

## **VILLAGE OF RIVER FOREST TRAFFIC AND SAFETY COMMISSION MEETING**

Wednesday, November 14, 2018 – 7:30 PM  
Village Hall – Community Room, 400 Park Ave., River Forest, IL

### **AGENDA**

1. Call to Order/Roll Call
2. Adoption of minutes from 5/16/18 and 9/19/18 Traffic and Safety Commission Meetings
3. Public Comment
4. Parking on the east side of Thatcher Avenue at Greenfield Street.
5. Request by various residents on the 1500-block of Ashland Avenue to install parking restrictions between North Avenue and LeMoyne Street.
6. Continued discussion of Safe Walking Routes to School report and exhibits.
7. Request by Kristin Sneeringer at 46 Gale Avenue to install a 4-way stop intersection at Gale Avenue and Vine Street.
8. Request by Julianne Nery at 847 Jackson Avenue to install stop signs on Jackson Avenue at its intersection with Iowa Street.
9. Adjournment

## VILLAGE OF RIVER FOREST TRAFFIC AND SAFETY COMMISSION MEETING MINUTES

Wednesday, May 16, 2018 – 7:30 PM

A regular meeting of the River Forest Traffic and Safety Commission was held on Wednesday, May 16, 2018 at 7:30 P.M. The meeting was conducted in the Community Room at the River Forest Village Hall, 400 Park Ave. River Forest.

### **Roll Call and Call to Order**

The meeting was called to order at 7:32 PM. Present at this meeting were Chairman Rees, Commissioner Gillis, Commissioner Cleary, Commissioner Osga, and Commissioner Wade.

### **Old Business**

Chairman Rees asked for a motion to approve the minutes from the September 20, 2017 and November 15, 2017 meetings. Commissioner Osga made the motion and Commissioner Wade seconded the motion. All commissioners present voted to approve the minutes.

### **New Business – Request to install stop signs on Clinton Place at its intersection with Iowa Street.**

Todd Aumann recently moved to 930 Clinton Place. He was aware of the uncontrolled intersection when he moved in and hoped it would not be a big issue. The most troubling aspect of this area is the congestions that happens now due to the construction or the increase in population in the community as a whole. The east to west traffic on Chicago Ave is awful. From the time school gets out up until six o'clock. Traffic on Chicago Avenue backs up two to three blocks waiting for the traffic lights on Harlem Avenue. Frustrated drivers are using all those north south streets including Clinton Place to head north just to keep moving. Mr. Aumann and the rest of the resident who signed the petition have noticed that these drivers do not know how to navigate the uncontrolled intersection. Not only are people not slowing down for the intersection, but they are accelerating through it. Mr. Aumann has a child that walks to Roosevelt School. She has no choice, but to navigate those uncontrolled intersections. He doesn't think there should be any uncontrolled intersections in common walkways to schools.

Commissioner Cleary who lives on Bonnie Brae Place uses this area to get home and walks his dogs down Iowa Street. States what is going on is out of control, traffic is heavy and drivers are speeding every day. He has been nearly hit a couple of times at this intersection. If he had a child walking in this area, he would be really worried.

Mr. Aumann adds that this year during perfect conditions at three o'clock a T-bone accident happened at William Street and Iowa Street. They both met at the intersection, you would think that would not happen if there was a stop sign there.

Chairman Rees informs that the Village had the traffic engineer evaluate this intersection. In this case the engineer did recommend installing the stop sign where it was requested. Due to an

existing stop sign on Bonnie Brae Place, the proposal is to place the stop sign on Clinton Place. He is in favor of the request primarily to clarify the rules of the road and the right of way at that intersection.

Commissioner Wade is in total support of the proposal as well.

Commissioner Cleary made the motion, seconded by Commissioner Wade to place a stop sign north south on Clinton Place as proposed.

The vote was 5 to 0 in favor of approving the request. **The motion to approve the request passed.**

Chairman Rees questions if they want to address any other uncontrolled intersections at this time.

Jeff Loster, Village Engineer advises they are in the midst of the Safe Walking Routes to School project. This is a project they are working with District 90, St Vincent Ferrer, Grace Lutheran, St Luke and Trinity High School. They are soliciting feedback trying to establish where the major walking and biking routes to school are in town. There is also a comprehensive plan they are looking at and some of the feedback that has been received is pertaining to traffic, pedestrian corridor and things to that nature. Village Engineer Loster doesn't want to encourage them not to discuss changes, however three months from now they might have to start the whole conversations over.

Chairman Rees would be in favor of having an informal comment to the Board or the appropriate individuals that they at least consider looking at uncontrolled intersections. Village Engineer Loster considers this is something he can communicate to the consultant that does the Villages studies.

A motion was made and seconded to adjourn the meeting at 8:07 P.M. All commissioners voted in favor of the motion. Motion passed.

## VILLAGE OF RIVER FOREST TRAFFIC AND SAFETY COMMISSION MEETING MINUTES

Wednesday, September 19, 2018 – 7:30 PM

A regular meeting of the River Forest Traffic and Safety Commission was held on Wednesday, September 19, 2018 at 7:32 P.M. The meeting was conducted in the Community Room at the River Forest Village Hall, 400 Park Ave. River Forest.

### **Roll Call and Call to Order**

The meeting was called to order at 7:32 PM. Present at this meeting were Chairman Rees, Commissioner Gillis, Commissioner Buis, Commissioner Cleary, Commissioner Osga, Commissioner Jayaraman and Commissioner Wade.

### **New Business – Request to install stop signs at the intersection of William Street and Iowa Street.**

Chairman Rees addresses the room to inform that the Village has been working on a Safe Route to School Project. This committee is likely to have another meeting of this on October 17<sup>th</sup> where this intersection will be part of it. The Village is looking at areas around the schools to determine what kind of signage and crosswalks are required to assure they are safe routes to school.

Normally what is done at these meetings is hear from the public, hear comments from the commission, then at the end if they think it's appropriate they might make a motion to the Village Board to consider their recommendation. The commissioners will have to decide whether to make a recommendation or to wait and see if what they are recommending is consistent with what is being recommended in the Safe Route to School Project.

Mary Fitch from 842 William has been in the Village for twenty years, and in this home for ten. These unmarked intersections have been a concern for her since the beginning. Her kids are now grown, but her neighbor's kids just started riding their bikes on their own. That is what made her start the petition with her friend and neighbors.

Chairman Rees notes that the Village does employ a traffic consultant firm. As a result, they look at the intersection, take traffic counts and pedestrian traffic. In this case the consultants concluded the stop signs are warranted. They are recommending to place the stop signs east west on Iowa Street.

Cheryl Cargie lives at 938 William Street, her biggest concern with the intersection at William Street and Iowa Avenue is that from Lake Street to Augusta Street it is a straight shot. She would like to see the stop sign on William Street to control the speed on that street. Her block has seventeen kids and vehicles tend not to stop on this intersection.

Ray Muccianti lives at 914 William Street, he believes on the contrary to the study to have a stop sign east west would encourage drivers to go faster. He has observed the fastest vehicles going down William Street.

Tina Baird of 901 William Street has lived there over a year. She has witnessed three accidents that have all ended up on the sidewalk. One of the accidents was between three and three thirty in the afternoon, at the time kids are walking home from Roosevelt School. This is a huge concern for her since two of her children walk home from school.

Jacquelyn Jancius also lives at 914 William Street. She would like the stop signs to be placed on William Street as well. There are young kids out on bikes and playing by the street. It is important for them to slow those vehicles down to protect the kids.

Elena Nekrasov of 922 William Street adds that she works from home and has heard some of the accidents that have occurred at this intersection. Also agrees that the north to south traffic should be controlled.

Commissioner Cleary questions why not add a four way stop at this intersection? Commissioner Buis agrees.

Chairman Rees responds there has been reluctance in the Village to add stop signs in every block. When there are stop signs in every corner often times people go through them more. He is not prejudging if a four way might not be appropriate, but they might decide to do one set of controls to see how they work. Later if it is warranted to add an additional set of stop signs they can always add them.

Chairman Rees would not be in favor of a four way at this point. His inclination would be to depart for the recommendation of the consultant and recommend a north south control on William Street. One question remaining is whether there is value in doing that now or waiting until they have the Safe Routes to School Project report.

Commissioner Wade made the motion, seconded by Commissioner Buis to install a stop sign north south at the intersection of William Street and Iowa Street.

The vote was 7 to 0 in favor of approving the request. **The motion to approve the request passed.**

**New Business – Request to install a No Parking zone at the north end of the 1500 block of Ashland Avenue.**

Chairman Rees announces the request from the River Forest Fire Department to install a No Parking zone on the north end of the 1500 of Ashland Avenue. They are having issues getting through that area with their vehicles.

Sean Toohey lives at 1526 Ashland Avenue. He thanks the commission for the letter they sent the Immediate Care Center in regards to their employees parking in the street instead of using their parking lot. He advises that the letter worked for less than six months. The employees are back to parking on Ashland Avenue. Given that the fire department goes multiple times a week to the Immediate Care Center, he is surprised it has taken them this long to request a no parking zone. In

addition, Roy Strom the refuse company has a difficult time trying to make a right hand turn to go south on Ashland Avenue from North Avenue. Mr. Toohey supports the recommendation of adding the No Parking zone on the east side of the street, but he would like something further to get the employees to stop parking on the street. He suggests possibly doing No Parking for a time period Monday through Friday.

Karin Danganan has lived on the block for fifteen years, and never had any parking issues. She went to the meetings of when the Immediate Care was first being built. There were verbal promises made that there would be adequate parking accommodations for patients and staff. Neighbors were assured parking on their block would not be an issue. The first couple of years parking was not an issue, she is not sure if there was a transfer of knowledge of this agreement. She addressed the issue with an employee that parked in front of her home, he informed her the facility manager instructed them to park on the street to keep the lot open for patients. This is in complete disregard with the agreement that was made with the neighbors before the building was put up. Mrs. Danganan feels that having a parking limit for example eight to ten, Monday through Friday might discourage the employees from parking there. Leaving room for the fire trucks to get through.

Ramamoorthy Sundaresan lives at 1534 Ashland Avenue and she is one of the most affected by the parking on this block. She has tried to communicate with the manager at the Immediate Care, but they have been anything but unhelpful. She prefers for there to be restricted parking all the way to LeMoyne Street from eight in the morning to whatever time. Furthermore, adding something to encourage them to use the parking lot they have.

Janet Stompor from 1507 Jackson Avenue is off the corner of LeMoyne Avenue. She is not affected as much, but witnesses what goes on at this block. She points out that the Immediate Care Center is the worst tenant that has occupied this space. If you make the turn off North Avenue going south onto Ashland Avenue you have to be very careful because someone is going out, then you got cars parked on either side.

Jeff Loster, Village Engineer notes that there are two different conversations going and only one item on the agenda that requires a vote on for the board. He notified the whole block about this meeting, however not on adding any additional parking restrictions for the entire block. To vote anything tonight might do a disservice to those not aware this conversation is taking place.

Chairman Rees reminds that the issue on the agenda is the No Parking zone on the east side by North Avenue. They can consider the question of some expanded restriction on the rest of the block. Granted the people on the 1500 block of Ashland Avenue were notified of this meeting, they were advised of the No Parking restriction, not specifically of some additional restrictions throughout the rest of the block.

Commissioner Jayaraman made the motion, seconded by Commissioner Wade to install a No Parking zone on the east side at the north end of the 1500 block of Ashland Avenue.

The vote was 6 to 0 in favor of approving the request. **The motion to approve the request passed.**

Chairman Rees recommends they address the additional restrictions on the block on a later meeting. In the mean time they can notify the neighbors again. This can be added to the agenda for the November meeting.

Commissioner Osga still considers sending the facility another letter requesting they use the parking lot. The Village used a letter before and it worked for a while, if they send the letter next week it will work until November.

Village Engineer Loster will be issuing the letter to the Immediate Care Facility.

A motion was made and seconded to adjourn the meeting at 8:55 P.M. All commissioners voted in favor of the motion. Motion passed.

## MEMORANDUM

**DATE:** November 14, 2018

**TO:** Traffic and Safety Commission

**FROM:** Jeff Loster, Village Engineer

**SUBJECT:** No Parking Zone – Thatcher Avenue at Greenfield Street

---

**Issue:** Sight line obstruction at Thatcher Avenue and Greenfield Street.

**Analysis:** The parking lane on the east side of Thatcher Avenue, between Greenfield Street and the adjacent (to the north) residential driveway has traditionally been striped as a No Parking zone. Over the years, the pavement deteriorated and the striping faded, however, vehicle parking in this area was not a problem.

In late 2017, the Illinois Department of Transportation resurfaced Thatcher Avenue between Chicago Avenue and North Avenue. As part of this project, they also replaced the pavement striping. In this area, however, the parking lane was delineated with no striping to indicate that parking is prohibited. This was brought to the attention of staff in 2018. Upon researching the municipal ordinance, it was also discovered that although it has previously been striped as a No Parking zone, the ordinance does not currently prohibit parking in this area.

Based on Staff reviews of the area, it is recommended that the No Parking Striping be replaced and an ordinance adopted to create a No Parking zone in this area. The attached exhibits show the limits of the proposed No Parking zone. This recommendation is based on the following criteria:

- Parked vehicles drastically reduce the ability of westbound drivers on Greenfield Street turning onto southbound Thatcher Avenue to see traffic entering the intersection from the north.
- Average traffic speeds on Thatcher Avenue are higher than surrounding side streets and as such, these intersections should be modified as necessary to allow for safe transition between Thatcher Avenue and the side streets or vice versa.
- Parked vehicles block the visibility of drivers exiting the adjacent driveway (to the north).

**Recommendation:** Village Staff recommends that a No Parking zone be installed on the east side of Thatcher Avenue from the north curb line of Greenfield Street to a point 175 feet north and to install the associated striping and adopt the associated ordinance accordingly.

## MEMORANDUM

**DATE:** November 14, 2018

**TO:** Traffic and Safety Commission

**FROM:** Jeff Loster, Village Engineer

**SUBJECT:** Parking Restrictions on the 1500-block of Ashland Avenue

---

**Issue:** Increased on-street parking within the 1500-block of Ashland Avenue.

**Analysis:** This issue has previously been discussed at a Traffic and Safety Commission Meeting on July 19, 2017, September 20, 2017 and September 19, 2018. The originally requested restriction was to install a No Parking zone on the east side of Ashland Avenue (Monday through Saturday, 8:00 am – 4:00 pm) between North Avenue and LeMoyne Street. During the course of conversation, it was determined that before installing a parking restriction a letter should be sent to the Loyola Urgent Care Facility, requesting that they specifically direct staff to park within their property. This letter was sent on July 28, 2017 by Village Administrator Eric Palm. Subsequent to this letter being sent, Village Staff was contacted by Loyola Administration indicating that Loyola Staff would be directed to avoid parking on Ashland Avenue in the future.

At the September 20, 2017 Traffic and Safety Meeting, an update was requested by the Commission. The River Forest Police Department monitored parking in the area for a two-week period starting on July 28, 2017. Subsequent to the letter being sent, the number of vehicles parking along Ashland Avenue dropped significantly. The few vehicles that did park in this area did not appear to be registered to River Forest addresses. Starting again in May of 2018, area residents once again began contacting Village Staff about continued parking issues in this area. No official request or petitions were submitted subsequent to these conversations.

At a Traffic and Safety Meeting on September 19, 2018, an item was placed on the agenda to install a No Parking zone along the east side of Ashland Avenue, between North Avenue and the south end of the Loyola Urgent Care Facility. This request was made by Village Staff, with the intent to partially clear the roadway of congestion to better allow emergency vehicles to navigate the area. This request was approved and associated infrastructure was soon installed accordingly. At this meeting, several area residents attended and reiterated their desire to install some form of parking restriction along the rest of the block. Through anecdotal evidence it was indicated that although the previously sent letter seemed to have worked, the benefit was only temporary. At that meeting, it was requested that an additional letter be sent to the Loyola Urgent Care Facility directing their staff to park within the limits of the facility parking lot and that the issue of a potential parking restriction be placed on a future Traffic and Safety Meeting Agenda. An additional letter was sent to Loyola Administration by Village Administrator Eric Palm on September 28, 2018.

**To:** Jeff Loster  
**Subject:** Parking on !500 block of Ashland Ave.

Good Morning Jeff,

From the neighbors that I have talked to here is our consensus. Since we are on the agenda for the next meeting of traffic & safety, 1, one side of Ashland Ave. either the East or the West would be No Parking Resident Only, cause each homeowner receives 3 passes for visitors. @, the other side would be hourly parking from Monday-Saturday 8-5, or whatever we decide on.

We would like to confer with the committee on what side of the street etc. on all of this.

Again, thanks for your help on this matter. Looking forward to the meeting.

Regards,

*Safe Walking Routes to School Plan  
River Forest, Illinois*

# I. Executive Summary

Kenig, Lindgren, O'Hara, Aboona, Inc., (KLOA, Inc.) was retained by the Village of River Forest and River Forest Public School District 90 to recommend a system of Safe Walking Routes to the six public and parochial primary schools in the Village of River Forest and the River Forest Community Center (RFCC), and to develop a street map exhibit illustrating the recommended routes to the schools and RFCC. It is anticipated that the exhibits will be posted on the websites of the Village, RFCC and subject schools, displayed at the schools and RFCC, and incorporated into the parent/student handbooks. The six subject schools include:

District 90 Public Schools	Parochial Schools
<ul style="list-style-type: none"><li>• Roosevelt Middle School</li><li>• Lincoln Elementary School</li><li>• Willard Elementary School</li></ul>	<ul style="list-style-type: none"><li>• Grace Lutheran School</li><li>• St. Luke Parish School</li><li>• St. Vincent Ferrer Catholic Elementary School</li></ul>

The recommended routes were identified after (1) meeting/communicating with Village staff, Village Police Department representatives, and representatives of the subject schools and RFCC, (2) reviewing various Village documents and school parent/student handbooks, (3) distributing a survey regarding Safe Walking Routes to School to Village residents and to families attending the public and private schools in River Forest, and (4) performing a field review of all streets in the Village to document traffic controls and crosswalk markings, confirm pedestrian pathways, and observe school traffic circulation and crossing guard operations.

The determination of the safest walking routes to the schools and RFCC is based on the premise that students should cross streets at controlled locations where vehicles are required by law to come to a full stop, either via stop sign or traffic-signal control or with assistance from a school crossing guard. The recommended walking routes are also based on the premise that students will generally take the quickest and most direct paths to school.

This study has identified several measures that can be implemented by the Village of River Forest to enhance safety at the recommended street crossings along the school walking routes, including traffic control modifications, crosswalk marking installations, and pedestrian crossing signage. Many of these improvements address responses received from the survey.

Traffic control modifications include installation of stop signs where no traffic control signs or Yield signs exist, reversing the directionality of the two-way stop control, and conversion of one-way/two-way stop control to all-way stop control. Crosswalk markings include the installation of high-visibility "ladder-style" crosswalks at all recommended street crossings where no crosswalks exist or where less-visible parallel line crosswalks exist. Pedestrian crossing signage includes crossings enhanced with static signage or signs featuring pedestrian-actuated flashing yellow beacons where stop control was not feasible.

This study has recommended two new locations for the posting of a crossing guard. One at Lake Street/Lathrop Avenue adjacent to the southeast corner of St. Luke Parish School. The other at

**REVISED DRAFT FOR DISCUSSION**

*Safe Walking Routes to School Plan  
River Forest, Illinois*

Division Street/Ashland Avenue at the southeast corner of the Willard Elementary School block. This study has also identified three locations where crossing guards could be removed in place of other alternatives to address student safety. One location is on Oak Avenue at Ashland Avenue where there are no recommended walking routes that cross Oak Avenue at this location. Another location is at Division Street/Lathrop Avenue, where the crossing guard would be relocated to Division Street/Ashland Avenue, closer to Willard Elementary School. The third location is at the Roosevelt Middle School access driveways off Lathrop Avenue. At all three locations, the recommended measures should be monitored to determine if they have been effective, if additional measures are needed, or if the crossing guards should be redeployed.

Lastly, policies have been recommended for school crossing guards to follow to better balance pedestrian safety and traffic flow.

The Appendix of this report includes the recommended SWRTS street maps for each school, a map depicting all of the recommended street system changes such as intersections traffic controls and pedestrian crossings, and the responses from the resident/parent survey on safe walking routes to school.

# 1. Introduction

This report summarizes the recommended Safe Walking Routes to the public and parochial primary schools in the Village of River Forest and the River Forest Community Center (RFCC), and the methodologies that informed the recommendations. The Safe Walking Routes to School (SWRTS) have been depicted in a series of exhibits specific to each school and the RFCC. Each exhibit provides a street map showing the recommended walking routes to the respective school, which can be posted on the websites of the Village, RFCC and subject schools, displayed at the schools and RFCC, and incorporated into the parent/student handbooks.

## Schools Studied

SWRTS exhibits were prepared for all three primary schools in the River Forest Public School District 90 system and all three parochial primary schools in the Village, as follows:

District 90 Public Schools	Parochial Schools
<ul style="list-style-type: none"><li>• Roosevelt Middle School</li><li>• Lincoln Elementary School</li><li>• Willard Elementary School</li></ul>	<ul style="list-style-type: none"><li>• Grace Lutheran School</li><li>• St. Luke Parish School</li><li>• St. Vincent Ferrer Catholic Elementary School</li></ul>

A SWRTS exhibit was also prepared for the River Forest Community Center. A preliminary review of Trinity High School was also performed to determine if a SWRTS exhibit would be of benefit to the student base.

## School Meetings

The Village of River Forest hosted a series of meetings on April 26, 2018 with KLOA and representatives from District 90, Grace Lutheran School, St. Vincent Ferrer Catholic School and the River Forest Police Department. The Village also organized a conference call with KLOA and representatives from St. Luke Parish School and River Forest Community Center. The purpose of the meetings was to describe the SWRTS exhibits being prepared for each school and to obtain input on any safety issues or areas of concern that should be considered as the maps are being developed. Village staff also communicated by email with representatives of Trinity High School to obtain more information on their student population to determine whether a SWRTS exhibit would be of benefit.

## Reports Reviewed

In advance of the preparation of the SWRTS exhibits, KLOA reviewed the following Village documents as a foundation for the recommendations of the study.

- *Friendly Street Traffic Management Handbook*, River Forest Traffic Control Task Force, May 9, 2005.
- *Village of River Forest Comprehensive Plan*, 2003.
- *Parent/Student Handbook 2017-2018*, River Forest Public Schools District 90

**REVISED DRAFT FOR DISCUSSION**

*Safe Walking Routes to School Plan*  
*River Forest, Illinois*

## 2. Resident/Parent Survey

A survey regarding Safe Walking Routes to School was broadcast via various electronic platforms to Village residents and to families attending the public and private schools in River Forest and those utilizing the RFCC. Platforms included email, websites, Facebook posts, etc. A total of 312 surveys were returned. The survey questions and responses are contained in the Appendix.

Key findings from the SWRTS survey are summarized below:

- More than 96% of the responses received were from River Forest residents
- More than 51% of the responses received also identify themselves as guardians of students in a River Forest school
- Approximately 94% of the guardians were for students in the District 90 schools
- Approximately 6% of the guardians were for students in the River Forest parochial primary schools
- More students walk to school than travel by any other mode

Several issues were repeatedly conveyed in the resident responses, including the following:

- Concern for pedestrian safety at uncontrolled intersections
- Need for more balanced traffic management by crossing guards along Lake Street
- Need for all-way stop control along Lake Street at Park, Franklin and Ashland avenues
- Need for all-way stop control at all intersections surrounding school sites
- Need for more stop signs on Washington Boulevard
- Need for better traffic control at the Keystone Avenue/Hawthorne Avenue intersection
- Need for crosswalks on Hawthorne Avenue at Thatcher Avenue and Keystone Avenue
- Need for a safe pedestrian crossing on Thatcher Avenue at Oak Avenue
- Need for a safe pedestrian crossing on Park Avenue at Greenfield Street without sight line conflicts with parked cars
- Limited visibility for students walking under railroad underpasses between Hawthorne Avenue and Central Avenue
- Vehicular speeds along Hawthorne Avenue and Central Avenue, and non-compliance with posted stop controls.
- Concern for safety at intersection of Washington Boulevard/Franklin Avenue/Park Drive
- School crossing guards only stopping traffic for students attending the crossing guard's school
- School crossing guards interfering with traffic flow not associated with student crossings

### 3. SWRTS Exhibits

The SWRTS exhibits for each school and the RFCC were developed from GIS data and followed a specific methodology to maximize student safety and minimize conflicts between vehicles and pedestrians.

