center as well as strong grocery shopping options from stores such as Whole Foods, Jewel and Fresh Thyme Farmers Market. All of these efforts have positive effects on our ability to help strengthen the overall property value in River Forest and add new value to stabilize the property tax base. Finally, the Village continues to look at efforts at Lake and Park for an infill development to complement the Lake Street corridor.

#### VILLAGE OF RIVER FOREST ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The Village is an affluent community whose composition is primarily residential with a smaller commercial component. The property tax revenue derived from the residential and commercial properties is exceedingly stable. The 2010 census found that \$156,835 was the median income of families living in the Village. In addition, the median value of residential property tax revenues are also expected to decrease over the projected FY 2021 revenue collections due to the forgoing of both

the expected annual increase to the levy based on the CPI of 2.3% increase in the December 2018 to December 2019 CPI and the value of new property. This was done to help minimize property tax increases. The projected 2021 property tax levy will include a 1.4% increase in the Consumer Price Index. The first installment of the 2021 levy will be collected in the spring of Fiscal Year 2022.

The Village increased water and sewer rates .45% effective June 1, 2021. The Village purchases water directly from the City of Chicago. The City raised rates 1.10% effective June 1, 2021. Going forward, the City ordinance provides for an increase each June 1 based on the increase in the Consumer Price Index or 5%, whichever is lower.

The Public Works Union, Local 150, collective Bargaining Agreement is effective from May 1, 2019 through April 30, 2022. Negotiations are ongoing with the Police and Fire unions. Budgeted expenditures for Public Works include increases due to salary and step adjustments based on the agreed upon contract. Budgeted expenditures for Police and Fire include estimated increases due to salary and step adjustments based on current market trends. These are only estimates. Employee health insurance is also expected to moderately increase. The Fiscal Year 2022 General Fund budget includes higher contributions to the Village's Police and Firefighters' Pension Funds. An increase of 2.38% for police and 4.35% for fire is included. The Village Board has approved Pension Funding Policies for both funds that include a 7% interest rate assumption. In the previous policy the Police Pension Fund used a 6.75% interest rate assumption. Both boards now use the same investment consultant and have the same authority to invest so the same rate for both is being used. The Fire Pension Board also approved the Policy. The Police Board intends to continue to use a 6.75% interest rate assumption in its Property Tax Levy recommendation to the Village's actuary using the assumptions included in the pension funding policies approved by the Village.

### CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Rosemary McAdams, Finance Director, Village of River Forest, 400 Park Avenue, River Forest, IL 60305 or at <u>rmcadams@vrf.us</u>.

# Village of River Forest, Illinois Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended April 30, 2021

| Net Change in Fund Balances – Governmental Funds   | \$<br>784,205 |
|--|---------------|
| Amounts reported for governmental activities in the Statement of<br>Activities are different because   |               |
| Governmental funds report capital outlays as expenditures.<br>However, in the Statement of Activities, the cost of those<br>assets are allocated over their estimated useful lives and<br>reported as depreciation expense. This is the amount by<br>which depreciation exceeded capital outlays in the current<br>period. These activities consist of   |               |
| Capital outlay \$ 430,434  |               |
| Depreciation expense (737,235)   | (20(.001))    |
| Governmental funds report proceeds from the sale of<br>capital assets while the governmental activities report<br>gains and losses on sales of capital assets.   | (306,801)     |
| Sale of capital assets - proceeds (67,228)   |               |
| Gain on sale of capital asset 42,002   | (25,226)      |
| The issuance of long-term debt provides current financial<br>resources to governmental funds, while the repayment of<br>the principal of long-term debt consumes the current financial<br>resources of governmental funds.   | 262,500       |
| Some expenses reported in the Statement of Activities do not<br>require the use of current financial resources and, therefore,<br>are not reported as expenditures in governmental funds.<br>These activities consist of   |               |
| Change in IMRF net pension liability/asset1,042,016Change in fire net pension liability3,139,530Change in police net pension liability4,003,077Change in deferred outflows for pensions(3,016,763)Change in deferred outflows for OPEB689,808Change in deferred inflows for pensions(4,933,822)Change in deferred inflows for OPEB(360,217)Change in total OPEB liability(486,903)Change in compensated absences payable22,092 | 98,818        |
| when paid, but is accrued in the Statement of Activities.  |               |

### Note 1: Summary of Significant Accounting Policies

The accounting policies of the Village of River Forest (Village), as reflected in the accompanying financial statements for the year ended April 30, 2021, conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant accounting policies:

### Financial Reporting Entity

In determining the financial reporting entity, the Village complies with the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, as amended, and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in GASB Statement No. 14, as amended, the Village reports two fiduciary component units as detailed below.

### Police Pension Employees Retirement System

The Village's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary and two elected police employees constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the Village, the PPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the Village's police employees. The PPERS is reported as a fiduciary component unit, and specifically, a pension trust fund, due to the fiduciary responsibility exercised over the PPERS.

### Firefighters' Pension Employees Retirement System

The Village's sworn firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of those employees and is governed by a five-member pension board, with two members appointed by the Village President, two elected from active participants of the Fund, and one elected from the retired members of the Fund. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the Village, the FPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the Village's sworn firefighters.

The FPERS is reported as a fiduciary component unit, and specifically, a pension trust fund, due to the fiduciary responsibility exercised over the FPERS.

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (*i.e.*, the Statement of Net Position and Statement of Activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported, instead, as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements. Individual nonmajor funds are reported in the supplementary information.

#### **Fund Accounting**

The Village uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three broad categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

The Village has the following fund types:

**Governmental Funds** are used to account for the Village's general governmental activities. There are four of these types and they use the flow of current financial resources measurement focus and the modified accrual basis of accounting.

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue Funds account for the collection and disbursement of earmarked monies.

*Debt Service Funds* account for the servicing of general long-term debt not financed by proprietary funds.

*Capital Projects Funds* account for the acquisition of capital assets or construction of major capital projects not financed by proprietary funds.

**Proprietary Funds** are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities are provided to outside parties by the enterprise fund.

The *Enterprise Fund (Waterworks and Sewerage Fund)* is used to account for those operations that are financed and operated in a manner similar to private business or where the Village Board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

**Fiduciary Funds** account for assets held by the government in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the government under the terms of a formal trust agreement.

*Pension Trust Funds* are accounted for in essentially the same manner as the proprietary fund, using the same measurement focus and the accrual basis of accounting. The pension trust funds account for the assets and activity of the Village's Police Pension Trust Fund and Firefighters' Pension Trust Fund.

#### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Property taxes are recognized as revenue in the year for which they are intended to finance. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers property taxes as available if they are collected within 60 days of the end of the current fiscal period. A 90-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded when payment is due.

Property taxes and other tax revenues including sales, use, utility, income, and motor fuel taxes, interest revenue and charges for services revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current

fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Village.

The Village reports the following major governmental funds:

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Equipment Replacement Fund* is a capital projects fund which accounts for financial resources used for the replacement of equipment.

The *Capital Improvement Fund* is a capital projects fund that accounts for various infrastructure improvements including alleys, commuter parking lots and streets.

The *Madison Street TIF Fund* is a capital projects fund that accounts for financial activity associated with the Madison Street Tax Increment Financing District.

The Village reports the following major and only enterprise fund:

The *Waterworks and Sewerage Fund* accounts for the provision of water and sewer services, including infrastructure maintenance and improvements to the residents of the Village of River Forest. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service and billing and collection.

Additionally, the Village reports the following fiduciary funds:

The *Police Pension Trust Fund* accounts for the accumulation of resources to pay pension costs. Resources are contributed by police force members at rates fixed by state statutes and by the Village through an annual property tax levy.

The *Firefighters' Pension Trust Fund* accounts for the accumulation of resources to pay pension costs. Resources are contributed by fire personnel members at rates fixed by state statutes and by the Village through an annual property tax levy.

Amounts reported as program revenues include charges to customers or applicants for goods, services or privileges provided and operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Village reports unearned revenue on its financial statements. Unearned revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred inflows of resources also arise when resources are received by the Village before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met or when the Village has a legal claim to resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

The Village reports deferred inflows of resources on its Statement of Net Position and Governmental Fund Balance Sheet. Deferred inflows of resources arise when resources are received by the Village that represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. In subsequent periods, when the Village has a legal claim to the resources, the liability for deferred inflows of resources is removed from the Statement of Net Position and Governmental Fund Balance Sheet and revenue is recognized.

### **Budgets**

Budgets are adopted on a basis consistent with GAAP, with the exception of the Waterworks and Sewerage Fund which is budgeted to include principal payments and capitalized assets. Annual appropriated budgets are adopted (at the fund level) for the General, Special Revenue, Debt Service, Capital Projects, Enterprise and Pension Trust Funds. The annual appropriated budget is legally enacted and provides for a legal level of control at the fund level. All annual appropriations lapse at fiscal year end.

### Cash Equivalents

For purposes of the Statement of Cash Flows, all highly liquid investments with maturities of three months or less at the date purchased are considered cash equivalents.

### Investments

Investments are reported at fair value.

#### Receivables

The recognition of receivables associated with nonexchange transactions is as follows:

- Derived tax receivable (such as sales, income and motor fuel taxes) are recognized when the underlying exchange has occurred.
- Imposed nonexchange receivables (such as property taxes and fines) are recognized when an enforceable legal claim has arisen.
- Government mandates or voluntary nonexchange transaction receivable (such as mandates or grants) are recognized when all legal requirements have been met.

### Prepaid Items/Expenses

Prepaid items/expenses represent payments made to vendors during the fiscal year for services that will benefit future periods. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

### Land Held for Sale

Land held for sale is recorded at the lower of cost or fair market value as of the balance sheet date.

### Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

### **Capital Assets**

Capital assets, which include property, plant, equipment and infrastructure assets (*e.g.*, roads, sidewalks, bridges and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined as having a useful life greater than one year with an initial, individual cost of more than \$10,000 for vehicles and equipment, \$50,000 for buildings and improvements and \$100,000 for infrastructure. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Combined sewers            | 75 - 100 years |
|----------------------------|----------------|
| Buildings and improvements | 50 - 75 years  |
| Vehicles and equipment     | 2 - 25 years   |
| Water distribution system  | 75 years       |
| Storm sewers (relief)      | 75 - 100 years |
| Sanitary sewers            | 100 years      |
| Curbs and gutters          | 60 years       |
| Streets                    | 60 years       |
| Other infrastructure       | 15 - 100 years |

### **Compensated Absences**

Vested or accumulated vacation leave is accrued when incurred in the government-wide and proprietary fund financial statements, as the Village expects employees to use their vacation within one fiscal year; however, they may carry over ten days. Vested or accumulated vacation leave of proprietary funds and government-wide statements is recorded as an expense and liability of those funds as the benefits accrue to employees. Vacation leave is only recorded in the governmental fund financial statements when an employee leaves before year end and has not been paid out. No liability is recorded for nonvesting, accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

### Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### Deferred Outflows/Inflows of Resources

The Village reports deferred outflows of resources on its Statement of Net Position. Deferred outflows of resources represent a consumption of net position that applies to a future reporting period(s) and so will not be recognized as an outflow of resources (expense/expenditure/reduction of liability) until then. The Village has two items that qualify for reporting in this category. The first is the deferred outflows related to pensions, which represent pension items that will be recognized as pension expense or reduction of pension liability in future periods. The second is the deferred outflows related to other postemployment benefits (OPEB), which represent OPEB items that will be recognized as OPEB expense or reduction of total OPEB liability in future periods.

The Village reports deferred inflows of resources on its Statement of Net Position and on its Governmental Funds Balance Sheet. Deferred inflows of resources represent an acquisition of net position that applies to a future reporting period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Village has three items that qualify for reporting in this category. The first is deferred inflows related to property taxes levied in 2020 but will be collected in and intended to fund future periods and second is deferred inflows related to pensions which represent pension items that will be recognized as reductions in pension expense in future periods. The deferred inflows of resources related to the defined benefit pension are reported in the government-wide financial statements and the applicable proprietary funds. The third item is the

deferred inflows related to other postemployment benefits (OPEB), which represent OPEB items that will be recognized as OPEB expense or reduction of total OPEB liability in future periods.

### Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Village's Police, Firefighters', IMRF and SLEP pension plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### **OPEB** (Other Postemployment Benefits) Liability

The Village offers retiree healthcare benefits to retirees. For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense have been determined on the same basis as they are reported by the OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

### Fund Equity

#### Net Position/Fund Balances

There are five classifications of fund balances of governmental funds:

- (1) Nonspendable amounts that are not in spendable form (such as inventory) or are required to be maintained intact.
- (2) Restricted amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government) through constitutional provisions or by enabling legislation.
- (3) Committed amounts constrained to specific purpose by a government itself, using its highest level of decision-making authority. The Village Board is the highest level of decision-making authority for the Village that can, by adoption of ordinance prior to the end of the year, commit fund balance. Once adopted, the limitation remains in place until a similar action is taken (adoption of another ordinance) to remove or revise the limitation.
- (4) Assigned amounts the Village intends to use for specific purposes as determined by the Village Board. It is assumed that creation of a fund automatically assigns fund balance.
- (5) Unassigned Includes residual positive fund balance within the General Fund which has not been classified within the other above-mentioned categories. Unassigned fund balance

may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Net position/fund balance is displayed in the order of the relative strength of the spending constraints placed on the purposes for which resources can be used.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the Village considers committed funds to be expended first followed by assigned and the unassigned funds.

Per the Village's financial policy, the General Fund is to maintain a minimum unassigned fund balance, plus the amount restricted for working cash, of 25% of the total budgeted annual expenditures in the most recently approved annual budget. The Village Board shall determine the disposition of fund balance in excess of this amount.

#### Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund, and as reductions of expenditures/expenses in the fund that is reimbursed. Advances to other funds in lender funds and advances from other funds in borrower funds represent long-term borrowings.

#### **Use of Estimates**

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Change in Accounting Principle

The Village adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, for fiscal year ended April 30, 2021. Implementation of the standard had no material impact on the financial statement presentation and disclosures, or on the Village's fund balance or net position.

### Note 2: Fund Equity

The North Avenue TIF Funds had a deficit fund balance of \$17,755 at April 30, 2021. General Fund revenues were used to pay the costs associated with establishing the TIF.

### Note 3: Deposits and Investments

The Village's investment policy is to establish cash management and investment guidelines for the Village officials responsible for the stewardship of public funds. The Village has established specific objectives to meet these guidelines. The Village's investment policy is more restrictive than Illinois State Statutes. The Village is authorized to make deposits in any credit union or bank, as defined by the *Illinois Banking Act*, and make investments in obligations guaranteed by the full faith and credit of the United States of America, similar obligations of agencies of the United States of America, certain money market mutual funds, the Illinois Metropolitan Investment Fund and the Illinois Funds.

None of the Village's deposits (carrying value of \$2,566,845 excluding \$1,900 of petty cash) with financial institutions were exposed to custodial credit risk, as those deposits were insured or fully collateralized by investments held by an independent third party in the Village's name.

The Illinois Funds Money Market Fund is an external investment pool developed and implemented in 1975 by the Illinois General Assembly under the jurisdiction of the Treasurer, who has regulatory oversight for the pool. The Fund is not registered with the SEC and has an affirmed AAAm Standard & Poor's credit quality rating. The fair value of the positions of this pool is the same as the value of the pool shares. The yield on the Illinois Funds Money Market Fund was 0.040% at April 30, 2021. The Fund issues a publicly available financial report. That report may be obtained by writing to the Office of the State Treasurer, Illinois Funds Administrative Office, 300 W. Jefferson Street, Springfield, Illinois 62702.

The Illinois Metropolitan Investment Fund (IMET) is not registered with the SEC. The IMET Board provides oversight for IMET. The Board is responsible for policy formulation, as well as policy and administrative oversight. The fair value of the position in the pool is the same as the value of the pool shares. IMET offers two separate investment vehicles to public entities. The Village's investments are in the IMET Convenience Fund which yielded 0.02% at April 30, 2021, and the IMET 1-3 Year Fund which yielded 0.54% at April 30, 2021.

In October 2014, IMET notified all participants that over \$50 million in loans, which were being held in the Convenience Fund's approximately \$1.8 billion assets, were fraudulent and in default. The forged guarantees on these loans were denied by the USDA. The Village portion of the IMET Convenience Fund that has been impaired is \$64,526. Recovery efforts are ongoing. IMET issues a publicly available financial report. That report may be obtained by writing to IMET, 1220 Oak Brook Road, Oak Brook, Illinois 60523.

| *Illinois Funds   | \$<br>3,805,607                                  |                            |       |                                 |                      |             |

As of April 30, 2021, the Village has the following investments and maturities.

\*Not subject to interest rate risk categorization.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect fair values of an investment. In accordance with its investment policy, the Village's investment portfolio shall remain sufficiently liquid to enable the Village to meet all operating requirements that may be reasonably anticipated in any Village fund. Maturities of investments of all funds, except the Capital Projects Funds and Working Cash Funds, shall not exceed five years. Maturities of investments of Capital Projects Funds and Working Cash Funds may exceed five years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of the funds.

### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. As of April 30, 2021, the Illinois Funds Money Market was rated AAAm by Standard & Poor's.

### Custodial Credit Risk

In the case of deposits, this is the risk that, in the event of a bank failure, the Village's deposits may not be returned. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. As of April 30, 2021, the Village's deposits with financial institutions were not exposed to custodial credit risk because they were insured and collateralized.

#### Concentration of Credit Risk

It is the policy of the Village to diversify its investment portfolio. Investments shall be diversified to eliminate the risk of loss resulting in overconcentration in a security, maturity, issuer or class of securities. The Village accomplishes this through avoiding overconcentration in a specific issuer, business sector or fund, investing in securities with varying maturities and continuously investing a portion of the portfolio in readily available funds to ensure the appropriate liquidity is maintained.

### Note 4: Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices (unadjusted) in active markets for an identical asset or liability that a government can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1, that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs for an asset or liability.

### **Recurring Measurements**

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying Statement of Net Position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at April 30, 2021:

|   |    |            | Fair Value Measurements |  |    |                                  |                                       |        |  |
|---|----|------------|-------------------------|--|----|----------------------------------|---------------------------------------|--------|--|

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying Statement of Net Position, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended April 30, 2021.

#### Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy.

### Note 5: Receivables

Property taxes for 2020 attach as an enforceable lien on January 1, 2020. Taxes are levied by December 2020 by passage of a Tax Levy Ordinance for collection in the subsequent calendar year. Tax bills are payable in two installments on or about March 1 and August 1, 2021. The County collects such taxes and remits them periodically. The Village deferred recognition of the

second installment of the 2020 property tax levy due to the second installment being intended to fund the next fiscal year's operations.

