She suggested “choose your own green adventure.”

Commissioner Charrette provided an overview of PlanIt Green and noted they are planning to expand beyond the OPRF borders as they reach their 10 year mark. She suggested an E-News blurb about CleanEnergy solicitations, which is not endorsed by the Village.

Commissioner Clancy asked about the status of the grant application for the electric charging station. Director Loster stated the grant was awarded and noted the aggregation money coming in would cover the Village's matching portion. There was a brief discussion about whether the civic contribution funds were allocated to anything else. Chairperson Simon and Commissioner Clancy stated they would look into whether there were additional maintenance costs for the station.

Commissioner Raidt stated she would be restarting the Tree Trails program this fall. She also stated it was cool to see VegOut stickers in windows of restaurants. She also stated she would like to reach out to schools regarding alternatives to dairy milk due to the high emissions it produces. Commissioner Cheng noted she works with a green parent group and suggested they coordinate.

Chairperson Simon shared an update from Commissioner Roberts regarding the ComEd data being incorrect.

6. NEXT STEPS ON LAKESHORE RECYCLING/STROM DISCUSSION

Director Loster provided an overview of his conversation with George Strom. He noted the current contract ends in April 2022.

There was a discussion about trading certain services in the contract to keep it cost neutral, with defraying or eliminating costs for composting being ideal or rewarding residents who recycle and compost by not charging for it.

There was a discussion about the benefits of going out for RFP, with some considerations being the distance trucks need to travel to sorting centers, as well as electrified fleets.

There was a brief discussion about the community survey.

7. METROPOLITAN MAYORS CAUCUS CLIMATE PLAN

Chairperson Simon reported on the meeting, noting they were asking municipalities how they would like to engage with the plan.