#### Data Collection

In April 2018, KLOA obtained GIS mapping files of the River Forest street system from Village staff. KLOA then performed a field review of all streets in the Village to inventory traffic controls and crosswalk markings, document one-way street operations, and confirm pedestrian pathways. The GIS mapping and field data was incorporated into the SWRTS exhibits and informed the recommendations of the study.

#### Field Observations

In April 2018, KLOA also conducted observations of school traffic circulation and crossing guard activity. The observations were performed during student arrival and dismissal times and were compared to any drop-off/pick-up procedures published in the Parent-Student Handbooks and/or described in meetings with the school administrators. The observations are noted below under each school. In general, most parents followed the school drop-off/pick-up procedures. Any noted deviations from these procedures reflect observations only not approved procedures.

#### Methodology

The determination of the safest walking routes to the schools and RFCC is based on the premise that students should be directed to cross streets at controlled locations where vehicles are required by law to come to a full stop. A controlled location is generally an intersection where the approach being crossed is marked with a crosswalk and is under stop sign control or traffic signal control if there are pedestrian signal heads present. A controlled location is also considered a street crossing that is not under stop or traffic signal control but has a crosswalk and a crossing guard in-place during school arrival and dismissal hours. The recommended walking routes are also based on the premise that students will generally take the quickest and most direct paths to school.

Based on these premises, stop signs were recommended at intersections where the preferred walking route required a street crossing that was uncontrolled or under Yield control. At some locations, the directionality of the two-way stop control was recommended to be reversed or replaced with all-way stop control. On all preferred walking routes, high-visibility “ladder-style” crosswalks were recommended at street crossings where no crosswalks exist or where less-visible transverse (parallel line) crosswalks exist.

#### Safe Walking Routes to School Maps

The SWRTS exhibits depict the recommended walking routes to each school, from every residential block in the public school attendance area and from several blocks out from the private schools and RFCC, on a street map which can be posted on the websites of the Village, RFCC and

**REVISED DRAFT FOR DISCUSSION**

*Safe Walking Routes to School Plan  
River Forest, Illinois*

subject schools, displayed at the schools and RFCC, and incorporated into the parent/student handbooks. The walking routes are based on a determination as to the safest manner for students to cross streets en-route to school.

Priority has been given to crossing students where traffic controls currently exist that bring vehicles to a complete stop (i.e., traffic signals and stop signs) or where school crossing guards are located that KLOA has determined should remain in-place. High-visibility crosswalks have been recommended at these locations where they do not currently exist. At two-way stop locations where it was not possible to cross a student at a stop-controlled approach without creating a circuitous path to school that would likely not be followed, recommendations have been made to either reverse the direction of the two-way stop control or convert to all-way stop control.

### **Lincoln Elementary School**

Lincoln Elementary School serves students in grades K-4 and had an enrollment of approximately 400 students during the 2017-2018 school year. The District 90 administrative offices are also located at Lincoln School. Drop-off/pick-up activity occurs along Park Avenue and Franklin Avenue. Many students that reside on the south side of the railroad approach from Franklin Avenue and cross Lake Street where a school crossing guard is posted. Students also travel through the intersections of Lake Street/Park Avenue, Oak Avenue/Park Avenue and Oak Avenue/Franklin Avenue, where crossing guards are also posted, and mix with the drop-off/pick-up traffic flows. The recommended SWRTS exhibit for Lincoln Elementary School is in the Appendix.

### **Willard Elementary School**

Willard Elementary School serves students in grades K-4 and had an enrollment of approximately 375 students during the 2017-2018 school year. Drop-off/pick-up activity occurs along Franklin Avenue and Ashland Avenue. Students travel through the intersections of Division Street/Franklin Avenue and Division Street/Lathrop Avenue, where school crossing guards are posted, and mix with the drop-off/pick-up traffic flows. Students also travel through the Greenfield Street/Franklin Avenue and Greenfield Street/Ashland Avenue intersections where no crossing guards are posted. The recommended SWRTS exhibit for Willard Elementary School is in the Appendix.

### **Roosevelt Middle School**

Roosevelt Middle School serves students in grades 5-8 and had an enrollment of approximately 665 students during the 2017-2018 school year. Drop-off/pick-up activity occurs along Lathrop Avenue, Jackson Avenue and Oak Avenue. Students travel through the intersections of Lathrop Avenue/Oak Avenue, Lathrop Avenue/Chicago Avenue and the school driveways on Lathrop Avenue, where school crossing guards are posted, and mix with the drop-off/pick-up traffic flows. Students also travel through the intersections of Jackson Avenue/Oak Avenue and Jackson Avenue/Chicago Avenue where crossing guards are also posted. The recommended SWRTS exhibit for Roosevelt Middle School is in the Appendix.

### **Grace Lutheran School**

Grace Lutheran School serves students in grades pre-K-8 and had an enrollment of approximately 211 students during the 2017-2018 school year, approximately 23 (11%) of whom are River Forest residents. Drop-off/pick-up activity occurs along Bonnie Brae. Many parents also park in the

**REVISED DRAFT FOR DISCUSSION**

*Safe Walking Routes to School Plan  
River Forest, Illinois*

Fenwick High School athletic field parking lot and walk their children across Division Street where the Grace Lutheran crossing guard is posted (PM only). School staff indicate that few students walk to school and approximately 5 to 10 students regularly bike to school. The recommended SWRTS exhibit for Grace Lutheran School is in the Appendix.

### **St. Luke Parish School**

St. Luke Parish School serves students in grades pre-K-8 and had an enrollment of approximately 350 students during the 2017-2018 school year, approximately 125 (35%) of whom are River Forest residents. Drop-off/pick-up activity occurs within the school parking lot off of Ashland Avenue with stacking along the Ashland Avenue curb. School staff indicates that approximately 40 to 50 students regularly walk or bike to school. Students travel through the intersections of Lake Street/Ashland Avenue, where a St. Luke crossing guard is posted, and mix with the drop-off/pick-up traffic flows. Students also travel through the signalized intersection of Lake Street/Lathrop Avenue, where no crossing guard is posted, and the intersections of Oak Avenue/Ashland Avenue and Oak Avenue/Lathrop Avenue where District 90 crossing guards are posted. The recommended SWRTS exhibit for St. Luke Parish School is in the Appendix.

### **St. Vincent Ferrer Catholic School**

St. Vincent Ferrer Catholic School serves students in grades pre K-8 and had an enrollment of approximately 260 students during the 2017-2018 school year, approximately 45 (18%) of whom are River Forest residents. Approximately 155 students (60%) reside in Elmwood Park. Drop-off/pick-up activity occurs within the school parking lot off of Le Moyne Parkway and along Le Moyne Parkway, with stacking along the west side of Jackson Avenue. The crossing guard at North Avenue/Lathrop Avenue assists the Elmwood Park walking students across North Avenue. School staff have not observed students riding their bikes to school. The recommended SWRTS exhibit for St. Vincent Ferrer Catholic School is in the Appendix.

### **River Forest Community Center**

During the school year the RFCC offers early childhood education and recreation programs, before school/afterschool programs, and the Opportunity Knocks program for adults with intellectual and developmental disabilities. During the summer the RFCC offers Summer Camp programs. The early childhood programs serve 65-75 youngsters and there are 50-65 participants in the before school and/or afterschool programs. Approximately 30-40 participate in the recreation programs and from 260-290 youth participate in Summer Camp. Most early childhood participants are dropped-off and pick-up by parents, some by walking to the facility. Afterschool participants arrive by school bus from the various schools. During the school year, and during the summer camps, groups of children are escorted by staff through the neighborhood and to destinations such as Keystone Park. Some participants in Opportunity Knocks also walk to the facility.

## Trinity High School Evaluation

Trinity High School had a 2017-2018 enrollment of 450 students and has an enrollment capacity of 600 students. Of the current enrollment, approximately 29 (6.4%) reside in River Forest. School staff indicates that less than 20 percent of those from River Forest have been observed walking or biking to school. Some of those that do travel through the Lathrop Avenue/Division Street intersection where a District 90 crossing guard is posted for Willard Elementary School. By comparison, St. Vincent Ferrer has 60 percent more students that reside in River Forest than Trinity High School, St. Luke Parish has four times as many students that reside in River Forest, and Grace Lutheran has almost twice as high of a percentage of their student body that reside in River Forest than Trinity High School.

Since very few Trinity High School students reside in the Village with fewer known to walk to school, and being that high school students are typically more observant than primary school students, it was determined that a SWRTS exhibit for Trinity High School would have little benefit to the general student body.

## 4. Recommended Street & Traffic Control Changes

In support of the recommended school walking routes, several recommendations have been made to enhance safety on the routes, including upgraded traffic controls and increased visibility of the street crossings. Traffic control upgrades include installing stop signs where no traffic control signs exist or where yield signs exist, reversing the directionality of the two-way stop control, converting one-way or two-way stop control to all-way stop control, and implementing measures to increase the visibility of existing signs. The street crossing improvements include installing high-visibility (ladder-style) crosswalks where no crosswalks exist, replacing transverse (parallel-line) crosswalks with more visible ladder-style markings, and installing school or pedestrian crossing signage. Many of these recommendations address comments and concerns expressed by survey respondents. An exhibit depicting the recommended street improvements is in the Appendix.

### Installation of New Two-Way Stop Control

The following 15 uncontrolled four-way intersections are traversed by recommended school walking routes. Two-way stop control is recommended to enhance safety on the uncontrolled approaches being crossed.

#### Lincoln Elementary School

- Clinton Place at Oak Avenue
- Linden Street at Gale Avenue
- Keystone Avenue at Vine Street

#### Willard Elementary School

- Forest Avenue at Thomas Street
- Berkshire Street at Monroe Avenue
- Thomas Street at Franklin Avenue
- Thomas Street at Jackson Avenue
- Ashland Avenue at Thomas Street
- Iowa Street at Keystone Avenue
- Iowa Street at Park Avenue
- Iowa Street at Franklin Avenue
- Ashland Avenue at Iowa Street
- Jackson Avenue at Iowa Street
- William Street at Iowa Street
- Clinton Place at Iowa Street

### Installation of New One-Way Stop Control

The following 21 uncontrolled three-way intersections are traversed by recommended school walking routes. One-way stop control is recommended to enhance safety on the uncontrolled approach being crossed.

#### Lincoln Elementary School

- Clinton Place at Holly Court
- Holly Court at William Street
- Holly Court at Bonnie Brae
- Gale Avenue at Hawthorne Avenue
- Keystone Avenue at Hawthorne Avenue
- Forest Avenue at Hawthorne Avenue
- Linden Street at Forest Avenue
- Linden Street at Park Avenue
- Vine Street at Forest Avenue
- Vine Street at Park Avenue

REVISED DRAFT FOR DISCUSSION

*Safe Walking Routes to School Plan  
River Forest, Illinois*

### **Willard Elementary School**

- Le Moyne Parkway at Park Avenue
- Keystone Avenue at Greenfield Street
- Forest Avenue at Greenfield Street
- Bonnie Brae at Greenfield Street
- Clinton Place at Greenfield Street
- Berkshire Street at William Street
- Thomas Street at Keystone Avenue
- Thomas Street at Monroe Avenue
- William Street at Augusta Street
- Clinton Place at Augusta Street
- Iowa Street at Forest Avenue

### **Installation of New All-Way Stop Control**

The following uncontrolled four-way intersection is traversed by recommended school walking routes to RFCC. All-way stop control is recommended to enhance safety on the uncontrolled approaches being crossed.

#### **River Forest Community Center**

- Vine Street/Gale Avenue intersection

### **Reverse Directionality of Existing Two-Way Stop Control**

The following two-way stop-controlled intersection is traversed by a recommended school walking route, but the desired crossings are on the uncontrolled approaches. The directness of the walking route would be compromised to the point where students may choose to cross at the uncontrolled locations rather than take a circuitous alternate route to school. The recommendation is to switch the two-way stop control from the current controlled street to the current uncontrolled street.

#### **Lincoln Elementary School**

- Linden Street at Franklin Avenue (switch two-way off Franklin Avenue)

### **Convert One-Way Stop Control to All-Way Stop Control**

The following one-way stop-controlled intersection is traversed by a recommended school walking route, but the desired crossing is on the uncontrolled approach. The directness of the walking route would be compromised to the point where students may choose to cross at the uncontrolled location rather than take a circuitous alternate route. The recommendation is to convert the one-way stop control at the intersection to all-way stop control. In addition, to increase the sight lines to and from Greenfield Street, parking should be prohibited on the west side of Park Avenue from 8:00 A.M. to 5:00 P.M. between the two offset legs of Greenfield Street. This parking regulation is similar to the current regulation on the east side of Park Avenue between the two Greenfield Street approaches and on the west side of Park Avenue south of Greenfield Street.

#### **Willard Elementary School**

- Greenfield Street/Park Avenue intersection

## **Convert Two-Way Stop Control to All-Way Stop Control**

The following two-way stop-controlled intersection is traversed by recommended school walking routes where the desired crossing is on the uncontrolled approach. The directness of the walking route would be compromised to the point where students may choose to cross at the uncontrolled location rather than take a circuitous alternate route. The recommendation is to convert the two-way stop control at the intersection to all-way stop control.

### **Willard Elementary School**

- Augusta Street/Franklin Avenue intersection

In addition, it is typical for all-way stop control to be utilized on local streets surrounding primary schools to give priority to student safety, particularly for schools that do not offer standard school bus service and/or have a large number of students that walk or bike to school. However, there are instances where the needs of the motoring public must be balanced with the needs of pedestrians, particularly along arterial streets and collector streets that are meant to accommodate larger volumes of traffic through a community, such as Lake Street and Division Street.

The following two two-way stop-controlled intersections are at the corners of school blocks and are traversed by a large number of students. Oak Avenue and Franklin Avenue are classified as local streets, so converting the two-way stop control to all-way stop control at the Oak Avenue/Franklin Avenue intersection is appropriate. Division Street has a higher classification as a collector street, which typically would have the right-of-way over a local street. However, there are currently several all-way stop-controlled intersections with local streets along Division Street to regulate traffic adjoining Trinity High School, Dominican University and Concordia University. Regulating traffic adjacent to a primary school should take priority over older students. As such, the two-way stop control at the Division Street intersection listed below is also recommended to be converted to all-way stop control.

### **Lincoln Elementary School**

- Oak Avenue/Franklin Avenue intersection

### **Willard Elementary School**

- Division Street/Franklin Avenue intersection

## **Replacement of Yield Control with Stop Control**

The following Yield-controlled intersection approaches are on recommended SWRTS street crossings. The Yield control should be replaced with Stop control to enhance crossing safety.

### **Lincoln Elementary School**

- Vine Street at Ashland Avenue

## **Installation of an Enhanced Crosswalks**

The following uncontrolled locations are on recommended SWRTS street crossings. The proximity of the crossing locations to traffic signal-controlled intersections of an arterial street (i.e., Harlem Avenue or Lake Street) make these locations less feasible for to install stop control. Alternatively, a high visibility crosswalk, pedestrian/school crossing signage, and an in-street pedestrian/school crossing sign could be installed instead, similar to the Division Street crossing at Bonnie Brae and the Lake Street crossing at Forest Avenue. These signs should be posted back-to-back on both sides of the street to face both directions of travel.

### **Grace Lutheran School (School Crossing Sign with In-Street Sign)**

- Augusta Street at Bonnie Brae

### **Roosevelt Middle School (Pedestrian Crossing Sign with Rapid Flashing Beacons)**

- Oak Street at Thatcher Avenue

## **Installation of New High-Visibility (Ladder-Style) Crosswalk**

The following 164 unmarked intersection approaches are on recommended SWRTS street crossings. Installation of a high-visibility (ladder-style) crosswalk is recommended.

River Forest, Illinois*

## 5. Recommended School Crossing Guard Changes

The SWRTS study evaluated the current crossing guard locations, identified additional guard locations desired in the survey responses or through dialogue with the schools, and recommended changes to the crossing guard locations and operational policies. It is clear from the survey responses that several of the crossing guard locations were based on driver behavior and violations of the posted traffic control signs (speed limits, stop signs, etc.). Many responses related to drivers not coming to a full stop at stop-controlled intersections.

### Current Crossing Guard Locations

Crossing guards are currently posted at the following 16 intersections during school arrival and dismissal times. The guards for the District 90 schools are retained from Andy Frain Services and jointly funded by District 90 and the Village. The guard for St. Luke Parish is also retained from Andy Frain Services and is funded by St. Luke. The guard deployed by Grace Lutheran School is a school volunteer. The guard for St. Vincent Ferrer School is provided by the Village of Elmwood Park as 60 percent of the students in the school are Elmwood Park residents.

#### Lincoln Elementary School

- Lake Street/Park Avenue intersection
- Lake Street/Franklin Avenue intersection
- Oak Avenue/Park Avenue intersection
- Oak Avenue/Franklin Avenue intersection
- Oak Avenue/Ashland Avenue intersection

#### Willard Elementary School

- Division Street/Franklin Avenue intersection
- Division Street/Lathrop Avenue intersection

#### Roosevelt Middle School

- Oak Avenue/Lathrop Avenue intersection
- Oak Avenue/Jackson Avenue intersection
- Chicago Avenue/Lathrop Avenue intersection (signalized)
- Chicago Avenue/Jackson Avenue intersection
- Roosevelt MS North and South Driveways on Lathrop Avenue

#### Grace Lutheran School

- Division Street/Bonnie Brae intersection (PM only)

#### St. Luke Parish School

- Lake Street/Ashland Avenue intersection

**REVISED DRAFT FOR DISCUSSION**

*Safe Walking Routes to School Plan  
River Forest, Illinois*

## **St. Vincent Ferrer Catholic School**

- North Avenue/Lathrop Avenue intersection (signalized)

## **Desired New Crossing Guard Locations**

The following intersections were identified in the survey responses as locations where additional crossing guards are desired.

- Lake Street/Lathrop Avenue (signalized)
- Franklin Avenue/Hawthorne Avenue
- Franklin Avenue/Central Avenue
- Greenfield Street/Park Avenue
- Greenfield Street/Franklin Avenue
- Greenfield Street/Ashland Avenue
- Greenfield Street/Lathrop Avenue
- Division Street/Ashland Avenue
- Along Washington Boulevard

## **Proposed Crossing Guard Locations**

Current and recommended locations for the posting of school crossing guards are discussed below based on the form of traffic control and the subject intersections.

### **Traffic Signal Controlled Intersections**

Crossing guards are located at two signalized intersections in the Village, including one serving Roosevelt Middle School (Chicago Avenue/Lathrop Avenue) and one serving St. Vincent Ferrer Catholic School (North Avenue/Lathrop Avenue). Due to the width of these street crossings and high traffic volumes and speeds, it is appropriate to maintain crossing guards at these intersections to supplement the pedestrian signal heads and high-visibility crosswalks.

The intersection of Lake Street/Lathrop Avenue is adjacent to the southeast corner of the St. Luke Parish School block and is another signalized intersection in which student safety would be enhanced with the addition of a crossing guard. The reasoning for this recommendation is the same as that for the two signalized intersections noted above (road width, traffic volume and speeds).

#### *Recommendation:*

- *Maintain crossing guard at Chicago Ave/Lathrop Ave and North Ave/Lathrop Ave*
- *Post new crossing guard at Lake Ave/Lathrop Ave*

### **All-Way Stop Controlled Intersections**

It is typical for all-way stop control to be utilized on local streets surrounding primary schools to give priority to student safety, particularly for schools that do not offer standard school bus service and/or have a large number of students that walk to school. This form of stop control, combined with highly-visible crosswalk markings, is generally sufficient in calming traffic around schools such that crossing guards may not always be needed to supplement the traffic control signs.

## **REVISED DRAFT FOR DISCUSSION**

However, due to driver behavior in River Forest, crossing guards have been posted at all-way stop controlled intersections near Willard Elementary School (Division/Lathrop), Lincoln Elementary School (Park/Oak), and Roosevelt Middle School (Oak/Lathrop, Oak/Jackson).

KLOA concurs with keeping the crossing guards at the corners of the primary school sites until additional safety measures are installed and monitored for effectiveness. These include all locations noted above except for the Division Street/Lathrop Avenue intersection. The safety measures are listed below and are aimed at reinforcing the stop controls and modifying driver behavior. If the measures prove effective, consideration could be given to removing some or all of the crossing guards. The measures should also be installed at the intersection of Division Street/Lathrop Avenue where the guard is recommended to be relocated to the southeast corner of the Willard Elementary School block at Division Street/Ashland Avenue, as discussed below.

- Using In-Street School Crossing signs
- Replacing the stop signs with stop signs that feature flashing LED lighting around the frame
- Installing red retroreflective panels within the stop sign posts
- Reconstructing the intersection as a raised intersection with different pavement treatment

Survey responses and discussions with the River Forest Police Department suggested consideration for posting additional crossing guards at the four intersections of Hawthorne Avenue and Central Avenue with Franklin Avenue and Ashland Avenue due to the limited sight lines at the railroad underpass and the volume of traffic and pedestrian activity. Consideration should first be given to reinforcing the all-way stop controls at these intersections with measures aimed at modifying driver behavior. The intersections could then be monitored to determine if the measures have been effective, if additional measures are needed, or if crossing guards should be deployed. Enhancement options could include:

- Installing high-visibility crosswalks across the SWRTS paths on Central and Hawthorne
- Using In-Street School Crossing signs on the crosswalks
- Replacing the stop signs with stop signs that feature flashing LED lighting around the frame
- Installing red retroreflective panels within the stop sign posts
- Posting of convex mirrors to improve sight lines from acute angles
- Improving the lighting under the viaducts

Survey responses also requested consideration for posting a crossing guard on Park Avenue at Greenfield Street. As noted above, the one-way stop controls at this intersection are recommended to be upgraded to all-way stop control at the east leg of Greenfield Street, which should improve pedestrian safety crossing Park Avenue. The intersection could then be monitored to determine if the measure has been effective, if additional measures are needed, or if a crossing guard should still be considered.

#### *Recommendation:*

- *Maintain crossing guard, install additional safety measures, and monitor Oak Ave/Park Ave, Oak Ave/Lathrop Ave, and Oak Ave/Jackson Ave*
- *Relocate crossing guard at Division/Lathrop to Division/Ashland, install additional safety measures at Division/Lathrop, and monitor*

#### **REVISED DRAFT FOR DISCUSSION**

- *Install additional safety measures and monitor Hawthorne Ave/Franklin Ave, Hawthorne Ave/Ashland Ave, Central Ave/Franklin Ave, Central Ave/Ashland Ave*
- *Install all-way stop control on east leg of Park Ave/Greenfield St and monitor*

## **Two-Way Stop Controlled Intersections**

Crossing guards are also located at two-way stop-controlled intersections near Lincoln Elementary School (Lake Street/Park Avenue, Lake Street/Franklin Avenue, Oak Avenue/Franklin Avenue), Willard Elementary School (Division Street/Franklin Avenue), Roosevelt Middle School (Chicago Street/Jackson Avenue, Oak Avenue/Ashland Avenue), and St. Luke Parish School (Lake Street/Ashland Avenue). All intersections are at the corners of school sites with the exception of the Oak/Ashland intersection. Two-way stop-controlled intersections are the most critical for use of crossing guards as they assist students across the uncontrolled intersection approaches.

