

Modification to Business License Operations – COVID-19

Beginning Wednesday, March 18, 2020, the Village began conducting Village Hall operations only online or over the phone in order to prevent the spread of COVID-19 to Village Staff and customers. Until further notice, the modifications are being made to Business License operations.

The due date for business license payments has been extended to June 30, 2020. If paying by credit or debit card, the Village strongly encourages customers to use the convenient phone payment systems to transact Village business. A 4-digit pin number, provided by staff, is required for phone payments. Please note, a customer service representative will still be available during normal business hours to answer your calls. To speak with staff, please dial 708-366-8500. Once you have your pin and are ready to make a payment, dial 855-928-4928 and follow the prompts.

Please note that these operations may be modified further in response to the developing situation with COVID-19 and the Village will attempt to communicate those changes through the Village's website as quickly as possible. Please continue to check this www.vrf.us/coronavirus for updates.
