MEMORANDUM

Date: January 12, 2020

To: Catherine Adduci, Village President
Village Board of Trustees

From: Eric J. Palm, Village Administrator

Subj: Deer Data Follow-up

Attached please find information from 2017-present to relate to calls for service received out emergency communications center as it relates to deer. Please note the following:

1. These entries come from the WSCDC computer aided dispatch (CAD) system. They are calls for service that come into the dispatch center.
2. **This is not a perfect data set.** This is information that is reported to us that has been entered into CAD. Meaning, there could be (and probably are) other incidents and interactions with deer that have been taken place and have not been reported.
3. Many of the calls that come in relate to observations of deer such "deer appears to be hurt," "deer may have a broken leg," etc. Most of the instances do not result in any action being taken. Most of the time dispatch or police are relating there is no action to be taken.
4. The one data set worth noting relates to deer removals by public works. As you can see, that number has increased over the last three years: 4, 8, and 15 in 2019 with 9 in the last 4.5 months. These instances are caused by dead deer in the roadway (or severely injured and euthanized) or dead deer on private property.
5. As it relates to public works overtime, in 2019, one employee, for a 4 hour callout (minimum), at \$33.65/hour, with an overtime rate of \$50.48/hour*4=\$201.92 + 7.65% in taxes= \$217.36.

Please let me know if you have any other questions. Thank you.

Date	Time	Address or location	Was the deer alive or dead?	How was the deer found?	What action was taken?	Equipment and Staff needed	Was overtime required?	Notes	Police Incident Number
1/7/2020	1:30pm	Thatcher at Division	Dead	Deer was found dead on west side of road just north of Division. Back legs were broken.	Deer was removed by P.W.	Two workers and a front loader was needed.	No	Appeared to have been struck in the hind quarters by a vehicle.
