4. REPORTS FROM SUBCOMMITTEES

Mr. Roeger stated that the Communications Subcommittee discussed the post card text and asked to include language that paper copies of the questionnaire are available for those who do not have computer access. The Committee discussed sharing that the questionnaire is available on social media as well, and Ms. Phyfer suggested Committee members could share the Village's Facebook and Instagram posts, which will utilize the language from the post card. Chairperson Cargie stated Committee members were also welcome to promote the questionnaire with their own text on social media.

5. OLD BUSINESS

a. Consideration for Approval of the River Forest Deer Questionnaire

The Committee continued discussing the questionnaire, and in terms of timing, members considered whether to extend the response deadline to August 31 to allow people more time to respond. There was concern about the August date allowing for enough time to collate responses and prepare a report by September 30. The Committee reached a consensus to set the questionnaire response deadline to August 31 and to request that the Village Board extend the Committee's report deadline to October 31.

There was Committee consensus to include "the number of deer to be killed under this option would be limited by the number of deer that has to be approved by Illinois Department of Natural Resources based upon local need" to the question regarding a deer conflict management program preference in order to clarify the "lethal option only" response.

Mr. Flynn stated his objection to the ordering of the responses in certain questions.

Management Analyst Phyfer explained some of the challenges of transferring certain questions into Survey Monkey, and the Committee ultimately reached a consensus to separate the responses regarding seasons from Questions 4 and 5 into its own question. There was consensus to also slightly modify the response options for other questions in order to make the questionnaire transferrable to the online survey tool.

Ms. Armstrong made a motion, seconded by Mr. Lueking, to approve the questionnaire as amended.

Roll call:

Ayes: Chairperson Cargie, Dan Hollenbach, Cathleen Hughes, Dawn Mizgala, John

Roeger, Annette Madden, Katharine Christmas, Joel Lueking, Laurie Gillard,

Julie Armstrong, Marta Kozbur

Absent: Ingrid Liu

Nays: Ron Lemar, John Flynn

Motion Passes.

6. NEW BUSINESS

a. Discussion and Consideration for Approval of the Questionnaire Communication Methods

Chairperson Cargie stated the only changes to the post card from the packet would be to change the post card deadline to August 31, 2020 and to include text to call Village Hall to obtain a paper copy.

Ms. Armstrong made a motion, seconded by Ms. Gillard, to approve the questionnaire post card as amended.

Roll call:

Ayes: Chairperson Cargie, Dan Hollenbach, Cathleen Hughes, Dawn Mizgala, John

Roeger, Annette Madden, Katharine Christmas, Joel Lueking, Laurie Gillard,

Julie Armstrong, Marta Kozbur, Ron Lemar, John Flynn

Absent: Ingrid Liu Nays: None

Motion Passes.

7. NEXT MEETING

The Committee members came to a consensus to hold the next meeting on Monday, July 20 at 7:30 p.m.

8. ADJOURNMENT

Mr. Flynn made a motion, seconded by Mr. Roeger, to adjourn the Deer Management Ad Hoc Committee meeting at 8:41 p.m.

Roll call:

Ayes: Chairperson Cargie, Dan Hollenbach, Cathleen Hughes, Dawn Mizgala, John

Roeger, Annette Madden, Katharine Christmas, Joel Lueking, Laurie Gillard,

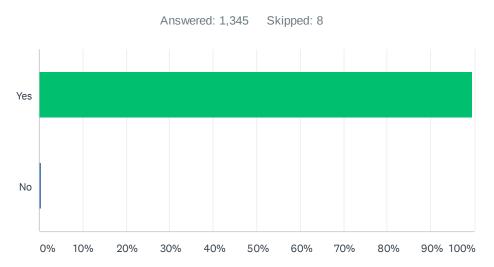

Julie Armstrong, Marta Kozbur, Ron Lemar, John Flynn

Absent: Ingrid Liu Nays: None

Motion Passes.

1	Prefer that we use expert and scientific information and NOT opinion polling to make decisions on deer control. Uninformed opinions will not lead to good policy or effective actions.	8/20/2020 11:21 PM
2	Can some form of birth control be used?	8/8/2020 11:42 PM
3	punishing folks who feed the deer.	8/7/2020 4:43 PM
4	Relocate excess population to other natural habitats.	8/6/2020 5:48 PM
5	If it gets overpopulated , relocate some deer to a larger habitat.	8/6/2020 5:37 PM
6	Do nothing. The deer population will control it's self. Why is there even a committee? This village borders the forest preserve.	8/3/2020 5:48 PM
7	Need more information on what is causing the problem - if there are too many deer because of lack of predators, the lethal option would make more sense. But if the population is the same, but they are more prone to come out of the Forest because of lack of food/habitat, that would require a different solution. Would also like more information on what the non-lethal options truly entail.	8/1/2020 10:23 AM
8	No killing. The deer were here first. We are the true invaders of their historic terrain. That said, better education and recommendations for what works best (types of netting, repellants, etc) would be helpful. Idea: a Plant Protection from Deer link on the Village website would be value-adding.	7/31/2020 2:48 PM
9	Better management of Forest Preserve property so deer have sufficient food.	7/30/2020 11:31 AM
10	Don't kill the deer, its not their fault. Maybe put tall, transparent walls on roads and sidewalks about 8 or 12 feet high, like I've seen in other places. Whatever you do, don't kill the deer. Besides, sometimes it doesn't always end well as windows can be broken and property can be damaged. And sharpshooting in the park where people will probably be is a terrible idea. If you even THINK about sharpshooting, then the residents should be more worried about where the bullet is going to land with those shooters who aren't so sharp.	7/27/2020 9:36 AM
11	It's come to my attention that the village really has very little data on how large the herd actually is and that the forest preserve is not be kept up.	7/27/2020 8:46 AM
12	Is there a way to protect against Lyme? If not, educate the RF residents. I am aware of other places have used birth control/sterilization.	7/24/2020 12:57 PM
13	I have worked very hard this summer to prevent the deer from congregating in my yard and destroying my garden. My techniques hve been effective, I guess, because they stopped coming back this season after my program. So my feelings have softened. Last year I would have voted for anything to get rid of the 3 enormous stags that seemed to visit my yard regularly. I don't really want to kill anything but for those who are experiencing that I suppose I would favor more aggressive solutions.	7/23/2020 4:20 PM
14	Lethal okay. If there are effective non-lethal deer repellant techiques for keeping deer out of the village, those would be acceptable as well. But need to keep deer out of the village and in the forest preserve.	7/23/2020 3:34 PM