Ideally there would be all-way stop control (or traffic signal control) at the intersections on all four corners of the block surrounding a primary school. However, there are instances where the needs of the motoring public must be balanced with the needs of pedestrians, particularly along arterial streets like Lake Street that serve as primary vehicular travelways through the Village where vehicular flow is controlled with traffic signals. There are also locations in close proximity to traffic-signal controlled intersections where traffic stacking at an all-way stop controlled intersection could impede traffic movements through the signalized locations, such as the Division Street/Chicago Avenue intersection.

Streets of lower functional classification typically traverse residential neighborhoods, such as Division Street (collector street) and Oak Avenue, Franklin Avenue and Ashland Avenue (all local streets). The intersection traffic controls on these lower volume streets can be modified around school sites to balance traffic efficiency and pedestrian safety.

The current two-way stop control is recommended to be converted to all-way stop control at the Oak Avenue/Franklin Avenue intersection, located at the northeast corner of the block surrounding Lincoln Elementary School, and at the intersection of Division Street/Franklin Avenue, at the southwest corner of the block surrounding Willard Elementary School.

Based on the distance from Willard Elementary School, consideration should be given to relocating the crossing guard at the Division Street/Lathrop Avenue intersection to the Division Street/Ashland Avenue intersection. Other measures could be implemented at Division Street/Lathrop Avenue to maintain safety for student crossings, as noted previously.

Based on the distance from Willard Elementary School and Roosevelt Middle School, consideration should also be given to removing the crossing guard at the Oak Avenue/Ashland Avenue intersection and installing other measures to discourage student crossings of Oak Avenue at this location, maintain adequate sight lines, and calm traffic flows from St. Luke Parish School. The intersection could then be monitored to determine if the measures have been effective, if additional measures are needed, or if the guards should be redeployed. Measures could include:

- Removing the high-visibility crosswalks across the uncontrolled Oak Avenue approaches

## **REVISED DRAFT FOR DISCUSSION**

- Installing high-visibility crosswalks on the stop-controlled Ashland Avenue approaches
- Posting of signs prohibiting stopping, standing, parking within 20 feet of the intersection
- Installing signage reinforcing the Oak Avenue crossing location at Lathrop Avenue or Franklin Avenue where crossing guards are stationed
- Using In-Street School Crossing signs on the Ashland Avenue crosswalks
- Installing flashing LED lighting around the stop sign frames and Do Not Enter signs (on timers during school hours)
- Installing red retroreflective panels within the stop sign posts

*Recommendation:*

- *Maintain crossing guard at Lake St/Park Ave, Lake St/Franklin Ave, Lake Street/Ashland Ave, and Chicago Ave/Jackson Ave*
- *Maintain crossing guard and install all-way stop control at Oak Ave/Franklin Ave and Division St/Franklin Ave*
- *Remove crossing guard at Oak Avenue/Ashland Avenue and install and monitor other safety measures to discourage crossings of Oak Avenue at Ashland*
- *Relocate crossing guard from Division/Lathrop to Division/Ashland*

### **Roosevelt Middle School Driveway Intersections**

Crossing guards are also located at both Roosevelt Middle School access driveways on Lathrop Avenue. These are additional locations where other measures could be installed to increase pedestrian safety and motorist awareness in place of the crossing guards. Again, the driveways could then be monitored to determine if the measures have been effective, if additional measures are needed, or if the crossing guards should be redeployed. The measure could include:

- Installing high-visibility crosswalks across the driveway aprons on Lathrop Avenue
- Using In-Street School Crossing signs on the driveways
- Installing stop signs that feature flashing LED lighting around the frame on the driveway exits
- Installing red retroreflective panels within the stop sign posts

*Recommendation:*

- *Remove crossing guard at Roosevelt Middle School driveways and install and monitor other safety measures*

### **Proposed Changes in Crossing Guard Policies**

The crossing guards' principle objective should be to safely guide students across the street. Where possible, traffic should be stopped in sequence with nearby traffic signals such that traffic delays at the crossing guards' intersection are minimized. However, the guards should at no time take on the role of a traffic management officer. Several survey responses were received advising that the crossing guards were significantly and unnecessarily delaying traffic movements, particularly along Lake Street.

### **REVISED DRAFT FOR DISCUSSION**

*Safe Walking Routes to School Plan  
River Forest, Illinois*

## Observations of Crossing Guard Activity

Field observations conducted by KLOA along Lake Street during the weekday peak hours of school traffic activity indicated that traffic congestion from the school crossings exists for the following reasons:

- Lincoln Elementary School crossing guards at Park Avenue and Franklin Avenue do not stop traffic on Lake Street for pedestrian crossings in concert with each other, causing concurrent traffic queues on Lake Street between the two intersections.
- Lincoln Elementary School crossing guards do not stop traffic on Lake Street for pedestrian crossings in concert with the St. Luke Parish crossing guard at Ashland Avenue, causing Lake Street traffic queues between Franklin Avenue and Ashland Avenue.
- St. Luke Parish crossing guard at Ashland Avenue at times stops traffic on Lake Street for pedestrian crossings when Lake Street receives the green indication at the Lathrop Avenue traffic signal causing Lake Street traffic queues that extend back to the Lathrop intersection.
- St. Luke Parish crossing guard at Ashland Avenue also stops traffic on Lake Street to allow northbound vehicles on Ashland Avenue to turn left onto Lake Street or continue north on Ashland Avenue, and eastbound vehicles on Lake Street to turn left onto Ashland Avenue.
- School-related traffic queues extended along Lake Street from Park Avenue through Lathrop Avenue and along southbound Lathrop Avenue between Oak Avenue and Hawthorne Avenue.

Based on the above observations, the following policies are recommended for school crossing guards to better balance pedestrian safety and traffic flow. The guards should receive periodic training to reinforce these policies.

## Recommended Crossing Guard Policies

1. Lincoln Elementary School crossing guards on Lake Street at Park Avenue and Franklin Avenue should coordinate the times in which traffic is stopped on Lake Street for pedestrian crossings.
2. Lincoln Elementary School crossing guards on Oak Avenue at Park Avenue and Franklin Avenue should coordinate the times in which traffic is stopped on Oak for pedestrian crossings.
3. Roosevelt Middle School crossing guards on Oak Avenue at Lathrop Avenue and Jackson Avenue should coordinate the times in which traffic is stopped on Oak Avenue for pedestrian crossings.
4. Roosevelt Middle School crossing guards on Chicago Avenue at Jackson Avenue should coordinate the times in which traffic is stopped on Chicago Avenue with the north/south green phase at the Chicago Avenue/Lathrop Avenue intersection.
5. Willard Elementary School crossing guards on Division Street at Franklin Avenue and Ashland Avenue should coordinate the times in which traffic is stopped on Division Street for pedestrian crossings.

6. St. Luke Parish crossing guard on Lake Street at Ashland Avenue should coordinate the times that traffic is stopped on Lake Street with the north/south green phase at the Lake Street/Lathrop Avenue intersection.
7. Grace Lutheran School crossing guard on Division Street at Bonnie Brae should coordinate the times that traffic is stopped on Division Street with the north/south green phase at the Division Street/Harlem Avenue intersection.
8. Crossing guards should assist students across the street regardless of which school they attend.
9. Crossing guards should extend across the street centerline, at a minimum, while assisting students across the street.
10. Crossing guards should at no time direct traffic movements within the street.

## 6. Conclusions

This Safe Walking Routes to School (SWRTS) study has included an exhibit for each of the private and parochial primary schools in River Forest, and the River Forest Community Center, that can be used as a guide by students, parents and guardians to travel to school and the Community Center by the safest paths possible. Each exhibit provides a street map showing the recommended walking routes to the respective school or RFCC, which can be posted on the websites of the Village, RFCC and subject schools, displayed at the schools and RFCC, and incorporated into the parent/student handbooks.

Further, this study has identified several measures that can be implemented by the Village of River Forest to enhance safety at the street crossings along the school walking routes, including traffic control modifications, crosswalk marking installations, and pedestrian crossing signage. Many of these improvements address responses received from the survey.

This study has recommended two new locations for the posting of a crossing guard. One at Lake Street/Lathrop Avenue adjacent to the southeast corner of St. Luke Parish School for the same reasons as the guards currently posted at the other signalized intersections adjoining school blocks (road width, traffic volume and speeds). The other at Division Street/Ashland Avenue at the southeast corner of the Willard Elementary School block.

This study has also identified three locations where crossing guards could be removed in place of other alternatives to address student safety. One location is on Oak Avenue at Ashland Avenue where there are no recommended walking routes that cross Oak Avenue at this location. Another location is at Division Street/Lathrop Avenue, where the crossing guard would be relocated to Division Street/Ashland Avenue, closer to Willard Elementary School. The third location is at the Roosevelt Middle School access driveways off Lathrop Avenue. At all three locations, the recommended measures should be monitored to determine if they have been effective, if additional measures are needed, or if the crossing guards should be redeployed.

Lastly, policies have been recommended for school crossing guards to follow to better balance pedestrian safety and traffic flow.

Q1 Are you a: (Check all that apply)

Answered: 312 Skipped: 0

ANSWER CHOICES	RESPONSES	
Resident of River Forest	96.15%	300
Guardian of a student in a school in River Forest	51.28%	160
Neither	2.24%	7
Total Respondents: 312		

**Q2 If not a guardian of a student in a school in River Forest, please feel free to provide any general comments on the safety of walking routes to the schools, then please skip to question 10.**

Answered: 51 Skipped: 261

#	RESPONSES	DATE
1	Since the bump outs on Lake street were configured many car owners avoid Lake street and use Oak street as an alternative. Much more car traffic going at high speeds	5/22/2018 7:02 AM
2	#1 problem: drivers drive too fast everywhere in RF. #2 problem: cell phone and texting in school zones.	5/19/2018 6:16 PM
3	My kids walk and ride their bikes from Linden and Park to Lincoln and Roosevelt everyday. Hawthorne is very dangerous and cars are going over the speed limit and not fully stopping at the stop sign. The same is true on Central and Franklin Ave. The Village should install speed cameras that monitor during school hours, and mimic the city of Chicago's speed cameras by schools.	5/18/2018 3:50 PM
4	Thatcher crossing on Oak St is not pedestrian or bike friendly. There are lots of pedestrians and cyclists, including lots of kids, that cross that intersection to go to school or visit the forest preserve. Would be great to have a yellow light that could be activated by pedestrians as needed when crossing Thatcher.	5/15/2018 2:18 PM
5	This issue is not applicable to me.	5/15/2018 11:25 AM
6	I believe that students and parents are unlikely to walk any route other than what is most convenient or pleasant and I doubt this new map will have an impact.	5/14/2018 8:42 PM
7	I'm concerned about inattentive drivers hitting our child when he walks and/or rides his bike to school.	5/14/2018 8:09 PM
8	parent	5/11/2018 9:39 AM
9	I think it would be great to have the flashing stop signs in more areas close to schools. I feel like you have to be very cautious even at 4 way stops. Some 4 way crosses don't have any stop signs which is very unsafe	5/11/2018 6:20 AM
10	the intersection of washington and vine is not safe, needs a stop sign	5/10/2018 8:35 PM
11	Cars drive too fast and people are on their phones. There are unprotected intersections where a child can easily get hit if a car isn't paying attention.	5/10/2018 3:14 PM
12	I wish there was a crossing guard at Lake and Lathrop.	5/10/2018 10:11 AM
13	A mapped route available at Schools and Community Center, Banks and Food Markets would be nice and informative.	5/10/2018 9:14 AM
14	I would hope that crossing guards have training to alert them to the safety of the children as well as the safety of the vehicle traffic... the St Luke crossing guards on Lake St don't seem to realize that they significantly impact the Lake St vehicle traffic and make the situation less safe	5/10/2018 8:18 AM
15	Intersection at Franklin and Lake needs to be a 4-way stop. Intersections around the 800 blocks that have no stop sign in any direction are dangerous.	5/9/2018 7:38 PM
16	The turns from Franklin on to Lake st. need to be right turn only.	5/9/2018 6:38 PM
17	N/a	5/9/2018 6:00 PM
18	The biggest danger in River Forest are parent drivers who are in a hurry to get their kids to school. Those students that walk need to make sure they not only stop at the corner but wait to cross the street if there is a car coming, even if there is a stop sign!	5/9/2018 5:06 PM
19	Still trying to figure that out, but always walk in groups.	5/9/2018 4:47 PM
20	My children, when they attended Lincoln and Roosevelt walked to school each day. I had them walk on Lake Street because that's where the crossing guards were but there was not one at Lake and Lathrop. I walked my children to and from school every day because I was concerned about their safety. Once they were in Roosevelt, they were down the street so I let them walk alone.	5/9/2018 4:14 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

21	I believe there should be someone to help cross the children at Franklin Ave between Central and Hawthorne Ave	5/9/2018 3:38 PM
22	There are many intersections w no stop signs at all. If cars are not familiar w River Forest, they speed right through causing potential danger to any walkers in the vicinity	5/9/2018 3:04 PM
23	Crossing all uncontrolled intersections is very dangerous for all students on bikes and walking. I have seen many near misses.	5/9/2018 2:49 PM
24	I am a guardian.	5/9/2018 2:43 PM
25	I would love to encourage students to only use controlled intersections when they are walking. As a side note, I think that it's still shocking that the village has uncontrolled intersections at all. It would slow down drivers and also ensure that every intersection is safer.	5/9/2018 2:33 PM
26	Very busy traffic on Lake Street at any of the crossing from South to North. Impatient and dangerous behavior of drivers.	5/9/2018 2:31 PM
27	I have concerns about crossing Thatcher at Oak Street. I think there should be a pedestrian crossing with flashing lights.	5/9/2018 2:23 PM
28	We live south of train. Crossing Washington is hazardous, mostly due to cross town (non-resident) traffic. Speeding and disregard to crosswalks are the major issues.	5/9/2018 2:19 PM
29	There is not enough police present during the commute to and from school. Traffic speeds right by our kids	5/9/2018 2:09 PM
30	NA	5/9/2018 2:07 PM
31	Generally good but the intersection of Division and Lathrop is troublesome.	5/9/2018 2:05 PM
32	I live at 319 Keystone and cars zoom by at speeds upwards of 40mph at all times of the day. Currently there is no stop sign at the intersection of Keystone and Hawthorne so it enhances people's ability to speed and not stop or pause for pedestrians. There are a number of children who take this route to Lincoln Elementary school both walk and bike and it is my fear that someone will get hit.	5/9/2018 1:23 PM
33	Corner of Keystone and Hawthorne needs a stop sign.	5/9/2018 12:08 PM
34	My last child just graduated and had 2 attend over the years. Our home is central to all schools. My thoughts are the current routes are safe. Creating new routes in no way guarantees students will use them. Start ticketing all the parents dropping off students who continue to roll through stop signs and talk on phones.	5/9/2018 9:15 AM
35	We need a stop sign at Hawthorne and Keystone. Cars are always rolling through and I have a young child just getting ready to start walking on her own. I don't feel that she is completely safe with the heavy traffic that we have on Keystone and Hawthorne	5/9/2018 8:38 AM
36	In general students should only cross at designated crosswalks and stoplights. There are too many intersections with no stop signs or signals in either direction	5/8/2018 10:09 PM
37	Many east-west streets in the village have become difficult to cross during rush hour - Chicago, Lake, Augusta, Division, etc.	5/8/2018 7:08 PM
38	Students cross Thatcher at Oak Ave. on their way primarily to Roosevelt (sometimes to Lincoln as well) this is a busy intersection for both students and others and there is no cross walk It's a dangerous corner for crossing on foot at times (cars often are going over the 25mph speed limit on Thatcher).	5/8/2018 9:51 AM
39	2-year old and 4-year old who walk to playgrounds daily	5/8/2018 6:25 AM
40	I would think that if a student stayed off of Harlem avenue or the alley behind it, any route in RF should be safe.	5/7/2018 11:28 PM
41	Na	5/7/2018 10:46 PM
42	Our children only recently graduated from the RF school system. We asked them to only cross the busiest streets where there were stop signs or lights. And, told them to think of everyone driving a car as an idiot, i.e. they were responsible for keeping themselves safe not the driver of the car.	5/7/2018 8:48 PM
43	I am a parent of a preschooler and live very close to Lincoln, St.Lukes, and Roosevelt. I find it very unsafe that there are no stop signs along Oak so close to both schools. I know that new crosswalk signs were put up, but there's no reason not to have a stop sign to slow down traffic.	5/7/2018 6:22 PM
44	Need crossing guard/stop signs at Franklin and Oak	5/7/2018 5:39 PM
45	The crossing at Park and Greenfield is very dangerous, with students from Dominican University speeding down Park.	5/7/2018 5:04 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

46	I think there are some intersections that are a bit dangerous due to cars not fully coming to a stop and several that have no signals (no yield or stop signs) in any direction, that should have something posted.	5/7/2018 4:32 PM
47	Drivers drive very fast and speed through stop signs in all parts of the villages including where children walk to school.	5/7/2018 3:48 PM
48	There needs to be clear choice of the safest way to school	5/7/2018 2:24 PM
49	I have a four year old who will attend Lincoln eventually. As well as a one year old. We do walk to Lincoln from our house for sports practice. And I also ride my bike everywhere with both of them in a burley attached to my bike.	5/5/2018 9:10 AM
50	The traffic light at Franklin and Washington is way too short for people trying to cross Washington.	5/5/2018 8:29 AM
51	Crosswalks need to be marked so students from the west side of River Forest can safely cross Thatcher Ave and other busy streets.	5/4/2018 11:38 PM

## Q5 If you drive to/from school, are there any traffic conflicts or safety issues that you experience along the way? (please specify by location)

Answered: 185 Skipped: 127

#	RESPONSES	DATE
1	Frustrated drivers who get caught in the rush and then speed off after the stop sign at Lathrop and Oak.	5/19/2018 6:16 PM
2	Drop off lane on Franklin side is a disaster, buses park in the parent drop off lane	5/19/2018 1:07 PM
3	Washington Blvd at Park is a terrible intersection. Cars drive extremely fast from Keystone to Franklin. Park Ave has become thru from Madison to Washington Blvd with many fast drivers. Crossing lake street at any interaction is always difficult at drop off and pick up times due to traffic. My kids walk because of many blind spots along viaducts	5/19/2018 12:31 PM
4	Making a left turn from Lake to Lincoln school	5/19/2018 12:20 PM
5	We typically don't drive. My only concern is underpass on Franklin. People heading from west don't look for kids that are heading north from south RF.	5/18/2018 7:17 PM
6	Some traffic congestion outside Willard but nothing major	5/18/2018 5:06 PM
7	I don't drive because it is faster to walk.	5/18/2018 3:50 PM
8	The Willard and Roosevelt pickups/dropoffs are congested messes. Willard in particular has declined over the years, and was much better when Ms. Brownlow policed it. There needs to be some authority present at Willard - it doesn't need to be each and every day at all locations - but having someone out there regularly would be a great deterrent.	5/17/2018 5:20 PM
9	The new one way street arrangement around Jackson and Oak is really crazy. As is the lack of short-term parking options for pick-up and drop-off.	5/17/2018 2:46 PM
10	crazy/speeding on Lathrop between Augusta and Division.	5/16/2018 10:44 AM
11	The backup on Ashland especially at pickup is annoying and could be improved.	5/16/2018 8:59 AM
12	Ashland and Oak. The crossing guard is horrible and doesn't seem to understand how to manage traffic. Intersection needs a 4 way stop sign !!! There is too much traffic and too many students walking for this intersection not to have a stop sign. Not safe for our kids !!!	5/15/2018 8:02 PM
13	Iowa no stop signs at Jackson Speed of cars around schools No street markings Need greater police presence to enforce parking restrictions	5/15/2018 6:08 PM
14	Confusion at Ashland/Oak re: one-way during school hours. Occasionally cars disregard one way which causes confusion for walkers. Intersection of Oak/Lathrop is challenging for walkers in general as cars do not generally give walkers right of way. Drivers please put your phones down.	5/15/2018 3:00 PM
15	Long waits to cross Thatcher on Oak St.	5/15/2018 2:18 PM
16	I drive to and from the Metra via Lake street. I notice cars going around cars waiting to make a left turn onto Park every day of the week. the new curbs are not helping. Someone will get hit.	5/15/2018 11:36 AM
17	People frequently let their children out of the car at the 4 way intersection of Lathrop and the road one block south of Chicago. Also, the intersections near the viaduct (Lathrop and North Blvd) are sometimes confusing for our child to determine if it's his turn to cross the street. He's not certain who has the right-of-way.	5/14/2018 8:09 PM
18	Crossing Division without Stop Sign at Franklin or Ashland.	5/14/2018 7:40 PM
19	no	5/14/2018 10:26 AM
20	Main issue is the traffic on Lake street if you are traveling from south River Forest. It is impossible to turn left or even cross the street going straight at Park so I usually take a route where I am only making right turns onto Lake.	5/14/2018 9:14 AM
21	crossing at lathrop and oak. Trying to turn left or go straight across at Lake and Franklin	5/13/2018 6:42 PM
22	Congestion	5/11/2018 9:50 AM
23	parents don't stop at stop signs or crosswalks parents block driveways	5/11/2018 9:39 AM

## Safe Walking Routes to School and Bicycle Master Plan Study

24	Since my child is a kindergartener, parking and walking him inside is always like a game of frogger in the morning. I feel the crossing guards do their best to control traffic.	5/11/2018 8:09 AM
25	We usually walk. They have to cross over division. I also think the exit off of Ashland and Division is dangerous with no stop sign or even someone temporarily allowing cars off the street.	5/11/2018 6:20 AM
26	Lake Street in the morning rush-hour can be challenging traffic	5/10/2018 8:42 PM
27	no	5/10/2018 8:35 PM
28	Lots of traffic at all times, of all types. Also, inconsiderate rushed parents dropping off/picking up kids who don't seem to believe that the rules apply to them.	5/10/2018 7:54 PM
29	no	5/10/2018 4:54 PM
30	Visibly from vehicles when turning on Lake and Franklin intersection with stopping traffic and students crossing.	5/10/2018 4:32 PM
31	Keystone and Hawthorne - there is no stop signs, thus cars do not come to a complete stop Keystone and Linden - There is no stop sign on Keystone, cars speed down Keystone between Washington and Hawthorne in an effort to park and catch the train.	5/10/2018 4:05 PM
32	N/A	5/10/2018 3:14 PM
33	I feel that there should be a also be crossing guard at the intersection of Division and Ashland. People in cars are in such a hurry that they don't always stop for walking/biking students or are not observant of walking/biking children.	5/10/2018 12:46 PM
34	Greenfield & Park is a dangerous intersection.	5/10/2018 11:54 AM
35	Transporting my kids to school and dropping them off has become safer since installation of traffic guards at intersections of Park and Oak and Franklin and Oak. The crossing guards that come out in the very middle of the intersection (such as Lathrop and Oak) provide the safest crossing for our kids and for drivers to be forced to stop while kids are crossing. This makes it very clear to the kids and drivers that all cars are stopped and no one will get hit.	5/10/2018 11:48 AM
36	Cars not stopping fully at stop signs, or giving right of way to walkers and bikers, especially along Hawthorne avenue and Keystone (to travel under bridge) and at Franklin. Cars seem to be using Hawthorne to bypass traffic elsewhere and are often in a hurry, not careful around kids. Intersection at Washington & Keystone only slightly better. Note - kids on Gale Avenue south of Washington all travel to Keystone to cross at stop sign b/c it is very difficult and unsafe to cross Washington at Gale Avenue. Cars speed between Thatcher and Keystone stops often bypassing one another to get ahead. Very unsafe for kids to be crossing here.	5/10/2018 10:51 AM
37	People drive too fast at Willard once their kids are dropped off. I also think the Park/Division stop sign is a bit of a mess with Dominican students that are trying to get to class quickly, commuters, and parents trying to get their kids to school on time.	5/10/2018 10:40 AM
38	I wish that the crossing guards could balance car and pedestrians - letting cars go through in a group, then pedestrians in a group- 7:50-8:15 is so busy for all of us!	5/10/2018 10:11 AM
39	vehicle back up at Lake / Lathrop and Lake / Ashland	5/10/2018 9:53 AM
40	Kids on bikes too far into street on Oak. New signs on Oak are helping. Crossing guards need to be more visible and move further into street to cross kids.	5/10/2018 9:43 AM
41	St Vincent students are crossing in the middle of the street to get to cars parked on the south side of LeMoyne.	5/10/2018 9:14 AM
42	We live just south of the train tracks. Getting across Lake St. is very challenging in the morning.	5/10/2018 8:56 AM
43	The intersections at Oak/Lathrop, Oak/Ashland, Oak/Franklin & Oak/Park are safety concerns due to heavy traffic, frustrated motorists and children walking to school. The temporary crossing guards have been an excellent solution.	5/10/2018 8:51 AM
44	No	5/10/2018 8:29 AM
45	Lake street is generally a disaster during school times	5/10/2018 8:03 AM
46	Park and Lake, difficulty crossing Lake to car drop off location. Crossing guard occasionally helps Oak and Lathrop, backs up with cars dropping off kids	5/10/2018 7:11 AM
47	congestion and confusion at Lathrop and Oak	5/10/2018 7:05 AM
48	Back up at Lake and Lathrop—Cars blocking intersection and running lights	5/10/2018 6:51 AM
49	Harlem and Chicago. busy and unsafe. Cars don't stop well. Lathrop and Jackson. Conjested	5/10/2018 6:47 AM
50	no, just the usual traffic	5/9/2018 11:45 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

