Site Remediation/Technical Reports

Dear Mr. Misakian:

The Illinois Environmental Protection Agency (Illinois EPA) has completed review of the February 5, 2021 report titled *Focused Site Investigation Report/Remediation Objectives Report/Remedial Action Plan Addendum* (the Report). The Report, submitted by Pioneer Engineering & Environmental Services, LLC on behalf of E&H Enterprises, was received by the Illinois EPA on February 24, 2021 (Log No. 21-72690). The Illinois EPA approves of the above report.

The Tier 3 evaluation of 2-Hexanone is approved.

Please provide the Illinois EPA with two paper copies and one electronic copy of any future information submitted regarding the above referenced site. The Illinois EPA also requests not less than fourteen (14) days notification of all site investigation and remedial activities in order to coordinate oversight. This notification is particularly important when groundwater and soil samples will be collected.

If you have any questions, please feel free to contact me at the above telephone number or by e-mail at Jennifer.Seul@Illinois.gov.

Sincerely,

M.C.
Jennifer M. Seul, L.P.G.