29	mass relocation	7/15/2020 11:47 AM
30	Move them somewhere, don't know if possible do not kill!	7/15/2020 11:33 AM
31	IF killing the deer to limit their activity well inside the village streets is the only option, then I am OK with that. Education and street signs will not stop the deer from causing concerns listed above inside my fenced in yard. With me almost hitting a deer in my car, the fear of severe damageis a major factor in my being OK with killing the deer, if the only option of controlling their activity within the village. This is a very serious problem on many fronts. I have nothing against wild animals, but deer and coyotes in a residential neighborhood that has existed for 100 years is not normal. Deer activity, and coyote activity has been increasing over the years, and village needs to do something to control this, and protect their residents property and health, as lyme disease is a serious concern.	7/15/2020 7:25 AM
32	I care but don't feel educated enough to make an informed choice on managing	7/14/2020 2:30 PM
33	I don't think traffic signs or education will keep the deer from roaming onto private property. Maybe fencing off the public area?	7/14/2020 1:56 PM
34	If a study is done into the population and there is evidence that the deer lack sufficient food resources, unopposed to culling a specific number of deer that have been identified in the study to reduce the population sufficient to meet the food resource needs of the population.	7/14/2020 1:14 PM
35	Only prefer lethal killing if herd needs to be thinned so they don't starvenot because of landscaping or traffic.	7/13/2020 6:35 PM

68	We have a home in the Indiana Dunes and when we first moved there we were horrified when they were taking a poll to do a deer culling. My children were young at the time and they were studying the Prairie and we went to one of the Forest Preserves on a field trip. I had a conversation who told me that cullings are necessary things. When the deer become comfortable they procreate and the numbers become very high. This is when they go into areas other than the forest, their home, to find food. I have grown up in River Forest and when I was young, it was a thrill to see a deer by the tracks on Thatcher. Never were they out and about. I moved back here 29 years ago and began to see more and more. Before we put a fence in our backyard there was one winter that there were 15 deer in our backyard. They ate everything. Now they can only get to my front yard but it is a task to keep them away. I have talked to many here who have experiences that shouldn't be happening. Births in their backyard, ticks, my daughter has had deer follow her and her dog for blocks down the sidewalk. And the male deer can be very aggressive to people and pets alike. I am all for culling the deer.	7/2/2020 9:50 AM
69	Not sure ☐ but killing seems extreme.	7/2/2020 9:40 AM

78	Google details. Deer contraception via dare fun. Town j. Kentucky has successful executed.	7/1/2020 1:38 PM
79	Def prefer non lethal. Instead of steep price of sharpshooters, how about village finds and subsidizes someone who's available to spray repellent at effective intervals on properties upon request of owner? We are - next week - putting up a nice wood fence along the edge of property from which deer enter. Significant cost to us, but it should eliminate the deer problems in the back yard. For front we'll continue to try repellants.	7/1/2020 12:25 PM
80	The deer are a public menace and health issue for humans, and over population is a serious health problem for the deer population as well. The deer need to be culled immediately, as routinely happens every year in areas where deer hunting season is permitted. Contrary to popular thinking for individuals who grew up in densely populated areas like River Forest, culling the deer population would be very beneficial for the ecosytment and environment.	7/1/2020 11:16 AM

MEMORANDUM

Date: August 20, 2020

To: Deer Management Committee

From: Sara Phyfer, Management Analyst/Deputy Clerk

Subj: Organization of Deer Information on Village Website

Staff is seeking direction on what information the deer management committee would like to provide on the Village's website regarding education and other data points around deer. On the Village's website, guides are located here and are created as a way to house information related to a specific topic in one place. A guide has previously been developed for wildlife, which includes information about deer and best practices to deter deer from coming onto one's property.

Below are the various places where deer information resides on the Village website:

- Wildlife Guide
- News Item: Deer FAQ
- News Item: IDNR Deer and Wildlife Presentation
- News Item: Deer Management Ad Hoc Committee
- News Item: Information Regarding Deer Management Program
- <u>Calendar</u> Deer Management Committee Meetings

As education regarding deer is one of the goals around the Deer Management Committee, Staff is seeking input on how the existing information is presented and seeking input on any modifications.