At April 30, 2021, taxes and intergovernmental receivables consisted of the following:

|                         | Governmental Funds |                 |    |                   |    |           |  |
|-------------------------|--------------------|-----------------|----|-------------------|----|-----------|--|

### **Depreciation Expense**

Depreciation expense was charged to functions/programs as follows:

|                         | <br>vernmental<br>activities | ness-Type<br>ctivities |
|-------------------------|------------------------------|------------------------|
| General government      | \$<br>140,379                | \$<br>-                |
| Public safety           | 96,849                       | -                      |
| Highways and streets    | 500,007                      | -                      |
| Waterworks and sewerage | <br>                         | <br>379,608            |
|                         | \$<br>737,235                | \$<br>379,608          |

#### Commitments

The Village has certain contracts for construction projects which were in progress as of April 30, 2021. The remaining commitments are as follows:

| Partial Village Hall Roof Replacement       | \$<br>45,403 |
|---|--------------|
| 2021 Sewer Lining Project                   | 163,054      |
| 2021 Street Improvement Program             | 585,180      |
| 2021 Street and Alley Improvement Project   | 90,730       |
| 2021 Curb and Sidewalk Replacement Program  | 51,400       |
| 2021 Street Patching Program                | 88,548       |
| 2020 Asphalt Pavement Crack Sealing Project | 49,298       |
| Automatic Metering Infrastructure Project   | 1,028,343    |
| Lake and Harlem Economic Development        | 4,187        |

The Village has also entered into an agreement with the managing company of the River Forest Town Center to provide economic incentives for filling vacant retail space within the Town Center. There were no expenditures related to this agreement during Fiscal Year 2021. The Village reported total expenditures of \$331,413 since the inception of the agreement. The agreement has a maximum amount of \$335,600. As of April 30, 2021, \$4,187 was the maximum amount remaining.

### Note 7: Long-Term Obligations

### Changes in Long-Term Obligations

The following is a summary of the Village's long-term debt balances and transactions for the year ended April 30, 2021.

|   | Maturity<br>Date | _    | Balance<br>May 1 | A  | dditions | R  | eductions | Balance<br>April 30 | Due<br>Within<br>ne Year |
|---|------------------|------|------------------|----|----------|----|-----------|---------------------|--------------------------|
| Governmental Activities                 |                  |      |                  |    |          |    |           |                     |                          |
| General obligation bonds<br>Series 2020 |                  |      |                  |    |          |    |           |                     |                          |
| 1.10% - 1.20%                           | 12/01/21         | \$   | 525,000          | \$ | -        | \$ | 262,500   | \$<br>262,500       | \$<br>262,500            |

|   |                  | \$ 12,694,428                | \$ 87,063             | \$ 889,605        | \$ 11,891,886          | \$ 676,327                |

Compensated absences, net pension liabilities and other postemployment benefit liability are paid from the General Fund and charged to General Government, Public Safety, Public Works and from the Waterworks and Sewerage Fund.

### **General Obligation Debt**

The Village issues general obligation bonds to provide funds for the street improvement program. General obligation bonds have been issued for general government and business-type activities.

#### Debt Service Requirements to Maturity

Annual debt service requirements to maturity for general obligation bonds are as follows:

| Year Ending | Governmental Activities |          |          |       |  |  |  |
|-------------|-------------------------|----------|----------|-------|--|--|--|
| April 30    | P                       | Interest |          |       |  |  |  |
|             | <b>.</b>                |          | <u>_</u> |       |  |  |  |
| 2022        | \$                      | 262,500  | \$       | 3,150 |  |  |  |

Annual debt service requirements to maturity for loans payable are as follows:

| Year Ending | Business-Type Activities |           |          |           |
|-------------|--------------------------|-----------|----------|-----------|
| April 30    | Principal                |           | Interest |           |
|             |                          |           |          |           |
| 2022        | \$                       | 663,211   | \$       | 253,934   |
| 2023        |                          | 677,950   |          | 239,196   |
| 2024        |                          | 693,016   |          | 224,130   |
| 2025        |                          | 708,416   |          | 208,730   |
| 2026        |                          | 724,159   |          | 192,987   |
| 2027-2031   |                          | 3,869,446 |          | 716,283   |
| 2032-2036   |                          | 4,318,920 |          | 266,809   |
|             |                          |           |          |           |
|             | \$ 1                     | 1,655,118 | \$       | 2,102,069 |

### Legal Debt Margin

| Equalized assessed valuation - 2020             | \$<br>640,383,684 |
|---|-------------------|
| Legal debt limit - 8.625% of assessed valuation | \$<br>55,233,093  |
| Amount of debt applicable to debt limit         | <br>262,500       |
| Legal debt margin                               | \$<br>54,970,593  |

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

### Note 8: Conduit Debt

The Village issued \$17,000,000 of Industrial Project Revenue Bonds for Dominican University during the year ended April 30, 2010. The Village has no obligation to pay this debt. The 2009 Project Revenue Bonds for Dominican University had an outstanding balance of \$8,031,897 at April 30, 2021.

### Note 9: Interfund Transactions

### Due From/to Other Funds

| Receivable Fund              | Payable Fund                                     | Amount                  |
|------------------------------|--|-------------------------|
| General Fund<br>General Fund | Madison Street TIF Fund<br>North Avenue TIF Fund | \$<br>150,000<br>50,000 |
|                              |  | \$<br>200,000           |

The due to/from between the General Fund and the Madison Street TIF Fund is due to the General Fund loaning money to the TIF for startup costs and the purchase of property in the TIF District.

The due to/from between the General Fund and the North Avenue TIF Fund is due to the General Fund loaning money to the TIF for startup costs in the TIF District.

### Advances From/to Other Funds

| Receivable Fund                            | Payable Fund   | <br>Amount      |
|--|--|-----------------|
| Enterprise<br>Waterworks and Sewerage Fund | Capital Projects<br>Capital Equipment Replacement Fund | \$<br>312,355   |
| General Fund                               | Madison Street TIF Fund                                | <br>1,873,000   |
|  |  | \$<br>2,185,355 |

The advance from/to between the Waterworks and Sewerage Fund and the Capital Equipment Replacement Fund represents fiscal year contributions for future vehicle and equipment purchases that are funded via the Capital Equipment Replacement Fund.

The advance from/to between the General Fund and the Madison Street TIF Fund represents money the General Fund loaned to the TIF for the purchase of property in the TIF district.

### Note 10: Risk Management

### Intergovernmental Risk Management Agency (IRMA)

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of municipalities and special districts in Northeastern Illinois which have formed an association under the *Illinois Intergovernmental Cooperation Act* to pool its risk management needs. The agency administers a mix of self-insurance and commercial insurance coverage; property/casualty and workers compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

The Village's payments to IRMA are displayed on the financial statements as expenditures/ expenses in appropriate funds. Each member assumes the first \$2,500 of each occurrence, and IRMA has a mix of self-insurance and commercial insurance at various amounts above that level.

Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The Village does not exercise any control over the activities of the agency beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the by-laws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits.

Limits of coverage effective as of April 30, 2021, are as follows:

| Automobile liability<br>General liability<br>Public officials liability<br>Workers' compensation<br>First party property | <ul> <li>\$ 12,000,000</li> <li>\$ 12,000,000</li> <li>\$ 12,000,000</li> <li>Blanket statutory limits</li> <li>\$ 250,000,000 per occurrence</li> <li>\$ 50,000,000 per occurrence</li> </ul> |
|--|--|
| Boiler/machinery<br>Fidelity and crime   | \$ 50,000,000  |
| Employee theft   | \$ 5,000,000   |
| Forgery or alteration<br>Computer fraud  | \$ 5,000,000<br>\$ 5,000,000   |
| Credit card forgery<br>Nonfaithful performance   | \$ 5,000,000<br>\$ 2,500,000   |
| Public official bon  | Blanket statutory limits   |

#### Intergovernmental Personnel Benefit Cooperative (IPBC)

Risks for medical, dental and death benefits for employees and retirees are provided through the Village's participation in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC acts as an administrative agency to receive, process and pay such claims as may come within the benefit program of each participating member. The Village pays premiums to IPBC based upon current employee participation and its prior experience factor with the pool. Current year overages or underages for participation in the pool are adjusted into the subsequent years' experience factor for premiums. For insured programs, there have been no significant reductions in insurance coverage.

The IPBC offers self-insured PPO, HMO and Dental programs and fully insured Vision and Dental programs. Upon entering the IPBC, each community will have access to a Life/AD&D benefit as well as a multitude of other voluntary products. The PPO program allows members authority over plan design, but provides a unique pooling of risk among all members for individual claims between \$50,000 and \$500,000. Claims over \$500,000 are fully reinsured. Therefore, members are responsible for claims under \$50,000 and the redistributed claims cost for claims between \$50,000 and \$500,000. This allows for enhanced budgeting and stability from year to year.

The HMO product is also self-insured through a special arrangement. Members pay for fixed costs of capitation (monthly stipend paid to primary care physician) for hospital and Rx charges. There are several different choices of plan designs with different levels of office visit and prescription drug co-pays. All members pay the same rates based on plan design offerings.

The IPBC offers both a self-insured and a fully insured Dental program. For the self-insured plan, each member has complete flexibility over plan design.

The IPBC also offers a voluntary fully insured Vision plan with multiple plan designs.

### Note 11: Contingent Liabilities

### Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's management, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

#### Grants

Amounts received or receivable from grantors are subject to audit and adjustment by the grantors. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Village expects such amounts, if any, to be immaterial.

### Note 12: Other Postemployment Benefits

In addition to providing the pension benefits described in Note 14, the Village provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The plan does not issue a separate report. Expenditures/expenses are reported in the fund from which the benefits are paid.

Employees of the Village of River Forest Public Library (Library), an unrelated entity, also participate in the Village's OPEB plan. The Village treats the Library as a shared participant in the OPEB Plan for purposes of applying GASB 75. Accordingly, pension items have been allocated to the Library on the basis of the number of employees. The Village's portion was 99%.