51	Crossing two very busy streets, one with no crossing guard. We lived block away from intersections with stop signs but sometimes cars don't stop for pedestrians or only stop briefly or with a rolling stop so they are still a concern for children walking to school.	5/9/2018 11:08 PM
52	No	5/9/2018 10:45 PM
53	Cars speeding in school zones on Lake and Park by Lincoln	5/9/2018 10:39 PM
54	there are too many cars on the road and 8am and 3pm. More kids should be walking or biking! Less cars make River Forest safer for kids and commuters. The intersection of Lathrop and Greenfield is especially harrowing at 8am and 3pm.	5/9/2018 10:39 PM
55	cars parked on Oak near schools narrow the road, making it more dangerous for bicyclists in the road and other cars under way	5/9/2018 10:34 PM
56	Monroe & Oak has lots of traffic and left turning cars (northbound on Monroe turning left toward Roosevelt) while kids crossing the street.	5/9/2018 10:22 PM
57	4 way stop signs are needed at Gale and Washington, and Gale and Vine. These are along walking and bike routes with significant numbers of children and other pedestrians who live in the immediate area, and cars often do not stop or even slow down for pedestrians. This is particularly so for cars that appear to be traveling into and out of River Forest along Washington or cars traveling toward Madison. Adding stop signs would significantly increase safety for pedestrians with negligible if any impact on traffic flow. There is no reason for cars to be zipping through these pedestrian areas in this fashion.	5/9/2018 10:17 PM
58	Heavy traffic. Some crossing guards are better than others at managing traffic.	5/9/2018 9:38 PM
59	No	5/9/2018 9:32 PM
60	Corner of Washington and Gale - very hard to cross by foot or by car. Need a 4 way stop sign! Corner of Vine and Gale - cars fly down and don't stop. Need stop or yield sign	5/9/2018 9:31 PM
61	Cars roll through stop signs at August/Lathrop and Augusta/Monroe	5/9/2018 8:28 PM
62	Yes. There are pedestrians walking randomly and drivers need to be very careful making sure no one is crossing at three intersection of Keystone and Hawthorne Ave.	5/9/2018 7:52 PM
63	See traffic concerns listed above	5/9/2018 7:38 PM
64	Traffic backs up often on Lake Street between Keystone/Forest, all the way to Lathrop. Lots of kids, lots of cars, lots of pedestrians, and lots of bikes. Concerned about the speed limit on Lake Street being 30 mph vs. Chicago (for example) where it is only 25 mph.	5/9/2018 7:19 PM
65	Speedy drivers on Franklin at school drop off	5/9/2018 7:14 PM
66	The only conflict I ever run into is in the drop off/pick up line at Willard. In the morning, parents will weave in and out of the pylons making the line, if they don't want to wait. I feel it's dangerous.	5/9/2018 7:14 PM
67	None other than the Chicago and Jackson intersection where there is congestion to make the turn on to Jackson	5/9/2018 7:00 PM
68	Lake street & Lathrop Street congestion, the lack of most RF drivers to obey stop signs.	5/9/2018 6:55 PM
69	Bad traffic from Lathrop to Park and Iowa to Washington.	5/9/2018 6:41 PM
70	I do not drive to school but others that do and are making left hand turns from Franklin on to Lake street, make it very dangerous for kids crossing the street.	5/9/2018 6:38 PM
71	Lake street between Lathrop and park is a nightmare to drive on	5/9/2018 6:25 PM
72	Franklin and oak	5/9/2018 6:21 PM
73	When there is inclement weather i.e rain / snow I drive my children and the traffic is really bad we're on busy street (Lake) with 3 schools in a 4 block radius.	5/9/2018 6:12 PM
74	It is difficult to cross at Oak and Franklin since it's a two way stop sign as opposed to a four way. People are usually driving quickly and then students walk in gaps	5/9/2018 6:00 PM
75	At the intersection of Berkshire and Monroe there's no stop or yield sign. Cars driving from Trinity eastbound on Berkshire zoom through that intersection without stopping either taking a hard right or zipping straight through.	5/9/2018 5:56 PM
76	Traffic where parents drop off kids in front of Trinity in the morning (on Lathrop). Would benefit from curb cut in front of school.	5/9/2018 5:47 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

77	Congestion and traffic flow/rules at the school. Improved slightly with one way and drop off lane at Lincoln, however the back up of traffic on Lake to allow for turns etc makes driving cumbersome. We choose to drive only if really necessary b/c it takes so much time to navigate drop off. Almost faster to walk. Also feel as a driver it's unsafe unless I have direct eye contact with the crossing guards, so we understand each other's intentions and pedestrians right of way.	5/9/2018 4:51 PM
78	No, usually take Lathrop all the way up to the school.	5/9/2018 4:47 PM
79	cars that are not going to RMS and that are heading eastbound on Chicago Ave. in the morning go way too fast	5/9/2018 4:45 PM
80	No	5/9/2018 4:45 PM
81	Park and Lake is VERY busy in the morning. I usually cross Lake heading northbound on Park and in the morning sometimes you have to wait a long time for cars and students or try and take a risk. This is dangerous.	5/9/2018 4:22 PM
82	There are many points where traffic is slowed or stopped near schools, to allow students to cross. Lathrop & Lake is particularly slow due to the traffic light and school intersection.	5/9/2018 4:21 PM
83	Central and Franklin. Very very poor visibility for anyone coming out from under the viaduct. You really can't see them. Not a safe crossing. Commuter traffic is less problematic. Oak at Franklin is crazy. Can't decide when to turn. Oak needs a stop sign there. Oak at Ashland is a little crazy with traffic from drop off at St. Lukes plus people coming from Roosevelt and going to Lincoln and pedestrians. Lathrop and Oak--the problem with this intersection is the crossing guard is really pretty lousy. No one knows what's going on. I've avoided it entirely this year its so bad. No one has a stop sign at the corner of William and Iowa. Fastest car wins. No stop sign at corner of Ashland and Vine (and no one acknowledges the yield).	5/9/2018 4:16 PM
84	Congestion on Lake Street trying to get to Park Avenue. Also, Roosevelt is a mess always!	5/9/2018 4:14 PM
85	A lot of cars going beyond the school zone limit by Grace Lutheran School and Concordia Univ. Several accidents on corner of Division and Bonnie Brae.	5/9/2018 4:04 PM
86	All along Washington Blvd & @ Keystone & Lake cars do not yield to pedestrians like the law states. Oak Ave btwn park and Lathrop is VERY congested. Kids on bikes and cars have had close calls	5/9/2018 4:01 PM
87	Intersection of Iowa and William (unmarked)	5/9/2018 3:58 PM
88	Before crossing guards, no one stops! They drive too fast also. Oak & park	5/9/2018 3:53 PM
89	Congestion; crossing guards that do not know how to properly direct pedestrians and traffic (especially at Oak and Lathrop and Lake and Park); cars driving too fast, particularly those using RF as a through way.	5/9/2018 3:52 PM
90	No	5/9/2018 3:50 PM
91	The crossing guard needs to let cars cross across Lake on Park as well as children. Otherwise cars take risky moves to get across and get to school on time.	5/9/2018 3:40 PM
92	Driving at Park Ave and Lake St is hard to get across. A flashing stop sign would be nice during school hours.	5/9/2018 3:38 PM
93	Lake/Park, Lake/Forest, Lake/Ashland, Lathrop/Oak	5/9/2018 3:29 PM
94	Speeding speeding and speeding and lack of proper signage in RF.	5/9/2018 3:10 PM
95	The street crossing on Division is hazardous whether walking, biking, or in a car. Also, the intersections w no stop sign at all, for example, Ashland & Thomas - I stop completely at these locations because so many cars speed through. When I stop, people almost ram into me with their cars bc they either choose to not stop or are unaware that traffic doesn't stop in both directions.	5/9/2018 3:04 PM
96	People driving on the wrong side of the street. This has occurred twice in the last two weeks.	5/9/2018 3:02 PM
97	People not stopping at stop signs Park and Chicago	5/9/2018 3:02 PM
98	Yes , Ashland and central / Hawthorne, Franklin and central / Hawthorne , park and central / hawthorne	5/9/2018 3:01 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

99	At the corner of Oak and Ashland there are cars temporarily parked near the corners of that intersection to drop off kids who I assume are walking the last block to Roosevelt. These cars make it hard to see kids crossing Ashland and see cars driving down Oak when you are in a car turning off of Ashland onto Oak. I also see quite often cars run the stop sign on the south side of Park and Lake. When a car drives north on Park crossing Lake Street the car directly behind them instead of coming to a complete stop at the 4 way stop sign and waiting their turn, just drives right through following the car in front of them so they don't have to stop and wait. I drive west of Lake and I'm watching for kids, adults, crossing guards and cars. So an extra car shooting through the intersection when nobody is expecting it is pretty dangerous.	5/9/2018 2:57 PM
100	People driving too fast, rolling through stop signs, not paying attention to crossing guards, crossing guards not paying attention to students	5/9/2018 2:54 PM
101	Turning south off Greenfield at the intersection of Greenfield and Ashland	5/9/2018 2:53 PM
102	occasionally cars are travelling the wrong way when the street is operating as a one-way	5/9/2018 2:53 PM
103	Traffic by Roosevelt is very difficult to navigate at peak times	5/9/2018 2:51 PM
104	Left turn onto Lake Street from Forest Ave. (we live on Forest and since Park and Franklin are one-way streets, we are forced to turn left from Forest onto Lake to get to Lincoln and traffic is often backed up on Lake Street, making it difficult to turn left onto Lake street) I think a four way stop at Forest and Lake Streets would be beneficial. Same comment about left turn from Lake street onto Park to drive into the carline. I think a stoplight here to use during drop off time in the morning would be beneficial.	5/9/2018 2:50 PM
105	lots of traffic at Jackson/Chicago in mornings and afternoons during arrival and dismissal times.	5/9/2018 2:45 PM
106	Drivers not always looking for bikers or walkers.	5/9/2018 2:43 PM
107	On Ashland, near and in front of Willard, some people do not drive safely.	5/9/2018 2:40 PM
108	N/A	5/9/2018 2:39 PM
109	Oak and Ashland needs a crossing guard. There's a lot kids walking and a lot cars coming from St. Luke's. It's busy.	5/9/2018 2:38 PM
110	Route from our location to Roosevelt encounters a high volume of walkers due to 3 close schools as well as traffic congestions of vehicles navigating around commuting students	5/9/2018 2:37 PM
111	The worst seem to be the section around the UP tracks on Hawthorne and Central. The sight lines are bad. Would flashing red stop signs help?	5/9/2018 2:37 PM
112	difficult to turn onto Lake Street, often long back ups on Lathrop	5/9/2018 2:34 PM
113	1. Again, the uncontrolled intersections can get messy around arrival and dismissal times because the traffic level is so high and people aren't always obeying the traffic rules for uncontrolled intersections. 2. I would also like it if the crossing guards were more diligent about helping traffic move by waiting just a bit to let kids cross an intersection in groups. 3. The portable sign at the intersection of Ashland and Division should specify which lane should be used for people going straight.	5/9/2018 2:33 PM
114	Yes, it's nearly impossible to cross Lake Street going north on Park or turn left (westbound) onto Lake Street off of Franklin.	5/9/2018 2:33 PM
115	Major traffic and safety issues on Ashland during pick-up and drop off. I think you should not allow any parking on east side of the street. Makes it too difficult for cars to get through and it also causes safety concerns as kids get out of their cars on the street side.	5/9/2018 2:32 PM
116	I would love to see a stop sign at the intersection of Lake & Park and Lake & Franklin to help facilitate people turning	5/9/2018 2:31 PM
117	Lathrop and Lake intersection is often blocked. Southbound Lathrop north of Lake is very slow in the mornings as is east and west on Lake. Diversion of eastbound and westbound traffic on Lake north to Chicago or south to Washington would be advisable.	5/9/2018 2:31 PM
118	No	5/9/2018 2:30 PM
119	Yes. To avoid traffic going east on Lake Street, we drive east on Central Ave. At each underpass along the way, there is terrible visibility to spot pedestrians and cyclists. This is especially bad in the AM during certain seasons when the sun makes visibility even worse. A mirror system like I have seen in other cities would be a huge improvement.	5/9/2018 2:26 PM
120	There are some intersections to no traffic signs whatsoever, Iowa and Keystone is one example. Most people do not treat it as a 4 way stop, which it is supposed to be as I'm told by the village.	5/9/2018 2:23 PM
121	Just a back up on Oak Street by Roosevelt	5/9/2018 2:23 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

122	No	5/9/2018 2:22 PM
123	Yes - there needs to be a crossing guard (at a minimum) on Park Avenue for the Greenfield crossing. There are commuters and Dominican college students (and parents dropping kids off) that are all busy driving through this s-curve intersection with only one stop sign. Plus, with any construction around the area or parked cars, it makes visibility very difficult (especially when factoring in cars turning). It is a very unsafe intersection for walking to/from school.	5/9/2018 2:20 PM
124	Drop off points on Oak (west of Lathrop) and on Jackson need better guides or lanes. Drivers are in a hurry and often reckless.	5/9/2018 2:19 PM
125	no	5/9/2018 2:18 PM
126	Block of Willard on Ashland very congested	5/9/2018 2:17 PM
127	Intersection of Oak and Ashland. There's a crossing guard there now, but it's still a congested intersection. Also, too many people don't pay attention to the signs and drive south of Oak on Ashland even though there are two Do Not Enter signs.	5/9/2018 2:16 PM
128	Currently with the closure of the train tracks on 1st, Trying to get on to Lake Street or Thatcher from Edgewood is difficult.	5/9/2018 2:14 PM
129	The traffic gets very backed up because of the St Luke drop off process. The crossing guards often stop traffic on Lake for an unreasonably long time.	5/9/2018 2:12 PM
130	The crossing guards at Ashland and Oak and Franklin and Oak are not well trained. I might even go so far as to say that walkers, bikers and drivers were safer BEFORE the installation of the guards just after the new year. They give confusing signals to the students and drivers and I have witnessed near accidents as a result at both intersections.	5/9/2018 2:12 PM
131	It's too busy on Oak Street between Ashland and Lathrop	5/9/2018 2:08 PM
132	Lake street between Lathrop and Park is a dangerous mess of congestion - we avoid it and drive down Chicago ave whenever possible. Crossing guards on Lake street are not able to stop cars from pulling into the intersections or racing through yellow lights.	5/9/2018 2:07 PM
133	Yes - intersection of train tracks (Hawthorne/North) and Franklin. Cars don't always stop (and often time children don't see cars). Also at the intersection of Franklin and Linden. This a 2-way stop - which many north/south traveling cars don't recognize, as well as pedestrians. A 4-way stop would be much safer - I live at this intersection and see several near misses (car/car and car/pedestrian) on a daily basis.	5/9/2018 2:07 PM
134	We pass Lemoyne and Jackson, where St. Vincent's also has their drop off and there is no crossing guard so it is incredibly congested and people cross the street without paying attention. Add that to the people coming to the Lathrop / Lemoyne stop sign who just want to pass through quickly to get to North ave. A mess.	5/9/2018 2:06 PM
135	The crossing guard at Division and Lathrop is poor and not visible. He/she does not command the crossing at all.	5/9/2018 2:05 PM
136	intersection at agusta and keystone can be dicey. I often see stop sign there disregarded. I live at the corner of Iowa and Keystone where there is no stop sign; it can also be questionable as drivers often use it as a shortcut to get to thatcher or Chicago, bypassing stoplight @ thatcher and Chicago. a stop sign that slowed E/W traffic could be beneficial at this corner.	5/9/2018 1:39 PM
137	Yes cars driving east on hawthorn turning right to go north on keystone don't stop to let kids cross at that 3 way intersection .there should be a pedestrian crossing there.	5/9/2018 1:02 PM
138	None	5/9/2018 10:54 AM
139	Lathroo / Chicago route and Oak get backed up because crossing guards wait for a student a block away and don't apparently receive any training in alternating lanes of traffic.	5/9/2018 9:15 AM
140	Not currently at Lincoln. We usually park on Franklin and walk over	5/9/2018 9:00 AM
141	We walk but I leave for work at 8 (usually walk-in by but occasionally driving)and we cannot get down franklin because the new crossing doesn't let the traffic thru. With the former crossing guard it was never an issue. She needs to accommodate but people and cars	5/9/2018 8:47 AM
142	Heavy traffic on Hawthorne and also on Keystone heading towards Lake Street. Lake street is always backed up with traffic as well.	5/9/2018 8:38 AM
143	Traffic at Keystone and Hawthorne Traffic on Lake	5/9/2018 7:12 AM

## Safe Walking Routes to School and Bicycle Master Plan Study

144	I feel very nervous as a driver (and a walker) going through underpasses around Hawthorne. And we usually travel through the Franklin underpass. Visibility is low in the underpass and due to tall bushes lining the property at the southeast corner of that intersection. Cars travel quickly along Hawthorne as sort of a detour and they do not have a lot of time to react due to short sidewalks at those corners. We have had several "close calls" there.	5/9/2018 6:43 AM
145	Lake is always backed up and car "fly" down Oak. Maybe shut down Oak to cars & use for kids to walk and ride bikes. May cut down on parents driving kids & kids can use Oak as a safe street to walk and ride bikes down.	5/9/2018 4:23 AM
146	Ashland & Greenfield by Willard. Chicago & Lathrop Oak & Jackson by Roosevelt	5/9/2018 12:19 AM
147	See first answer. Adults do not slow down or abide by rules of drop off and pick up	5/8/2018 10:09 PM
148	No	5/8/2018 8:52 PM
149	Yes, too many cars on the side streets and it causes a jam.	5/8/2018 7:08 PM
150	Anyplace on Lake. To get around the traffic, I've headed west, then crossed Lake on Thatcher or Keystone and headed east on Chicago to Roosevelt. Now, because of first avenue closure, it is virtually impossible to get across Lake from the south side of RF. With the nice weather, we have walked. My child used to ride her bike, it with cars going fifty down Hawthorne and going around the crossing guards on Lake, I am not comfortable with her riding.	5/8/2018 1:46 PM
151	Congestion on Franklin & Ashland at willard drop off. Turning left on to Franklin from Division is a nightmare. There should be four way stop signs at each of those intersections: Ashland/Division & Franklin/Division.	5/8/2018 12:14 PM
152	No. New crossing guards great.	5/8/2018 8:49 AM
153	Cars park and drivers get out to walk the kids to the school while their car is inside the coned lane at Willard. Leaving other cars dropping off children to cross the line of cones sometimes knocking them over when they leave. Previous principal used to have someone moving cars along and telling people they could not park in the drop off lane and leave their cars. No there is nobody.	5/7/2018 10:59 PM
154	Crossing Division on Franklin is not easy.	5/7/2018 10:51 PM
155	Drivers unaware of school zones not looking for walking or coming children, paired with incomplete stops along Lemoyne between Harlem and Lathrop.	5/7/2018 10:46 PM
156	Augusta and Keystone is super dangerous intersection. Keystone and Chicago is very difficult to cross. Lake and Keystone is extremely scary to cross. Madison and Gale is difficult to cross due to speeding traffic.	5/7/2018 10:23 PM
157	The area around Trinity High School is often quite congested as students are picked up and dropped off at many points and not at a single centralized location.	5/7/2018 10:20 PM
158	Not in recent years.	5/7/2018 9:28 PM
159	Speed and drivers not stopping before the crosswalk.	5/7/2018 9:19 PM
160	When we drove the kids to/from school, the biggest traffic or safety issues we ever experienced were with parents being self-centered focusing only on their kid(s) and not realizing their self-centered behavior was putting everyone else's kids at risk. Everyone needs to allow plenty of time around the schools and stop trying to do too much in too little time. Take a patience pill.	5/7/2018 8:48 PM
161	Yes-the intersection of Park and Greenfield. There is parking along that street which makes it difficult for children to see when crossing and for cars to see children. Cars exit and enter Dominican constantly and FLY down Park. It is very unnerving that there is not a marked crosswalk, some kind of light or sign to catch drivers attention or telling them CAUTION CHILDREN, or to slow down-a stop sign would be very helpful.	5/7/2018 8:35 PM
162	The intersection at Hawthorne and Franklin. Drivers constantly roll the stop sign on Hawthorne as they use it for a cut through town. The bushes on the S/E corner make a blind spot for many drivers on franklin. Way to many close calls at this intersection.	5/7/2018 7:24 PM
163	Intersection of greenfield and park	5/7/2018 5:40 PM
164	The viaducts going under the tracks at Thatcher and Keystone are difficult spots, and there is a blind spot on the North side of the tracks at Keystone	5/7/2018 5:38 PM
165	Trying to cross Lake St. between Park and Franklin. Difficult to see oncoming cars due to parked cars, speeding cars and aggressive driving.	5/7/2018 5:16 PM
166	Yes I am concerned for the safety of students crossing at Park and Greenfield.	5/7/2018 5:04 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

