

MILKEN INSTITUTE
CENTER FOR THE FUTURE OF AGING

Village President's Pledge

I, Catherine Adduci, pledge to make River Forest a Village for successful aging:

To make our Village work for older adults, I will take steps to:

- Ensure that the well-being of our aging population is addressed by each department, agency and division in our Village government.
- Make our Village safe, affordable and comfortable for our older residents.
- Provide older adults access to resources promoting health and wellness.
- Support employment, entrepreneurship, education and other services to make our older residents more financially secure.
- Offer housing options that suit the varied needs of our older population.
- Improve access to transportation and mobility options for our older adults.

To provide opportunities for older adults to work for our Village, I will:

- Promote the engagement of older residents in volunteer and paid roles that serve the needs of our Village and its residents.
- Call upon higher education and workforce development programs to help older adults refresh their skills, train and transition to a new stage of work focused on strengthening our Village.
- Recognize older residents as an asset for our Village and celebrate their contributions to improving lives for all generations.