### Eligibility

Police

| Tier 1 | Age 50 and 20 years of                | service or age 60 and 8 years of service                         |
|--------|---------------------------------------|--|
| Tier 2 | Normal retirement<br>Early retirement | Age 55 and 10 years of service<br>Age 50 and 10 years of service |

#### Fire

| Tier 1 | Age 50 and 20 years of | of service or age 60 and 10 years of service |
|--------|------------------------|--|
| Tier 2 | Normal retirement      | Age 55 and 10 years of service               |
|        | Early retirement       | Age 50 and 10 years of service               |

#### PSEBA Disability Benefits

Police and fire officials that become disabled in the line of duty are eligible for PSEBA disability benefits after 1 year of service.

#### Other Village Departments

| Tier 1 | Normal retirement<br>Early retirement | Age 55 and 35 years of service or age 60 and 8 years of service<br>Age 55 and 8 years of service   |
|--------|---------------------------------------|--|
| Tier 2 | Normal retirement<br>Early retirement | Age 62 and 35 years of service or age 67 and 10 years of service<br>Age 62 and 10 years of service |

#### **Benefits**

The Village's retiree medical plan provides continuation of employer subsidized health coverage (for the retiree and their dependents, if any) upon the retirement from the Village after meeting the age and service requirements for retirement. Retirees pay a percentage of the cost (blended) of coverage based on their age and service at retirement. The Village pays 100% of the cost of coverage for Disabled officers.

#### Participants Covered by Benefit Terms

At April 30, 2021, the date of the latest actuarial valuation, the following Village employees were covered by the benefit terms:

| Active participants   | 73   |
|-----------------------|------|
| Retired participants  | 32   |
| Disabled participants | 2    |
| Surviving spouses     | 1    |
| Total                 | 108_ |

### **Total OPEB Liability**

The Village's total OPEB liability of \$6,547,959 (\$6,357,749 for governmental activities and \$190,210 for business-type activities) was measured as of April 30, 2021, as determined by an actuarial valuation as of April 30, 2021.

### Changes in Total OPEB Liability

| Balance at May 1, 2020                            | \$ 6,020,551 |
|---|--------------|
| Changes for the year                              |              |
| Service cost including administrative expenses    | 163,228      |
| Interest on the total OPEB liabilities            | 171,437      |
| Difference between expected and actual experience | (393,395)    |
| Changes of assumptions                            | 873,583      |
| Benefit payments                                  | (287,445)    |
| Net changes                                       | 527,408      |
| Balance at April 30, 2021                         | \$ 6,547,959 |

Changes of assumptions reflect a change in the discount rate from 2.91% used as of May 1, 2020, to 2.12% as of April 30, 2021.

### **OPEB Expense and Deferred Outflows/Inflows of Resource Related to OPEB**

For the year ended April 30, 2021, the Village recognized OPEB expense of \$454,261. At April 30, 2021, the Village reported deferred outflows and inflows of resources related to OPEB from the following sources:

|   | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|---|--------------------------------------|-------------------------------------|
| Assumption changes:                                     |                                      |                                     |
| Governmental activities                                 | \$ 1,269,750                         | \$ -                                |
| Business-type activities                                | 37,456                               |                                     |
| Total assumption changes                                | 1,307,206                            |                                     |
| Difference between expected and actual experience       |                                      |                                     |
| Governmental activities                                 | -                                    | 360,217                             |
| Business-type activities                                | 9,076                                |                                     |
| Total difference between expected and actual experience | 9,076                                | 360,217                             |
|   | \$ 1,316,282                         | \$ 360,217                          |

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending<br>April 30, | A  | Mount   |
|--------------------------|----|---------|
| 2022                     | \$ | 118,980 |
| 2023                     |    | 118,980 |
| 2024                     |    | 118,980 |
| 2025                     |    | 118,980 |
| 2026                     |    | 118,980 |
| Thereafter               |    | 361,175 |
|                          | \$ | 956,075 |

### Actuarial Assumption and Other Inputs

The total OPEB liability in the April 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Measurement date               | April 30, 2021  |
|--------------------------------|---|
| Actuarial cost method          | Entry-age normal  |
| Discount rate                  | <ul><li>2.91% used as of May 1, 2020</li><li>2.12% as of April 30, 2021 - Bond Buyer 20 - Bond G.O. Index used for both dates</li></ul>   |
| Salary increase                | 3.50% per annum   |
| Mortality                      | Probabilities of death for participants were according to RP2014<br>Blue Collar base rates projected to 2021 using scale MP2020 for<br>Police and Fire. For all others the RP2014 base rates projected<br>to 2021 using scale MP2020 was used. No additional provision<br>(besides those already embedded) were included for mortality<br>improvements beyond 2021. |
| Healthcare cost<br>trend rates | Starting at 7.25% decreasing .25% annually to an ultimate rate of 4.5% for 2029 and after   |

### Rate Sensitivity

The following is a sensitivity analysis of the total OPEB liability to changes in the discount rate and healthcare cost trend rates. The table below presents the total OPEB liability of the Village calculated using the discount rate of 2.12% as well as what the Village's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.12%) or 1 percentage point higher (3.12%) the current rate:

|                                |                        |           |                          | Current   |                        |           |
|--------------------------------|------------------------|-----------|--------------------------|-----------|------------------------|-----------|
|                                | 1% Decrease<br>(1.12%) |           | Discount Rate<br>(2.12%) |           | 1% Increase<br>(3.12%) |           |
| Village's total OPEB liability | \$                     | 7,398,653 | \$                       | 6,547,959 | \$                     | 5,844,439 |

The table below illustrates the sensitivity of the Total OPEB Liability to the Healthcare Cost Trend Rates assumption for a 1% decrease and a 1% increase in the rates.

|                                | Current<br>Healthcare                   |           |    |   |  |           |  |  |
|--------------------------------|---|-----------|----|---|--|-----------|--|--|
|                                | 1% Decrease<br>625% Decrease<br>to 3.5% |           |    | ost Trend<br>Rates<br>% Decrease<br>to 4.5% | 1% Increase<br>8.25% Decrease<br>to 5.5% |           |  |  |
| Village's total OPEB liability | \$                                      | 5,803,621 | \$ | 6,547,959                                   | \$                                       | 7,454,109 |  |  |

#### Note 13: Deferred Compensation Plan

The Village offers its employees a deferred compensation plan (Employer's Deferred Compensation Plan and Trust) created in accordance with Internal Revenue Code Section 457. The plan, available to all employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or an unforeseeable emergency occurs.

The assets of the plan are held in trust, with the Vantage Trust Company as trustee, for the exclusive benefit of the plan participants and their beneficiaries. The assets cannot be diverted for any other purpose. The plan and trust are maintained for the exclusive benefit of the participants and their beneficiaries.

### Note 14: Defined Benefit Pension Plans

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer defined benefit pension plan; the Police Pension Plan, which is a single-employer defined benefit pension plan; and the Firefighters' Pension Plan, which is a single-employer defined benefit pension plan. The benefits, benefit levels, employee contributions and employer contributions for all three plans are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly. The Police and Firefighters' Pension Plans do not issue separate reports on the pension plans. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report may be obtained on-line at *www.imrf.org*.

The aggregate totals for all pension items for three plans are as follows:

|   | Governmental<br>Activities |  | Business-Type<br>Activities* |                   | Total<br>Village                                       |  |
|---|----------------------------|--|------------------------------|-------------------|--|--|
| Net pension liability (asset)<br>IMRF - Regular<br>IMRF - SLEP<br>Police<br>Firefighters  | \$                         | (433,265)<br>(8,366)<br>18,979,490<br>16,066,551 | \$                           | (130,525)         | \$<br>(563,790)<br>(8,366)<br>18,979,490<br>16,066,551 |  |

\*Same amounts are also reported in the proprietary fund statements.

#### Illinois Municipal Retirement Fund

#### Plan Description

The Village's defined benefit pension plan for regular employees (other than those covered by the Police or Firefighters' Pension Plans) provides retirement, disability, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Village maintains accounts for regular employees and for Sheriff's Law Enforcement Personnel (SLEP) which provides benefits solely to former police chiefs. A summary of IMRF's pension benefits is provided in "Benefits Provided" described below. Details of all benefits are available from IMRF. The Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at *www.imrf.org* or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Employees of the Village of River Forest Public Library (Library), an unrelated entity, also participate in the Village's IMRF plan. The Village treats the Library as a shared participant in the IMRF Regular Plan for purposes of applying GASB 68. Accordingly, pension items have been allocated to the Library on the basis of employer contributions to total employer contributions for the fiscal year. The Village's portion was 85%.

#### **Benefits Provided**

Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least 8 years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings.

Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of: 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

The Sheriff's Law Enforcement Personnel Fund (SLEP) members, having accumulated at least 30 years of SLEP service and terminating IMRF participation on or after July 1, 1988, may elect to retire at or after age 50 with no early retirement discount penalty. SLEP members meeting these two qualifications are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2.50% of their final rate of earnings, for each year of credited service up to 20 years, 2.00% of their final earnings rate for the next 10 years of credited service and 1.00% for each year thereafter. For those SLEP members retiring with less than 20 years of SLEP service, the regular IMRF pension formula applies. SLEP also provides death and disability benefits. These benefit provisions and all other requirements are established by State statutes. SLEP members are required to contribute 7.50% of their annual salary to SLEP.