167	Crossing Gale at Vine, Washington Ave, and also the intersection of Hawthorne and Keystone. Cars often roll thru the stop signs without stopping.	5/7/2018 4:50 PM
168	Traffic is a bit busy on Lemoyne and Lathrop because of St. Vincent Ferrer school	5/7/2018 4:47 PM
169	No	5/7/2018 4:45 PM
170	Crossing guard at Oak and Lathrop doesn't control traffic well	5/7/2018 3:48 PM
171	Lake st west of lathrop gets very congested	5/7/2018 3:42 PM
172	too many stop signs on Division Street	5/7/2018 3:06 PM
173	Currently Thatcher Ave north of Lake St is a total mess and hazardous for Mosaic Montessori students. Street crossings along Oak between Thatcher and Park are also of concern for Lincoln.	5/7/2018 2:50 PM
174	Yes!!! There should be a yield/stop sign on Berkshire Street and Monroe Ave. The traffic coming from Trinity blows through there and never stops during dismissal.	5/7/2018 2:47 PM
175	I worry about all the intersections that do not have any stop signs. Many people who are just driving through town (and even some residents) do not realize or do not care that neither street has a stop and many just speed through (e.g. Iowa, Thomas, etc). I think all the intersections should have some sort of traffic sign at least at one of the streets. Also, many residents are not careful enough around pedestrians and are in a rush. Some kids do not look before crossing, especially on bikes. Perhaps they can be reminded to make eye contact with drivers before crossing.	5/7/2018 2:33 PM
176	Yes, too many fast drivers that do not stop or roll through the stop signs	5/7/2018 2:24 PM
177	Crossing guards not waiting for a bunch of kids to cross at same time. They let them straggle across while traffic is held up.	5/7/2018 2:24 PM
178	turning onto lake from edgewood, stoplight at lake and thatcher and turning left onto park	5/7/2018 2:09 PM
179	There is usually a back up near the light at Lathrop and Lake because of crossing at Ashland and Lake....many non- residents don't accommodate for this and then block entire intersection	5/7/2018 2:05 PM
180	Lake gets very congested at Ashland, Park, and Franklin. The crossing guards have to become traffic cops.	5/7/2018 8:00 AM
181	Park ave and Greenfield. Limited visibility for both cars and children. Crossing does not occur on a true corner.	5/7/2018 6:56 AM
182	The Franklin/Lake and Park/Lake intersections are nightmares with the traffic.	5/4/2018 9:26 PM
183	If I drive to Willard, I find it so dangerous for pedestrians at the corner of Ashland and Division. There are 2 lanes of cars which can turn left, right or go straight. Drivers are looking for an opening in traffic, trying to see around the car next to them, and are presumably rushed to get to a second school or work. It is SO easy to miss seeing a child crossing either on foot or by bike. It is an accident waiting to happen, to a pedestrian.	5/4/2018 5:23 PM
184	TOO MANY UNCONTROLLED intersection. In this age of impatient, distracted drivers, the Village must take action to improve vehicle and pedestrians by adding stop signs to all intersections. Even though I live four blocks from the school, my child has no choice but to navigate AT LEAST one uncontrolled intersection. How much can a stop sign cost?	5/4/2018 5:01 PM
185	Lake street is very busy and backed up by both Lincoln and St. Luke's, so I avoid it as much as possible.	5/4/2018 4:50 PM

## Q6 If your student(s) bikes to/from school, are there any traffic conflicts or safety issues that they experience along the way? (please specify by location)

Answered: 158   Skipped: 154

#	RESPONSES	DATE
1	My concern is crossing park ave at greenfield. No stop signs on park ave at the 3 way intersection. Cars belonging to Dominican students are on parked on Park ave and it is difficult to see children waiting to cross and kids must walk out into the street to look around parked cars to see if safe to cross. In addition, vehicles travel at a high rate of speed on park.	5/20/2018 7:11 AM
2	Drivers do not yield to pedestrians. Drivers roll or do not stop at stop signs	5/19/2018 6:16 PM
3	Same as noted above. This past week, I witnessed 3 children almost get hit by viaducts	5/19/2018 12:31 PM
4	The cross section at linden dangerous.	5/18/2018 7:17 PM
5	Crossing Augusta and Division are the only significant challenges so they cross at Park and Franklin respectively with the 4 way stop and crossing guard	5/18/2018 5:06 PM
6	Yes, the viaducts by Central/Hawthorne and Franklin are very dangerous and we have had one child hit by a car and numerous close calls.	5/18/2018 3:50 PM
7	Intersection at corner of Bonnie Brae and Oak has very confusing stop sign layout	5/17/2018 2:46 PM
8	Ashland and Division	5/16/2018 10:44 AM
9	N/A	5/15/2018 8:02 PM
10	Cars drive very fast east/west down Oak Street	5/15/2018 3:00 PM
11	Longs waits to cross Thatcher on Oak St.	5/15/2018 2:18 PM
12	Our son says it's confusing when biking from school because drivers will motion for him to cross and the crossing guard will tell him to wait. I've noticed there is some inconsistency amongst crossing guards.	5/14/2018 8:09 PM
13	Again, crossing Division at Franklin or Ashland	5/14/2018 7:40 PM
14	Yes. All but one intersection on Iowa Avenue is uncontrolled. Uncontrolled intersections still exist all over River Forest and create constant confusion for cars, bikes and pedestrians and many many near misses.	5/14/2018 11:35 AM
15	intersection at William and Iowa	5/14/2018 10:56 AM
16	We are new to bike riding to school since they are old enough now. So far, not a problem.	5/14/2018 10:26 AM
17	Yes, we walk from South River Forest and cross Washington at the Washington/Franklin intersection and then walk up Franklin to Lincoln school. At the intersection of Franklin and Linden, there is not a stop sign for the cars going east/west and they are hard to see and it is busy in the am. I have personally seen numerous kids nearly hit by a car or a bike at that intersection. A stop sign here would make it much easier to cross. Also, walking up Franklin and crossing Central is also difficult because when reaching the end of the viaduct, you can't see the cars going east on Central until you are at the very end of the viaduct and they often do not come to a complete stop at this intersection or if they do, they stop right at the end of the street where they are in the path of someone cross the street. Perhaps moving the stop sign back so the cars stop before they come to the viaduct or a mirror would be helpful to see if walkers are coming?	5/14/2018 9:14 AM
18	Crossing Ashland at Division is dangerous. People roll through the stop sign trying to turn or cross Division.	5/13/2018 9:55 PM
19	crossing Lathrop	5/13/2018 6:42 PM
20	No	5/11/2018 9:50 AM
21	parents don't stop at crosswalks curb cut at oak & lathrop, northeast side in particular is greater than an 8% grade	5/11/2018 9:39 AM
22	Crossing Division at Franklin or Ashland is always busy, but I'm not sure what could be done about it.	5/11/2018 8:09 AM

## Safe Walking Routes to School and Bicycle Master Plan Study

23	N/a	5/11/2018 6:20 AM
24	My daughter, actually feels rather comfortable crossing at the crosswalk's that have crossing guards and other crosswalks that have the sign that informs the driver to stop when they see a person crossing (Lake)	5/10/2018 8:42 PM
25	intersection of washington and vine	5/10/2018 8:35 PM
26	At ALL times in River Forest, there are cars cutting across the northeast corner of the village trying to find a shortcut from North to Harlem, or vice versa, without having to deal with the North/Harlem intersection. Many of these drivers speed, and are likely clueless as to the nature of the neighborhood they are cutting thru.	5/10/2018 7:54 PM
27	no	5/10/2018 4:54 PM
28	St. Luke's crossing guard on Lake St. do not stop vehicle for all pedestrians crossing Ashland.	5/10/2018 4:32 PM
29	Keystone and Hawthorne - there is no stop signs, thus cars do not come to a complete stop Keystone and Linden - There is no stop sign on Keystone, cars speed down Keystone between Washington and Hawthorne in an effort to park and catch the train.	5/10/2018 4:05 PM
30	Again, cars are going too fast and not looking out for kids. Every intersection is a possible accident.	5/10/2018 3:14 PM
31	Lake street is super busy, so we tell our son to take sideroads	5/10/2018 2:30 PM
32	Greenfield & Park intersection	5/10/2018 11:54 AM
33	Again, it's much safer now that there are 3 more crossing guards added to the intersections listed above. Prior to that, I did not feel safe allowing my kids to bike or walk to school alone.	5/10/2018 11:48 AM
34	See my answers to #5	5/10/2018 10:51 AM
35	I'm too fearful to have a second grader on a bike from Lake and William to Lincoln	5/10/2018 10:11 AM
36	none	5/10/2018 9:53 AM
37	New signs on Oak and crossing guards are helping a lot.	5/10/2018 9:43 AM
38	We bike down Greenfield. Probably once a month I see a car just completely blow the north/south stop signs, so I worry.	5/10/2018 9:14 AM
39	My sons have almost been hit numerous times by speeding motorists at the intersections of Hawthorne and Franklin, and Central and Franklin. This is where the viaduct is. There are stop signs at each intersection; however, drivers don't usually come to a complete stop and almost hit my children as they are trying to cross the streets at these intersections. There is a high volume of speeding traffic down Hawthorne and Central in the mornings and after school.	5/10/2018 8:56 AM
40	Franklin/Oak intersection. It is only a 2-way stop which is confusing to drivers. Often times one driver will stop (heading east or westbound) and wave on a child to walk across the street, but the other driver does not stop. My son was almost hit when this happened and if I didn't grab him he'd be in bad shape.	5/10/2018 8:51 AM
41	No	5/10/2018 8:29 AM
42	I am not comfortable with my children biking to school	5/10/2018 8:03 AM
43	Crossing Lake at Ashland when going for early admissions (<8:10) at Roosevelt	5/10/2018 7:11 AM
44	Intersection of Keystone and Hawthorn is a complicated intersection for everyone to navigate. There is also a blind spot for drivers as they come to the corner of Central and Keystone and it is difficult to see pedestrians and cyclists.	5/10/2018 7:05 AM
45	Lake and Larhrop—heavy traffic; lack of adherence to no right turn signs; cars proceeding after lights change	5/10/2018 6:51 AM
46	Chicago and Harlem. Or Bonnie bear and Chicago.	5/10/2018 6:47 AM
47	On the corner of keystone and Hawthorne cars turn very fast putting kids and people walking to the metra station in danger. It would be safer to have a crosswalk for pedestrians	5/10/2018 5:48 AM
48	no. they walk west on Oak Street, which is well traveled, and has crossing guards at the busiest corners.	5/9/2018 11:45 PM
49	Same issues as question 5. Crossing two busy streets, one with no crossing guard.	5/9/2018 11:08 PM
50	No	5/9/2018 10:45 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

51	General comments, not about my own kids. Students should be encouraged to wear helmets on bikes. Students are often texting while riding - this is dangerous. Many cyclists (students and adults) run through stop signs. Police should enforce this.	5/9/2018 10:44 PM
52	Bike riders are in sidewalk Bikes should have bells to signal pedestrians First graders need a place to leave their bikes at school	5/9/2018 10:39 PM
53	there are too many cars on the road and 8am and 3pm. More kids should be walking or biking! Less cars make River Forest safer for kids and commuters. The intersection of Lathrop and Greenfield is especially harrowing at 8am and 3pm.	5/9/2018 10:39 PM
54	car/pedestrian confusion at busy intersections	5/9/2018 10:34 PM
55	Would love a 4 way stop at Park Ave or Franklin. Crossing guard is great but has limited hours and kids going to school early arrive before they start. It is hard to cross Lake Street safely.	5/9/2018 10:22 PM
56	Please see response to prior question regarding need for 4 way stop signs at Gale and Washington, and at Gale and Vine.	5/9/2018 10:17 PM
57	No	5/9/2018 9:32 PM
58	Vine and Gale, Gale and Washington	5/9/2018 9:31 PM
59	Need painted crosswalk on Keystone and Hawthorne	5/9/2018 8:53 PM
60	N/a	5/9/2018 8:28 PM
61	We always need to make sure cars stop at three intersection of Keystone Ave. And Hawthorne Ave.	5/9/2018 7:52 PM
62	Crossing Division is difficult at certain intersections. They must go out of the way to find the 4-Way stops where it is much easier to cross	5/9/2018 7:00 PM
63	Lake Street crossing, no bike lanes between Madison Street headed North to Roosevelt, same for Lincoln School area	5/9/2018 6:55 PM
64	I will not let my child ride her bike to school, because of the previous comment.	5/9/2018 6:38 PM
65	None	5/9/2018 6:21 PM
66	As I stated in the previous question, because we live off of a main street there is a lot of traffic, which sometimes causes safety concerns for bikers as well as pedestrians.	5/9/2018 6:12 PM
67	Cars sometimes do not stop even when the crossing guard is there (Lathrop & Division). Cars definitely don't stop at Monroe & Division westbound. They roll right through. Now with certain sidewalks/curbs being torn up, those corners are tricky for bikers. The main hazard that I notice is kids, walkers & bikers, who cross at Jackson & Division. It's very dangerous. I would like to see better marked crosswalks on both the east and west sides and signs reminding cars to yield to people in the crosswalks.	5/9/2018 6:03 PM
68	N/a	5/9/2018 6:00 PM
69	At the intersection of Berkshire and Monroe there's no stop or yield sign. Cars driving from Trinity eastbound on Berkshire zoom through that intersection without stopping either taking a hard right or zipping straight through.	5/9/2018 5:56 PM
70	na	5/9/2018 5:47 PM
71	maybe crossing Lake St.	5/9/2018 4:47 PM
72	Not currently	5/9/2018 4:45 PM
73	Same location, Park and Lake though walking a bicycle the crossing guard is helpful there. However traffic is high everywhere and people are in a rush.	5/9/2018 4:22 PM
74	There is sometimes confusion at the 4 way stop at Lathrop & Oak, as the crossing guard may wave cars through, which can look like waving students through.	5/9/2018 4:21 PM
75	n/a	5/9/2018 4:16 PM
76	Cars don't look for bikers on Lake Street or on Oak. Both streets are dangerous.	5/9/2018 4:14 PM
77	NA	5/9/2018 4:04 PM
78	Washington & Gale is too dangerous to cross so they use keystone & Washington w/ the four way stop-but it could use better pedestrian signs, lighting etc	5/9/2018 4:01 PM
79	Intersection of Iowa/William	5/9/2018 3:58 PM
80	Na	5/9/2018 3:53 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

81	Crossing Chicago avenue (no crossing guard where my kid crosses to join with friends); crossing division (crossing guard has difficulties stopping traffic)	5/9/2018 3:52 PM
82	N/A	5/9/2018 3:50 PM
83	Crossing Hawthorn is dangerous because of the viaduct and blind spots for cars. Also, cars are sometimes speeding so that people can get to the train in time (8:15ish)	5/9/2018 3:40 PM
84	Lake/Franklin, Oak/Lathrop	5/9/2018 3:29 PM
85	Division.	5/9/2018 3:04 PM
86	She has not used her bike but she may to go to school.	5/9/2018 3:02 PM
87	People not giving kids a chance to cross streeys	5/9/2018 3:02 PM
88	As above	5/9/2018 3:01 PM
89	I don't let them bike because I don't trust drivers	5/9/2018 2:54 PM
90	No other than having to wait to cross the street with a crossing guard.	5/9/2018 2:45 PM
91	None other than wanting a crossing guard at Ashland and Division.	5/9/2018 2:43 PM
92	N/A	5/9/2018 2:39 PM
93	Oak and Ashland	5/9/2018 2:38 PM
94	4 way stops are more confusing in high volume areas without a safety crossing guard to decision 'who goes' situations or to slow down vehicles during rush hour commute - EARLIER School start time would lessen volumes of students commuting during morning rush hour traffic	5/9/2018 2:37 PM
95	Ashland and Franklin intersections with, respectively, Hawthorne and Central.	5/9/2018 2:37 PM
96	Nonare no bike lanes that ensure that car leave enough space for bikes to safely travel on our tight RF streets	5/9/2018 2:36 PM
97	Augusta, Chicago and Iowa (especially) are very dangerous at times. Also in the winter there is not enough street lighting unless u walk out to harlem and around.	5/9/2018 2:35 PM
98	There should DEFINITELY be a crossing guard on the corner of Franklin and Greenfield. Many many kids cross here by themselves and I have personally watched many kids almost get hit by cars numerous times. Especially because so many cars are leaving from pick up on Franklin.	5/9/2018 2:32 PM
99	As long as the crossing guards are out - the ride to and from is pretty smooth	5/9/2018 2:31 PM
100	Student does not bike specifically because of the issues crossing Lake anywhere between Thatcher and Lathrop. Need less vehicles and more controlled (traffic or crossing light) intersections.	5/9/2018 2:31 PM
101	Would be nice to have bike lanes or wider sidewalks that accommodate walkers and bikers	5/9/2018 2:30 PM
102	A lack of bike lanes is a problem. Youth cyclists especially do better when there is a specific place for them to be on the road. note: my student does not bike to school.	5/9/2018 2:26 PM
103	They bike down oak st from Thatcher to lathrop. They say it is very crowded with bikers, pedestrians, and cars all sharing the road.	5/9/2018 2:24 PM
104	Same answer as question #5.	5/9/2018 2:23 PM
105	Crossing Thatcher at Oak Street	5/9/2018 2:23 PM
106	None that I know of	5/9/2018 2:22 PM
107	Yes - there needs to be a crossing guard (at a minimum) on Park Avenue for the Greenfield crossing. There are commuters and Dominican college students (and parents dropping kids off) that are all busy driving through this s-curve intersection with only one stop sign. Plus, with any construction around the area or parked cars, it makes visibility very difficult (especially when factoring in cars turning). It is a very unsafe intersection for walking or biking to/from school.	5/9/2018 2:20 PM
108	Crossing Washington is our major issue.	5/9/2018 2:19 PM
109	no	5/9/2018 2:18 PM
110	crossing Division and Chicago are almost impossible. We need police along the routes	5/9/2018 2:09 PM
111	Same as above - Franklin/Linden Train tracks at Hawthorn and North/Franklin	5/9/2018 2:07 PM
112	As above.	5/9/2018 2:05 PM
113	see above	5/9/2018 1:39 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

114	Yes cars driving east on hawthorn turning right to go north on keystone don't stop to let kids cross at that 3 way intersection .there should be a pedestrian crossing there.	5/9/2018 1:02 PM
115	None	5/9/2018 10:54 AM
116	No	5/9/2018 9:29 AM
117	Yes, there is a lot of traffic speeding around Hawthorne and Keystone, Park, Forest and especially Franklin. Also there is a blind spot for people taking a right off Central to go South on Franklin (under the viaduct). There is a moment where you can't see pedestrians.	5/9/2018 9:00 AM
118	Yes. The keystone and Hawthorne intersection (just south of the viaduct) is very busy and many cars do not fully come to a stop there. This intersection is why I do not allow my 8 year old to walk/bike to school without me.	5/9/2018 8:48 AM
119	See above	5/9/2018 8:47 AM
120	Mostly near Keystone and Hawthorne	5/9/2018 8:38 AM
121	We cross going west at keystone and Hawthorne. There are no marked crosswalk there and often cars roll through the turn coming from leaving the 3-way stop sign. In addition this area is very busy at commuting times as cars are traveling to and from the metra.	5/9/2018 6:16 AM
122	Oak is scary	5/9/2018 4:23 AM
123	See #5.	5/9/2018 12:19 AM
124	Crossing lathrop at greenfield	5/8/2018 9:55 PM
125	Traffic on Lake street doesn't stop at the cross walks.	5/8/2018 7:08 PM
126	Hawthorne and Franklin, Central and Franklin, Hawthorne and Ashland, Central and Ashland. (See above answer)	5/8/2018 1:46 PM
127	N/a	5/8/2018 12:14 PM
128	Crossing guards give peace of mind.	5/8/2018 8:49 AM
129	People coming in too fast on Greenfield off of Thatcher. They are using it as a cut-through to avoid the Thatcher/North Ave. intersection during rush hour.	5/7/2018 11:32 PM
130	No crossing guard at Lathrop and Greenfield which is a busy intersection 1 block away from the Elementary school.	5/7/2018 10:59 PM
131	Crossing Augusta is a big concern. Cars drive very fast down that road. There should be a 4 way stop at Forest & Augusta!	5/7/2018 10:51 PM
132	See prior answer	5/7/2018 10:46 PM
133	Keystone and Chicago and Keystone and Augusta are very dangerous. People speed like crazy. Keystone and Lake has bad light flow making it hard to cross.	5/7/2018 10:23 PM
134	N/A	5/7/2018 10:20 PM
135	A handful of drivers aren't paying attention or fair to give them the right of way.	5/7/2018 9:28 PM
136	Yes-the intersection of Park and Greenfield. There is parking along that street which makes it difficult for children to see when crossing and for cars to see children. Cars exit and enter Dominican constantly and FLY down Park. It is very unnerving that there is not a marked crosswalk, some kind of light or sign to catch drivers attention or telling them CAUTION CHILDREN, or to slow down-a stop sign would be very helpful.	5/7/2018 8:35 PM
137	We walk from Jackson along Lake to Lincoln - each crossing point posses some issues with busy traffic with St Lukes traffic added into the mix.	5/7/2018 6:28 PM
138	Intersection of greenfield and park. Especially if cars are parked on Park ave.	5/7/2018 5:40 PM
139	Crossing at Lake and Franklin. Disregard for traffic rules, crossing guard and and pedestrians.	5/7/2018 5:16 PM
140	Same place	5/7/2018 5:04 PM
141	See #5.	5/7/2018 4:50 PM
142	No crossing guard on Greenfield and Ashland. Lot of kids crossing on those streets	5/7/2018 4:47 PM
143	The unmarked intersections along Iowa street are a little tricky(especially on the way home when the college students are awake)	5/7/2018 4:45 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

144	My student was riding on a sidewalk and an resident yelled at her and told her she should only ride on the street. Washington street is a hard one to ride a bike on so my daughter usually rides on the sidewalk along Washington due to the heavy traffic	5/7/2018 4:20 PM
145	Augusta/keystone have stop signs that are blown through frequently same as Park and Division	5/7/2018 3:48 PM
146	none	5/7/2018 3:06 PM
147	Same as for walking, currently Thatcher Ave north of Lake St is a total mess and hazardous for Mosaic Montessori students. Street crossings along Oak between Thatcher and Park are also of concern for Lincoln.	5/7/2018 2:50 PM
148	Yes! Division and Lathrop...Division and Jackson are a mess in the mornings and afternoons. The drivers try to beat bikers or walkers...so they blow through turns and don't always give right of way. My son almost got run over by someone trying to turn right onto Jackson from Division.	5/7/2018 2:47 PM
149	Na	5/7/2018 2:24 PM
150	Oak street is crazy! Especially at Franklin and Ashland intersections	5/7/2018 2:24 PM
151	crossing lake at any point, particularly lake and thatcher, especially with increased traffic during construction, crossing park with turning cars for drop off	5/7/2018 2:09 PM
152	For children coming eastbound on Greenfield Street, there is no safe crossing of Park Avenue. There is not even a stop sign. Cars typically moving at high speeds. No visibility of children crossing. Often cars parked along park, so children stepping blindly into the street. Many parents who live a block away from Willard don't let the kids walk or bike on their own purely out of concerns for crossing Park Ave. Multiple people with near miss stories. This is a disaster waiting to happen.	5/7/2018 6:56 AM
153	Turning cars on Chicago, cars driving too fast	5/6/2018 8:38 PM
154	We avoid going along Lake Street if possible. Just too much traffic.	5/4/2018 9:26 PM
155	Lathrop/Greenfield is a busy intersection to cross, as is Ashland and Greenfield (lots of turning traffic). Lathrop and Augusta also busy with people either cutting through RF or just in a hurry.	5/4/2018 5:23 PM
156	TOO MANY UNCONTROLLED intersection. In this age of impatient, distracted drivers, the Village must take action to improve vehicle and pedestrians by adding stop signs to all intersections. Even though I live four blocks from the school, my child has no choice but to navigate AT LEAST one uncontrolled intersection. How much can a stop sign cost? The entire length of Iowa St is a disaster, with the exception of Lathrop.	5/4/2018 5:01 PM
157	We live west of Park. The crossing at Park & Greenfield is an issue - there are often cars parked on the road making it hard to see the kids and traffic moves quickly. A stop sign feels like it would be appropriate there given the location of the school.	5/4/2018 5:00 PM
158	The train underpasses at Franklin and at Keystone/Gale have very limited visibility making it dangerous for bikers and walkers. This is the only way for the kids in south RF to get to school, so they should be priority intersections.	5/4/2018 4:50 PM

## Q7 If your student(s) walks to/from school, with or without you, are there any traffic conflicts or safety issues that you/they experience along the way? (please specify by location)

