River Forest, IL 60305

Dear Mrs. Gillis,

On behalf of all the men and women at the Metropolitan Water Reclamation District of Greater Chicago (MWRD), I want to extend my heartfelt congratulations for winning the 2020 Sustainable Landscaping Award.

The MWRD always recognize projects from across Cook County that speak to the MWRD's mission in renewable resources, flood control, and water quality improvements. This award also highlights the best examples of innovations in green infrastructure and sustainable landscaping practices and MWRD biosolids use.

As a recipient of the Landscaping award, you are recognized for understanding and utilizing the benefits of using sustainable resources and for teaching others in your community.

Congratulations again and if my office can ever be of assistance to you, please let me know.

Sincerely,

Mariyana Spyropoulos