#### Employees Covered by Benefit Terms

As of December 31, 2020, the measurement date for the net pension liability, the following employees were covered by the benefit terms:

|   | Regular | SLEP |
|---|---------|------|
| Retirees and beneficiaries currently receiving benefits         | 55      | 3    |
| Terminated employees entitled to but not yet receiving benefits | 54      | -    |
| Current employees   | 41      |      |
|   | 150     | 3    |

#### Contributions

As set by statute, employees participating in the IMRF plan are required to contribute 4.50% of their annual covered salary. The member rate is also established by State statute. The Village is required to contribute at an actuarially determined rate. The employer annual required contribution rate for calendar year 2020 was 10.94% and for 2021 it is 11.17%. For the year ended April 30, 2021, the Village contributed \$280,622 to the plan. The Village also contributes

for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. For the SLEP Plan, members are required to contribute 7.50% of their annual covered salary. For the years ended April 30, 2020 and April 30, 2021, there were no active employees and therefore no employer contribution rates.

#### Investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class             | Portfolio<br>Target<br>Percentage | Long-Term<br>Expected Real<br>Rate of Return |  |  |
|-------------------------|-----------------------------------|--|--|--|
|                         | <b>.</b>                          |  |  |  |
| Domestic equity         | 37%                               | 5.00%  |  |  |
| International equity    | 18%                               | 6.00%  |  |  |
| Fixed income            | 28%                               | 1.30%  |  |  |
| Alternative investments | 7%                                | 2.85% - 6.95%                                |  |  |
| Real estate             | 9%                                | 6.20%  |  |  |
| Short-term              | 1%                                | 0.70%  |  |  |
|                         | 100%                              |  |  |  |

#### Actuarial Assumptions

The following are the methods and assumptions used to determine the total pension liability as of April 30, 2021:

| Actuarial valuation date | December 31, 2020 |
|--------------------------|-------------------|
| Measurement date         | December 31, 2020 |
| Actuarial cost method    | Entry-age normal  |

| Assumptions               |                        |
|---------------------------|------------------------|
| Inflation                 | 2.25%                  |
| Salary increases          | 2.85% - 13.75%         |
| Investment rate of return | 7.25%                  |
| Asset valuation method    | Market value of assets |

Retirement age is based on Experienced-Based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from years 2017 to 2019.

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables were used and future mortality improvements projects using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables were used, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables were used and future mortality improvements projected using scale MP-2020.

### Discount Rate

A single discount rate (SDR) of 7.25% for the Regular Plan and 7.25% for the SLEP Fund was used to measure the total pension liability (both were same in prior year). The projection of cash flows used to determine the SDR assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Regular Plan's fiduciary net position and the SLEP Plan's fiduciary net position were projected to be available to make all projected future benefit payments of active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of project benefit payments to determine the total pension liability.

### Changes in Net Pension Liability – Regular Plan

|                                     | Total Pension<br>Liability I<br>(a) |            | Plan<br>Fiduciary<br>Net Position<br>(b) |            | N  | et Pension<br>Liability<br>(Asset)<br>(a)-(b) |

#### Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below represents the net pension liability (asset) of the Village's Regular Plan and SLEP Fund calculated using the discount rate of 7.25% (7.25% in prior year), respectively, as well as what the Village's net pension liability would be if it were calculated using discount rates that are one percentage point lower (6.25%; 6.25% in prior year) or one percentage point higher (8.25%; 8.25% in prior year) than the current rate:

|   | Current<br>1% Decrease Discount Rate 1% Increase<br>(6.25%) (7.25%) (8.25%) |           |    |           |    |             |  |
|---|---|-----------|----|-----------|----|-------------|--|
| Regular Plan<br>Net pension liability (asset) | \$  | 1,683,964 | \$ | (563,790) | \$ | (1,740,071) |  |
| SLEP<br>Net pension liability (asset)         | \$  | 11,493    | \$ | (8,366)   | \$ | (25,495)    |  |

# Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2021, the Village recognized pension expense of \$20,883 and \$25,268 for the Regular Plan and SLEP, respectively. At April 30, 2021, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | F    | Regular   |      |        |
|---|------|-----------|------|--------|
| Deferred Outflows/Inflows Related to Pensions         | Plan |           | SLEP |        |
|   |      |           |      |        |
| Deferred outflows                                     |      |           |      |        |
| Differences between expected and actual experience    | \$   | 154,514   | \$   | -      |
| Changes of assumptions                                |      | 25,325    |      | -      |
| Net differences between projected and actual earnings |      |           |      |        |
| on pension plan investments                           |      | -         |      | -      |

### **Police Pension**

#### Plan Description and Provisions

Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit, single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (Chapter 40-Article 5/3) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

#### **Benefits Provided**

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of 2.5% of final salary for each year of service up to 30 years, to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit of 2.5% of final salary for each year of service.

The monthly pension of a covered employee who retired with 20 or more years of service after January 1, 1997, shall be increased annually by 3% of the originally granted pension, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years. For all increases granted on or after July 1, 1993, the second and subsequent automatic annual increases shall be calculated as 3% of the amount of the pension payable at the time of the increase.

#### Employees Covered by Benefit Terms

At April 30, 2021, the Police Pension Plan membership consisted of:

| Inactive plan members currently receiving benefits             | 37 |
|--|----|
| Inactive plan members entitled but not yet receiving benefits* | 10 |
| Active plan members  | 28 |
| Total  | 75 |

\*Inactive plan members entitled to but not yet receiving benefits for the current fiscal year end includes nonvested terminated members entitled to a refund of employee contributions who were not included as of the prior fiscal year end.

#### Contributions

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The

Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective January 1, 2012, the Village's contributions must accumulate to the point where 90% of the past service cost for the Police Pension Plan is funded by the year 2040. Administrative expenses are generally paid from plan assets. For the year ended April 30, 2021, the Village contributed \$1,479,613 to the Police Pension Plan.

#### Investment Policy

The deposits and investments of the Police Pension Fund are held separately from those of other Village funds. Statutes authorize the Pension Fund to make deposits/invest in interest bearing direct obligations of the United States of America: obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America: bonds, notes, debentures or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government: State of Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund (formerly known as IPTIP, Illinois Public Treasurers Investment Pool), or by banks, their subsidiaries or holding companies. In accordance with the laws of the State of Illinois, bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois; direct obligations of the State of Israel; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; general accounts of life insurance companies; and separate accounts of life insurance companies and mutual funds, the mutual funds must meet specific restrictions provided the investment in separate accounts and mutual funds does not exceed 10% of the Pension Fund's plan net position; and corporate bonds managed through an investment advisor, rated as investment grade by one of the two largest rating services at the time of purchase. Pension Funds with plan net position of \$2.5 million or more may invest up to 45% of plan net position in separate accounts of life insurance companies and mutual funds. Pension Funds with plan net position of at least \$5 million that have appointed an investment advisor, may through that investment advisor invest up to 45% of the plan net position in common and preferred stocks that meet specific restrictions. In addition, pension funds with plan net position of at least \$10 million that have appointed an investment advisor may invest up to 55% of its net position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2012.

The Police Pension Fund's investment policy in accordance with ILCS establishes the following ranges and target allocation across asset classes:

|                      | Portfolio<br>Target | Long-Term<br>Expected Real |
|----------------------|---------------------|----------------------------|
| Asset Class          | Percentage          | Rate of Return             |
| Fixed income         | 35.00%              | 2.50%                      |
| Domestic equity      | 40.00%              | 7.50%                      |
| International equity | 20.00%              | 8.50%                      |
| Real estate          | 5.00%               | 4.50%                      |
|                      | 100.00%             |                            |

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in April 2021 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. Best estimates or geometric rates of return for each major asset class included in the Fund's target asset allocation as of April 30, 2021, are listed in the table above.

#### Investment Rate of Return

For the year ended April 30, 2021, the annual money-weighted rate of return on the Police Pension Plan investments, net of pension plan investment expense, was 24.21%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### Deposits With Financial Institutions

At year end, the carrying amount of the Police Pension Fund's deposits totaled \$358,124 and the bank balance totaled \$358,212.

#### Interest Rate Risk

As of April 30, 2021, the Police Pension Fund has the following investments and maturities:

|                                |               |               | Investmer    | nt Maturities |              |

|                                | \$ 18,567,8   | 07            |              |               |              |

\*Not subject to interest rate risk categorization.

The Pension Fund assumes any callable securities will not be called.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. While not required by the Pension Fund's investment policy, the Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. As of April 30, 2021, the Illinois Funds Money Market was rated AAAm by Standard & Poor's.

The Police Pension Plan limits their exposure to credit risk by primarily investing in securities issued by the United States Government and/or its agencies that are implicitly guaranteed by the United States Government. The Plan's investment policy follows the "prudent person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management

of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return." The following table summarizes the credit ratings of obligations of the U.S. government agencies that are only implicitly guaranteed by the U.S. Government and investments in debt securities (corporate bonds) as of April 30, 2021:

| Rating  |                |
|---------|----------------|
| Agency  | Rating         |
| Moody's | A3 through Aaa |
|         |                |
|         | Not rated      |
|         | Not rated      |
|         | Not rated      |
|         | Agency         |

#### Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Pension Fund's deposits may not be returned to it. At April 30, 2021, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Pension Fund's investment policy requires that all deposits in excess of FDIC insurable limits be secured by collateral in order to protect deposits from default.

### Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the Pension Fund will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Money market mutual funds and equity mutual funds are not subject to custodial credit risk. In accordance with the Pension Fund's investment policy, the plan limits its exposure to custodial credit risk by utilizing an independent third-party institution to act as custodian for its securities and collateral.