Answered: 194   Skipped: 118

#	RESPONSES	DATE
1	My concern is crossing park ave at greenfield. No stop signs on park ave at the 3 way intersection. Cars belonging to Dominican students are on parked on Park ave and it is difficult to see children waiting to cross and kids must walk out into the street to look around parked cars to see if safe to cross. In addition, vehicles travel at a high rate of speed on park.	5/20/2018 7:11 AM
2	Drivers do not yield to pedestrians. Drivers roll or do not stop at stop signs.	5/19/2018 6:16 PM
3	For students who live east of lathrop, there are no crossing guards after lathrop and division, traffic is very busy on Monroe and Jackson with parents driving down to do drop off and pick up at Roosevelt.	5/19/2018 1:07 PM
4	Same as above. Crossing Washington at Franklin stop light can be dangerous. A lot of confusion with Park drive	5/19/2018 12:31 PM
5	Cars turning right on red in front of pedestrians at Thatcher and Lake	5/19/2018 12:20 PM
6	Lack of high-visibility crossings and crosswalks of Hawthorne Ave near the Thatcher Ave and Keystone Ave viaducts.	5/19/2018 9:28 AM
7	Again the underpass is a worry.	5/18/2018 7:17 PM
8	Same as #6	5/18/2018 5:06 PM
9	Hawthorne/Central and Franklin by the viaducts are dangerous and cars go too fast and do not stop.	5/18/2018 3:50 PM
10	No, there are no traffic issues or safety issues.	5/18/2018 7:38 AM
11	Ashland and Division and speeding along lathrop ave	5/16/2018 10:44 AM
12	N/A	5/15/2018 8:02 PM
13	My kids frequently tell me that cars drive too fast and disregard walkers/bikers in general.	5/15/2018 3:00 PM
14	Thatcher crossing on Oak St is not pedestrian or bike friendly. There are lots of pedestrians and cyclists, including lots of kids, that cross that intersection to go to school or visit the forest preserve. Would be great to have a yellow light that could be activated by pedestrians as needed when crossing Thatcher.	5/15/2018 2:18 PM
15	Lathrop going southbound the cars speed in order to make the light. It's extremely dangerous every day of the week.	5/15/2018 11:36 AM
16	Crossing guard at Jackson and Circle Ave is really confusing. Once, I had my turn signal on, he waived me through then yelled at me because someone started to cross. I apologized and told him I thought he waived me through. His response was that he didn't think I was turning. This was very confusing and confusion is a safety issue!	5/14/2018 8:09 PM
17	Crossing Division at Franklin or Ashland	5/14/2018 7:40 PM
18	Uncontrolled intersections along Iowa Ave. Crosswalks that have no lights - in the winter the sun sets at 4:30 pm but many students have after school activities. Even though there is a crosswalk at Jackson & Chicago, there is no request light (like at Chicago & Scoville in Oak Park) such that pedestrians can alert drivers that they are crossing.	5/14/2018 11:35 AM
19	no	5/14/2018 10:26 AM
20	Crossing Ashland at Division	5/13/2018 9:55 PM
21	crossing Lathrop.	5/13/2018 6:42 PM
22	No stop sign on Franklin and Linden. So many kids walk on Franklin from south RF	5/13/2018 12:57 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

23	Automobile traffic traveling east/west on Hawthorne avenue at Franklin Ave has limited visibility of students coming in and out of the train underpass on south side of train tracks. This applies to Central Ave as well on the north side of the train tracks, but is not as busy a thoroughfare	5/11/2018 5:03 PM
24	No	5/11/2018 9:50 AM
25	parents don't stop at crosswalks curb cut at oak & lathrop, northeast side in particular is greater than an 8% grade at oak & ashland parents pull into the crosswalks/block intersection often	5/11/2018 9:39 AM
26	My child doesn't walk by themselves at the present moment.	5/11/2018 8:09 AM
27	See above answer	5/11/2018 6:20 AM
28	Even with the crossing guard, Lake and Franklin is hard to cross. Not safe without the crossing guards, but they aren't always out when the kids are walking home after activities.	5/10/2018 8:48 PM
29	Lake st traffic is challenging for a child to cross	5/10/2018 8:42 PM
30	intersection of washington and vine	5/10/2018 8:35 PM
31	Same as #6: I have seen an increase in drivers that appear to be taking a short cut thru River Forest.	5/10/2018 7:54 PM
32	no	5/10/2018 4:54 PM
33	St. Luke's crossing guard on Lake St. do not stop vehicle for all pedestrians crossing Ashland.	5/10/2018 4:32 PM
34	Keystone and Hawthorne - there is no stop signs, thus cars do not come to a complete stop Keystone and Linden - There is no stop sign on Keystone, cars speed down Keystone between Washington and Hawthorne in an effort to park and catch the train.	5/10/2018 4:05 PM
35	Lake street between Park and Forest where the Park District grounds-keeping building is presents a safety issue. Trucks come in and out of there, and cannot see kids who are walking past.	5/10/2018 3:14 PM
36	our son has to cross several streets along lake street and the area around jewel often seems overly busy with cars looking more at getting in/out of jewel rather than looking at kids crossing. our son has said that several times in that area cars were "suddenly" turning when he was crossing the street	5/10/2018 2:30 PM
37	Greenfield & Park intersection	5/10/2018 11:54 AM
38	The following intersections need permanent guards: Oak and Park; Oak and Franklin; Also, I only allow my kids to travel down Park because there are so many unsecured intersections in River Forest (intersections with no stop signs or only two-way stops.) These are very dangerous intersections.	5/10/2018 11:48 AM
39	See my answers to #5	5/10/2018 10:51 AM
40	no	5/10/2018 10:40 AM
41	I live in the area of River Forest south of the commuter rail. I would prefer an additional stop sign on Washington to slow down the through traffic on that street. Through traffic goes very fast and the stop at Washington and Keystone is typically rolled, at best.	5/10/2018 10:11 AM
42	Lake and Lathrop should have guards for unsupervised kids	5/10/2018 10:11 AM
43	none	5/10/2018 9:53 AM
44	We experience the same safety issues as mentioned in the previous response. Motorists speed down Hawthorne and Central Ave. before and after school. They often fail to make complete stops at the intersections of Hawthorne and Franklin, and Central and Franklin. These intersections are especially dangerous as this is where a viaduct is so both are blind corners. Motorists have little regard for the students walking to and from school which is troubling. Some of the neighborhood children have been hit by vehicles at these intersections. The RF Police Dept. has put out speed signs at different times on Hawthorne, yet these have a limited effect on slowing the traffic.	5/10/2018 8:56 AM
45	Franklin/Oak was terrifying before the crossing guards particularly in inclement weather. I would walk with my student because sometimes grade schoolers cannot gauge a driver's action.	5/10/2018 8:51 AM
46	I just want to make sure that they cross busy intersections (Lathrop & Division) with a guard.	5/10/2018 8:32 AM
47	Nothing in particular other than the fact that it would be nice to have an 'official' route (more kids walking together in same direction;safer in numbers)	5/10/2018 8:29 AM
48	Walking routes seem ok	5/10/2018 8:03 AM
49	Commuters trying to avoid Lake shoot down Hawthorne and Central (either side of train tracks) and aren't yielding to pedestrians at 4-way stops on Franklin or Ashland. Better traffic management of cars (not just pedestrians) along Lake might help	5/10/2018 7:11 AM

## Safe Walking Routes to School and Bicycle Master Plan Study

50	Intersection of Keystone and Hawthorn is a complicated intersection for everyone to navigate. There is also a blind spot for drivers as they come to the corner of Central and Keystone and it is difficult to see pedestrians and cyclists.	5/10/2018 7:05 AM
51	Lake and Lathrop—heavy traffic; no adherence to to right turn signs; cars proceeding after lights have changed	5/10/2018 6:51 AM
52	Oak and Ashland, Franklin can get a little nutty but has been okay. we have taught our kids how to be careful.	5/9/2018 11:45 PM
53	Busy streets to cross especially in the morning with increased traffic/commuters. My students need to walk an extra block away to get an intersection with a stop sign. There is no stop sign on our street and they need to cross a very busy street that has commuter traffic. People do not stop for pedestrians.	5/9/2018 11:08 PM
54	At the corner of Jackson and monroe I've experienced cars not stopping at stop signs- northbound on Jackson. I've noticed it from walking with them at certain times.	5/9/2018 10:54 PM
55	Crossing Lathrop is always treacherous but so far we have had people stop and wait for the kids to go by	5/9/2018 10:53 PM
56	Not really	5/9/2018 10:45 PM
57	Cars often speed away from intersections near school but without crossing guards, such as Lathrop and Augusta. Would like to see more police presence.	5/9/2018 10:44 PM
58	Sidewalk can be icy at Lincoln and salt is not used Parents and kids fall Cars honking aggressively and speeding	5/9/2018 10:39 PM
59	there are too many cars on the road and 8am and 3pm. More kids should be walking or biking! Less cars make River Forest safer for kids and commuters. The intersection of Lathrop and Greenfield is especially harrowing at 8am and 3pm.	5/9/2018 10:39 PM
60	car/pedestrian confusion at busy intersections	5/9/2018 10:34 PM
61	crossing guard at Franklin and Lake is normally sufficient for walking times	5/9/2018 10:22 PM
62	Please see prior responses for the need for 4 way stop signs at Gale and Washington, and at Gale and Vine	5/9/2018 10:17 PM
63	No	5/9/2018 9:32 PM
64	Vine and Gale, Gale and Washington	5/9/2018 9:31 PM
65	Cars do not stop for pedestrians at crosswalks. Most of our experience is at the Augusta/Jackson one but Chicago/Jackson is bad too. One car didn't even slow and instead swerved into oncoming traffic.	5/9/2018 8:28 PM
66	Crossing driveway is always my concern so I never let my children walk by themselves.	5/9/2018 7:52 PM
67	Drivers not obeying school speed zones	5/9/2018 6:55 PM
68	She doesn't walk because of fear of crossing Washington, Central, Hawthorne uncontrolled	5/9/2018 6:41 PM
69	anyone turning left or going strait from Franklin to Lake st	5/9/2018 6:38 PM
70	The crossings on ashland & Franklin at Hawthorne and central are sometimes tough with cars not coming to a complete stop	5/9/2018 6:25 PM
71	None	5/9/2018 6:21 PM
72	See the answer from the previous question. In addition to the traffic on the main street we have a bank on each corner which has produced an increase of cars coming down our block during the start and end of the school day. And some of the drivers have no regard to the fact that pedestrians and small children are passing by.	5/9/2018 6:12 PM
73	Same concerns as I outlined above in no. 6.	5/9/2018 6:03 PM
74	N/a	5/9/2018 6:00 PM
75	At the intersection of Berkshire and Monroe there's no stop or yield sign. Cars driving from Trinity eastbound on Berkshire zoom through that intersection without stopping either taking a hard right or zipping straight through.	5/9/2018 5:56 PM
76	no	5/9/2018 5:47 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

77	Entire Oak Ave corridor- Oak & Forest, Oak & Park, Oak & Franklin, Oak & Lathrop in particular - are all incredibly very busy with cars/traffic as it seems to be a main route for cars to avoid Lake Street or Chicago Ave, but its also the main route for dozens and dozens of students. Overall, there is little understanding/direction for cars on right of way, or who's "turn" is next when at a stop or yield (to either other cars, or pedestrians). Crossing guards have helped immensely in clarifying right of way for pedestrians and also as visible signals to drivers that it is safe to proceed driving. My children feel safer with crossing guards in place, because there are clear rules with adults in charge. Their implementation is piece of mind for our family.	5/9/2018 4:51 PM
78	no.	5/9/2018 4:47 PM
79	No	5/9/2018 4:45 PM
80	Cars on Lake often race sometimes race through the intersection, ignoring the crossing guard. Our children were almost hit there despite the presence of a parent and a crossing guard. There is sometimes confusion at the 4 way stop at Lathrop & Oak, as the crossing guard may wave cars through, which can look like waving students through.	5/9/2018 4:21 PM
81	Hawthorne and Franklin--really poor visibility, commuters barely stop at sign on Hawthorne (who knew stop signs are optional?) Needs a police officer looking to make some money for the village. More realistically needs a crossing guard and the homeowner on the southeast corner bush's are impeding visibility. I will not let my 9 year old cross the street on either side of that intersection by herself. Washington Blvd at Franklin. It's just a busy street with a lot of cross town/commuter traffic that is not mindful of children. Needs a crossing guard and maybe blinking lights for pedestrians. I will not let my 9 year old cross the street by herself.	5/9/2018 4:16 PM
82	Always concerned on Lake Street and the cross walk at Oak and Lathrop.	5/9/2018 4:14 PM
83	Better traffic control by the schools.	5/9/2018 4:04 PM
84	Same as #6	5/9/2018 4:01 PM
85	Intersection of Iowa/william	5/9/2018 3:58 PM
86	Not really we only cross on street at Lake and Park.	5/9/2018 3:55 PM
87	Keep the crossing gaurds!	5/9/2018 3:53 PM
88	Cars not looking out for kids; driving too fast	5/9/2018 3:52 PM
89	N/A	5/9/2018 3:50 PM
90	Speeders on hawthorn in am and pm	5/9/2018 3:40 PM
91	Walking at Franklin between Central and Hawthorn Ave. Some drivers aren't as cautious as you would like them to be. Especially in the morning.	5/9/2018 3:38 PM
92	Lake/Franklin, Oak/Lathrop	5/9/2018 3:29 PM
93	Cars shall significantly slow down and be cautious on Franklin during pick up and drop off time	5/9/2018 3:12 PM
94	Again, the Division St crossings are hazardous	5/9/2018 3:04 PM
95	She has not discussed any but she walks with friends.	5/9/2018 3:02 PM
96	People not letting kids cross the street	5/9/2018 3:02 PM
97	Cars not stopping for 4 way stops at the above said intersections	5/9/2018 3:01 PM
98	Franklin and Oak has no stop sign along Oak. I worry about cars not stopping, speeding, not looking when my kid crosses Oak. My kid does not look both ways even after his friend got hit by a car and my kid is a careful kid. If he walks home with a friend they probably would double their chances of not looking and getting hit. Also, there a lot of cars travelling along Oak dropping off or having just dropped off a kid at 1 of the 3 schools near that intersection.	5/9/2018 2:57 PM
99	Yes. Cars don't pay attention and don't yield to pedestrians	5/9/2018 2:54 PM
100	Although there is now a stop sign at the intersection of Greenfield and Park, parked cars on Park Avenue often obstruct sight lines.	5/9/2018 2:53 PM
101	Lathrop, where there are no crossing guards and on Franklin at Greenview.	5/9/2018 2:51 PM
102	I worry about them crossing streets alone during rush hour (before school walk) so they don't walk alone. I worry about crossing Park Ave at either Oak or Lake Street. Having a crossing guard newly installed at Oak and Park has been helpful.	5/9/2018 2:50 PM
103	No other than having to wait to cross the street with a crossing guard.	5/9/2018 2:45 PM
104	Not on the way to Roosevelt.	5/9/2018 2:43 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

105	there should be crossing guards around Willard	5/9/2018 2:40 PM
106	N/A	5/9/2018 2:39 PM
107	Oak and asland	5/9/2018 2:38 PM
108	it is a long distance for our family to which there are safety concerns for elementary school ages	5/9/2018 2:37 PM
109	Ashland and Franklin intersections with, respectively, Hawthorne and Central.	5/9/2018 2:37 PM
110	The new crossing guards have been a much needed safety addition.	5/9/2018 2:36 PM
111	My daughter often complains of drivers speeding out of their driveway and there not being enough light when coming home from the library or school when she has to stay to work on a project or is involved in a school activity.	5/9/2018 2:35 PM
112	Crossing under the railroad tracks south of Lake is difficult.	5/9/2018 2:34 PM
113	Drivers just don't pay attention (or care). I don't think it's anything that the village or schools can do. It's a total disregard for traffic rules and indifference to people walking. People blow through stop signs, they ignore crosswalks; they're in a hurry. My son walks to Lincoln 95% of the time from the Oak/Forest intersection. The Park/Oak intersection has improved, but there are still drivers who just don't care about people on foot. In addition, the drop-off/pick-up lane on Park still baffles people - even with Mr. Godfrey standing out there.	5/9/2018 2:34 PM
114	Yes, there is a lot of traffic at Hawthorne (east bound) and Franklin and there is no cross guard there and a lot of people don't fully stop.	5/9/2018 2:33 PM
115	See above	5/9/2018 2:32 PM
116	Crossing Lake anywhere other than with the guard can be challenging	5/9/2018 2:31 PM
117	Walking with or without a crossing guard is difficult, specifically because of the issues crossing Lake anywhere between Thatcher and Lathrop. Need fewer vehicles and more controlled (traffic or crossing light) intersections. The intersection at Lathrop/Brown/Hawthorne/Central is also very difficult because of the proximity of the four-way stop with multiple vehicle lanes to two uncontrolled turns (southbound left onto Brown, and northbound left onto Hawthorne). This creates confusion about right-of-way, and students are often ignored by cars there. I would advise eliminating these two left turns completely and pushing the southbound traffic down to Washington/Randolph and the northbound left turns to Central or better yet, all the way to Chicago.	5/9/2018 2:31 PM
118	Monroe and Berkshire is an intersection with no stop or yield signs.	5/9/2018 2:30 PM
119	Drivers are DISTRACTED. We are all guilty of this. Any plan must account for the distracted driver, not the perfect driver. While a crossing guard can't be at every intersection, we need a way to alert drivers to the school zones: speed bumps, flashing lights, spinners, beeping sounds when a pedestrian approaches, etc. It's not one particular location - its everywhere that children cross.	5/9/2018 2:26 PM
120	We cross Park Avenue at Greenfield while walking from our home on Forest Avenue to Willard. Cars often travel at high speeds along Park Avenue (often seems like Dominican students driving fast) and it doesn't help that cars can park along the street, blocking a driver's view of pedestrians. It's really not an ideal set-up for those who walk.	5/9/2018 2:25 PM
121	Same answer as question #5.	5/9/2018 2:23 PM
122	Crossing Thatcher on Oak	5/9/2018 2:23 PM
123	None that I know of	5/9/2018 2:22 PM
124	Yes - there needs to be a crossing guard (at a minimum) on Park Avenue for the Greenfield crossing. There are commuters and Dominican college students (and parents dropping kids off) that are all busy driving through this s-curve intersection with only one stop sign. Plus, with any construction around the area or parked cars, it makes visibility very difficult (especially when factoring in cars turning). It is a very unsafe intersection for walking to/from school.	5/9/2018 2:20 PM
125	people drive down Park Avenue very fast in both directions and they are not supposed to turn from north avenue. this is not enforced.	5/9/2018 2:18 PM
126	Coming from southern River Forest heading under the railroad tracks, there is zero visibility at every intersection on Hawthorne and Central.	5/9/2018 2:16 PM
127	Since they travel down Lake Street from Edgewood & Lake to Park & Lake, people still turn while the kids are trying to cross at Lake & Thatcher. Also, the pedestrian cross walk across Lake Street at Keystone needs more then a flashing light, cars don't stop while kids are in the cross walk.	5/9/2018 2:14 PM
128	Lathrop/Lake	5/9/2018 2:08 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

129	Same as above	5/9/2018 2:07 PM
130	I feel that a lot of these drivers rush past the school and do not pay attention to the pedestrians. Lake street gets very busy with traffic in the morning and afternoon.	5/9/2018 2:04 PM
131	see #5	5/9/2018 1:39 PM
132	Yes cars driving east on hawthorne turning right to go north on keystone don't stop to let kids cross at that 3 way intersection .there should be a pedestrian crossing there.	5/9/2018 1:02 PM
133	None	5/9/2018 10:54 AM
134	Stop signs on Lathrop	5/9/2018 9:29 AM
135	Yes, the traffic is speeding on Hawthorne all the time. Also they speed on the streets that are cutovers to Madison like Keystone. There are crossing guards north of Lake that mitigate issues like this north of the schools but none south of Lake and people are flying on Hawthorne. At a minimum you need someone at Franklin and Hawthorne	5/9/2018 9:00 AM
136	See number 6	5/9/2018 8:48 AM
137	No	5/9/2018 8:47 AM
138	Mostly near Keystone and Hawthorne	5/9/2018 8:38 AM
139	Lots of cars around the train station, headed in all directions— crossing Hawthorne at Keystone. Crossing Lake street.	5/9/2018 7:12 AM
140	Please see answer to #5. Same issues apply.	5/9/2018 6:43 AM
141	We cross going west at keystone and Hawthorne. There are no marked crosswalk there and often cars roll through the turn coming from leaving the 3-way stop sign. In addition this Keystone/Hawthorne 3way stop is very busy at commuting times as cars are traveling to and from the metra.	5/9/2018 6:16 AM
142	Cars going too fast down Oak. Especially after park to thatcher now.	5/9/2018 4:23 AM
143	We take a route that avoids Lake Street because of all the car traffic on Lake.	5/9/2018 2:51 AM
144	See #5	5/9/2018 12:19 AM
145	Franklin and oak	5/9/2018 12:01 AM
146	Yes Hawthorne and thatcher/gale the intersection is dangerous through traffic north has no stop south traffic has a yield and west traffic has a stop. My child will never be able to cross there safely.	5/8/2018 8:52 PM
147	Traffic on lake street and Washington don't stop for people in the crosswalk.	5/8/2018 7:08 PM
148	The Park/Lake intersection is a nightmare. We never cross there. We cross at Franklin and Lake, but even there cars are going around the crossing guards on Lake and parents who have dropped their children off drive very aggressively to cross Lake at Ashland. It is frightening. We never use the crosswalks unless there is a crossing guard. Even the one right by the police station. They are not enforced (or respected by drivers).	5/8/2018 1:46 PM
149	Crossing Augusta is unsafe for small children. I do not let my child walk alone because she can't easily get across Augusta, unless she walks a block east of school to Lathrop or a block west of school to Park. Cars travel too fast on Augusta & there are no crossing guards. Stop signs would help in many ways.	5/8/2018 12:14 PM
150	Lots of traffic along oak street in the morning, creating safety issues at major street crossings (Park, Franklin, etc.)	5/8/2018 12:14 PM
151	The intersection of Ashland and Division is quite busy and there is no stop sign.	5/8/2018 8:58 AM
152	Again. Love new crossing guards.	5/8/2018 8:49 AM
153	No good crosswalk across Hawthorne at Thatcher.	5/8/2018 6:25 AM
154	None	5/8/2018 12:58 AM
155	People coming in too fast on Greenfield off of Thatcher. They are using it as a cut-through to avoid the Thatcher/North Ave. intersection during rush hour.	5/7/2018 11:32 PM
156	At Ashland and Division many cars stop in the crosswalk while waiting to turn onto or cross south on Division and block the safe path of the students trying to cross to the west side Ashland on the north side of Division. This is very dangerous for the walking kids.	5/7/2018 10:59 PM
157	Crossing Augusta	5/7/2018 10:51 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