### Concentration of Credit Risk

It is the policy of the Pension Plan to diversify its investment portfolio. Investments shall be diversified to eliminate the risk of loss resulting in overconcentration in a security, maturity, issuer or class of securities. The Pension Plan accomplishes this through avoiding overconcentration in a specific issuer, business sector or fund, investing in securities with varying maturities and continuously investing a portion of the portfolio in readily available funds to ensure the appropriate liquidity is maintained. At April 30, 2021, the Police Pension Fund's investments (other than those issued or guaranteed by the U.S. Government) include a Principal Annuity of \$1,319,887 each of which represents 5% or more of investments.

#### Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed as of May 1, 2020 rolled forward to April 30, 2021, using the following actuarial methods and assumptions.

| Actuarial valuation date  | May 1, 2020                         |
|---------------------------|-------------------------------------|
| Measurement date          | April 30, 2021                      |
| Actuarial cost method     | Entry-age normal                    |
| Assumptions<br>Inflation  | 2.25%                               |
| Salary increases          | 3.25% - 10.40%, including inflation |
| Investment rate of return | 7.00%                               |
| Asset valuation method    | Market value of assets              |

Mortality rates are based on Pub-2010 Adjusted for Plan Status, Demographics, and Illinois Public Pension Data.

### Discount Rate

The discount rate used to measure the total pension liability was 7.00% (7.00% in prior year). The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Police Pension Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

#### Changes in Net Pension Liability

| Benefit payments, including refunds |                                   |  |                                     |
| of employees' contributions         | (3,018,693)                       | (3,018,693)                              | -                                   |
| Administrative expenses             |                                   | (54,547)                                 | 54,547                              |
| Net changes                         | 1,053,764                         | 5,056,841                                | (4,003,077)                         |
| Balance, end of year                | \$ 47,360,099                     | \$ 28,380,609                            | \$ 18,979,490                       |

Changes in assumptions related to salary increases, inflation, retirement age, disability rates, termination and mortality were made since the prior measurement date.

#### Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below represents the pension liability of the Village calculated using the discount rate of 7.00%, as well as what the Village's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

|                       | Current                |                          |                        |
|-----------------------|------------------------|--------------------------|------------------------|
|                       | 1% Decrease<br>(6.00%) | Discount Rate<br>(7.00%) | 1% Increase<br>(8.00%) |
| Net pension liability | \$ 25,677,941          | \$ 18,979,490            | \$ 13,543,500          |

# Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2021, the Village recognized pension expense of \$1,187,487. At April 30, 2021, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | 20                                   | 2021                                |  |  |  |
|--|--------------------------------------|-------------------------------------|--|--|--|
| Deferred Amounts Related to Pensions   | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |  |  |  |
| Differences between expected and actual experience<br>Changes of assumptions<br>Net difference between projected and actual earnings | \$ 1,271,077<br>1,119,859            | \$ 991,504<br>1,409,932             |  |  |  |
| on pension plan investments  | <u> </u>                             | 2,598,063                           |  |  |  |
|  | \$ 2,390,936                         | \$ 4,999,499                        |  |  |  |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

| Year Ending<br>April 30, | Amount         |
|--------------------------|----------------|
| 2022                     | \$ (951,847)   |
| 2023                     | (703,392)      |
| 2024                     | (539,020)      |
| 2025                     | (605,794)      |

### Firefighters' Pension

#### Plan Description and Provisions

Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit, single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (Chapter 40-Article 5/3) and may be amended only by the Illinois legislature.

#### **Benefits Provided**

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of 2.5% of final salary for each year of service up to 30 years, to a maximum of 75% of such salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit of final salary for each year of service, ranging from 15% to 45.6%.

#### Employees Covered by Benefit Terms

At April 30, 2021, the Firefighters' Pension Plan membership consisted of:

| Inactive plan members currently receiving benefits             | 27 |
|--|----|
| Inactive plan members entitled but not yet receiving benefits* | 6  |
| Active plan members  | 19 |
| Total  | 52 |

\*Inactive plan members entitled to but not yet receiving benefits for the current fiscal year end includes nonvested terminated members entitled to a refund of employee contributions who were not included as of the prior fiscal year end.

#### Contributions

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective January 1, 2012, the Village's contributions must accumulate to the point where 90% of the past service cost for the Firefighters' Pension Plan is funded by the year 2040. Administrative expenses are generally paid from plan assets. For the year ended April 30, 2021, the Village contributed \$1,413,737 to the Firefighters' Pension Plan.

#### Investment Policy

The deposits and investments of the Firefighters' Pension Fund are held separately from those of other Village funds. Statutes authorize the Pension Fund to make deposits/invest in interest bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; Credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; State of the federal govern

Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund (formerly known as IPTIP, Illinois Public Treasurer's Investment Pool), or by banks, their subsidiaries or holding companies. In accordance with the laws of the State of Illinois, bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois: direct obligations of the State of Israel; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; general accounts of life insurance companies: and separate accounts of life insurance companies and mutual funds, the mutual funds must meet specific restrictions, provided the investment in separate accounts and mutual funds does not exceed 10% of the Pension Fund's plan net position; and corporate bonds managed through an investment advisor, rated as investment grade by one of the two largest rating services at the time of purchase. Pension Funds with plan net position of \$2.5 million or more may invest up to 45% of plan net position in separate accounts of life insurance companies and mutual funds. Pension Funds with plan net position of at least \$5 million that have appointed an investment advisor, may through that investment advisor invest up to 45% of the plan net position in common and preferred stocks that meet specific restrictions. In addition, pension funds with plan net position of at least \$10 million that have appointed an investment advisor, may invest up to 55% of its net position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2012.

Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Although not registered with the SEC, Illinois Funds does operate in a manner consistent with Rule 2a7 of the *Investment Company Act of 1940*. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold. Illinois Funds was rated AAAm by Standard & Poor's Investors Service.

|                      | Portfolio<br>Target | Long-Term<br>Expected Real |
|----------------------|---------------------|----------------------------|
| Asset Class          | Percentage          | Rate of Return             |
| Domestic equity      | 45.00%              | 7.50%                      |
| International equity | 15.00%              | 8.50%                      |
| Fixed income         | 35.00%              | 2.50%                      |
| Real estate          | 5.00%               | 4.50%                      |
|                      | 100.00%             |                            |

The Firefighters' Pension Fund's investment policy in accordance with ILCS establishes the following ranges and target allocation across asset classes:

The long-term expected rate of return of the Firefighters' Pension Fund's investments was determined using as asset allocation study conducted by the Firefighters' Pension Fund's investment manager consultant in April 2021 in which best estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of

return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return excluding inflation for each major asset class included in the Fund's target asset allocation as of April 30, 2021, are listed in the table above.

### Investment Rate of Return

For the year ended April 30, 2021, the annual money-weighted rate of return on the Firefighters' Pension Fund investments, net of pension plan investment expense, was 28.10%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

### Deposits With Financial Institutions

At year end, the carrying amount of the Pension Fund's deposits totaled \$615,071 and the bank balance totaled \$615,318.

### Interest Rate Risk

As of April 30, 2021, the Firefighters' Pension Fund has the following investments and maturities:

|                                |                     |               | Investment Maturities |         |    |         |              |              |  |  |  |  |
|--------------------------------|---------------------|---------------|-----------------------|---------|----|---------|--------------|--------------|--|--|--|--|

\*Not subject to interest rate risk categorization.

The Pension Fund assumes any callable securities will not be called.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the Pension Fund's investment policy, the Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. As of April 30, 2021, the Illinois Funds Money Market was rated AAAm by Standard & Poor's.

The Firefighters' Pension Plan limits its exposure to credit risk by primarily investing in securities issued by the U.S. Government and/or its agencies that are implicitly guaranteed by the U.S. Government. The Plan's investment policy follows the "prudent person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return." The following table summarizes the credit ratings of obligations of the U.S. government agencies that are only implicitly guaranteed by the U.S. Government and investments in debt securities (corporate and municipal bonds) as of April 30, 2021:

| Corporate bonds                          | Moody's      | Baa3 through Aaa    |
|--|--------------|---------------------|
| Municipal bonds                          | Moody's/ S&P | Aa3 through Aa1; A- |
|  |              | through AAA         |
| U.S. government agencies                 |              |                     |
| Federal National Mortgage Association    | S&P          | AA+                 |
| Federal Home Loan Bank                   | S&P          | AA+                 |
| Federal Home Loan Mortgage Corporation   |              | AA+                 |
| Government National Mortgage Association |              | Not Rated           |

### Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Pension Plan's deposits may not be returned to it. At April 30, 2021, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Pension Plan's investment policy requires that all deposits in excess of FDIC insurable limits be secured by collateral in order to protect deposits from default.

### Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the Pension Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Money market mutual funds and equity mutual funds are not subject to custodial credit risk. In accordance with the Pension Plan's investment policy, the plan limits its exposure to custodial credit risk by utilizing an independent third-party institution to act as custodian for its securities and collateral.

### Concentration of Credit Risk

It is the policy of the Pension Plan to diversify its investment portfolio. Investments shall be diversified to eliminate the risk of loss resulting in overconcentration in a security, maturity, issuer or class of securities. The Pension Plan accomplishes this through avoiding overconcentration in a specific issuer, business sector or fund, investing in securities with varying maturities and continuously investing a portion of the portfolio in readily available funds to ensure the appropriate liquidity is maintained.

### Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed as of May 1, 2020, rolled forward to April 30, 2021, using the following actuarial methods and assumptions.

| Actuarial valuation date  | May 1, 2020                        |
|---------------------------|------------------------------------|
| Measurement date          | April 30, 2021                     |
| Actuarial cost method     | Entry-age normal                   |
| Assumptions<br>Inflation  | 2.25%                              |
| Salary increases          | 3.75% - 9.86%, including inflation |
| Investment rate of return | 7.00%                              |
| Asset valuation method    | Market value of assets             |

Mortality rates are based on Pub-2010 Adjusted for Plan Status, Demographics, and Illinois Public Pension Data.

### Discount Rate

The discount rate used to measure the total pension liability was 7.00% (same as prior year). The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Firefighters' Pension Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Changes in assumptions related to salary increases, inflation, retirement age, disability rates, termination and mortality were made since the prior measurement date.

#### Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below represents the pension liability of the Village calculated using the discount rate of 7.00% as well as what the Village's net pension liability would be if it were calculated using a

discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%)than the current rate:

|                       |                        | Current                  |                        |
|-----------------------|------------------------|--------------------------|------------------------|
|                       | 1% Decrease<br>(6.00%) | Discount Rate<br>(7.00%) | 1% Increase<br>(8.00%) |
| Net pension liability | \$ 20,610,586          | \$ 16,066,551            | \$ 12,340,442          |

### Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2021, the Village recognized pension expense of \$1,732,487. At April 30, 2021, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  |    | 2021                               |    |                                   |  |  |  |  |  |  |  |  |
|--|----|------------------------------------|----|-----------------------------------|--|--|--|--|--|--|--|--|
| Deferred Amounts Related to Pensions   | 0  | Deferred<br>utflows of<br>esources | li | Deferred<br>nflows of<br>esources |  |  |  |  |  |  |  |  |
| Differences between expected and actual experience<br>Changes of assumptions<br>Net difference between projected and actual earnings | \$ | 557,413<br>461,125                 | \$ | 355,643<br>325,990                |  |  |  |  |  |  |  |  |
| on plan investments  |    |                                    |    | 1,608,442                         |  |  |  |  |  |  |  |  |
|  | \$ | 1,018,538                          | \$ | 2,290,075                         |  |  |  |  |  |  |  |  |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

| Year Ending<br>April 30, | Amount         |
|--------------------------|----------------|
| 2022                     | \$ (114,350)   |
| 2023                     | (172,828)      |
| 2024                     | (364,570)      |
| 2025                     | (623,237)      |
| 2026                     | 3,448          |
| Thereafter               |                |
|                          | \$ (1,271,537) |

### Summary of Significant Accounting Policies and Plan Asset Matters

Police Pension and Firefighters' Pension

### **Basis of Accounting**

The financial statements are prepared using the accrual basis of accounting. Under this method, additions to net position are recorded when earned and deductions from net position are recorded when the time related liabilities/deferred inflows are incurred. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

### Method Used to Value Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

### **Related Party Transactions**

There are no securities of the employer or any other related parties included in plan assets, including any loans.

### Note 15: Pension Trust Funds – Financial Data

Schedule of Fiduciary Net Position as of April 30, 2021:

### Note 16: Joint Venture

The Village participates in the West Suburban Consolidated Dispatch Center (WSCDC), a governmental joint venture with the Village of Oak Park, the Village of Elmwood Park, the Village of Forest Park and the City of Park Ridge. The joint venture was formed in 1999 under the *Intergovernmental Cooperation Act* (ILCS 5, Act 220) for the joint and mutual operation of centralized communication system. WSCDC commenced operations on May 1, 2002. All activities of WSCDC are costs shared by the members. Each member's share for each fiscal year of operations will be based on the total number of calls dispatched by the member in the preceding fiscal year. Each member's cost-sharing allocation is approved by the Board of Directors of WSCDC annually. Any member may withdraw from the joint venture upon one year's notice.

During fiscal 2021, the Village's allocated cost share totaled \$138,982 for operational expenses, which is charged to General Government expenditures in the General Fund.

Financial statements may be obtained by contacting WSCDC at 400 Park Avenue, River Forest, Illinois 60305.

### Note 17: Current Economic Conditions

As a result of the spread of the SARS-CoV-2 virus and the incidence of COVID-19 coronavirus, economic uncertainties have arisen which may negatively affect the financial position, results of operations, and cash flows of the Village. The duration of these uncertainties and the ultimate financial effects cannot be reasonable estimated at this time. The Village has tightly managed cash flow and is moving forward with strategic goals to continue work.

As in any areas of economic uncertainty, values of assets and liabilities recorded in the financial statements could change materially. As of the report date, there were not material changes to the financial statements presented. The Village continues to monitor this information on a consistent basis.

### Note 18: Future Adoption of Accounting Pronouncements

### GASB Statement No. 87, Leases (GASB 87)

In June 2017, GASB published Statement No. 87, *Leases*. The standard was the result of a multi-year project to reexamine the accounting and financial reporting for leases. The new standard establishes a single model for lease accounting based on the principle that leases represent the financing of the right to use an underlying asset. Specifically, GASB 87 includes the following accounting guidance for lessees and lessors:

<u>Lessee Accounting</u> – A lessee will recognize a liability measured at the present value of payments expected to be made for the lease term, and an intangible asset measured at the amount of the initial lease liability, plus any payments made to the lessor at or before the beginning of the lease and certain indirect costs. A lessee will reduce the liability as payments are made and recognize an outflow of resources for interest on the liability. The asset will be amortized by the lessee over the shorter of the lease term or the useful life of the asset.

<u>Lessor Accounting</u> – A lessor will recognize a receivable measured at the present value of the lease payments expected for the lease term and a deferred inflow of resources measured at the value of the lease receivable plus any payments received at or prior to the beginning of the lease that relate to future periods. The lessor will reduce the receivable as payments are received and recognize an inflow of resources from the deferred inflow of resources in a systematic and rational manner over the term of the lease. A lessor will not derecognize the

asset underlying the lease. There is an exception for regulated leases for which certain criteria are met, such as airport-aeronautical agreements.

The lease term used to measure the asset or liability is based on the period in which the lessee has the noncancelable right to use the underlying asset. The lease term also contemplates any lease extension or termination option that is reasonably certain of being exercised.

GASB 87 does not apply to leases for intangible assets, biological assets (*i.e.*, timber and living plants and animals), service concession agreements or leases in which the underlying asset is financed with conduit debt that is reported by the lessor. Additionally, leases with a maximum possible term of 12 months or less are excluded.

The effective date is for periods beginning after June 15, 2021. The provisions of this statement are effective for financial statements for the Village's fiscal year ending April 30, 2023.

### GASB Statement No. 91, Conduit Debt Obligations (GASB 91)

GASB 91 establishes consistent recognition, measurement and disclosure between governments for conduit debt obligations. The guidance clarifies the existing definition of a conduit debt obligation, establishes a single method of reporting issuers and enhances note disclosures.

GASB 91 is effective for reporting periods beginning after December 15, 2021.

### GASB Statement No. 92, Omnibus 2020 (GASB 92)

GASB 92 addresses practice issues that have been identified during implementation and application of certain GASB Statements. The statement addresses a variety of topics including issues related to leases, intra-entity transfers, fiduciary activities and fair value disclosures.

GASB 92 is effective for reporting periods based on individual topics discussed therein. Earlier application is encouraged and is permitted by individual topic to the extent that all requirements associated with an individual topic are implemented simultaneously.

# GASB Statement No. 96, Subscription - Based Information Technology Arrangements (GASB 96)

GASB 96 provides guidance on governments are utilizing more cloud-based solutions for their information technology (IT) needs and paying for the use of third-parties' IT software on a subscription basis. The accounting and financial reporting for what GASB refers to as subscription-based information technology arrangements (SBITAs) has been inconsistent because of a lack of authoritative guidance. The Standard is effective for reporting periods after June 15, 2022, and all reporting periods thereafter, with early implementation encouraged. The provisions of this statement are effective for financial statements for the Village's fiscal year ending April 30, 2024. The statement would be applied retroactively, using the facts and circumstances that exist at the beginning of the fiscal year of implementation. Due to the COVID-19 pandemic, the effective date was delayed one year from that originally proposed.

Management has not currently determined what impact, if any, these Statements may have on its financial statements.

### Note 19: Subsequent Events

As part of the American Rescue Plan Act, the Village received in August of 2021 the first of two allocations from the U.S. Treasury's Coronavirus Local Fiscal Recovery Fund in the amount of \$735,186. The award is to be used to cover eligible costs incurred from the period that begins on March 3, 2021 through December 31, 2024.

Notes to the Required Supplementary Information

Valuation date

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2020 Contribution Rates

| Actuarial cost method         | Aggregate entry-age normal   |
|-------------------------------|--|
| Amortization method           | Level percentage of payroll, closed  |
| Remaining amortization period | 23-years closed period   |
| Asset valuation method        | 5-year smoothed market; 20% corridor   |
| Wage growth                   | 3.25%  |
| Price inflation               | 2.50%  |
| Salary increases              | 3.35% to 14.25%, including inflation   |
| Investment rate of return     | 7.25%  |
| Retirement age                | Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016.  |
| Mortality                     | For nondisabled retirees, an IMRF-specific mortality table was used with<br>fully generational projection scale MP-2017 (base year 2015). The IMRF-<br>specific rates were developed from the RP-2014 Blue Collar Health<br>Annuitant Mortality Table with adjustments to match current IMRF<br>experience. For disabled retirees, an IMRF-specific mortality table was used<br>with fully generational projection scale MP-2017 (base year 2015). The<br>IMRF-specific rates were developed from the RP-2014 Disabled Retirees<br>Mortality Table applying the same adjustment that was applied for<br>nondisabled lives. For active members, an IMRF-specific mortality<br>table was used with fully generational project scale MP-2017 (base year<br>2015). The IMRF-specific rates were developed from the RP-2014<br>Employee Mortality Table with adjustments to match current IMRF<br>experience. |
| Other                         | There were no benefit changes during the year.   |

Information above based on valuation assumptions used in the December 31, 2018.