158	None reporter but my 4th grader may not recognize driving infractions as they offer.	5/7/2018 10:46 PM
159	Drivers don't stop. I wonder why Willard has one crossing guard and Roosevelt has 5.	5/7/2018 10:23 PM
160	Several intersections on Ashland Avenue do not have stop signs.	5/7/2018 10:20 PM
161	The intersections of Park and Oak, Franklin and Oak, Ashland and Oak are very dangerous as cars do not slow down or stop. Also cars go the wrong way down the 500/600 block of Park	5/7/2018 10:00 PM
162	Drivers who fail to pay attention or give them the right of way.	5/7/2018 9:28 PM
163	Speed of drivers particularly on Lake st during the 3pm hour	5/7/2018 9:19 PM
164	Yes-the intersection of Park and Greenfield. There is parking along that street which makes it difficult for children to see when crossing and for cars to see children. Cars exit and enter Dominican constantly and FLY down Park. It is very unnerving that there is not a marked crosswalk, some kind of light or sign to catch drivers attention or telling them CAUTION CHILDREN, or to slow down-a stop sign would be very helpful.	5/7/2018 8:35 PM
165	I would like to see crossing guards at all corners around the school. It would be great to have a crossing guard on Franklin/Greenfield as well to help children cross.	5/7/2018 6:40 PM
166	Please see above - every street crossing busy until we reach Lincoln from Jackson	5/7/2018 6:28 PM
167	Intersection of greenfield and park is extremely dangerous for walkers and bikers especially when cars are parked on park ave.	5/7/2018 5:40 PM
168	Our intersection, Gale and Vine, is uncontrolled and very unsafe. We have seen many accidents there. In addition, while Keystone provides a relatively safe way to cross Washington, students cannot cross at Gale. As a result, many students must gross Gale at Vine to get to Keystone.	5/7/2018 5:38 PM
169	Sometimes there is no crossing guard on Ashland	5/7/2018 5:23 PM
170	Not yielding the way to pedestrians or crossing guard.	5/7/2018 5:16 PM
171	Same as above - cars speed down Park, and a lot of cars are parked on the street right around where children cross the street to get to Greenfield, so it's hard for the kids to even check both ways.	5/7/2018 5:04 PM
172	See # 5.	5/7/2018 4:50 PM
173	Needs a crossing guard on Greenfield and Ashland	5/7/2018 4:47 PM
174	Unmarked intersections along Iowa especially in the afternoon	5/7/2018 4:45 PM
175	Lathrop avenue is really crowded and congested near the metra tracks It's very hard to cross lake street for young children	5/7/2018 4:20 PM
176	Stop sign at Augusta and Keystone frequently has cars blow through it. So does Park and Division	5/7/2018 3:48 PM
177	none	5/7/2018 3:06 PM
178	On Thatcher, cars back out of driveways very fast often without regard for children on the sidewalk. There are also cars cutting through the Mosaic Montessori (RFUMC) parking lots to bypass Lake/Thatcher traffic. Cars at the stop signs along Oak, between Thatcher and Park don't always give pedestrians/children right of way.	5/7/2018 2:50 PM
179	I have not allowed this for fear of my son getting run over. We are still trying to figure a safe route for him to take to and from Willard.	5/7/2018 2:47 PM
180	The traffic at Division street in the mornings is ridiculous and unsafe, even with the crossing guard. Too many people in a rush and MANY of the Trinity kids are dropped off (illegally) on Lathrop and cause a traffic back up. Cars don't know when to cross and pedestrians don't know when to cross either. Trinity needs to be a better partner in the neighborhood and stop the drop offs on Lathrop. Even their own school buses stop and let off kids on Lathrop.	5/7/2018 2:33 PM
181	Na	5/7/2018 2:24 PM
182	Same as above	5/7/2018 2:24 PM
183	crossing at lake and thatcher	5/7/2018 2:09 PM
184	park and oak is much better since adding the crossing guard	5/7/2018 2:07 PM
185	Yes. Crossing Division without a stop sign. Would love to see a stop sign at Division and Ashland.	5/7/2018 2:00 PM
186	Yes. See last answer	5/7/2018 6:56 AM
187	corner of Park and Greenfield there are a lot of cars that go fast and it is a common place for children trying to cross the street to get to school.	5/6/2018 11:48 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

188	Chicago and Lathrop, and cars in front of the library pulling out of parking spots or trying to turn in to the school parking lot don't see students	5/6/2018 8:38 PM
189	See question 2. Also, cars do not actually stop at Franklin/Hawthorn viaduct intersection. Just a rolling stop.	5/5/2018 8:29 AM
190	The crossing guard at Ashland/Lake does not stop traffic for non-St. Luke's students. Lincoln students and parents have to fend for themselves.	5/4/2018 9:26 PM
191	Same as above - Lathrop and Greenfield is busy and Ashland and Greenfield also busy with lots of turning cars and or backed up cars blocking the crosswalk when it gets busy.	5/4/2018 5:23 PM
192	TOO MANY UNCONTROLLED intersection. In this age of impatient, distracted drivers, the Village must take action to improve vehicle and pedestrians by adding stop signs to all intersections. Even though I live four blocks from the school, my child has no choice but to navigate AT LEAST one uncontrolled intersection. How much can a stop sign cost? The entire length of Iowa St is a disaster, with the exception of Lathrop.	5/4/2018 5:01 PM
193	same as above.	5/4/2018 5:00 PM
194	The intersection at Washington and Keystone is dangerous. I have personally been nearly hit multiple times so I worry a lot about our kids.	5/4/2018 4:50 PM

## Q8 For individuals who do not have children attending a River Forest school, do you have any feedback regarding any safety issues for students regarding traffic flow, walking, bicycling, etc. that affects student experiences as they go to and from school?

57	no	5/7/2018 3:06 PM
58	I am amazed that kids don't even bother look both ways when crossing the street. Parents and teachers should teach them how to cross a street. This is very evident around Roosevelt. It shocks me that kids run right in front of cars.	5/7/2018 2:55 PM
59	No	5/7/2018 2:47 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

60	I live south of the tracks and I'm concerned about sending my kids to school when they're older because of how dangerous the car traffic is on Hawthorne	5/7/2018 2:30 PM
61	Na	5/7/2018 2:24 PM
62	No	5/7/2018 6:56 AM
63	I live on Oak Avenue, a primary route for many students to and from Roosevelt Middle School. I consider the main threat to safety of children bicycling to and from school is the careless disregard for their basic traffic regulations, in particular stop signs. 99+% of all the kids passing my house run the stop at Oak and William without even slowing down, much less stopping as is required by state law for bicycles as well as cars. One of the main reason I believe this is occurring is the poor example set by adults in this community. When a cyclists runs a stop at an intersection I am crossing I will give them a horn to let them know they are in violation, their reaction is frequently an obscene gesture. I have also observed a number of cyclists going the wrong way on the one way portion of Central Avenue. Contributing to the problem is the negligence on the part of the Police by not enforcing traffic law as it applies to adult cyclists. Police are also prone to making rolling stops at stop signs. This type of "California Stop" would result in a ticket if the same level of stop was picked up on a red light camera before making a right on red.	5/6/2018 8:47 AM
64	See above.	5/5/2018 8:29 AM
65	TOO MANY UNCONTROLLED intersection. In this age of impatient, distracted drivers, the Village must take action to improve vehicle and pedestrians by adding stop signs to all intersections. Even though I live four blocks from the school, my child has no choice but to navigate AT LEAST one uncontrolled intersection. How much can a stop sign cost? The entire length of Iowa St is a disaster, with the exception of Lathrop.	5/4/2018 5:01 PM

## Q9 Feel free to provide any general comments on the safe walking routes to school program not covered in this survey.

Answered: 79 Skipped: 233

#	RESPONSES	DATE
1	There has been an influx of young families on the south side of Washington. Think a crossing guard coming back this way would be terrific since there is no light by Franklin, Park or Ashland.	5/18/2018 7:17 PM
2	The walking school bus program at Willard has been a huge help by getting kids walking, getting a critical mass and parent buy-in. I somewhat dislike the rule that kids must have a parent under grade 3.	5/18/2018 5:06 PM
3	walk on oak to get to Lincoln, there are crossing guards at almost every street	5/18/2018 7:38 AM
4	Need to enforce safe routes thru schools and education new parents	5/15/2018 6:08 PM
5	A crossing light that could be activated by pedestrians and cyclists on the corner of Thatcher and Oak to facilitate crossing Thatcher.	5/15/2018 2:18 PM
6	The constant overflow of traffic from other towns that utilize our main roads creates danger as these people do not care about pedestrians or bikers - they speed to get through town and it's getting worse.	5/15/2018 11:36 AM
7	It would be great if there were designated walking/biking/driving routes to each school. That way drivers and pedestrians would know what to expect in terms of traffic during specific times before and after school. Locals that wanted to avoid school traffic could then plan alternate routes.	5/14/2018 8:09 PM
8	The intersection of Harlem/Lake (N/W corner pedestrian request button does not work). SW corner has an insane green arrow on red going East on Lake, such that pedestrians are put at great risk, as none of the other corners at the busy intersection have green arrows on red. OPRFHS high school students who live in RF also use that intersection to/from school or the L train.	5/14/2018 11:35 AM
9	all traffic at uncontrolled intersections	5/14/2018 10:56 AM
10	There are few intersections that have a sign to stop for pedestrians in that intersection (i.e. Washington and Park). Usually none of the cars stop, but sometimes a car in one direction will stop to let us cross and the car behind them goes around them in the parking lane nearly hitting us. This also happens at Forest and Washington when we try to cross the street to get to the park so I only let my kids cross Washington where there is a four way stop (Keystone) or a light. The intersection of Keystone and Washington is also a problem. Cars there often do not stop at the stop sign or roll through it. It is dangerous to cross there especially during rush hour. Also drivers are speeding down Washington and passing cars in the parking lane.	5/14/2018 9:14 AM
11	I think one freak accident of a student unfortunately hit by a car has cost the village and D90 a whole lot of money. Parents need to teach their kids Street safety and all drivers need to be more patient.	5/12/2018 6:55 AM
12	I think there should be a 4-way stop at Park & Lake. Cars traveling eastbound on Lake are always having trouble turning left onto Park for student dropoff, and car traveling north on Park cannot easily cross Lake and there is heavy pedestrian traffic.	5/11/2018 5:03 PM
13	in general problems are from parents behaving badly and not respecting rules.	5/11/2018 9:39 AM
14	No additional comments	5/11/2018 6:20 AM
15	Traffic around the RF train station is a part of life and living in RF. The traffic increases around the beginning and the ending of the work day which is the same time that students are traveling back and forth to school. This can be a dangerous combination if rules of the road are not clear. We do need to add more stop signs on streets where cars travel too fast (Keystone) and there should not be intersections at this busy location where there are no yield or stop signage (Keystone and Hawthorne)	5/10/2018 4:05 PM
16	The children who live in the north east corner of River Forest need a way to get to school where there are crosswalks somewhere they can use. This is not currently the case as I see it or they would have to walk well out of their way to use it. I hope it gets better.	5/10/2018 11:54 AM
17	The presence of crossing guards on Oak is great, but they need to take a little more initiative and move to where the kids are crossing.	5/10/2018 9:43 AM

## Safe Walking Routes to School and Bicycle Master Plan Study

18	As a parent of three Lincoln Elementary School students, I feel some drastic measures need to be taken to ensure the safety of walking/biking routes to school for students. Either speed bumps or speed cameras (as used in Chicago's school and park zones) should be implemented on Hawthorne and Central Avenues to create a safer environment for our youngest residents. Research shows that these are effective in slowing traffic while and providing additional revenue to the village. The River Forest Police department does not have enough officers to patrol every street where speeding is occurring.	5/10/2018 8:56 AM
19	Parents/Residents are appreciative that that D90 and the village are taking action for our children's safety. While the concept of recommending a safe passage to school sounds good on paper, it is doubtful that parents/students will plug in their home address and follow the recommended route (esp. middle schoolers)	5/10/2018 8:51 AM
20	I feel the amount of crossing guards is very good.	5/10/2018 8:03 AM
21	I think RF can do a better job making kids safer and allowing parents to feel better about letting their kids walk and bike to school	5/10/2018 7:05 AM
22	Hope there is a pedestrian / bike bridge at Jackson and Lathrop intersection	5/10/2018 6:47 AM
23	we must preserve the freedom and goodness of letting kids walk and bike to school! it is a key reason that we moved to this town! I would hate for the response to be that we stop letting our kids learn the simple, lifelong joys of walking to school in the community.	5/9/2018 11:45 PM
24	Wish scooters were allowed especially for the younger kids	5/9/2018 10:53 PM
25	Training the crossing guards in traffic control Police to pull over speeders	5/9/2018 10:39 PM
26	I'd like to see a crossing guard at Lathrop and Greenfield as well as Ashland and Division	5/9/2018 10:39 PM
27	all safe routes end at perimeter intersections :-)	5/9/2018 10:34 PM
28	I live on a block that is one way during school hours. There is a large one way traffic cone /marker that is placed at the end of the block each school morning to provide a physical reminder and impediment to traffic entering the block from the wrong direction. My concern is that this traffic cone is frequently left up long past the 4pm time restriction. In fact I have seen it left up long after dark. This "safety measure" then becomes a danger to residents as traffic (both cars and bikes) are forced to veer to avoid it.	5/9/2018 9:38 PM
29	None	5/9/2018 9:32 PM
30	Would be helpful to have crossing guard somewhere along Washington to help kids cross that busy street	5/9/2018 7:38 PM
31	The crossing guard at Franklin/lake. is GREAT	5/9/2018 6:38 PM
32	N/a	5/9/2018 6:00 PM
33	River Forest needs to have either a yield or stop sign on at least one side of every intersection. There have been numerous accidents and way too many close calls because of lack of consistent yield or stop signs.	5/9/2018 5:56 PM
34	na	5/9/2018 5:47 PM
35	We live relatively close to school, maybe 15-20 min walk. they know to cross at the lights at Washington and at Lake St. The crossing guards do a pretty good job getting the kids across the streets.	5/9/2018 4:47 PM
36	Many of our intersections don't have stop signs in any direction. Some people can be confused by these and throw in young children walking or on bicycles and I fear a car may not stop when they should simply because they think a lack of a stop sign suggests they don't have to.	5/9/2018 4:22 PM
37	The additional crossing guards along Oak make our current walking route feel safer, as the high-traffic intersections near schools now have a crossing guard. We value the walkability of the community and hope that students walking/biking to school becomes more and more the norm. There is safety in numbers for students walking or riding together and the car traffic will also begin to adjust expectations as there are greater numbers of pedestrians. We disagree with District 90's policy against K-1 graders having bicycles at school. Our children have used bicycles from a young age, and we accompany them while they are learning more to be aware of their environment. We believe this will make them safer travelers as they grow independently from us. Additionally, more students and more parents traveling outside of cars helps normalize this behavior, reducing car trips, which has positive externalities for the whole community. This should be encouraged and not discouraged.	5/9/2018 4:21 PM