GASB Statement No. 68 requires the presentation of 10 fiscal years of data; however, the fiscal years completed prior to the adoption of this pronouncement are not required to be presented in this schedule. The pronouncement was adopted in 2016.

Notes to the Required Supplementary Information

Valuation date

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2020 Contribution Rates

| Actuarial cost method         | Aggregate entry-age normal   |
|-------------------------------|--|
| Amortization method           | Level percentage of payroll, closed  |
| Remaining amortization period | 23-years closed period   |
| Asset valuation method        | 5-year smoothed market; 20% corridor   |
| Wage growth                   | 3.25%  |
| Price inflation               | 2.50%  |
| Salary increases              | 3.35% to 14.25%, including inflation   |
| Investment rate of return     | 7.25%  |
| Retirement age                | Experience-based table of rates that are specific to the type of eligibility |
|                               | condition; last updated for the 2017 valuation pursuant to an experience     |
|                               | study of the period 2014 to 2016.  |
| Mortality                     | For nondisabled retirees, an IMRF-specific mortality table was used with     |
|                               | fully generational projection scale MP-2017 (base year 2015). The IMRF-      |
|                               | specific rates were developed from the RP-2014 Blue Collar Health            |
|                               | Annuitant Mortality Table with adjustments to match current IMRF             |
|                               | experience. For disabled retirees, an IMRF-specific mortality table was used |
|                               | with fully generational projection scale MP-2017 (base year 2015). The       |
|                               | IMRF-specific rates were developed from the RP-2014 Disabled Retirees        |
|                               | Mortality Table applying the same adjustment that was applied for            |
|                               | nondisabled lives. For active members, an IMRF-specific mortality            |
|                               | table was used with fully generational project scale MP-2017 (base year      |
|                               | 2015). The IMRF-specific rates were developed from the RP-2014               |
|                               | Employee Mortality Table with adjustments to match current IMRF experience.  |
| Other                         | There were no benefit changes during the year.                               |

Information above based on valuation assumptions used in the December 31, 2018 actuarial valuation.

GASB Statement No. 68 requires the presentation of 10 fiscal years of data; however, the fiscal years completed prior to the adoption of this pronouncement are not required to be presented in this schedule. The pronouncement was adopted in 2016.

Notes to the Required Supplementary Information

Valuation date

The Actuarially Determined Contribution shown above for the current year is the Recommended Contribution from the May 1, 2019 Actuarial Valuation by Lauterbach & Amen, LLP for the December 2019 tax levy. The methods and assumptions shown below are based on the same Actuarial Valuation. For more detail on the age-based and service-based disclosed below, please see the Actuarial Valuation. Note that the Actuarially Determined Contribution is the contribution that most closely corresponds to the basis that the Employer uses to make contributions. In the prior year valuation, we assumed the Employer Contribution were most closely related to the tax levy recommendation from the May 1, 2019 Actuarial Valuation. In the current valuation, we have updated to utilize the methodology described below. In the Fiscal Year 4/30/17 through 4/30/19, there was a Transition Plan between the Pension Board and the Village.

Methods and Assumptions Used to Determine 2021 Contribution Rates

| Actuarial cost method         | Entry-age normal   |
|-------------------------------|--|
| Amortization method           | level dollar (closed)  |
| Remaining amortization period | 90% funded over 22 years   |
| Asset valuation method        | 5-year smoothed market   |
| Price inflation               | 2.50%  |
| Payroll increases             | 3.50%  |
| Individual pay increases      | 3.50% - 10.65%   |
| Investment rate of return     | 7.00%  |
| Mortality                     | RP-2014 Adjusted for Plan Status, Collar, and Illinois Pubic Pensions Data, as appropriate |
| Retirement Rates              | 120% of L&A 2016 Illinois Police Retirement Capped at Age 60                               |
| Termination Rates             | 100% of L&A 2016 Illinois Police Termination Rates   |
| Disability Rates              | 110% of L&A 2016 Illinois Police Disability Rates  |

GASB Statement No. 67 requires the presentation of 10 fiscal years of data; however, the fiscal years completed prior to the adoption of this pronouncement are not required to be presented in this schedule. The pronouncement was adopted by the Pension Plan in 2015.

## Village of River Forest, Illinois Notes to Required Supplementary Information April 30, 2021

### Legal Compliance and Accountability

### **Budgetary Control**

The Village follows these procedures in establishing the budgetary data reflected in the financial statements.

- i) The Village Administrator submits to the Village Board of Trustees a proposed operating budget for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.
- ii) Public hearings are conducted by the Village to obtain taxpayer comments.
- iii) Subsequently, the budget is legally enacted through passage of an ordinance.
- iv) Formal budgetary integration is employed as a management control device during the year for the general, special revenue, debt service and capital projects funds.
- v) Budgets for the governmental funds for which budgets have been adopted are adopted on a basis consistent with GAAP.
- vi) Budgetary authority lapses at year end.
- vii) State law requires that "expenditures be made in conformity with appropriations/budget." As under the *Budget Act*, transfers between line items and departments may be made by administrative action. Amounts to be transferred between funds or increasing the amount budgeted in any fund require Village Board approval. The level of legal control is generally the fund budget in total.
- viii) Budgeted amounts are as originally adopted, with the exceptions of Board-approved amendments.

During the year ended April 30, 2021, there were amendments to various accounts.

## **Special Revenue Fund**

Motor Fuel Tax Fund (Nonmajor Fund) is used to account for the activities involved with street maintenance, improvements and construction. Financing is provided by the Village's share of State gasoline taxes. State law requires these gasoline taxes to be used to maintain streets.

## **Debt Service Fund**

Debt Service Fund (Nonmajor Fund) is used to account for the accumulation of resources for the payment of the General Obligation Limited Tax Bond Series 2018 and 2020. The 2018 and 2020 series bonds were issued to finance Village's street improvements. Financing is provided by property taxes.

## **Capital Projects Funds**

- Economic Development Fund (Nonmajor Fund) is used to account for previous commitments entered into by the Village from funds originally received through the previous Tax Increment Financing (TIF) Economic Development Fund.
- Capital Equipment Replacement Fund (Major Fund) is used to account for financial resources to be used for the replacement of equipment.
- Capital Improvement Fund (Major Fund) is a fund used to account for various infrastructure improvements including alleys, commuter parking lots and streets. Financing is provided by red light camera revenue, grants and parking lot fees.
- Madison Street TIF Fund (Major Fund) is used to account for all financial activity related to the Madison Street Tax Increment Financing District. Revenues are provided through the collection of incremental property taxes from the increasing value of property within the district and transfers from the General Fund. The revenues are used to facilitate redevelopment along the corridor in accordance with applicable Illinois TIF Statutes.
- Infrastructure Improvement Bond Fund (Nonmajor Fund) is used to account for proceeds from the General Obligation Limited Tax Bonds, Series 2018. The proceeds will be used to fund street improvements.
- North Avenue TIF Fund (Nonmajor Fund) is used to account for all financial activity related to the North Avenue Tax Increment Financing District. Revenues are provided through the collection of incremental property taxes from the increasing value of property within the district and transfers from the General Fund. The revenues are used to facilitate redevelopment along the corridor in accordance with applicable Illinois TIF Statutes.

Notes:

Property in the Village is reassessed by the County every three years.

Refer to the Property Tax Rates - Direct and Overlapping Governments schedule for additional property tax rate information.

Equalized Assessed Value - The State of Illinois calculates an equalization factor each year to bring the assessed value of property to 1/3.

The equalization factor is calculated by the State Department of Revenue and is used to make the aggregate assessments in each county equal to 33 1/3 of the estimated fair value of real property located within the county prior to any applicable exemptions.

\* Detail breakout information for 2020 not yet available

<sup>1</sup> This tax levy is still in collection. The balance of the 2020 tax levy will be distributed to the Village in the summer of 2021. The amount shown as collected reflects an estimate, distributed by the County in the spring of 2021.

Note:

The amounts included in this schedule are taxes levied for the funding of corporate purposes, debt service, fire pension and police pension. They exclude the amounts levied for the Library, and the incremental tax funding for the TIF area.

Notes:

Sales tax information for the calendar year 2020 is the most current available.

The State of Illinois imposes a sales tax on a seller's receipts from sales of tangible property for use or consumption. Tangible personal property does not include real estate, stocks, bonds or other "paper" assets representing an interest. The categories listed above are determined by the State of Illinois. The 1% tax is a revenue that the State shares with the Village.

Notes:

<sup>1</sup> The State of Illinois establishes a lien on property for the levy at the beginning of the calendar year. The taxing entities adopt their levies at the end of December of the same calendar year. The taxes levies are for collections in the following calendar year. Therefore, the Village's Fiscal Year 2021 relied on the property collections in the summer of 2020, which are from the 2019 tax levy year, as well as the distribution provided in the spring of 2021 which was an estimate based on the prior year's tax levy.

#### Median Family\* Income

\*The U.S. Department of Commerce, Bureau of Census defines a family as a group of two or more people (one of whom is the householder) related by birth, marriage or adoption and residing together. All such people (including related subfamily members) are considered as members of one family.

### Village of River Forest, Illinois Housing

#### HOUSING

The 2010 U.S. Census reported that the median value of a Village owner-occupied home was \$618,200. This 2010 median value for an owner-occupied home compares with \$265,800 for Cook County and \$202,500 for the State of Illinois. The 2010 market values for specified owner-occupied units for the Village, Cook County and the State of Illinois are as follows:

|                        | The V              | /illage             | Cook               | County              | State of           | f Illinois          |