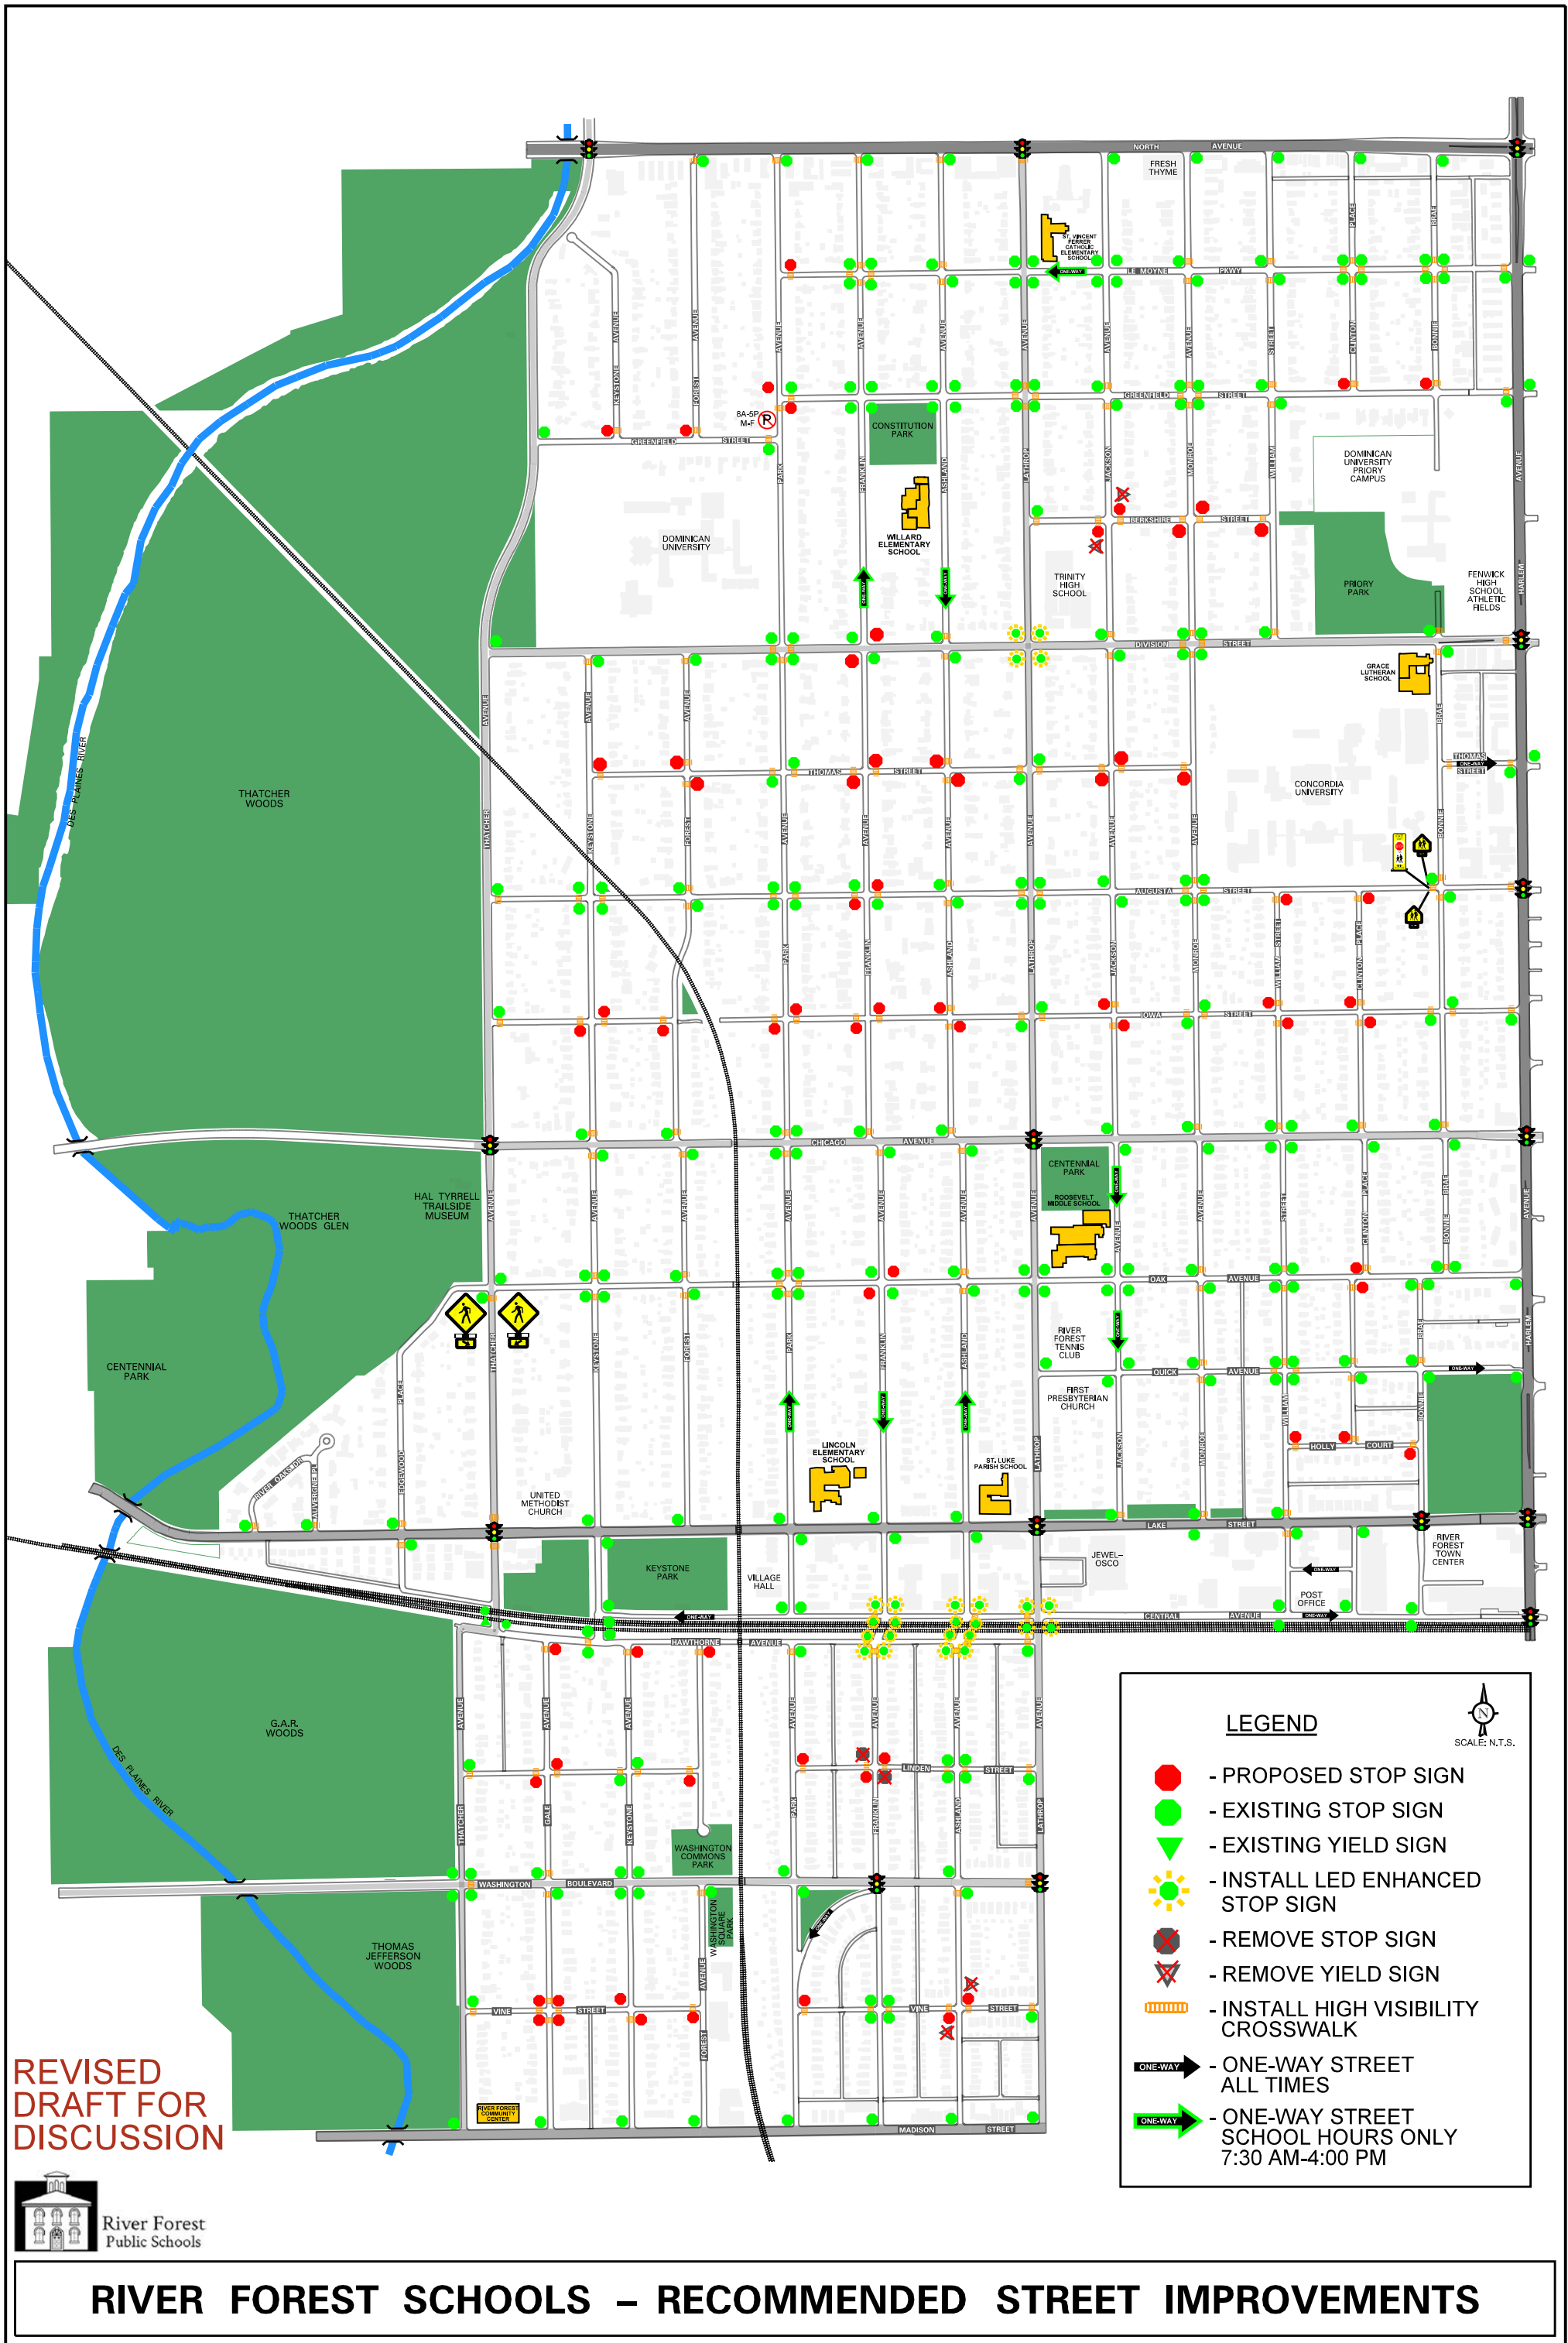

## Safe Walking Routes to School and Bicycle Master Plan Study

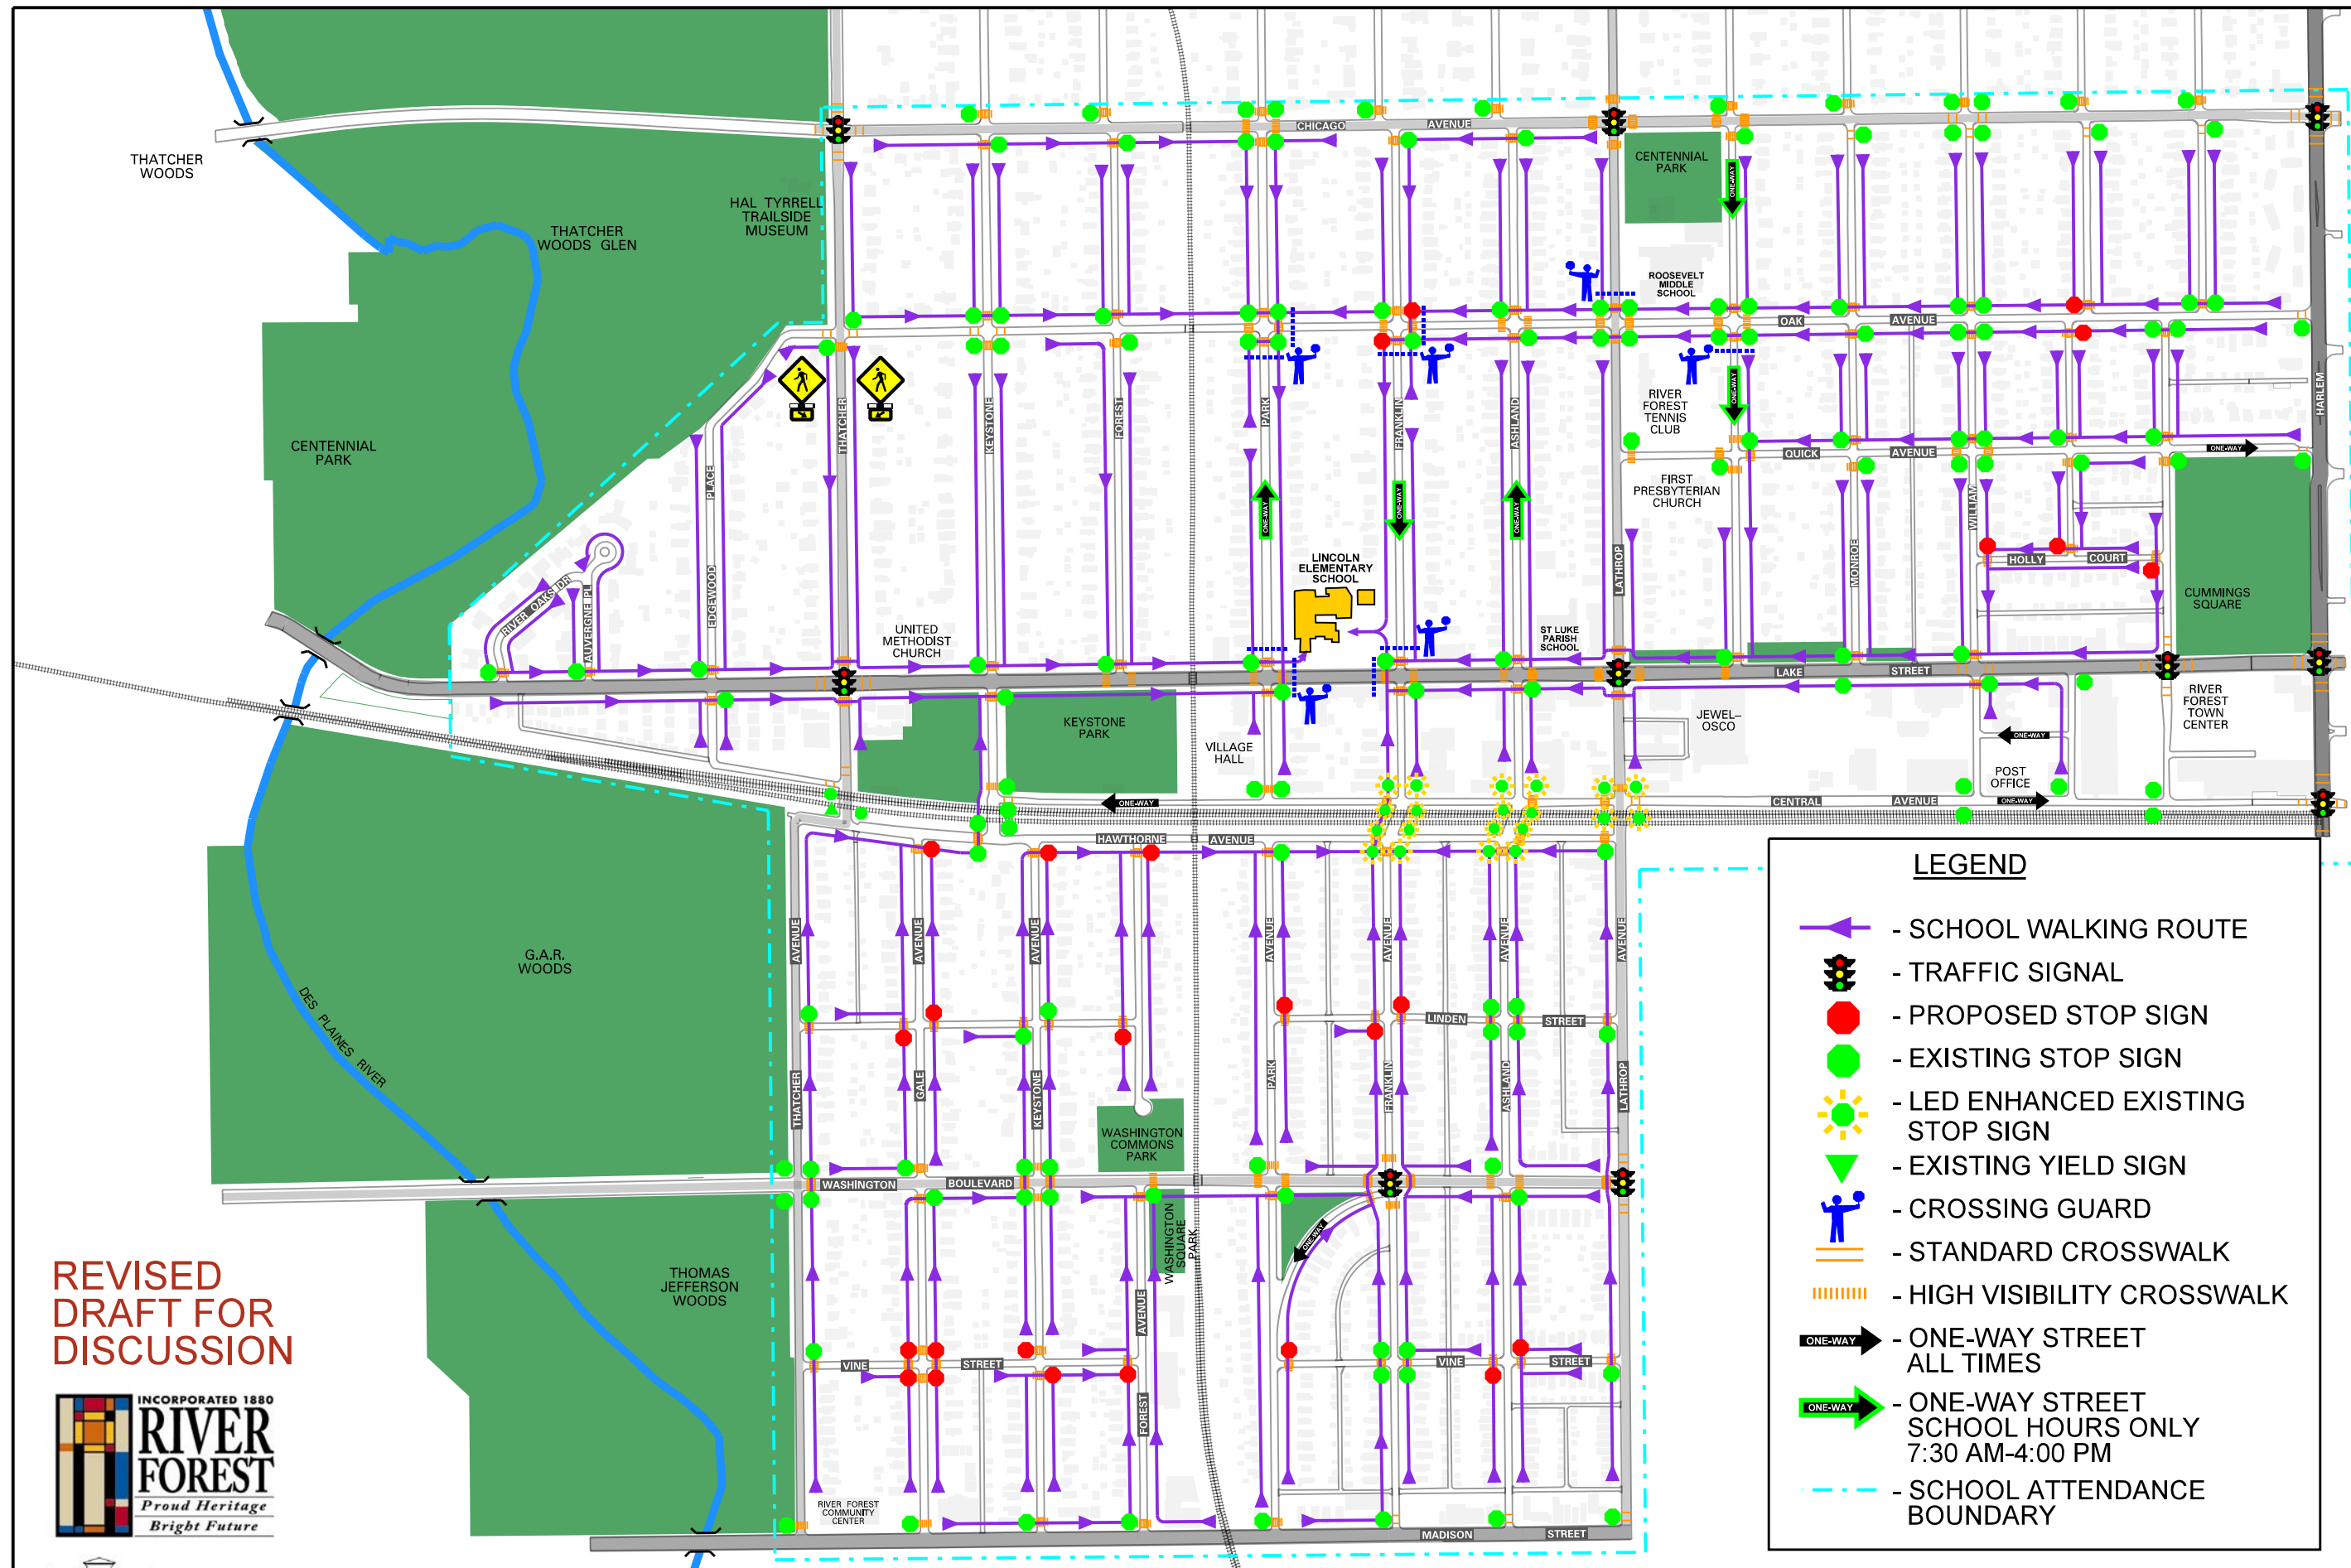

38	Thanks for taking up this issue. I was going to suggest this issue to my daughters Girl Scout troop for their Bronze Award before the village took the issue up. Maybe there is still something they can do to help.	5/9/2018 4:16 PM
39	We should consider speed bumps in areas where school zones are located as drivers rarely adhere to posted school zone speeds limits.	5/9/2018 4:04 PM
40	Streets need better lighting. When the clocks are set back in fall many kids are walking or riding home from after school activities and sports in the dark. It's very hard to see them with our current lighting. We need LED/more/better streetlighting throughout the village	5/9/2018 4:01 PM
41	More stop signs!	5/9/2018 3:48 PM
42	Should make crossing points on Lake just a normal stop sign during school hours. Too much room for error with crossing guards	5/9/2018 3:29 PM
43	There is a part of me that things this whole "program idea" is silly. You cannot reasonably provide "safe" routes that cover all variables. The problem is simple: speeding, distracted drivers and horrible, illogical and missing signage (stop signs etc) in the RF community	5/9/2018 3:10 PM
44	It would be great if the village could establish bike and walking routes that are not the same as heavily traveled car routes whenever possible (if the village is not considering changing the current road dynamic to create protected bike lanes).	5/9/2018 3:09 PM
45	A bike path for kids would be great.	5/9/2018 3:02 PM
46	Let's make the crossing guards permanent. What are we talking about \$60 a parent a year? GoFundMe page it up.	5/9/2018 2:57 PM
47	People who do not live in River Forest use Lake Street to commute during rush hour and cars are often speeding because traffic gets slowed down during the school commute- I think additional stop signs on Lake Street between Thatcher and Franklin would be helpful. I know the people driving on Lake Street to commute through River Forest are not at all careful about children walking to school.	5/9/2018 2:50 PM
48	I think smart phones are a distraction for all ages of drivers.	5/9/2018 2:45 PM
49	None	5/9/2018 2:43 PM
50	N/A	5/9/2018 2:39 PM
51	An earlier school start time would lessen student commuting volumes during peak traffic times	5/9/2018 2:37 PM
52	We can't feasibly staff every intersection with a crossing guard. Focus on Lake and Oak, as those seem to be the most heavily-trafficked. However, increased signage and more consistent interdiction by RFPD could help other problem spots, such as along Central and Hawthorne by the Union Pacific overpass above Franklin and Ashland.	5/9/2018 2:37 PM
53	N/a	5/9/2018 2:35 PM
54	I think the extra crossing guards added on oak st are necessary to keep everyone safe on the way to school.	5/9/2018 2:24 PM
55	I think more signs should be posted at intersections to avoid confusion. I realize more signs equals more clutter, but several people fly through them when there are no signs.	5/9/2018 2:23 PM
56	NA	5/9/2018 2:22 PM
57	Ms. Toni (the crossing guard at Lake and Franklin) is the GOLD STANDARD of crossing guards. She is so precise, consistent, loving, thoughtful and in control.	5/9/2018 2:12 PM
58	Same as above	5/9/2018 2:07 PM
59	It would be nice to have a painted crosswalk at Keystone and Hawthorne.	5/9/2018 8:48 AM
60	The Keystone/Hawthorne intersection is a particular concern. Cars come at it from all directions, there are a lot of pedestrians headed to the train, and I'm always worried about my kids at this intersection.	5/9/2018 7:12 AM
61	Please do not ignore those south of the train tracks. Many many children funnel through those underpasses on the way to school.	5/9/2018 6:43 AM
62	South river forest is overall ignored in my opinion for walk to School safe routes. Hawthorne street is super dangerous due to the viaduct causing blind spots for drivers.	5/8/2018 8:52 PM
63	The speed limit should be enforced.	5/8/2018 1:46 PM
64	Glad that we now have crossing guards, as I think this will help.	5/8/2018 12:14 PM

## Safe Walking Routes to School and Bicycle Master Plan Study

65	I would like more visible bike lanes.	5/8/2018 8:49 AM
66	Glad to know the issue is being addressed to offer peace of mind while our son bikes to Willard.	5/7/2018 10:46 PM
67	Speed trap more. Speed bumps?	5/7/2018 10:23 PM
68	—	5/7/2018 9:28 PM
69	Crossing guards sometimes act as traffic cops. Well intentioned, but Can be a bit dangerous bc of the confusion	5/7/2018 9:19 PM
70	See above	5/7/2018 5:04 PM
71	The safety of children must always come first. Not lateness or your rush to get somewhere. Remind drivers that pedestrians have the right of way. Drivers think that just bc there isn't a stop sign, they don't have to stop. The laws actually dictate that drivers are to stop for pedestrians at the crosswalk.	5/7/2018 2:33 PM
72	Clear route with crossing guards	5/7/2018 2:24 PM
73	Stop signs on Oak at Franklin and Ashland	5/7/2018 2:24 PM
74	I'm not sure there is a safe walking route with no crossing guard at lake and thatcher from our home on the south side of lake to Lincoln. Traffic turns right with no regard for pedestrians on all side streets.	5/7/2018 2:09 PM
75	Would love to identify routes that kids could bike with monitors throughout the village.	5/7/2018 2:00 PM
76	Need a safe crossing at Greenfield and park.	5/7/2018 6:56 AM
77	Educating residents and non-residents about uncontrolled intersections. I see people everyday not even brake at these intersections...and it is very scary. Maybe talk with Concordia and Dominican to put some sort of email to the students/teachers about how to drive with all our uncontrolled intersections. We live right off Iowa, and all those intersections are concerning.	5/6/2018 9:42 AM
78	I would LOVE to see less people on their phones while driving around, especially around schools where there are so many kids. In addition to safety, it sets a terrible example for older kids who are soon to be drivers themselves. This is not only a parent problem, obviously, and it would be nice to see no cell phones while driving enforced.	5/4/2018 5:23 PM
79	Please, please, please review all uncontrolled intersections and add stop signs.	5/4/2018 5:01 PM

# SAFE WALKING ROUTES TO THE RIVER FOREST COMMUNITY CENTER

# OAK PARK AND RIVER FOREST HIGH SCHOOL

201 NORTH SCOVILLE AVENUE • OAK PARK, IL 60302-2296

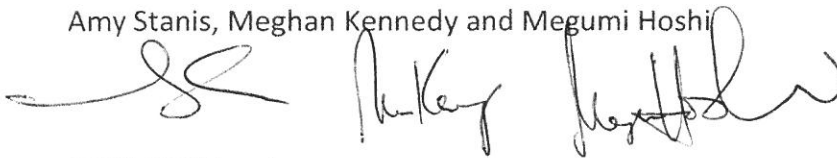

Tuesday, October 30, 2018

To Whom It May Concern:

The River Forest Community Center is the main campus for OPRF's Community Integrated Transition Education (CITE) program. CITE is a transition program for young adults with disabilities who need significant support in independent living skills (which include but are not limited to transportation), employment and education. The CITE program currently serves 41 young adults, ages 18 to 22, with disabilities such as intellectual disabilities, cerebral palsy, Autism, developmental delay, and a host of social-emotional disabilities. Due to the severity of disabilities, there are 12 adults who support the 41 students. Students commute to and from the community center by various modes of transportation. Many students walk as most of them do not possess a driver's license; some take the school bus while others take the PACE bus. Students have faced significant challenges accessing the RFCC safely both before and after school hours. For example, there is no crosswalk on Madison Avenue to access the PACE bus stop on the south side of the street directly across from the RFCC parking lot. In addition, there are several uncontrolled intersections surrounding the community center. Over the past nine weeks alone, four students have encountered dangerous and potentially life threatening situations near the RFCC while commuting to and from school. One student got into a serious car crash at the uncontrolled intersection of Gale and Vine. Two students, on separate occasions, were walking to the RFCC and were almost hit by a vehicle at the same intersection. The fourth student was trying to catch the PACE bus at the stop on the south side of Madison after school hours and was almost hit by an oversized vehicle. On behalf of the OPRF CITE program, we appreciate the River Forest Traffic and Safety Commission's attention to this matter.

Sincerely,

Amy Stanis, Meghan Kennedy and Megumi Hoshi

OPRF CITE teachers

**Subject:** Re: 4 way stop sign on Gale & Vine

Hello Jeff- it has been a long time since I originally brought this up: it has been a busy few years.

I would like to start or re-open a request for stop sign (s) at the intersection of Gale Ave. and Vine St.

Although the number of busses using Vine street as a shortcut has decreased, there are still quite a few that go quite fast through that intersection and specifically around the corner. In addition to busses, other vehicles zip up and down Gale as well as use Vine to cut through. Although still true at random times, this seems particularly frequent during heavy traffic, "rush hours", when Thatcher, 1st Ave. Madison or Washington are slow and backed up.

Lastly, we have lived on the South West corner of Gale and Vine for about 5.5 years. During that time, I have personally seen 4 accidents on this corner. From what I remember, most were "fender benders" and I believe police were called for at least 1 out of the first 3 that I saw. The last of those accidents, I am forwarding a picture. One car was pushed up the curb close to the sidewalk, police and an ambulance came. Both drivers seemed shaken and bruised but doctors would need to be more specific. As well there was glass and car shards thrown on the street and sidewalk. Luckily there were no pedestrians there at the time, however, many local children walk to and from school as well many River Forest Community Center patrons, children and accessible groups walk around this area and corner.

I am copying Maureen Huston (mother of one of the drivers from the last accident) as well as Laura Haussmann and Janice Moskoff, 2 neighbors who live on Gale close to the intersection.

I have started collecting petition signatures and will forward a pdf within the next few weeks.

Thank for your help and patience, Please feel free to contact me if you have any questions or if I can provide any additional information.

- Kristin

**Via Email with attachments:**

Mr. Jeffrey Loster  
Village Engineer  
400 Park Ave  
River Forest, IL 60305  
[jloster@vrf.us](mailto:jloster@vrf.us)

Dear Mr. Loster:

This letter serves as my written request for stop signs to be installed at the North/South corners of Jackson Ave and Iowa St in the village. As you know, just yesterday another accident occurred and this time propelled the cars onto the sidewalk of my home. This occurred at approximately 3:20, the time when students from Roosevelt school take Jackson Ave and cross that intersection coming home from school. Fortunately, no injuries occurred. Accidents along the Iowa corridor happen all the time because of the lack of stop signs. I am particularly concerned with this corner, as more children are present at that intersection on a daily basis.

The residents of this particular neighborhood are currently signing the petition and will submit the petition to your office in the next few days. I do not believe it is fair to wait for the recommended street improvements which call for a stop sign at that corner, as there is no final approval and no timeline in place. Our request coincides with the plan's recommendation and would not alter it in any way.

We respectfully request that the Traffic and Safety Commission commence review of this request and approve the immediate installation of stop signs at the North/South corners of Jackson Ave and Iowa St in River Forest.

Thank you in advance for your attention and concern for village safety.

Sincerely,

Julianne P. Nery, Esq.
